DAMAGE TO SCHUMACHER STORE FROM FIRE MONDAY

McIntyre Mines Softball League Formed. Cadets at Schumacher Church on Sunday. Other News from Schumacher Correspondent

Schumacher, June 4th, 1930. Special to The Advance. Miss Mary Jacksic, of the Bank of Commerce staff, left on Friday for Detroit and other places in the United States for a vacation.

Miss B. M. Cooper, of the McIntyre office, returned to her home on Sunday after spending a very enjoyable vacation at Montreal and other places down East.

A special attraction will take place at the Trinity United Church on Sunday next when the Cadets of Schumacher will conduct the service on Sunday next, this being observed as Fathers Day. It will be remembered that the C.G.I.T. Girls conducted the service on Mother's Day, with great credit. The Cadets are now going to show their worth and they will have something good in store for your special notice. Singing will be rendered by the boys and some adult members of the choir.

The numerous friends of Mr. Fred Dwyer, our popular livery man, are glad to welcome him back from hospital again and extend to him their best wishes for a speedy and complete recovery to health.

Mr. Jack Sandwith has been a visitor to town and renewing acquaintances.

The annual meeting of Excelsior Ladies softball club took place last Thursday in the basement of the United Church when Miss Bruce presided. After a very interesting report was read and unanimously adopted, the chairman called for the election of officers for the ensuing year.

President, Dr. Weston; vice-president, Gordon Kanisberg; secretary-treasurer, Miss Alma Tario; executive committee, Mrs. D. Greer, Miss D. Heath and Miss B. Bugera; manager, Mr. D. Greer. It is pleasing to see Miss G. Shaffner has just returned from Timmins hospital where she has recently undergone an operation for tonsillitis. We all wish her a quick recovery to health.

A meeting of the Softball fans was held in the McIntyre Recreation hall on Thursday last week, for the purpose of organizing a mine softball league which was largely attended, and a great deal of enthusiasm was shown. Mr. Grant in his usual efficient manner handled the business of the meeting in a very business-like manner. After briefly outlining the purpose of the meeting he called for the election of officers. The following officers were elected for the ensuing year:—Hon. president, Mr. R. J. Ennis; president, Mr. W. Morgan; secretary-treasurer, Mr. R. L. King; honorary vice-presidents, Messrs Shewan, Cossier, Denny, Skavlem, Keeley, Wookley, and Urquhart. All were unanimously elected. It was decided to form a four-team league comprised from various departments of the mine, namely engineer and main office, mill and shops, No. 11 and No. 5 shafts. The league is to be known as the "McIntyre Softball League." All members are to be employees of the company, and it is to be hoped that a suitable trophy for the winners of the league will be secured. The opening game will take place on June 14th.

The Rev. I. E. Kennedy accompanied by his wife and family left on Friday by motor for Toronto. The Schumacher Softball club opened their season on Monday last, when they entertained the team from South Porcupine. There was a good crowd out to support the home team, but their efforts to rouse them up to good standard of play was all in vain, the men from Porcupine proved to be too much for the locals and went home easy winners by 12 to 1.

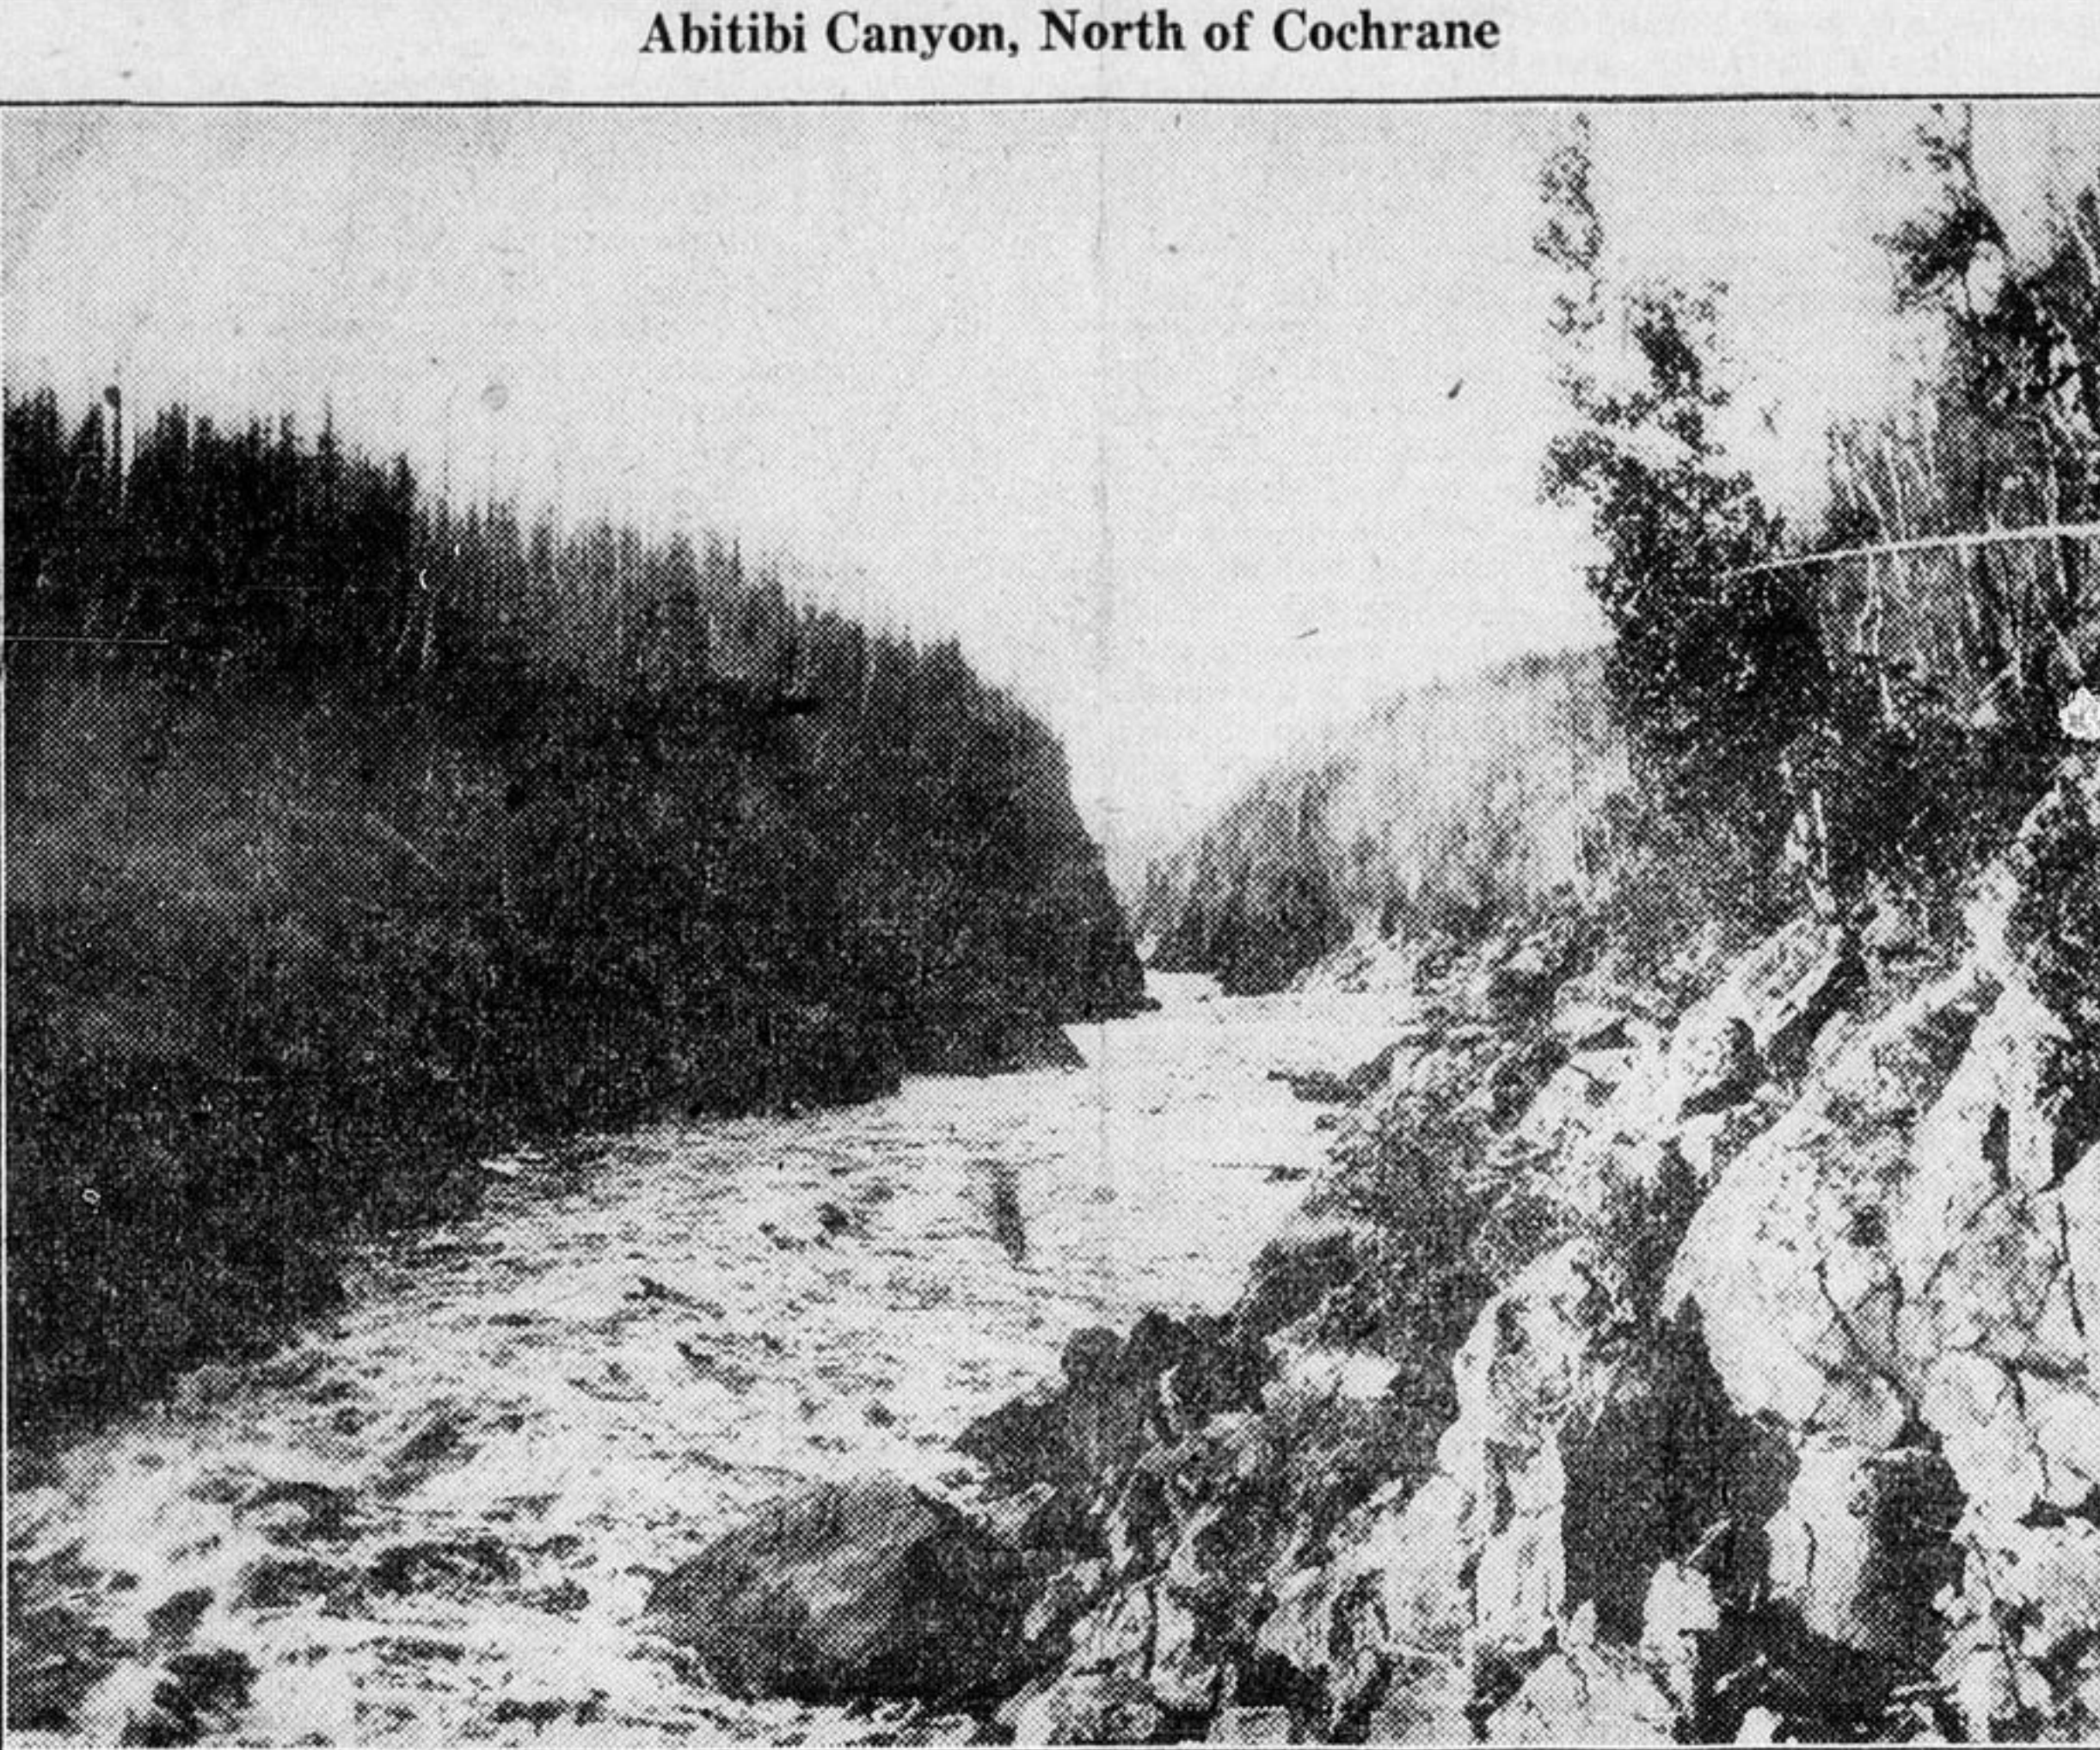

A somewhat serious fire broke out at an early hour on Monday morning, at the Schumacher Provision Stores in the upstairs apartment. The fire had made a good headway by the time the local firemen arrived on the scene. Unfortunately the fire alarm failed to sound its call and the firemen were somewhat delayed by this failure. They were, however, very soon in action once they arrived and under the most able leadership of Fire Chief Jucksch they were soon masters of the fire. The internal part of the building was badly damaged. Great credit should be given to the firemen for the most able manner they handled the situation and in saving the building from being completely destroyed. It is understood that the loss is covered by insurance.

The Sudbury Star last week re-produced the following item from its files of 19 years ago:—"An attempt to smuggle intoxicants into the new Porcupine camp via Bisco was nipped in the bud by Provincial Constable McCurdy. The smugglers were fined \$55 and costs."

Every possible means of combating fire hazards in Northern Ontario are being taken by the Forestry Branch of the provincial Government, and as one phase of their fire-prevention work, an entirely new series of placards have been issued at Queen's Park for distribution in the North Land. These placards—there are 30,000 of them—bring home to the tourist the many dangers which may result from a carelessly thrown cigarette butt or an unstamped camp-fire. The vast timber areas which are to be closed to all travel between April 1 and October 15, will shortly be specified by order-in-council of the government, and the placards will be concentrated in and about these areas.

MINES DEPARTMENT GIVES BULLETIN ON HYDRO POWER A bulletin on the Hydro-Electric development for the mining industry of Northern Ontario, prepared by A. R. Webster, inspector of mines, has just been issued by the Ontario department of mines. The report deals in detail with the various companies operating in the North.

During the past three years expansion of the mining industry in Northern Ontario has resulted in a greater development of water-power than in any corresponding period in its history. There has been an increase of 62 per cent. in turbine capacity since 1923.

Abitibi Canyon, the wonderful spot of natural beauty where power is to be developed for transmission to Sudbury's big industries. A party of newspapermen and others visited Abitibi Canyon last week and greatly admired the grandeur of its natural beauty.

PLACARDS ISSUED TO GIVE WARNING REGARDING FIRE

Every possible means of combating fire hazards in Northern Ontario are being taken by the Forestry Branch of the provincial Government, and as one phase of their fire-prevention work, an entirely new series of placards have been issued at Queen's Park for distribution in the North Land.

These placards—there are 30,000 of them—bring home to the tourist the many dangers which may result from a carelessly thrown cigarette butt or an unstamped camp-fire. The vast timber areas which are to be closed to all travel between April 1 and October 15, will shortly be specified by order-in-council of the government, and the placards will be concentrated in and about these areas.

MINES DEPARTMENT GIVES BULLETIN ON HYDRO POWER

A bulletin on the Hydro-Electric development for the mining industry of Northern Ontario, prepared by A. R. Webster, inspector of mines, has just been issued by the Ontario department of mines. The report deals in detail with the various companies operating in the North.

During the past three years expansion of the mining industry in Northern Ontario has resulted in a greater development of water-power than in any corresponding period in its history. There has been an increase of 62 per cent. in turbine capacity since 1923.

The first demand for power in the mining industry was in the nickel-copper area. This was followed by requirements of Cobalt, Porcupine and Kirkland Lake mines. The expansion and new developments in the nickel-copper mines have again opened up additional markets in the Sudbury area.

The discovery of gold in the Red Lake area has extended the field to the extreme western end of the province. The cost of transportation of fuel to the Howey Gold Mines, located about 100 miles from the railroad, would be excessive. The development of power by the Hydro-Electric power commission of Ontario will supply the means of operating mines in this area.

A contract was completed in April, 1930, through the Hydro-Electric power commission for the purchase from the Hudson's Bay Power Co., a subsidiary of the Abitibi Power and Paper Co., of 100,000 horsepower. The development is located at the Canyon on the Abitibi River, 65 miles north of Cochrane, and the power will be transmitted approximately 240 miles to the mines at Sudbury.

The first Hydro-Electric power was used in the mines in 1906. During that year power was supplied to International Nickel Co. by the Huronian Co., a subsidiary of the International company; to the Mond Nickel Co. by the Wahnapiatae Power Co., and to the mines of the Michipicoten area by the Algoma Power Co.

There has been a continuous increase in development since the beginning, except during the period of about four years following 1918. The development of power has been in advance of demand, except in the Porcupine area, for a period of about two years previous in 1923.

Abitibi Canyon, North of Cochrane

PLACARDS ISSUED TO GIVE WARNING REGARDING FIRE

Every possible means of combating fire hazards in Northern Ontario are being taken by the Forestry Branch of the provincial Government, and as one phase of their fire-prevention work, an entirely new series of placards have been issued at Queen's Park for distribution in the North Land.

There has been a continuous increase in development since the beginning, except during the period of about four years following 1918. The development of power has been in advance of demand, except in the Porcupine area, for a period of about two years previous in 1923.

Making Survey of the Temagami Forest Area

The work of caring for the forests of Northern Ontario is going on this year in the usual manner. The force of fire fighters has not been augmented to any extent, but the addition to the wireless telegraph equipment has facilitated communication with some of the outlying fire fighting stations.

The strip survey of the Temagami Forest Reserve, begun last year, is being carried on this year and since about two thirds of the work is completed, will likely be finished about the end of August. The strip survey system is a very accurate means of determining the timber value of any woodland. Strips of land thirty-three feet wide are laid out at intervals of twenty chains, a quarter of a mile apart, across the breadth of a township, which makes 24 strips of land six miles long and 33 feet wide interspersed at intervals of a quarter mile across the other dimension of a township which is six miles also. These strips embody one fortieth of the land or 2.5 per cent., and by taking account of the number of kinds of trees on these strips a fairly accurate picture of the township can be drawn.

Another party sent out by the Ontario Forestry Branch is stationed at Tilden Lake studying the pine regeneration problem as it applies to that particular district. The object of observations made by this party is to determine whether the species is growing in again naturally or whether reforestation will be necessary in the re-claiming of that section of Canada's forest lands.

EVENT SATURDAY TO BE SPECIALLY GOOD OCCASION

"Observer" writing in The North Bay Nugget last week says:—"The biggest and best yet, is the forecast for the annual district meet in the Ontario Schools' track and field championship tests to be held at Amelia Park on Saturday next. Indications at this early date point to a large and representative gathering of Northern Ontario student athletes for that event. The Collegiate, as has been the custom, will enter a strong team, while the city public and separate schools will be well represented. Sault Ste. Marie will be represented by at least three boys, thanks to the interest shown by the Kiwanis Club of that city, while Sudbury, Chapleau, Capreol and Sturgeon Falls are other centres in the western hemisphere which purpose sending competitors. From the northern part of the district come lads from Cobalt, Halleybury, New Liskeard, Kirkland Lake, Timmins, South Porcupine and possibly two or three other centres. The southern towns included in the district have yet to evince an interest in the annual meets, but it is expected that Powassan will give leadership to the Parry Sound District centres this year. M. L. Troy, in charge of the meet, is confident that the new cinder track being laid at Amelia Park will be in excellent shape for the event. A fast track and suitable facilities for the staging of the field events will greatly assist the competitors in attaining the standards."

TALK ABOUT RAILROAD FROM KAPUSKASING TO FOLEYET

Last week the Foleyet correspondent of The Northern Tribune had the following paragraph which will be of more or less general interest to readers of The Advance:—"There is great talk going on of a railroad from Kapuskasing to Foleyet, and a motor road from Capreol also. Everyone in town is hoping that these roads will be accomplished in the near future, as they will mean assets in every way to the three towns. Many people in town have cars, but there are very few roads on which to drive."

NORTH BAY AREA NOW SAID TO BE FREE FROM FIRE MENACE

E. Burton, North Bay, and E. Hanes, Elk Lake, deputy fire rangers, left North Bay on Sunday for Port Arthur equipped with two pumps and 6,000 feet of hose to help combat the forest fires in that vicinity. The two men are being sent at the request of fire-fighting authorities at Port Arthur and will direct parties in an effort to check the blaze. W. B. Greenwood, chief inspector for North Bay district, reports it free of fire.

FOREST FIRES REPORTED BAD NEAR PORT ARTHUR

An area of fire and smoke practically encircles the territory adjacent to Port William and Port Arthur, the following fires having been actually reported:— Mack—100 miles up the G. T. P. branch; twenty men sent out this morning. Fire in young spruce growth. Flint—On the Duluth extension, fire threatening homesteads. Mrs. A. Y. McCall's barn being burned yesterday. The house was saved. Hurkett—Hele township—standing timber being burned with several camps in danger. Kakabeka Falls, O'Connor—forest fire in a cedar swamp near the Sovereign Brothers' farm. Mackenzie and Beck—the fire known over the week-end as 'the Loon Lake fire' blazing away, but mostly over slash. McIntyre township—fire burning near the Ihey homestead. Brule Creek—fire on the north branch of Current river. Jacques Township, Moose Mountain—fire threatening some pulpwood camps. Onon Lake—undergrowth fire, but a large force of men keeping fire from spreading, between 80 and 90 men being in the gang. Two Islands Lake, behind Surprise Lake, 27 miles from Port Arthur—Malcolm Cochran's summer cottage burned. Wolf River—15 miles past Dorion, burning up slash and undergrowth. A large fire, involving much standing timber is reported to be burning at Greenwater Lake near Kashabowie. In regard to the above it may be said that several are missing since the fires began. People fled from their homes as fire hit the district. Some of the settlers in the area are believed to have perished as the flames struck their cabins or houses. The present rains are helping to lessen the danger from the fires in the Port Arthur area.

CORNISH AND DOME TEAMS PLAY TO A NO-SCORE DRAW

Football Match in Local League Under the N. O. F. A. One of the Best Seen Here for a Long Time.

The football game on Tuesday was one of the best seen for a long time. The Cornish and Dome were the contenders and the game ended in a draw 0-0.

Cornish—Rowe, goal; Hooper and Sloman, backs; Youton, Oliver and Rice, half-backs; Drew, Salter, H. Tenkin, Taylor and Doddridge. Dome—Jemmett, goal; Goodman and Blair, backs; Cooper, Harrower and White, half-backs; Mitchell, Aspin, Richmond, Ford and Doran, forwards. Referee—A. Cadman.

The field was very muddy, but the teams elected to play and the Cornish opened by pressing. Dome were holding back but Aspin and Mitchell combined and Aspin tried a shot but Rowe was on the job. End to end play followed, and Tonkin tried Jemmett who drew forth applause when he cleared the shot along the ground. Both teams then settled down to business and some clever football was witnessed. All the players were giving of their best and the crowd was shouting encouragement. The Dome defence, Goodman and Blair were playing a fine game, the first half ending 0-0.

The Dome pressed from the kick-off and gave the Cornish defence a hard test but it held up. Taylor came down and passed to Tonkin. A Dome player handed and a penalty was awarded. Salter took the kick and Jemmett made a sensational save going full length on the ground to reach the ball. Dome took the ball down and Richmond made a fine run only to be stopped by a heavy charge. The Cornish backs were using their weight at this time, Richmond and Aspin needing the attention of the St. John men. Dome were having matters their own way, but Rowe was in good form and kept the ball out. A Cornish attack looked very dangerous, Salter and Tonkin both trying hard. Rice was bought down by Cooper and Referee Cadman awarded a foul against Cooper. An argument ensued, ending by the latter player being ordered off. End to end play followed and the game ended 0-0.

Both teams played good football and with slight improvements will be hard to beat. Salter seemed out of position in the Cornish forward line and should be given his place at centre back again. Aspin would have been more effective on the wing for the Dome.

A Cadman refereed a hard game in good style and his words of warning to the spectators should be heeded for the good of sport in the camp.

CAR CONFISCATED BECAUSE OF POSSESSION OF FURS

Convicted of being in possession of 17 beaver pelts illegally, W. Herman, of New Liskeard, was fined \$200 and costs and the car with which he was transporting the fur was confiscated. He was fined an additional \$10 and costs for speeding in his endeavour to elude officers. He was arrested Sunday afternoon and came up for hearing Tuesday.

FINE, JAIL TERM AND LOSS OF CAR FOR BREACH OF L.C.A.

John D. Gregorie, of Hamilton, was arrested at North Bay while transporting 90 gallons of alcohol in an automobile en route to Sudbury. He pleaded guilty on Friday last to a charge of breach of the Liquor Control Act, but claimed that the automobile was owned by a friend who was not aware of what it was being used for. Harry Barassi, of Hamilton, claimed the car to be his property, and made the plea that he had loaned it to Gregorie simply in friendly way and without knowing the illegal purpose for which it was to be used. This plea, however, was unsuccessful in court at North Bay, and the car was confiscated. Gregorie was on Monday fined \$250.00 and costs or three months, and one month additional. He seemed to be surprised at the jail term but the incident will likely have a discouraging effect on others who may be inclined to fool around with traffic by motor car in liquor, said traffic being contrary to the L.C.A. Harry Barassi also appeared to get a surprise when the same magistrate at North Bay confiscated the car. It will be noted that this was an expensive and unpleasant method of transporting liquor. It cost all told—\$250.00 and costs or three months, one month in jail, and the confiscation of the automobile that had been used in this illegal transportation of liquor. It seems to be remarkable that any Sudbury man should pass so many other places without purchasing liquor and should go to North Bay or farther for a consignment of liquor, despite the brewery warehouses so convenient in the North.

TIMMINS LODGE, I.O.O.F. No. 459

Meets every Friday evening in the Oddfellows' Hall, Spruce St. North. Visiting brethren requested to attend. H. H. REDDEN H. M. CAVANAGH Noble Grand Rec. Sec.
