

SCHUMACHER TO HAVE BIG DAY THIS YEAR ON JULY 1

Softball Tournament and Athletic Events Planned for Dominion Day Sports. Men's and Girl's Softball Teams from All Over the District.

Schumacher is planning a big day for Dominion Day, July 1st, and anything that Schumacher undertakes is well done, so that a very enjoyable event may be confidently expected on the national holiday.

July 1st, 1930, at Schumacher, will include a softball tournament and athletic events. There will be special features in the softball tournament. The men's softball teams that have entered for the tournament include Cochrane, Iroquois Falls, Porquis Junction, South Porcupine, Timmins and Schumacher.

The girls' softball should be especially interesting. The following teams have entered for the girls' softball tournament:—Cochrane girls, Iroquois Falls girls, Timmins girls and Schumacher girls.

The softball tournament at Schumacher on July 1st, will be the most extended and interesting event of its kind ever held in the North.

Another extra special feature of the July 1st event at Schumacher will be the tug-of-war for the championship of the Porcupine district. Teams will be of eight men; weight not to aggregate more than 1600 lbs. Individual prizes for this event will be donated by Schumacher Croatian Lodge No. 608.

The first softball game at Schumacher on July 1st, will start at 9:30 a.m. and from that time on there will be something special doing every minute of the day. The juvenile events in connection with the day will be held in the morning from 10:15 a.m. to 11:00 a.m. The senior events will be in the afternoon; girls' events from 1:45 to 2:30 p.m.; men's events, 3:15 to 3:45 p.m.

Refreshment booth on the grounds will provide refreshments for those desiring this service during the day. The tug-of-war will commence at 4:30 p.m., and this will undoubtedly be one of the big contests of the day, there being promise of keen competition and strenuous contest in this line.

It may be noted that the athletic grounds at Schumacher are now in excellent condition and everything else is arranged and ready for a successful Dominion Day event. July 1st at Schumacher should attract a big crowd from all over the district, as it promises to be a specially good day.

W. T. Montgomery has resigned as issuer of automobile markers for the town of Timmins, and the work is being carried on for the present at the Marshall-Ecclestone store.

New Cord Car Attracts Much Attention Here

A new Cord car attracted very considerable attention here on Monday morning not only by its handsome appearance but also by many technical points that made appeal to men who know motor cars. The Cord car is one of the Auburn new type, and one of its most interesting features is the fact that it has a front-wheel drive. Those who examined the car or rode in it were agreed that the front-wheel drive was the logical method of locomotion but they knew that certain difficulties stood in the way of the practical application of the front-wheel drive. These difficulties have been overcome in the Cord car. It has wonderful response to the steering wheel, can turn in a remarkably narrow strip of road and has all the other features that go to make a motor car of special interest.

The test given this particular car was a very practical one. It was driven up here from Toronto by J. G. Christopherson, of the O'Donnell-Mackie Limited, Toronto, distributors of Auburn cars. The roads are by no means perfect yet but the car proved equal to all demands. Moreover, for the trip the average consumption of gasoline was only at the rate of 13 miles to the gallon, though both the car and the roads may be classed as heavy. The pulling power of the Cord, with its front-wheel drive, however, is noteworthy. In the case of the front-wheel drive it is actually a case of pulling power rather than the awkward push system of the ordinary rear-wheel drive. The Cord car has apparently solved the technical problems of the front-wheel drive and has a car that is mechanically simple and yet effective.

Instead of the driver's seat being cluttered up with levers and other arrangements all manipulation of the car is done by a few and these are arranged in a way that leaves the driver's knees clear and freedom of movement assured. The car has also special features in regard to shifting gears, etc., that make particular appeal to the motorist. During the time that Mr. Christopherson was in town his handsome car attracted much interest and when its outstanding features were known the interest was much increased. Mr. Christopherson was very ready and courteous in explaining to all enquirers any special features of the Cord car and his visit certainly created much interest.

A report made by Percy Hopkins on the Red Lake Centre Mines, Ltd., stresses the favourable prospects of the Red Lake field having other profitable gold mines besides the Howey. In the early work in the field there was a noted absence of porphyry intrusions on much of the territory staked. However, as prospecting has advanced a more accurate idea of such intrusions has been gathered.

TWO YEARS IN PRISON FOR ASSAULT ON LITTLE GIRL

Said he Was so Drunk he Did Not Know What he Was Doing. This and the Fact That Youngster Not Hurt Saved Him From the Lash.

Gregorie Cretori, a Ukrainian, was sentenced on Thursday last to two years in Kingston penitentiary when found guilty on a charge of indecent assault attempted against a little girl of seven years of age. He claimed to be so drunk on the occasion of the offence that he did not know what he was doing, and perhaps this fact together with the other fact that the child was not injured saved him from the lash as well as the prison term. Magistrate Atkinson in passing sentence mentioned the fact that the lash could be imposed for such an offence and he gave the prisoner stern warning that may well be heeded by others. According to the evidence in the case the little girl was induced by Cretori to accompany him and about one o'clock on Saturday morning a gentleman living on Middleton avenue heard a noise on his lawn and going outside discovered Cretori and the little girl. The youngster had her face scratched and bruised apparently through Cretori attempting to stifle her cries while her coat was also torn. The police were notified and Cretori was arrested while the little girl was taken to her home. The youngster was found to be uninjured. When arrested Cretori was considerably under the influence of liquor and he had a bottle of liquor in his pocket. On a charge of illegally having liquor in a public place he was fined \$100.00 and costs or three months in police court last week. He did not pay the fine, so the option of the jail term applies. The father of the little girl laid the charge of indecent assault against Cretori and for this he was given the two-year term in the penitentiary as noted.

LIUTENANT-GOVERNOR PAYS VISIT TO THE PORCUPINE

His Honour the Lieutenant-Governor of the Province of Ontario, Hon. W. D. Ross, was a visitor to the camp during the week-end, being the guest of R. J. Ennis at Schumacher. During his stay there were several social affairs at which the Lieutenant-Governor was the guest, one of these being a dinner at which Mayor Geo. S. Drew and the heads of several of the mines of the district were also guests.

It is stated by mining men that the Stewart Abate mines is negotiating with the Blue Quartz Company for the mining equipment on the latter's property in Beatty-Munro area at Fain Killer lake.

SISTER OF TIMMINS MAN PASSES AWAY AT PEMBROKE

A despatch from Pembroke to The Ottawa Journal under date of June 8th says:—"Miss Catherine Perrault, of Fort William, Que., died in the general hospital here yesterday afternoon. For more than 50 years, Miss Perrault taught school in various parts of the country. She was born at Fort William, 85 years ago, when the Hudson Bay Company still conducted a trading post at that point, her parents being the late Augustus Perrault, a pioneer lumberman of the Upper Ottawa, and Mrs. Perrault. She received her primary education from a governess in her home, and subsequently attended school in Pembroke and Kingston. She taught school in Pembroke, Cobden, Alice, Perretton and other parts of Renfrew county, retiring over 20 years ago. Since that time, until taken ill she resided with a sister, Miss Harriett Perrault, at Fort William. For the past two years she had been a patient in the hospital here. In addition to Harriett Perrault, Mrs. A. Birch, Pembroke, another sister, survives, as well as three brothers, Hector, of Sheenboro; Narcisse, of Timmins, and Joseph, of Everett, Wash. The body was taken to the home of her niece, Miss Mary Craig, 153 Cecilia street. The funeral will take place tomorrow afternoon at Calvin Church cemetery, the services to be conducted by the pastor, Rev. J. M. Allen."

SAULT MAN TRIED TO GET MONEY BY POSING AS CORPSE

There are many strange tales coming from Sault Ste. Marie, but the latest is as strange as any. Despatches dated from the Sault tell about it.—Pretending to be dead and then trying to collect your own funeral expenses from your brother sounds like a strange means of raising money, yet J. Miller, alias W. A. Barr, whose home is in Bristol, Tenn., but who has been living in the Sault, tried to do so. Saturday he appeared in police court and was ordered deported to the United States. Sometime ago Barr wired his brother in Bristol, signing the message J. Miller. The message was to the effect that W. A. Barr was dead, and his dying wish was that his brother would have the body taken to Sunny Tennessee for interment.

The brother in Bristol wired back asking Miller to find out what it would cost to have the body taken south. Miller replied saying that it would cost \$176 and he asked to have the money sent immediately. By this time the undertaker in Bristol was on the job, and he telegraphed T. E. Simpson's undertaking parlours to look up the corpse, embalm it and all expenses would be guaranteed.

The Sault Ste. Marie undertakers searched the city but could find no available corpse so the provincial police entered the picture. Constable E. W. Keen found the corpse walking along the street and arrested him. Photographs were sent to Police Chief D. L. Heiberlin, of Bristol, and he identified them as being of W. A. Barr. Barr's brother also identified the photographs.

FRENCH STAR DISCOVERS HE HAS GOOD SUPPLY OF "EET"

Maurice Chevalier, French musical comedy idol now starring in Paramount pictures, has "EET." "EET" it must be explained is the Parisian equivalent of "IT," the now famous sexo-spiritual commodity discovered and isolated by Elinor Glyn. After he heard Chevalier speak his lines during the production of "Innocents of Paris," which showed at the Goldfields theatre last night and will be shown again this (Thursday). Jessie L. Lasky, the first vice-president, in charge of the production said that Chevalier's new all-talking picture has as much "It" as Miss Clara Bow's personality. "When Chevalier learned of his comment he said: "Eet? What is zis eet?" Madame Glyn was not present to explain "It" to him and Chevalier remained puzzled about the whole thing for some time.

Timmins people should be able to see quite a bit of point in this note from The Sudbury Star last week:—"The Sudbury isolation hospital is closed, and perhaps the vital question of a new one will be a dead issue until there is a real need again for such an institution. Like the farmer's barn with the leaky roof, when the weather was fine it didn't need repairing, and when it rained it was too wet to get up and fix it."

MEETING OF ALL FOOTBALL COUNCILLORS ON THURSDAY

After the McIntyre-Cornish game this (Thursday) evening, a meeting will be held in the dressing rooms at the athletic grounds, Timmins, for all councillors and officers of the N.O.F.A. The meeting has been called to adjust some of the matters decided upon at the meeting Saturday. All teams are requested to have their representatives at this meeting.

JACK FORTUNE DROWNED AT RED LAKE LAST WEEK

Word from Hudson this week tells of the sad death by drowning of Jack Fortune at Red Lake. He and his wife were out in a canoe when in some manner or another the canoe was upset. Both Mr. Fortune and his wife were thrown into the water. Mrs. Fortune grabbed the overturned canoe and hung on, being rescued shortly by others near at hand. It appears, however, that Mr. Fortune sank out of sight when the canoe overturned and no further sign was seen of him until some time later when the body was recovered. The couple in the canoe were about 200 feet from the shore when the accident occurred.

Born—At Mrs. Goulet's hospital, Timmins, on Tuesday, June 10th, 1930, to Mr. and Mrs. D. Reid—a daughter, (Margaret Kathaline).

LOCALS

H. W. Kearney has returned from a tour overseas where he visited many centres of interest in Europe and North Africa.

A. G. Carson, superintendent of the District C.A.S., was in Toronto this week on business in connection with the C.A.S. work.

Born—in St. Mary's hospital, Timmins, on Monday, June 2nd, 1930, to Mr. and Mrs. D. Thomas, Spruce street, north—a son (Kenneth).

His Honour the Lieutenant-Governor of Ontario attended divine service in St. Matthew's church, Timmins, last Sunday morning.

The New Liskeard Speaker last week says:—"Mrs. Charles Roberts and baby of Timmins, are visiting for a few days at the home of Mr. and Mrs. J. H. Sullivan, John street."

A tea and home-cooking sale will be held at the home of Mrs. G. S. Scott, 49 Hemlock street, on Saturday, June 21st, under the auspices of the United Church Ladies' Aid.

Mr. Napoleon Legendre who has been ill for some time past, was taken to the Weston Hospital, Toronto, Wednesday noon, accompanied by a nurse from St. Mary's hospital, Timmins.

The Conservatives of the Dugway district are to hold a meeting on Saturday night in Nicholson's house to appoint delegates for the convention at Porquis Junction next Tuesday.

The Salvation Army's annual tag day on Tuesday of this week was a successful event as usual. The money received will go to the support of the rescue and relief effort of the Army.

In this column you like to read about others; others like to read about you. If you have visitors from out of town, or if you or any member of your family happen to be visiting out of town drop a line to The Advance.

A herd of about 25 cattle was driven across the flower beds of the Hotel Haileybury at Haileybury last week by men driving the animals from the wharf to the station. The flower beds had just been fixed up and planted this year. It seems almost unbelievable that men would be so thoughtless as to drive cattle across the property or allow them to go across and destroy so much work and prospects of beauty.

ANOTHER GROUP OF RARE AND INTERESTING COINS

While overseas with the 93rd Peterborough Battalion J. Montgomery, 86 Wendle avenue, picked up a number of odd and interesting coins which he has kept. These include German, Austrian, Belgian and French coins as well as some whose nationality is not apparent though no doubt experts in coins could place them. One of the coins is a German silver piece, worth three pfennigs, and dated 1875. Another is a United States half-dime of 1853. Among the French coins are a dime of 1865, the time of Napoleon II, while Napoleon III is represented by a very worn ten cent piece of the date of 1868. Another very battered coin is a Napoleon II one dated 1855. A Scandinavian coin of 1891 is marked "25 Pennia," and has an odd look among modern coins. A Victorian half-penny is so worn that the inscription and date are not decipherable. It is very evidently an old coin. A small silver piece bearing the Belgian lion is marked as worth two cents and dated 1902.

Milverton Sun:—As Dominion Day falls on July first, a date after school closes, it should not be forgotten by teachers when instructing children in the greatness of Empire, the keystone place that Canada holds in it. Every child should be taught that loyalty and love of his or her own country should have the pre-eminent place in their heart and affections, for after all "he's the best cosmopolite who loves his country best."
