

**Forest Wealth Should be Under a Commission**

Despatches in The Globe this week under the date line of Timmins say:—"Public ownership of Ontario's forests, under the administration of a body similar to the Hydro-Electric Commission, was forecast as a development within the next few years by a well-known lumberman of the district, in the course of a conversation with The Globe correspondent today. And the example of this Province in this regard would be followed without delay by Quebec, in the opinion of this operator, who has had 30 years' experience of the business.

"Force of circumstances will bring about a change in the policy of handling the forest resources of Ontario this lumberman thinks. He contends that conditions in the lumber industry have not been very good in the last few years, and it is his view that the Government will be compelled to step in to save the industry. He states that conditions have been such that the

small operators have not made more than a bare living, and that many men have been forced out of business in recent years.

"Another point stressed by this man was that, whereas it was formerly believed that private ownership was more efficient than public ownership, the example of the Hydro Commission has dispelled this idea. He points out that the Hydro has shown what can be done under proper supervision and if there is no interference from political quarters. He says that, since the forests belong to the people of Ontario, and not to the men who lease the limits, the public welfare should be the first consideration.

"Dealing with the situation in Quebec, it is the opinion of this man that, although the Taschereau Government is against public ownership, it would be compelled to follow suit if Ontario handled its forests through a Commission. The situation in the pulp industry has reached a point where there are virtually only two big corporations to deal with—the Abitibi in Ontario, and the International in Quebec—and he

thinks that the drift of the times in this phase of the country's life is distinctly toward the administration of the forest products on the basis of public ownership."

**Claim Algonquin Park Overstocked With Wolves**

(From The Pembroke Standard)

Last winter the Ontario Government sent some hunters into the Algonquin Park with instructions to shoot wolves. They had poor luck so the Department concerned in the Government issued a statement that the result of the hunt confirmed their opinion that wolves are not so plentiful as reported, and the menace to farmers is largely exaggerated. In answer to this we quote Reeve James Pilgrim, Raglan township, quite near the Algonquin Park:

"Mr. Pilgrim knew of one small farmer who had lost 36 sheep through wolves during the past season and said that the wolves are becoming so numerous that he knows of at least six farmers who have been obliged to give up

raising sheep entirely."

The Renfrew county council took the right stand when they claim that if the Algonquin Park is to remain a breeding place for wolves the Government should pay for the sheep destroyed by wolves. This should not be a tax upon the townships.

Without any doubt it was an unwarranted statement that wolves are not as numerous as reported. Wolves do not come into the open to get shot, but if there were such a thing as statistics no doubt figures could be produced that would be alarming. When it is remembered that female wolves have as high as six cubs it ought to be apparent that a far more vigorous campaign for their extermination should be waged.

At North Bay last week a young lady from Eganville was arrested when she attempted to walk past the cashier at Eaton's grocery store without paying for articles taken from the store. She was fined \$5.00 and costs in the police court next day, the goods being returned to the grocer.

**DR. BARRY LEAVING SOUTH PORCUPINE FOR THE SOUTH**

Sofball Match Between Dome and Schumacher. South Porcupine Planning to Put Rink and Hockey on Good Basis. Other South Porcupine News.

South Porcupine, June 25th, 1930. Special to The Advance.

Mr. Anders Snickars, of South Porcupine, is sailing for Sweden from New York on June 27th on board the steamer, Gripsholm.

Dr. J. E. Barry leaves this Thursday, June 26th, for Toronto, but will spend some time in Muskoka while en route. Mrs. Barry and children will follow in the course of a month. Dr. Barry has endeared himself to many both as physician and friend while resident here and all join in wishing him success in the specialists' course which he is undertaking.

On Thursday, June 3rd, the Women's Auxiliary are entertaining a number of their friends at a bridge party. Envelopes have been sent out bearing the following inscription:—"To the High School, July 3rd is the day; Bring this as your passport if bridge you would play; Just put in one cent for each year since your birth; The older you are, the more you'll be worth." If there are any who would care to come or have friends who would care to do so and have not received their invitation in the form of these little envelopes, just let Mrs. M. Smith, South Porcupine, or Mrs. W. Johns, Dome Mines, know and the oversight will be righted. By special request at this gathering Mrs. Barry is giving a musicale in the form of a repertoire of her songs. This will be the last appearance of this talented townswoman at such a gathering before her departure.

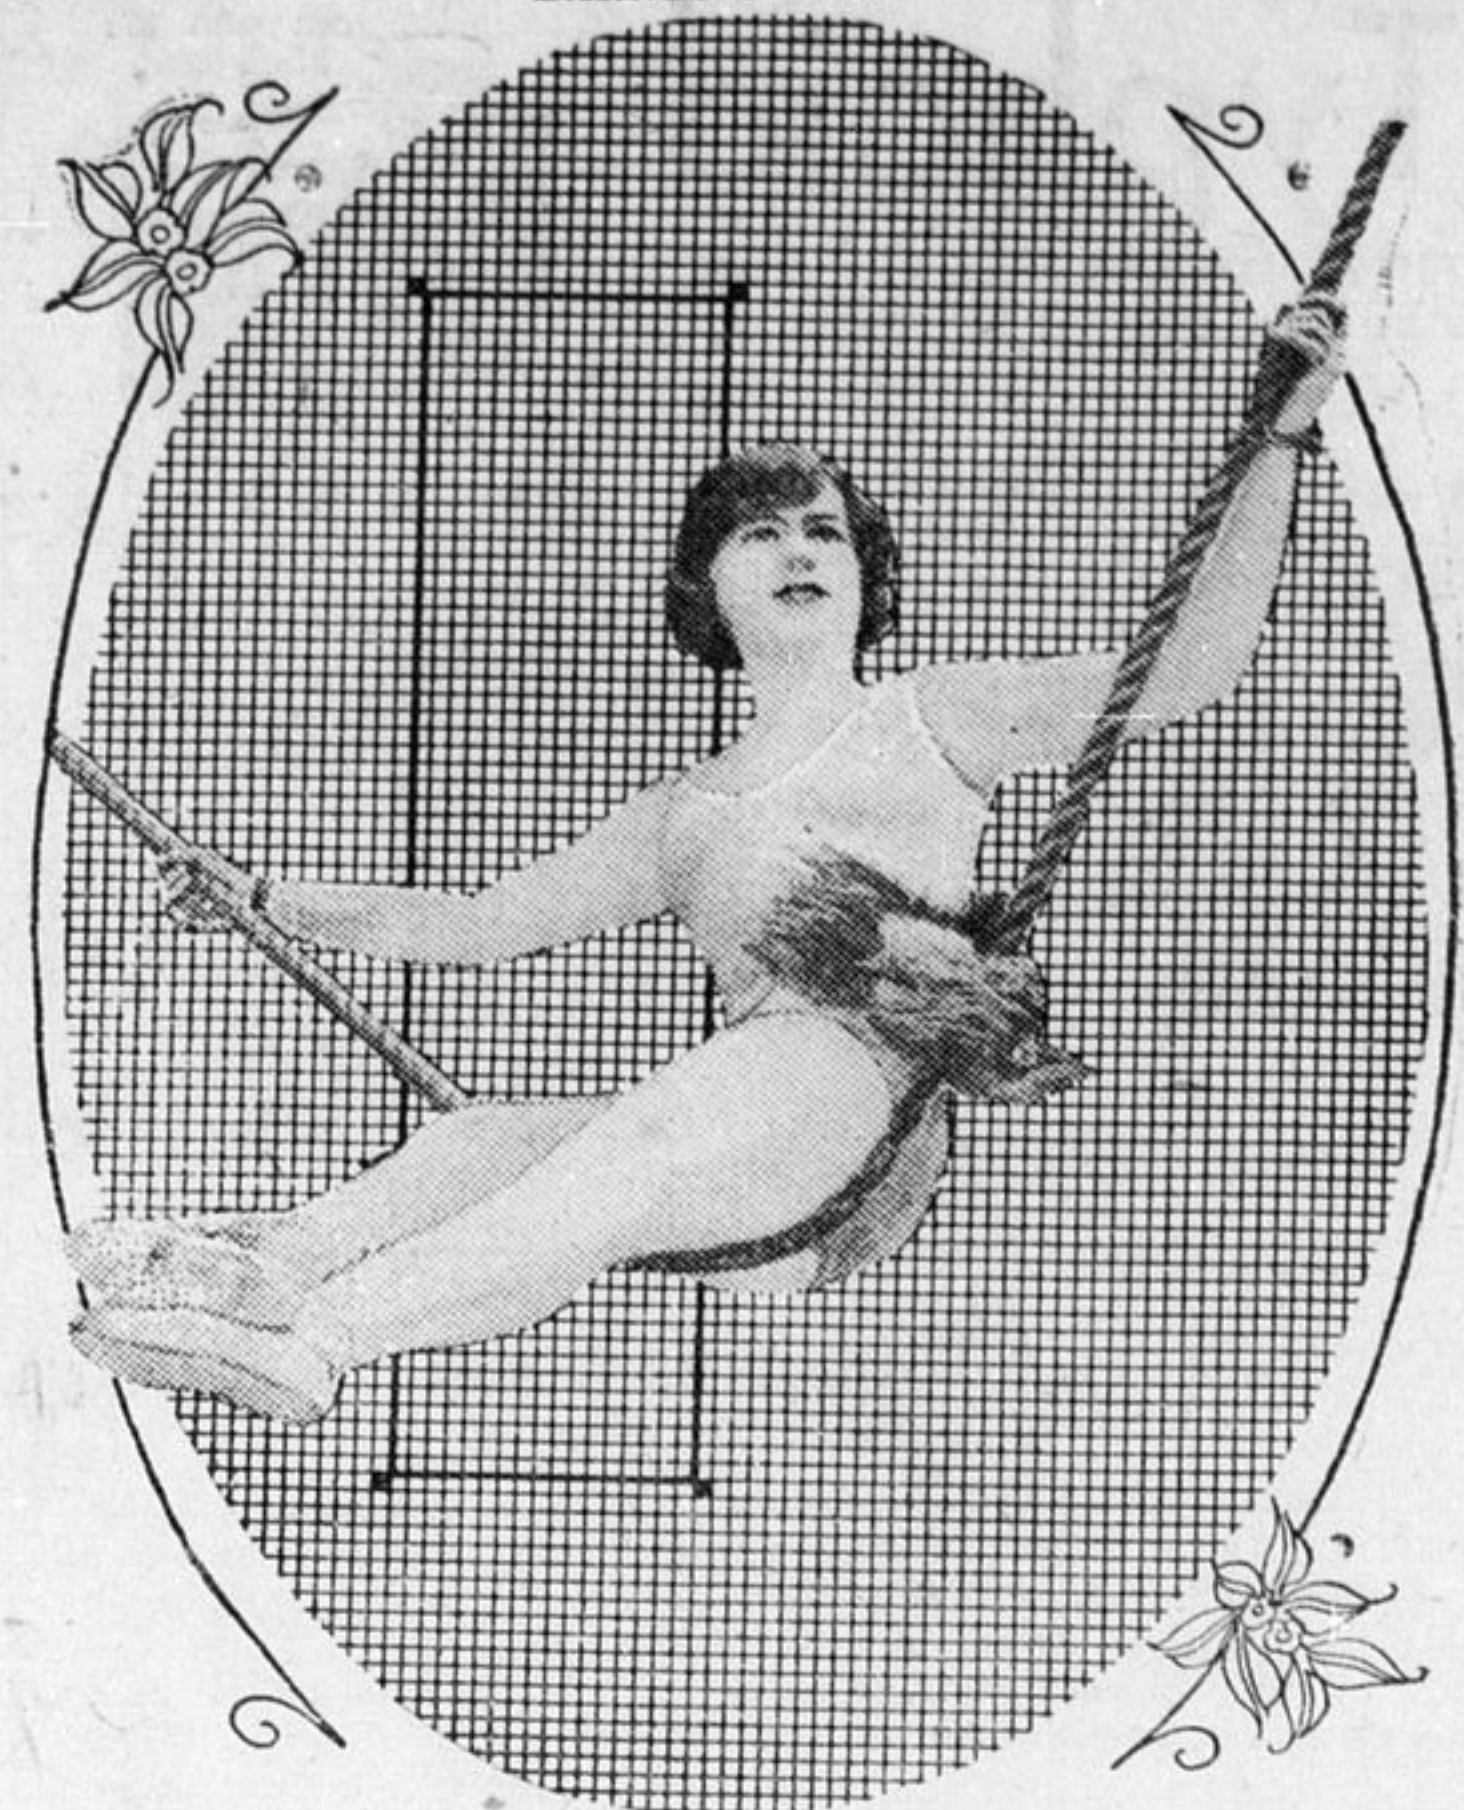

There will be another worth while football game at the Dome Recreation grounds on Wednesday next, Dome vs. Cornish.

The softball match between Dome and Schumacher, at the Dome on Monday, June 23rd, resulted in a win for the home team, 7-0. Jamieson and Field handled the game. The teams lined-up:—Schumacher—catcher, Gilbert; pitcher, Calverly; first base, Eaton; second base, Finlay; third base, Blake; short stop, Robertson; left field Hamilton; right field, Ward; centre field, Abrams and Campbell. Dome—catcher, Mansfield; pitcher, McLean and Rudd; first base, Jim Fell; second base, Michaelson; third base, Jemmett; left field, Cattarelli and Mason; right field, Doran and Sargent; centre field, Gagnon; short stop, Cook. The runs were made by Cook, one; Mansfield, one; Gagnon, two; Jemmett, two; Fell, one.

On Tuesday evening, June 24th, there was a meeting of a committee called the Porcupine Rink and Hockey Committee. This committee have planned to hold a big dance on the evening of Labour Day, September 1st, but are getting out books of tickets for sale right away. There are to be two important door prizes, the first being an automobile (Ford or Chevrolet) and the second being a combination gramophone and radio. The seller of the winning ticket is also to receive a special cash prize of twenty-five dollars. There will also be special cash prizes given during the summer for the parties selling the most tickets during a given time, etc. The special committee in charge will consist of J. Fell, Sr., W. Johns, and H. M. Wilson, with G. Train acting as secretary, and C. Kehoe as treasurer. The tickets are being sold at the popular price of fifty cents. The object of the committee is to place the rink and hockey on a better financial basis for the beginning of next season, as the depression of last winter affected the results of the rink operations very considerably. Tickets will be sold to friends and boosters of good sport throughout the North.

The construction of the Dome mill

**MISS BABE LETOURNEAU "STARS" IN AERIAL BALLET WITH BARNES CIRCUS**

Remarkable aerial ballets performed by skilled and graceful girls are among the most striking numbers with the A. G. Barnes Circus. This famous show, the world's largest trained wild animal exhibition, will give two performances in Timmins on Friday, July 4th at the Athletic Park baseball grounds.

Many of the feats accomplished by these feminine stars have heretofore been attempted solely from the ground or upon stages. Miss Babe Letourneau, in the above photograph, is one of the noted performers that appear in these displays. Her routine is daring to the limit and no other woman takes as many chances in the air as Miss Letourneau.

Circus enthusiasts will see an entirely new and different programme when the Barnes Circus exhibits here. Among the novelties will be the Klinkhart Troupe of Lilliputians, thirteen in number, who do a comedy riding act, with the aid of the mechanic. The Mark Smith Family, direct from England, is another riding combination of great merit and ability. Two gorgeous spectacles of Oriental magnificence, "Persia" and "The Pageant of Pekin," will be added features. Also The Great "Gretomas" Sensational High Wire Act.—First time in Canada.

has reached a stage where a very visible advance in the work may be seen from day to day by even the ordinary passer-by and it is certainly making a more optimistic feeling throughout this part of the camp.

The Advance newsboys of the Dome and South Porcupine have had two very enjoyable trips to Timmins lately. They were first guests of the Gray Shows in company with the staff boys from Timmins, then on Monday last they were invited to the Lotridge Shows with the Timmins staff. The boys appreciate these courtesies very much.

**Another Good Boxing Card at Kirkland Lake**

On Friday of this week there is to be another big boxing card at Kirkland Lake, from reports in regard to the programme it would seem to be well worth while for boxing fans here to take the trip to Kirkland Lake to see this feature. The event is under the direction of Willie Stevens, which is a guarantee of fairness and good sport, and as a number of outside boxers are to figure on the programme there should be much interest. Roy Hamilton, formerly of Timmins, will figure prominently on the bill, and as Roy has established a notable name for himself as a boxer and a good sport there should be additional interest to Timmins people on this score. Roy Hamilton will meet Mel Gilona, one of the outstanding Canadian boys in his class in the ring, and as Gilona has speed, punch and experience a merry contest is expected with these two lads. Another bout of special interest in the North will be that between Willie Stevens, of Kirkland Lake, and Teddie Phillips. This should be one to be remembered. Howard Williams, vs. Chas. Raynor should provide interest and thrill, while another special will be the bout between Dennis Mahoney and Bill Homer, of Toronto.

**TIMMINS LAD WINS HIGH HONOURS AT ST. ANDREW'S**

Announcement of the results at St. Andrew's College, Toronto, show that W. L. Hogarth, Jr., son of Mr. and Mrs. W. L. Hogarth, Timmins, won high honours by his talent and application. He won the prized honour of the Huribut award for mathematics, also winning second prize for general proficiency, and standing second in his class for the term, all honours creditable to the student and reflecting credit on his home town.

Hon. Beniah Bowman, who represented the riding in the last Dominion parliament, but who was more famous as a member of the Farmer Government in Ontario, was last week nominated as the Liberal candidate for East Algoma.

**Have You Seen the New Combination Coal-Electric Range of Outstanding Merit?**

It can also burn 22" wood. The fire box is designed for burning coal or wood, and is of the oval type. The porcelain enamelled electric oven is in the lower position, while the coal oven with adjoining warming closet is in the elevated position. The complete range is constructed with all bolts and door hinges concealed. Your old stove will be taken as a part-payment on this new one. Second-hand Baby Carriages, repainted to sell from \$8.00 to \$12.00 and a special 20 p.c. discount on all new ones.

Paints, Furniture, Crockery, Screen Doors, Water Hose, Refrigerators, etc., etc.
