BERINI MOTOR SALES DEALERS IN HIGH CLASS CARS

ALWAYS FAR IN ADVANCE - NO MIDSEASON MODEL CHANGES

Before you compare any car at any moderate price with the Graham, you are entitled to ask if it has those invaluable features which make every Graham car worth more, and every car which does not have them worth less

These Qualities make the Graham worth \$300 more than any car without them

Before equality with the Graham at these prices can be attained by any car, it must give you for your investment, in the \$1235 price class for example, a 66 h. p. engine with 207 cu. in. piston displacement; a seven-bearing crankshaft with 81.4 sq. in. of main-bearing area; chain-driven generator and water pump; big 12-inch internal hydraulic brakes; a Graham body of the finest quality built in Graham's own plants; adjustable seats and foot pedals; 115-inch wheelbase; four wide doors and roomy comfort.

Graham Standard Six 4-Door Town Sedan \$1235

Delivered in Timmins, Ontario. Freight extra. Other Standard and Special Sixes. Standard and Special Eighties, up to \$2395

If it is an Eight at or near the Graham price, you are justified in asking it to match Graham in its 100 h. p. engine which gives flexibility, power and brilliant performance; in the Graham time-proved four-speed transmission; in silent acceleration to 65 miles an hour in third gear—80 miles and better in fourth with amazing ease; in acceleration to 60 miles an hour in 19 seconds from a standing start; in a smooth, sure stop in 5 seconds from 60 miles an hour; in the finest body Graham knows how to build.

And, in any Graham model, shatter-proof safety plate glass throughout at the lowest additional cost ever placed on such equipment.

GRAHAM QUALITY IS THE BEST POLICY

TIMMINS MAN HAS EXCITING INCIDENT ON HIS VACATION

The new Liskeard Speaker last week says:—"On Saturday last, during the noon hour, Mr. Albert Galoska, of the National Grocers, Timmins, who has been spending his vacation here, had an exciting experience. Ab. was down at the Beach when his attention was drawn to the waterfront by cries of distress. As there was no person in sight he ran down to the lake and saw a boat drifting away from the shore in which was the pathetic figure of a small boy crying for help. The boat was rapidly drifting out into the rough waters of the lake and Ab. realized that if he was to be of any assistance he would have to hurry. Quickly peeling off his clothes he plunged into the water and struck out for the steadily drifting boat. He finally managed to overtake it, but he was badly played out, and we understand freely admits that he could not have gone many yards farther. However, he managed to get into the boat and brought the boy back to safety, and is to be congratulated on the gallant efforts he so successfully made to prevent what might have been a tragedy. The young boy is the son of Bill Munro, who had gone down to the Beach, and in the absence of other persons had somehow got into the boat, which is always there in readiness for emergencies, and managed to get it free of the shore."

Before leaving Kirkland Lake for his new field of work at Echo Bay, Ont., Rev. R. E. Grosse was presented with an address and a purse of gold from the congregation of the United Church at Swastika.

Ten Years Ago in Timmins

From data in the Porcupine Advance Files.

Ten years ago a party of 130 members of the National Editorial Association of the United States toured the North Land and expressed themselves as particularly pleased with their visit to Timmins. They freely stated that they were surprised, amazed and delighted with what they saw here. They did not expect to find so modern and up-to-date a town so far north. They were also specially pleased with the welcome given them. At the Empire theatre on their arrival they were given an official welcome by the mayor, Dr. J. A. McInnis, who made a particular hit with the gathering. Motion picture films of the Hollinger and other mines were then shown. After the pictures the party was divided into groups and taken in motor cars to the mines, the river and other points of interest. About sixty went underground at the Hollinger, while the others went through the mill as well. The party travelled in the new "million dollar train" of the Canadian National Railways. The cars were all steel and modern in every feature. There were six standard sleeping cars, two dining cars, tourist and baggage cars. The train was insured for \$1,000,000, and each guest's baggage for \$300 for the trip. Two trained nurses travelled with the train. The party had their own special photographer, and needless to say he got many good views here. The trip covered 4000 miles and occupied four weeks. The party was representative of all parts of the United States. The Advance published a full list of the delegates. There were many of the party of editors who spent an hour or two looking over The Advance, pronouncing plant and paper alike as most creditable.

Mention was made in The Advance ten years ago of the death of T. W. Foster, one of the pioneers of the North Land, who died at his home in Toronto on June 23rd, 1920. In this connection The Advance said:—"The late Mr. Foster was a resident of the North for many years in the early days and was widely known and highly esteemed by all. In partnership with the late W. H. Wilson, of Timmins, he opened the first hardware store in Golden City when that town was the only place of importance in the Porcupine. From about 1914 to 1918 he was magistrate at Kirkland Lake as well as postmaster there and also successfully conducted a commercial business in that camp. He was prominent in fraternal circles and was the first Master of Porcupine Lodge, A. F. & A. M. In 1918 he moved from Kirkland Lake to Toronto where he was given an important position on the field staff of the New York Life Assurance Co., his field covering New Ontario where he was consequently a frequent visitor, always warmly welcomed by his many old friends in the North. He was born in Dundalk, Ontario, and was only 35 years of age at the time of his death. Some years ago he became interested in mines and mining and took a noteworthy part in the development of the North Land. For some months past he had been in poor health, suffering much from rheumatism, death eventually resulting from this illness. The late Mr. Foster was a member of the Methodist church a Past Master of Porcupine Lodge, A. F. & A. M., and a member of the Barrie Lodge of the Scottish Rite. He was buried with Masonic honours, Porcupine and Golden Beaver Lodges of this district sending their tributes of esteem and regard. A widow, two sons, Leonard and Ralph, and two daughters, Vivian and Irene, are left to mourn the loss, and to those the very sincere and heartfelt sympathy of all who knew him in the North Land will go out at this sad time.

A young fellow came into Timmins ten years ago with a badly burned face and a thrilling story of a desperate bush fire in which he said some twenty men had lost their lives. On account of his own badly burned face and injuries to his hands and arms his story received some credence though there were some smells of fish about it. As soon as he learned of the tall story Chief Fire Ranger Geo. Woodcock investigated. He found the young fellow had not been near any bush fires, and there had been no loss of life from any bush fire such as the young man recounted. The truth of the matter proved to be that the young man had been working as cook at one of M. Boivin's camps, and attempting to light a fire by the use of coal oil he had met with a common experience from that sort of trick and had been badly burned. The young fellow then "beat it" to town, and found the story about a bush fire much more heroic than the truth would have been. Fire Ranger Woodcock said that he was delighted that the story of the bad bush fire had been proven untrue, but he pointed out that it was just yarns as this that added care and trouble and anxiety to the work of the authorities. They could not afford to take the chance of ignoring even wild stories that concerned their work, but at the same time needless alarm and annoyance were caused by such yarns as the one in question. He thought from the beginning that the story was untrue but it took time and trouble to prove it to be false.

Timmins baseball team won the opening game of the Northern Ontario Baseball Association series at South Porcupine in 1920, when after a bright game of good baseball the South Porcupine-Dome-McIntyre team was defeated by a score of 4 to 2. The battery for Timmins was Breen and Bellevue and they were two able and

effective busy 'B's. Breen had speed control and a ball that fooled them all, and he pitched a good game, receiving fine support from the team. Stan Ellis and W. McIntyre were the battery for the South Porcupine-Dome-McIntyre team. The game was delayed by the rain which fell in torrents, leaving the grounds in rather bad condition.

The Advance ten years ago said:—"The plant and property of the Three Nations Mine in Whitney township is offered for sale. There has only been a small amount of work done on this property which is about half a mile south-east of the Keora. The old-timers had a good opinion of the Three Nations property and express the opinion now that it has never had a fair chance to show what is in it. They think that if this property were developed and explored properly it would prove a mine of value and promise."

About forty delegates attended the meeting of the Temiskaming and Northern Ontario Associated Boards of Trade held at Iroquois Falls on June 28th, 1920. Practically every board of trade in the district was represented. Among those from Timmins were Mayor McInnis, D. Ostrosser, Geo. A. Smith, D. Laprairie, L. S. Newton, John W. Fogg and others. A feature of the meeting was an address by Miss Agnes Laut, the noted Canadian journalist, then making a tour of investigation of the paper industry. The plan of Geo. A. Smith for financing a North Land highway was very heartily endorsed. This plan was referred to in a recent issue of "Ten Years Ago in Timmins." The plan briefly was to put aside a number of townships in this North and use the money from the sale of timber limits in this reserved area for the financing of the building of the roadway. Another important matter before the meeting was the matter of free Government assay offices for the mining camps. This matter was to be strongly urged upon the Government in the interests of the prospector and small mine.

At the regular meeting of the town council ten years ago the resignation of D. McInnis as sanitary inspector and constable was received and accepted. The waterworks committee reported that they recommended that no water connections be given to Mountjoy residents until all in the town of Timmins had been supplied, when the requests of those in Mountjoy would receive further consideration. In discussing the appointment of a new constable one of the councillors said, "We want an experienced man!" "But not too experienced!" said Councillor Longmore. There were two tenders for the making of the water connections, the rates figuring out practically the same. The contract was awarded to Leo Mascioli as he had the necessary equipment, etc.

Ten years ago The Advance issued baseball schedules and score cards that proved very popular with the baseball fans. Timmins girls doubled the score on the Schumacher girls in a baseball game at Timmins ten years ago, the score being 16 to 8. Among the Timmins girls playing were:—Misses L. Dorway, N. Studor, Fearn McCarthy, M. Daher, N. Kennedy, M. Harrington, Mrs. Hugh Richardson, Mrs. Karl Eyre. The losers included:—Misses F. McLean, A. Angrignon, I. Wilson, Helen Plaut, Katie Goodheart, M. Barton, G. McLean, G. Little, C. Laforest.

Mr. E. H. Hill, Division Court Clerk returned ten years ago to his home in South Porcupine after a month's visit to his home in the Old Country. He had intended to visit his old home in Ireland but found this impractical on account of conditions there. Most of his relatives had been driven out of Ireland by the deplorable conditions there and were living in the Isle of Man. Mr. Hill said that conditions in Ireland were almost unbelievable for a civilized age. A reign of terror had developed despite the utmost efforts of the police and the pleadings of the parish priests and clergy. "If you disagree with a man's views in Ireland today," said Mr. Hill, "his answer is to drive you from the island or kill you if he can." Mr. Hill learned of many heart-rending cases at first-hand, and he said that for the time Ireland was a land of crime, oppression and unhappiness. He hoped for better things to come, and this hope has fortunately materialized in the intervening decade.

A concert party in the New Empire theatre ten years ago delighted a large audience. The party included—Walter Bates, tenor; Mrs. Shirley Rogers Bates, soprano soloist and pianist; Miss Laura Miller, elocutionist. Mr. E. L. Longmore made a very capable chairman for the occasion. The event was under the auspices of Golden Beaver Lodge, A. F. & A. M. Among the local and personal notes in The Advance ten years ago were the following:—"Their friends in the camp will extend good wishes to E. Roos and Miss E. Markward on the occasion of their marriage on Saturday by Rev. J. D. Parks at the Presbyterian church. They will reside in Timmins." "At St. Matthew's church rectory on Monday Rev. R. S. Cushing united in marriage Hugh Richardson, operator at the New Empire theatre, and Miss Florence Wilson. Friends in the camp extend best wishes..." "H. W. Clark and Miss Laura Miller, of South Porcupine, were united in marriage by Rev. J. D. Parks on Sunday. A couple of weeks ago a brother of the bride, Sheridan Miller, was married to Miss Florence McQuarrie, of town. To the young people

concerned the good wishes of all will be extended." "At police court there were six fines imposed for letting horses run at large." "Mrs. J. W. Faithful leaves this week on a visit to relatives across the line." "Mr. and Mrs. W. McCoy have returned from their wedding trip in the South and will receive the good wishes of their many friends here." "Mrs. E. L. Longmore left on Friday for the South, being called home on account of the illness of her mother." "His many friends in the camp were pleased to see R. Halliwell ("Slim") return to town last week after an absence of several months. While away he had the contract for the sinking of a big shaft at Glace Bay, N.S., for the Foundation Company, of Montreal. The contract was completed on time and in first-class condition." "Mrs. Geo. Vary and daughter, Miss Florence, have gone to Michigan on a visit." "Bush fires were bad last week in the Kelso district and near the "Y" at Iroquois Falls, but the rain put them under control." "Chas. Barnard, formerly of the Timmins Fire Dept., but more recently at Charlton where he has been engaged in lumbering operations, is a visitor to Timmins this week, renewing old acquaintances." "His many friends here will deeply regret that His Honour Judge Hayward was forced recently to undergo an operation for the amputation of one of his legs at the ankle. The operation was successfully performed in Toronto, and all will be pleased to know that Judge Hayward is making satisfactory progress to recovery."

WHERE THEY HAVE TO PACK CARS OVER THE MOUNTAINS

To "pack" a Chevrolet by hand and foot and laden back for sixteen miles, climbing eight thousand feet over precipitous mountain trails, is one way to work up an appetite. But it's done quite regularly by General Motors dealers in Peru.

The Chevrolets are run under their own power to the Andes. Here they are completely taken apart and the pieces carried on the backs of Indians over the mountains to Chacchan, fifteen miles away. It is necessary to climb an altitude of twelve thousand two hundred and sixty-four feet above sea level to cross the ridge.

A wheel is strapped to the back of one Indian, a pair of mudguards to another, and four more carry an engine, slung between poles. The last five Chevrolets required thirty mules and ninety-eight Indian carriers.

Once assembled at Chacchan, the Chevrolets are driven under their own power to Huaras, where they find a ready sale.

The Indians and the mules are not of the opinion that "it's wise to choose a six."

Mr. and Mrs. Thos. Blackman left last week for a vacation in the South.
