Dr. Ward Woolner, who has been elected President of the Ontario Medical Association.

LAKE SHORE TEAM PLAYS FINE GAME GOODYEAR CUP

Team Work and Combination Play Were Special Features. Brilliant Defence Work and Clean Play Made Big Hit With Football Enthusiasts.

The Lake Shore football team of Kirkland Lake paid its first visit to Timmins on Saturday last to meet the McIntyre team in the Goodyear Cup game.

The teams lined up as follows:—McIntyre—Wilkinson goal; Curtis and McConnell, full backs; Moore, Robson and Connor, half-backs; Allan, Chalmers, Edgell, Carroll and McGregor, forwards.

Lake Shore—Cadman, goal; Ramsay and Hughes, full backs; Simpson, Rankin, Craig, half-backs; Rudkin, Furnie, McKendry, McDonald and Parsons, forwards.

The game was late in starting, due to the non-arrival of some of the McIntyre players, and also a ball to play with. These eventually arrived, although McIntyre had somewhat of a weakened defence.

The second half opened with McIntyre again on the attack, Chalmers trying hard. Furnie went down in combination with the other forwards and sent one in. Wilkinson caught the ball but as it was a new one and had only just entered the game it was hard to hold and he dropped it only to see it roll behind him for goal number three.

Garages at Cochrane Curtail Sunday Work

Announcement was made last week by the garages at Cochrane that commencing Sunday, July 13th, they will do no mechanical repairs on Sundays.

The garages take a quarter page advertisement to announce the change in their policy. It seems apparent from the editorial in The Northland Post of Cochrane, it may be inferred that all the garages in Cochrane are concerned in the announcement.

SPEEDY SALESMAN SOLD SPEED COP MINE STOCK

The following interesting little story is told in the last issue of The New Liskard Speaker:—One of Pandora's salesmen driving on the highway between London and Windsor was hailed by a speed cop and was asked "have you a license to travel on this highway at such a rate of speed?"

the ball taken down for him. McIntyre got their first corner soon after this, but it was cleared. Lake Shore then took complete charge of the game. McKendry scoring twice more and Rudkin once.

Among those from outside points who came to Timmins Tuesday evening to attend the big rally in the skating rink here addressed by Hon. G. Howard Ferguson and others, were:—Jas. Kingston, of Iroquois Falls, a past president of the District Conservative Association; R. S. Potter, of Matheson; A. V. Waters, M.P.P., of Cochrane; F. C. Evans, South Porcupine; A. C. White, of Hoyle; J. E. Williams, president of the Schumacher Conservative Association, and many others.

REPORT \$1000 TO BE GIVEN TO COCHRANE GOLF CLUB

An item in The Northland Post, of Cochrane, last week says:—"It is reported that the T. and N. O. Railway, through the Chairman George W. Lee, is giving \$1000.00 to the Cochrane Golf Club. This will certainly help put the course in excellent shape."

ANNUAL PICNIC SONS OF ENGLAND, SUNDAY, JULY 20

On Sunday coming the annual picnic of the Sons of England will be held at Sandy Falls and the event is sure to be a very pleasant one, like all other Sons of England events. The boat will leave the wharf at Timmins at 10 a.m. Races and other events and sports are to be on the programme, with cash prizes. There will be tea, ice cream, soft drinks, etc., and plenty of them.

PETITION IS SUPPORTED BY WOMEN'S INSTITUTE

At the monthly meeting of the Women's Institute at Clute held on July 5th, it was decided to express hearty support of the recent petition sent by the settlers to the Ontario Government asking for roads for settlers, and bonus for the clearing of land, and the creation of a separate department to specially look after the needs of the settlers. The official report of the meeting in this connection refers to the report of the Clute members who were delegates at the annual district meeting held at Porquiss Junction, this reference being as follows:—"A petition asking that Northern Ontario settlers be granted a bonus for clearing land, brought by Clute representatives was discussed and the general feeling being that such a measure should be upheld by the Women's Institute. It was moved by Mrs. Metcalf and seconded by Mrs. Bird that the motion be approved by the convention and sent on to the Federated Institutes. All in favour having signified in usual manner this was carried. The convention will meet at Matheson next year."

Referee—P. Larmer, Timmins. Linesmen—A. Cadman and A. Roberts, Timmins.

Power Keeps Up Winning Ways at Expense of M-E's

The Northern Canada Power team earned a well-merited victory against the M-E's on Monday night in the local softball. H. Boyd started with his second-string team, and, although injecting the regulars into the latter part of the game, it proved too late. The biggest mistake was putting W. Grant in to pitch in the sixth innings. The Power boys getting to him for five runs. O. Alton and T. Whitney were the heavy artillery for the Power team, with seven hits and seven times at bat. Bert Studor was the best of the M-E's. G. Ray, J. Stevens and C. Roberts each knocked a home run. The game was a most interesting and exciting one and had the fans on their toes all the time. It was of course disappointing to those who wanted to see the M-E's win for them not to pull the game out of the fire in the last innings. The M-E's are the first team to go through a game this season without any errors chalked against them.

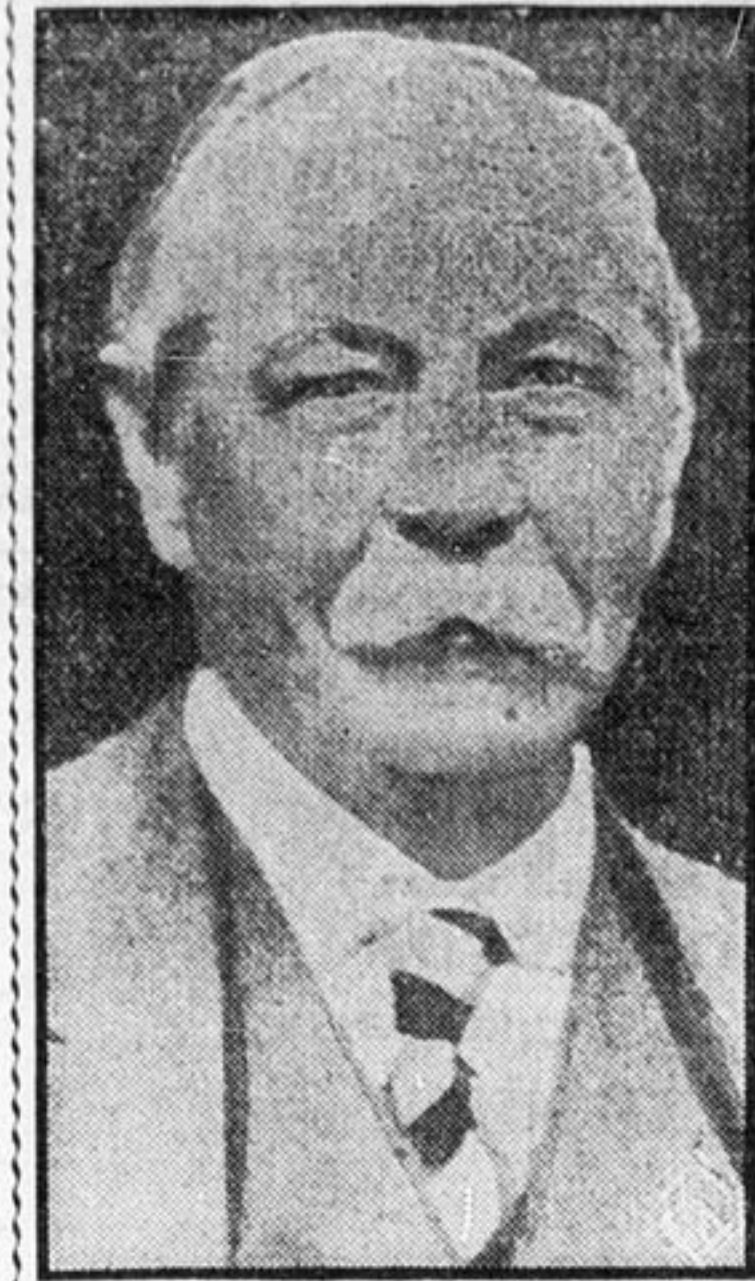

Batteries—T. Whitney and W. Hardy; R. Hall, W. Grant, G. Ray and R. Webb and H. Boyd.

Last Friday the Power were scheduled to play against the Strollers but the Strollers were not strolling around the cyanide at game time. Just as they were about to default their second game an eighth-player was scraped up to start the game. It is too bad the Strollers were not able to get their proper team out for they have some nice ball players, such as Davis, Lens, etc., and should be able to win from any team.

W. Hardy, although little in size, was the big noise for the Power, getting four hits in four times up and catching a good game. Doughty found Hardy to his liking and zipped them across to whiff ten Strollers.

NEWSPAPERMEN BANQUETTED BY NORTH BAY BOARD OF TRADE

An unusual honour was given the North Bay Nugget last week when the representatives of that newspaper were banquetted by the North Bay Board of Trade as a mark of appreciation for the services given the city and district by that excellent newspaper. The banquet was held in the Emp're hotel and J. H. McDonald, president of the North Bay Board of Trade, occupied the chair. In his address Mr. McDonald pointed out the value of a good newspaper to a community. He referred to The Nugget as "a municipal institution that is doing good work for the city." It was of special value to the city both as an industry and as a force for the advancement of the city. Other newspapers through the Dominion, and especially in the North, will be pleased at the high honour given The Nugget and will feel that North Bay did well to recognize in tangible way the services so freely and so ably tendered to the city.

CREATOR OF SHERLOCK HOLMES DEAD

Sir A. Conan Doyle, perhaps one of the most famous detective story writers in history, has passed away suddenly at his country residence. He has been ill for some time but the end came unexpectedly.

MINING ASSOCIATION TO PLAN AGAINST ACCIDENTS

New Organization Formed by Mining Association to Cut Down Chances of Accidents at the Mines. H. P. DePencier New President of O.M.A.

At the meeting of the Ontario Mining Association held at Sudbury last week one of the chief topics for discussion was the matter of cutting down to the very minimum the number of accidents at the mines in the province. To this end the association decided to form an Accident Prevention Association to make special effort along this line. Another item of business that will be of special interest in this camp was the fact that H. P. DePencier, of the Dome, was elected president of the Ontario Mining Association for the ensuing year.

The meeting of the Ontario Mining Association opened at Sudbury on Thursday of last week, July 10th, and continued on Friday and Saturday. During the three days the members of the association visited the Sudbury mines, refinery, smelter, etc. The annual dinner of the association was held on Friday evening at the Nickel Range hotel.

As a result of the growing activities of the Compensation Committee of the association, it was decided to form an Accident Prevention Association, representing the mining and allied groups. The meeting to consider this question was attended not only by representatives of the mining companies, but also by the representatives of several manufacturing groups, and it was decided to proceed with the organization. A provisional board of directors composed largely of the executive of the Ontario Mining Association with the addition of two or three representatives of the industrial groups, was appointed. Steps will be taken to incorporate the new association.

One of the principal matters of discussion was the basis for assessment of the cost of silicosis as between the various mining camps in order to provide money with which claims are paid by the Workman's Compensation Board. This has always been a difficult matter to determine, and in an effort to assist the association engaged the services of Mr. C. H. Frederickson, an actuary of experience, to investigate the question and to prepare a report. This report was presented and the main features adopted. Owing to the fact that considerable inequality was apparent in the assessments as between the various camps under the proposed basis a settlement of the difficulty was made possible only by a very apparent desire on the part of the representatives of all the camps to co-operate.

The annual report of the association, reviewing the activities of the year, included a number of important matters, such as the new Mines Act of the province, on which a committee of the association worked for six months. In connection with the tariff on mining machinery general commendation was paid the reductions shown in the recent budget. The report also paid tribute to the co-operation which the association has enjoyed at the hands of the various departments of the Ontario Government.

As a result of the election of officers, H. P. DePencier, vice-president and general manager of the Dome Mines, Limited, was named as president for the ensuing year, succeeding J. C. Nicholls of Copper Cliff, who retired. Other elections were Dr. D. L. H. Forbes, Teck Hughes, first vice-president; F. D. Reid, second vice-president; executive, J. P. Bickell, N. Y. Murdock, J. L. Andrews, J. P. Watson, F. D. Reid and G. C. Bateman, secretary-treasurer.

Master Francis Carriere left on Sunday for Boston Creek.

TIMMINS LODGE, I.O.O.F. No. 459 Meets every Friday evening in the Oddfellows' Hall, Spruce St. North.

TIMMINS L. O. L. Meets on the 2nd and 4th Monday of every month, in the Basement of Anglican Church.

Expert Radio and Gramophone Repairing by W. J. Warren, who is in charge of the music room at Burke's Drug Store Pine St. N. Phone 7

When th' pitcher goes wild then the fielders suffer! It's the same with your radio. When one tube gets weak, the other four or five are overtaxed, and their life is shortened badly.

Let us test your tubes. Perhaps we can save you much money. J. R. Newman, Assoc. I.R.E. Phone 562-W 6 Sixth Ave. Timmins

Three Generations of Golfers

Golfers, like poets, are born, even though, unlike poets, they are also made. But when a six-year-old girl makes a par-four hole in seven including a drive across the Spray River, and when her mother at 17 was golf champion of Alberta, and when further, her grandfather is the professional at the Banff Springs Golf Course—why then, you have to allow a little something for heredity. The above data cover the facts in the case of Lois Dalgleish 6-year-old daughter of Mrs. Peggy Dalgleish and granddaughter of William "Bill" Thomson, professional at the Banff Springs Golf Course since 1910.

Lois herself commenced at six but Lois herself commenced at four, when her grandfather purchased diminutive specially made clubs for the baby hands and spent hours of patient training with her—hours of spontaneously invented methods of teaching. The result is that a child of barely school age is doing what many adults and in fact many golfers cannot do, namely, making par four holes in seven strokes while her putting is beautiful to watch.

Lay-out shows the spectacular drive across the Spray River which features the Banff Springs Golf Course; the three golfing generations; Lois swinging for the drive across the river; and Lois putting—true as a die.
