Kapuskasing Sessions on Scientific Farming

The Northern Tribune of Kapuskasing
last week says:—

"The annual convention of the Cana-
dian Society of Technical Agricultur-
ists was held in Kapuskasing Wednes-
day and Thursday this week.

"The members of the Northern Onta-
rio and Northern Quebec section of
the C.S.T.A. had their annual conven-

and Thursday of this week.

"The members with their wives came
from Abitibi, Que., Temiscamingue
and this part of Northern Ontario, and
everyone motored up. Some having
travelled more than 450 miles one way.

"They met at the Experimental Farm
at 10 o'clock Wednesday and after a
short meeting at which L. Hanlan and

in the absence of J. P. S. Ballantyne,
the superintendent. They visited the
experimental plots and the field crops.
At one o'clock a lunch was given by
the Farm. After having resumed the
visit of the buildings, they proceeded
to the Spruce Falls Power and Paper

Moonbeam. A nice beef lunch was
given on "le-Verte" and games of all

First Auto to Travel From Hearst to Toronto

It seems particularly appropriate
that Rev. Fr. Lambert should be in the
first auto to travel from Hearst to To-
ronto. If he were not the first to ad-
vocate such a road he certainly was
one of its most able exponents. It is
several years now since Rev. Fr. Lam-
bert came to Iroquois Falls to a meet-
ing of the Northern Ontario Associated
Boards of Trade meeting and put up
so earnest an appeal for roads west of
Cochrane that he won over the meet-
ing, though at the start he had few to
approve. In that good work he was
ably supported by Rev. Fr. Lajoie and
that Hearst to Toronto trip would have
been still more appropriate if Rev. Fr.
Lajoie had been included in the honour
of taking the first motor trip along
the route. Rev. Fr. Lajoie has cer-
tainly worked hard and ably to present
the needs for roads along the Trans-
continental west of Cochrane. The
settlers owe much to the talented and
earnest work of men like Rev. Fr. Lam-
bert and Rev. Fr. Lajoie in presenting
the needs of the North.

To return to the matter of the first
auto to go from Hearst to Toronto over
the road, The Northern Tribune of
Kapuskasing last week says:—"Mr.
Michel Halle and Father Lambert have
the honour of being in the first auto
going out of Hearst to Toronto along
the new highway. Of course a few
miles of uncompleted road didn't hold
up these gentlemen for they found a
way to overcome all difficulties, and
their destination was reached without
mishap."

St. Paul Pioneer-Press—A plan is
now before the Reichstag which pro-
poses to replenish the German treas-
ury by means of a tax imposed upon

seem that so far as it affects the
spinster this scheme is heartless, heap-
ing insult upon injury.

HOLLINGER FIRST AID TEAM SECOND FOR CODERRE CUP

Team Under Auspices of the St. John
Ambulance Brigade, Timmins
Division, Makes Good Show-
ing in Competition.

In the Dominion first aid competi-
tions which were held in May, Col.
Chas. A. Hodgetts, C.M.G., being the
examiner, a team of Hollinger em-
ployees entered under the auspices of
the St. John Ambulance Brigade, Tim-
mins Division, succeeded in gaining
second position in the Coderre Mines
Cup. This competition was open to
all the mines in Canada and it speaks
highly indeed for the Hollinger first
aid team and for the St. John Ambu-
lance Brigade here that so high a po-
sition should have been taken by this
team. It may be noted that the ex-
amination this year was considered a
particularly stiff one, while the com-
petition in the contest was especially
keen. The winning of second place in
this competition by the Hollinger team
is certainly very creditable to the tal-
ent and training of the men in the
team. The first place in the contest
was taken by the Canmore Coal Com-
pany team, Alberta. The Timmins
team consisted of Thos. H. Richards
(captain), E. Keen, G. A. Gibson and
F. Jackson.

In the Montzambert trophy com-
petition, which carries with it the
championship of all Canada first place
was taken by the Canadian Pacific
Railway team, and second place by the
Canmore Coal Company team, Alberta.
The fact that the Canmore Coal Com-
pany team won this high place in com-
petition with all first aid teams in Can-
ada shows how efficient and skilled
this team is at the work. The Hollin-
ger team had unusually expert com-
petition to meet in its efforts for a
place in the Coderre Mines Cup and it
was undoubtedly an honour to be able
to take second place where the first
went to the Canmore Coal Company
team.

Luscious Strawberries Grown in the North Land

The Advance noted a couple of small
items in Northern newspapers last week
that should be worthy of thought.
There may be a helpful hint to settlers
and others in these items.

The first item is from The Cochrane
Northland Post, and reads as follows:
"A box of native grown strawberries
was presented to us last week by Mr. E.
D. Carrere, whose farm is a short dis-
tance from town, and who has over an
acre in strawberry plants. In size,
flavour and appearance they had south-
ern-grown berries "licked to a fraz-
zle." Growing of strawberries would
appear to be a good field for the farm-
ers and settlers of the North who
would be assured thereby of an almost
certain cash return every summer."

This paragraph would appear to in-
dicate a field where the settler may
make a little money on the side by
the growing of strawberries, provided
he knows the tricks of that trade or
is ready to pick up the ideas that are
necessary for success in raising a crop
of strawberries and marketing them.

The other item is from The Northern
Tribune of Kapuskasing and is along
the same line. The Northern Tribune

"Mr. Geo. Hortig of Opasatika kindly
brought to the editor some specially
fine luscious strawberries from his
garden patch, to prove that the North
can grow top-notch berries. They are
of much finer colour than the shipped
in fruit, evenly ripened, and more zest-
ful to the palate. There is a good local
market for tons of such high-class ber-
ries, if the settlers would go in for berry
culture."

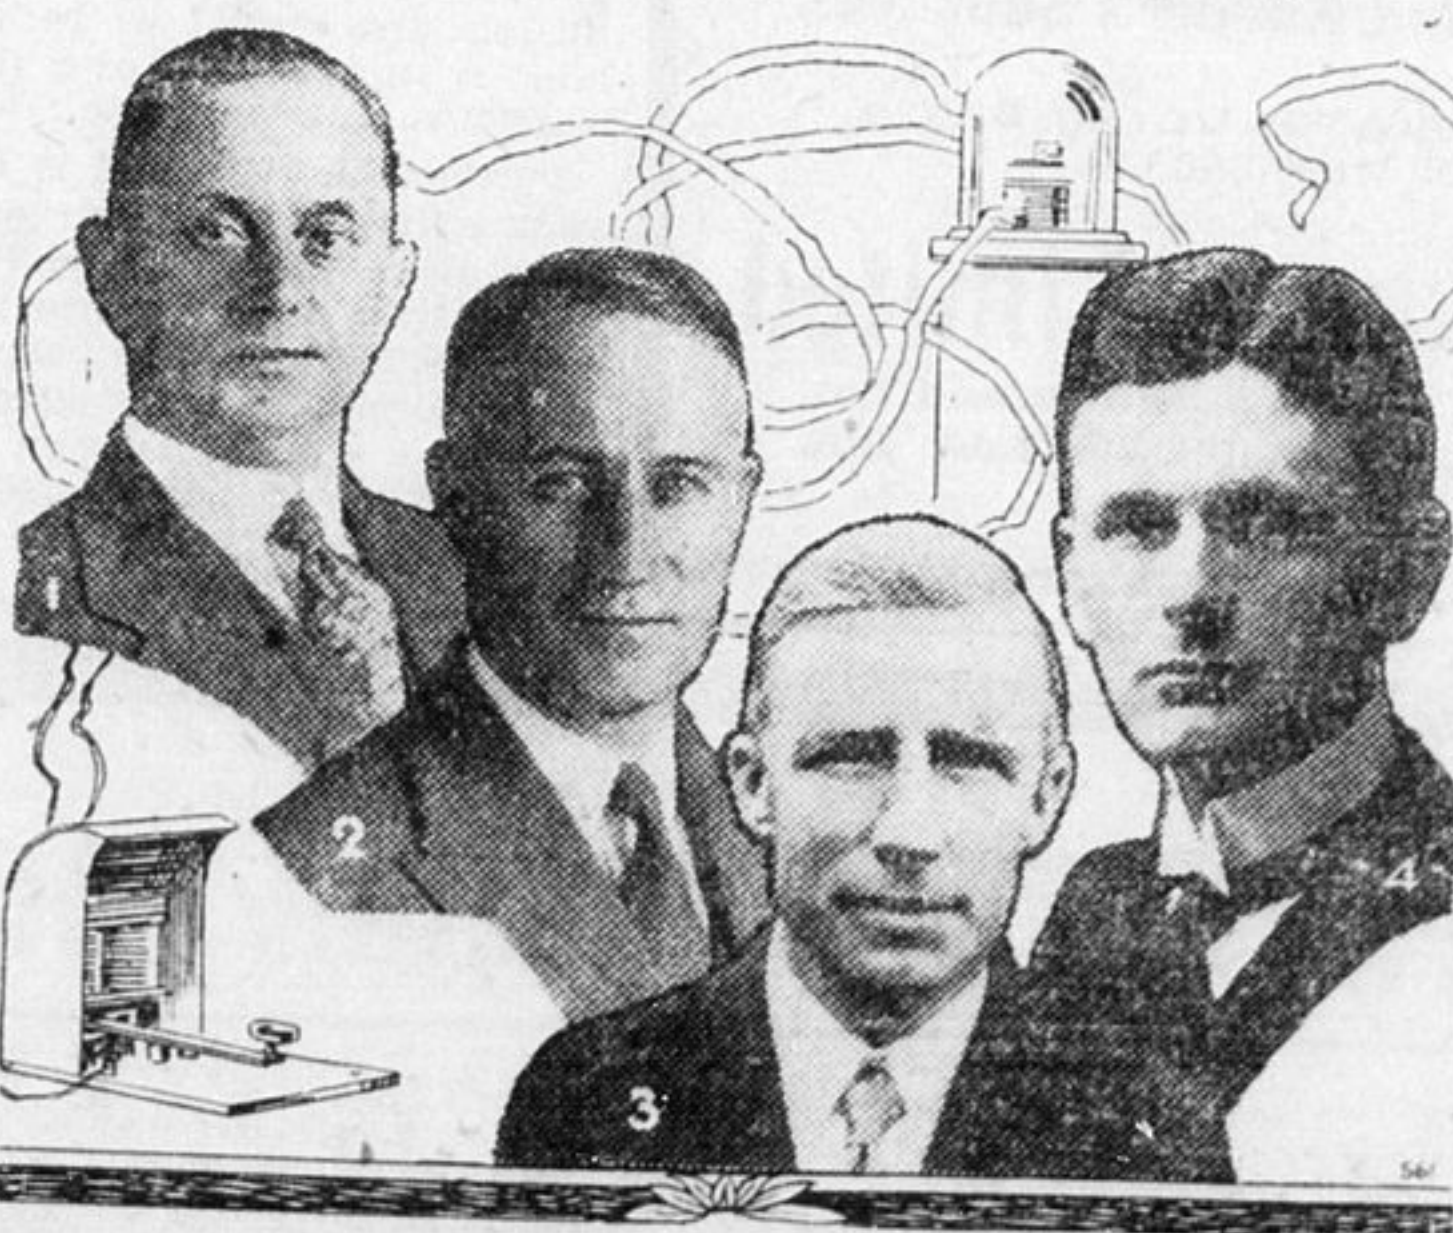

If the growing of strawberries in
this North is practical the market
around Timmins will be found to be
especially good. If the plan can be
worked, it should work around here
even better than near Kapuskasing or
Cochrane. A settler living near Tim-
mins for several years past has grown
strawberries with success so far as the
berries themselves are concerned.
Their size, flavour and merit could not
be denied, but the settler says they
cost too much to be profitable.

The sudden frosts here and other con-
ditions make it necessary to give so much
care and attention to the plants that
the work can scarcely be carried
through with profit. This settler says
that the strawberries can certainly be
grown here and the quality can not be
excelled anywhere, but he does not think
that counting the time and attention
necessary that there is much actual
money in the scheme. One might, for
example, in the height of summer this
settler had to use the blankets off the
beds in the house to protect the plants
from a sudden frost that descended.
To be otherwise prepared for such an
emergency would mean considerable
outlay, and so no matter how it is dealt
with there is expense incurred through-
out the special care and attention neces-
sary that places the raising of straw-
berries on the doubtful list, according
to this settler. He says that if a man
could coolly take all chances and had
supreme good luck for a season or two
he would likely make a great thing out
of the strawberry crops but that for the
ordinary settler who can scarcely be
considered as particularly fortunate
(so long as he is a settler) it seems
that the plan of running a strawberry
garden seems to be fraught with all
sorts of hard work, care, attention and
expense, with the returns inclined to
be altogether too problematical.

WELL-KNOWN NORTHERNER DIES ON WAY TO HAILEYBURY

Archie S. Macdonald, Formerly of Hal-
leybury and Cobalt, Passes Away
on the Train Near North Bay
on Saturday Morning.

Archie S. Macdonald, recently of To-
ronto, but for about ten years resident
in Cobalt and Hailybury, passed away
on Saturday morning on the train near
North Bay. For the past two years he
had been suffering at times with heart
trouble, but more recently his health
had shown considerable improvement.
On Friday while in Toronto he had felt
poorly but had decided to proceed to
Hailybury. His wife, formerly of Van-
couver, B.C., and his daughter, had
been visiting in Hailybury, and he was
on his way to join them there with
the intention of spending the summer with
them there.

The late Archie S. Macdonald at one
time lived at Sherbrooke, Quebec, and
during the war he was a captain in the
R.C.H.A. After the war he went to Co-
balt as a representative of Peacock
Bros., an English machinery firm. He
lived at Hailybury from 1921 until
last year when he moved to Toronto.
Recently he left the firm of Peacock
Bros., and had intended moving to Ot-
tawa and taking a position with the
Hull Iron and Steel Works. At the
time of death the late Mr. Macdonald
was 46 years of age. On his marriage
some years ago he moved to the North
Land.

The funeral took place on Monday
afternoon with Masonic honours to
Mount Pleasant cemetery at Haily-
bury. There was a very large atten-
dance at the funeral, with many beau-
tiful floral tokens, signifying the high
esteem in which the deceased was held
by wide circles and the very sincere
sympathy felt for the near relatives
and friends of the deceased. He is
survived by a widow and one daughter
and to these goes out the deepest sym-
pathy of all.

The late Archie S. Macdonald was
very well-known throughout the North
where he had large circles of friends
who will greatly mourn his death.

Through an unfortunate mistake the
story of the death reaching Timmins
gave many the idea that the man who
had died on the train was J. A. Mac-
donald formerly of Timmins, where he
conducted a funeral parlour here and
was the golf pro. Fortunately for the
many friends of the latter, the story
was contradicted before it gained much
headway and so the many friends of
the former Timmins man were re-
lieved from great anxiety and regret.
The late Archie S. Macdonald, how-
ever, has hosts of friends here who will
learn of his death with genuine sorrow.
