

TO ADD \$5,500,000 YEARLY TO ONTARIO GOLD OUTPUT

Estimates recently made in regard to the gold production in this province show that when the Dome and McIntyre-Porcupine mills are complete, approximately \$5,500,000 annually will be added to the present rate of production of the Ontario gold mines. Add to this the increase to 2,000 tons daily at the Lake Shore as well as the increase to 1,250 tons at the Teck-Hughes, and some idea of the extent of the assured increase to be brought about within the next few months may be secured.

At the present time, production is at the rate of approximately \$34,300,000 annually. On the completion of the

new mills at the two Porcupine producers (Dome and McIntyre) and on the completion of the expansion programs now under way at the Lake Shore and Teck-Hughes mines in the Kirkland Lake district, the rate of output from the Ontario gold mines will be increased by approximately \$11,000,000 annually.

In other words, these four mines are to increase the annual rate of output of the Ontario gold mines to about \$45,300,000. Lake Shore and Teck-Hughes will probably increase further, while other gold mines may be expected to show moderate increases.

Mr. and Mrs. Wm. Atkinson, of Toronto, were visitors to Timmins last week.

District Children's Aid Superintendent's Report

The following is the report of A. G. Carson, superintendent of the District of Cochrane Children's Aid Society, for the month of July, 1930—

LEGION DANCE ON AUG. 4th IN THE ODDFELLOWS' HALL

The Timmins branch of the Canadian Legion had one of their pleasant dances in the Oddfellows' Hall on Monday, Aug. 4th. While this event was not so well attended as many of the Legion dances have been, everyone had a real good time. Tommy Stephens played the best of music and the floor was in splendid condition and was not overcrowded. There will be another of these pleasing events in the McIntyre Hall on Wednesday of next week, Aug. 13th, when the Club Royal orchestra will supply the music for dancing. There will also be a social evening on Monday, Aug. 25th, free to Legion members only and their ladies. This event will be much looked forward to by all Legion members. The lucky door number prize for the Oddfellows' Hall dance on Monday night of this week was won by Comrade Greyson, and the prize was \$5.00, the usual door prize awarded at these pleasing events.

BOOKLET FOR CHILDREN BEING DISTRIBUTED FREE

A booklet, "Little Rhymes from Dairymilk" has just been issued by the National Dairy Council of Canada. This booklet is printed in colours, with pictures and rhymes that will delight the hearts of children. The booklet has been issued, in English and French, with a view to increasing the consumption of milk and its products—for the health of Canadian boys and girls. It will be distributed free to schools and public health nurses on application, and will be sold at cost to milk distributors and others for distribution among their customers. Youngsters will be delighted with this booklet, but so far as increasing the consumption of milk is concerned the National Dairy Council could accomplish a great deal more by a judicious use of newspaper advertising.

DEVELOPMENT WORK BEING CONTINUED ON THE CANUSA

One of the items in The Mail and Empire last week under the heading, "Comment on the Mines" read as follows—
"According to a letter from J. D. Tolman, mining engineer, to E. G. Joy, general manager of Canusa Mining and Exploration Company, prospects are bright for that concern. The property in the Porcupine mining district consists of 400 acres in the northwesterly portion of Whitney Township extending into Tisdale, lying north of Porcupine Lake and including what was originally known as the Scottish Ontario. Rock is exposed on a considerable portion of the claims and consists of the keewatin complex, with intrusions of diabase and what is probably porphyry. The shaft is located in the northeasterly section of the property and has been sunk to a depth of 300 feet with levels at 100 and 300 feet, with considerable crosscutting and drifting. This is being dewatered and in the near future a report will be made covering underground developments and other findings. There is on the property adequate equipment for present needs, the shaft is equipped with a cage and there is a hoisting engine, 100 horsepower motor, compressor, heating boiler, pumps and drills for underground operation. The assay office is not at present in use and the mill is a small pilot mill."

RIDDING THE HOUSE OF THE ANNOYANCE OF BEETLES

A timely article now going the rounds of the press reads as follows—
"Some old houses, and especially those with basement kitchens and cellars are, unfortunately, infested with beetles. In new houses garden often make their appearance, and unless they are got rid of at once they will multiply and hide themselves in crevices. Wherever there is dirt there are beetles to be found. They also like warmth and darkness. In many a basement kitchen where none is to be seen during the day, the floor is covered with them at night. Beetles may enter a house from a neighboring building, or they may breed in cracks in old furniture, behind cupboards, under the floors, etc. It is, therefore, advisable to keep all floors, skirting-boards, walls, etc., in a good state of repair, and to have all cracks and holes filled. See that all cellars and cupboards are kept scrupulously clean, that no food is allowed to remain anywhere but in the larder, and that no crumbs are permitted to remain on the kitchen floor. Be liberal in the use of soap, water and disinfectant powder. If beetles have appeared, they may often be got rid of by sprinkling a mixture of borax, oatmeal and sugar in places they are known to haunt. Do this every night for two or three weeks, sweeping up the powder—and the beetles—in the morning."

MR. FRANK A. ROLPH, President of the Imperial Bank of Canada, succeeding the late Peleg Howland.

VISITORS FROM TORONTO AT DANCE AND SOCIAL EVENING

Pleasant Evening Enjoyed at Schumacher When Event is Held in Honour of Visiting Friends from Toronto. Social Evening and Dance.

(From a Schumacher Reader of The Advance)

A delightful social evening and dance was held at the home of Mrs. Corrie Miller on the eve of the departure of Mr. and Mrs. Bert Judd and Stanley Butler, of Toronto, who had been visiting at Schumacher. A very enjoyable time was spent by all on the occasion. Among those present were—Mrs. Miller, Miss M. Miller, Miss A. Miller, Master C. Miller, Mr. and Mrs. Tisdale, Miss Muriel Tisdale, Miss P. Tisdale, Miss A. Tisdale, Mr. and Mrs. Roberts of Timmins, Mr. and Mrs. Thomas of Timmins, Mr. Thomas, Mrs. Charabois, Mr. J. Charabois, Mr. J. Stevens, Mr. and Mrs. Judd of Toronto, Mr. Stan Butler of Toronto, Mr. G. Rashleigh and Mr. J. E. Harvey.

A splendid programme of singing was rendered. Mrs. Roberts, who is well known as a singer of outstanding talent, delighted the company with her selections. Songs were also rendered by Mr. Roberts, Mr. Thomas and Mr. Jack Stevens. The last-named delighted the company with some of the old-time Cornish songs. Mr. Bert Judd, whom the company felt should certainly be on the stage, made a big hit with his dancing. Mr. Judd is an expert at the Highland Fling, Sword Dance, etc., and is an artist at the Charleston. He looked a typical Scotsman with the kilts on. Mr. Judd and Mr. Butler favoured the gathering with an exhibition of fancy dancing that brought down the house with applause. In addition Mr. Judd is a well-known fishing expert and thrilled his hearers with his stories of the big fish that got away from him, but the small ones never got away, they were simply thrown away.

Mrs. Judd, who is a sister of Mrs. Corrie Miller, arranged the programme and certainly made no mistake about it. Mr. and Mrs. Thomas, Mr. and Mrs. Roberts and Mrs. Thomas sang that well-known Welsh anthem, "Land of My Fathers," and such good singing has rarely been heard in this North Country. The dancing was also a big success. Among those taking the floor were—Mrs. C. Miller, Mrs. Tisdale, the three Misses Tisdale, and Messrs J. Stevens and J. E. Harvey. Miss Muriel Tisdale specially pleased all present with her songs. Miss Muriel has a rich voice and although only nine years old certainly has the making of a fine singer. Mr. Jos. Charabois on the banjo found special favour and appreciation for his pleasing selections.

Mr. and Mrs. Judd and Mr. Stan Butler take with them the good wishes of all their friends here. When Mr. Judd was called upon for a speech at the party he said that the people of the North Country are a fine lot of sports and the best vacation he has ever spent was right here in the North among North Country people. The good words and sincere wishes of Mr. Judd to the North Country people are fully reciprocated to the visitors.

DEATH OF MOTHER OF LORNE AND RAY HOWEY LAST WEEK

At Halleybury last week Mrs. Catherine McNeely, mother-in-law of Ray and Lorne Howey, died at the home of her daughter, Mrs. Lorne Howey, on Tuesday, after an illness extending over the last four months. The body was sent to Sudbury on Wednesday, after a service in the R.C. church and burial was made in Sudbury on Thursday. Mrs. McNeely had made her home in Halleybury for the past five years, coming there from Sudbury at that time. She was born near Eganville 76 years ago, and had lived in Sudbury for many years before she took up residence at Halleybury. Four sons, George, of Sudbury, Ira, of Halleybury, J. W., of North Bay, and Thomas of Reno, Nevada, and six daughters, Mrs. P. J. Savage, Larchwood, Mrs. H. Wilson, Toronto, Mrs. P. J. McGarry, Saskatchewan, Mrs. Ray Howey, Mrs. Lorne Howey, and Miss Ida McNeely, of Halleybury survive.

Arkansas Gazette—A psychologist says the dangerous age is between 15 and 30. Before 15, perhaps, they aren't supposed to drive a car and after 30, perhaps they can afford a chauffeur.

PEMBROKE MAN INJURED AT BLACKSMITH'S RAPIDS

The Pembroke Standard-Observer last week says—"W. F. Wagner, Cecilia Street, who has been engaged as a diamond driller at Blacksmith's Rapids, where the coal deposits in Northern Ontario are being developed, had the misfortune recently to have part of the first and second fingers of his right hand crushed with a large hammer, while at work. At present he is a patient in a local hospital and Dr. A. R. Richards is in attendance."

THREE ARRESTS AT SUDBURY ON SEDITION CHARGES

On Thursday evening last Urso Fairviro, William Holowack and Nick Thack were arrested on charges of distributing seditious literature. At the request of their counsel they were remanded to August 9th when they came before the magistrate. Bail was set at \$100.00 each. The seditious literature which they were charged with distributing comprised an announcement of a "Red" day demonstration and parade. It is said to have included a vicious attack upon the International Nickel Co. and on British Imperialism and a call for all to support the Indian revolution.

The next meeting of the town council will be held in the council chamber Fourth avenue, Timmins, on Monday afternoon next, Aug. 11th, commencing at 4 p.m.

SIR JAMES WOODS continues as Vice-President of the Imperial Bank of Canada.

Outdoor Living Calls for Nourishing Food

The following by the well-known domestic science authority, Amy Smith, will be read with interest at this time—
Off for a day or a month—in the car or hiking, boating, fishing—after a few hours you will find food looms up as the biggest thing in the world. Scenery, yes—but such appetites!

Of course milk, and plenty of it, is essential for nourishing, appetizing food—and Borden's St. Charles Brand Evaporated Milk is by far the best choice, providing plenty of pure, rich milk, regardless of weather conditions, rough journeys, out-of-the-way camping places—and lack of ice.

Because Evaporated Milk has had half the water removed, you can rely on its extra richness, which can be utilized to take the place of eggs or butter in many kinds of cooking. For instance, an old guide, famous for his fish fries, told me that in camp he always dipped the fish in undiluted Evaporated Milk before the final coating with corn meal.

When Evaporated is to be used instead of milk in any recipe it should be diluted with an equal part of water. Remember this simple rule and you will find it successful in your own recipes. To "cream" your coffee, use it undiluted.

A savory fish chowder is always a welcome dish in camp, and it's easily made with Evaporated Milk.

Cut the fish in chunks and remove as many bones as possible. Cover the bottom of an iron pot with slices of fat salt pork and fry out part of the fat. Remove part of the pork slices, then add a layer of sliced, raw potatoes, some sliced onions and a layer of fish. Cover with pieces of hard tack biscuit and season each layer, scattering the salt, for the pork is very salty. Repeat the process until the pot is two-thirds full. Add just enough water to cover to level of the fish. Cover the pot and simmer for one and one-half hours, or until the potatoes and fish are tender. Add one tall can of Borden's St. Charles Milk. Bring just to boiling. Serve.

Easy Hot Breads—Hot corn breads to eat with the bacon, fish, or pork and gravy, are a huge success after a day in the open—or to begin the day.

The new newspaper at Ansonville suggests that a team from Kirkland Lake "displayed the best softball but the poorest sportsmanship" in a recent game. That team could not have been from Kirkland Lake, for Kirkland Lake has a long record for the best sportsmanship, win or lose. At any rate Timmins will not be ready to credit Kirkland Lake with poor sportsmanship in view of the evidences to the contrary seen here and at Kirkland Lake in times past.

KIDNEY TROUBLE BACKACHE VANISHED

For Timmins Merchants Only
Being one of a series of chats with Timmins businessmen in which it is suggested how they may increase their volume of sales.

Making the Demand Equal the Supply

In olden days the merchant, who oftentimes was also a manufacturer went from house to house peddling his wares. Then times changed, and methods changed, and the itinerant merchant disappeared.

In his place came the merchant of today—the merchant who is a purchasing agent for his community.

As a purchasing agent the merchant buys as he believes the people in his community will buy from him. Sometimes his sales are many, at other times they are few. Always, however, his supply is equal to the demand. But the demand, unhappily, all too often falls very, very far below the supply. Which means poor business.

Take your own case. You have, let us say, enough of the goods you handle to supply a goodly number of the people in Timmins who require these goods. Do they demand these goods in such great quantities as to make your supply inadequate?

The odds are they don't.

Still, you can't do as the merchant of old did and create a demand for your goods by peddling them from house to house. So you take advantage of the very best means available and advertise in your local home newspaper. Valuable is this there's still another selling force—and that is the advertising of the manufacturers whose goods you want to sell to Timmins buyers—which should also appear in your local home newspaper.

And you can go far in getting this aid by talking about Timmins to the salesman, through whom you buy your merchandise—by inoculating them with the thought that local demand can be created and directed chiefly through your local home newspaper—by making them see how necessary it is to your business welfare to have the advertising of their companies in your local, home newspaper.

You need the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your local home newspaper.

The Porcupine Advance

Have You Seen the New Combination Coal-Electric Range of Outstanding Merit?

It can also burn 22" wood. The fire box is designed for burning coal or wood, and is of the oval type. The porcelain enamelled electric oven is in the lower position, while the coal oven with adjoining warming closet is in the elevated position. The complete range is constructed with all bolts and door hinges concealed.

Your Old Stove will be taken as a Part Payment on this New One.

Second-hand Baby Carriages, repainted to sell from \$8.00 to \$12.00 and a special 20 p.c. discount on all new ones.
