BOXING AT LEGION EVENT

DREW MANY BOXING FANS

Thirty Rounds of Good Fist and Foot Work Pleased the Fans at the Week of Wonders at the Skating Rink Last Week

About 300 fight fans saw thirty rounds of boxing at the Timmins skating rink on Wednesday night of last week in connection with the Week of Wonders presented by the Timmins branch of the Canadian Legion, Post 88.

From the first clash of the gong till the final toll everyone was kept on their toes with excitement by the performances of the fighters who slammed one another with everything they had, except boxing shoes.

Here's a rough summary of how things went:— There were six bouts of five rounds. First Bout:—Nelson Emard vs. Bert Ladicure, two local lads with plenty of colour behind their punches.

Second Bout:—Tony Blondi vs. Joe Stachow. These two fighters don't know what it means to stall for they went at one another like nobody's business.

Third Bout:—Tom Burch vs. Cowboy Taylor. This is the second time these two have met and for two big fighters they gave everything that any fan could have hoped for.

Fourth Bout:—Donat Richard vs. Kid Camara. This was short and sweet, with Richard on the winning end. The fight started like a cyclone and it certainly looked bad for Richard in the first round.

Fifth Bout:—Grant Eaton vs. Jack Gregson. The two boxers faced each other, cautiously feeling one another out, till Eaton slipped in with a series of straight lefts to Gregson's face.

The main bout of the night was between Roy Hamilton and Benny Doherty, of Kirkland Lake. Hamilton showed a vast improvement since his last showing here and got the decision over Doherty.

HOWEY GOLD OUTPUT FOR AUGUST SAID TO RUN \$60,000

Production at Howey Gold Mines is being steadily stepped up, according to latest reports from the property. Production for August is said to run from \$55,000 to \$60,000.

Big Boxing Programme

Kirkland Lake, Friday

One of the best boxing shows yet to be enjoyed by the sports of the North Land is promised to-morrow night (Friday) at the Kirkland Lake arena.

MRS. A. J. FREIMAN AGAIN PRESIDENT OF HADASSAH

Mrs. A. J. Freiman, of Ottawa, sister of Mrs. A. J. Shrage, of Timmins, and well known leader in charitable and social work in the Capital, was unanimously re-elected Dominion president of the Hadassah Organization at the sixth convention of that body held at the Chateau Laurier at Ottawa this week.

BRITISH AIRPLANES THE SAFEST PLACE "ON EARTH"

Recent figures made public in Great Britain on civil aviation indicate that one is safer in a British airplane than anywhere else on earth. Only twelve passengers were killed from 1925 to 1929, and four injured.

The Wright brothers' plane, with its fifty-nine seconds of "sustained flight" made some 25 years ago, is in the British museum. Marking tremendous advances, the Spirit of St. Louis, in which Lindbergh flew solo from New York to Paris, is in the Smithsonian Institute, Washington.

Friday and Saturday of this week, Sept. 12th and 13th, the New Liskeard Fair will hold forth this year.

HOLLY STORES DISTRICT

SOFTBALL CHAMPIONS 1930

Timmins Establishes the Record of Having Won the Marshall-Ecclestone Trophy Since 1926 When First Put Up for Competition.

The Holly Stores softball team of Timmins had no difficulty in winning the deciding game from the Shamrocks of Ansonville, in the finals for the District of Cochrane softball championship and the possession for the year of the Marshall-Ecclestone trophy.

The Shamrocks played indifferent ball throughout the game. They were guilty of allowing no less than seven men to reach first on what should have been outs.

J. Charlebois played good ball in his second start in the play-offs, and atoned for his bad game in his first start in the play-offs, as he got the only home run that the Holly Stores managed to score against the Shamrocks.

Lefebvre was best for the losers and when their regular catcher had to retire, he went in his place and worked hard, getting with "Paddy" Belanger six of the team's 9 hits.

Scoreboard table with columns AB R H E and rows for L. Campbell, S. C. Platus, E. Ladfame, J. Charlebois, C. Adamson, R. S. Webb, W. Grant, L. Ladfame, Z. Ostrowsky, F. Grant, H. Kenny, A. Trotter.

Says Trans-Canada Road Should be Close T. & N. O.

Writing to The Advance last week a reader of this paper for some time urges that the Trans-Canada highway should be as close to the T. & N. O. and Canadian National Railways for the following reasons:—

First:—Both railways are government-owned. Second:—The Trans-Canada highway will be government owned. Third:—The country is trying to make both the railways and the highways pay well.

Fourth:—All the gasoline and provisions, etc., that the tourists and others will use will come by government-owned railways, and not by privately-owned.

Fifth:—Following the route near the railways mentioned, the highway will touch all the great gold camps and silver areas, and will connect with James Bay.

Sixth:—The Trans-Canada highway on the route proposed will help all the settlers who have made their homes in this North.

Seventh:—If the highway is to be truly "Trans-Canada" then it must be as far north in Canada as practical. To build it close to the border would be to risk making it a rum runners' highway and too close to the U.S.A., where they already have five or six cross-continent highways.

Eighth:—The highway should be located where daylight is the longest, where the tourist season is the busiest in June, July and August. Farther north the daylight grows longer.

Kitchener Record:—The "b" in debt is not sounded. It is merely put in to provide the sting.

QUEBEC BUREAU OF MINES

REPEATS FORMER WARNING

Pointed Out Again That the Unintiated Should Seek Advice From Bank and Departmental Officials Before Making Investments.

A warning to investors in mining enterprises is contained in an article included in the official report of the Quebec bureau of mines for the year 1929, which has just been issued.

Under the heading of "Mining Investments and the Public" the report states: "Between the years 1923 and 1930 some 500 mining companies have been organized and incorporated to operate in the province of Quebec, with authorized capitalization varying between \$1,000,000 and \$6,000,000 or several million shares of no par value.

Unfortunately, only a comparatively small proportion of these companies have as primary aim the earnest and systematic prospecting and development of the mining claims which they retain. Of this minority quite a number after working earnestly and spending money judiciously will be disappointed and will finally come to the conclusion the deposits and mineral indications they are investigating are not of sufficient size to be worked with profit, and will abandon them.

"So it is probable in a few years a limited number of these 500 companies will still be in existence, perhaps a dozen or so, while the balance will have had the ephemeral life of the vast majority of such ventures.

When the T. & N. O. gets to James Bay this reader visualizes a James Bay Navigation Co. with smart steamers to take tourists around the bay. He thinks attractions like these will soon bring thousands of Americans to the great North. "Let us loosen up the money," he says in conclusion, "it's no good when we are dead. Let us see all we can before our time comes."

Holly Stores 3 2 2 1 1 1 2 1—15 Shamrocks 1 0 0 2 2 0 0 1—6 Umpires—Plate, J. Walker; bases, Armstrong.

It may be taken for granted the ultimate results of the discovery and development of new mining regions, when successful, are: (1) a few good producing mines which contribute to the national prosperity, and (2) a multitude of mining claims, which will never produce ore and of which a large proportion are used to exploit the public.

The recent serious market decline, has demonstrated the dangers of attempting to amass a fortune in a short time by speculating on the fluctuations of shares of mining companies as quoted on the mining exchange. As a rule such persons do not consider the physical value of the properties on which they gamble and do not think of their possibilities as payers of dividends.

A good rule to adopt on the part of the public is never to invest hard-earned savings in mines without first consulting disinterested competent advisers, such as bank managers, trust companies and officials of the various government departments of mines, federal and provincial.

WOMEN SAID TO HAVE BEEN CARRIED AWAY BY A BEAR

A very strange story comes this week from Belleville, Ontario. According to this story, Mrs. Thomas Reeves, living near McArthur's Mills in Mayo township, a northern extremity of Hastings county, was carried away Monday by a large female bear towards a nearby bush, and was only released when the animal's attention was diverted by her cubs squealing.

Mrs. Reeves was badly bruised and scratched about the right arm and chest. Mrs. Reeves with two children was looking for cows, and when in the middle of a field a large female bear came out of the woods and attacked her. The woman was helpless, and could offer but little resistance.

Kitty: "Jack says he can read me like a book." Phyllis: "You mustn't take Jack too literally, dear. He probably means that you are a very plain type."

And Now—The Quebec Festival!

Habitant artists, born and bred on the soil of the Province of Quebec, and celebrated artists from cosmopolitan centres of culture will rival one another in recovering the spirit of old France and old New France at the Quebec Festival of French-Canadian Folk-Songs and Handicrafts, which, the Canadian Pacific Railway announce, will be held on October 15, 17 and 18 this year, with headquarters at the Chateau Frontenac.
