General Freight and Passenger Agent, North Bay, Ont.

TEN YEARS AGO IN TIMMINS

From data in the Porcupine Advance Files.

Ten years ago at this time The Advance had commenced to talk about hockey for the approaching winter. Perhaps, the weather was cool and winter-like, or it may be that it was especially fine, thus suggesting the chance of a swift change to winter anytime in this North. The Advance found a notable array of hockey talent in town in 1920. There was confidence that Timmins could win the championship of this part of the North at least. For goal, The Advance mentioned Watters, Hogarth and McIntyre; for defence, Spring, Loughrin, White and Cox; for forwards, Stewart, McGuire, F. Lefranter, Brennan, McCurry, Parker, Campbell, Brown and Simms.

Ten years ago a meeting of the directors of the Hollinger Consolidated Gold Mines, Limited, was noted as occurring in Timmins, as well as an inspection of the property here. The T. & N. O. had what The Advance termed one of its regular wrecks on Thursday, Sept. 23rd, 1920. The Advance at the time suggested that the wrecks were so regular that the railway ought to arrange regular days for holding them, so that the regular freight and passenger service could be carried on during the other days for the convenience of the public. Probably the T. & N. O. had no greater proportion of wrecks than other railways those days but it seemed as if they had. At any rate the T. & N. O. to-day has fewer wrecks than other railways, and it may be that the publicity given by the newspapers of the North Land had an effect in achieving this desired result. At the same time it is only fair to note here and now that after Geo. W. Lee took direct charge of the T. & N. O. everything about the road was better, and to-day those in a position to know admit that the T. & N. O. is probably the best conductor railway on the continent in every way.

Ten years ago all railroads seemed to be in bad condition as regards their tracks and rolling stock. This was blamed on the war, as was the case with nearly everything since the war, from the poor quality of the pie to the morals of the young folks. The Advance gave a suggested time-table including: "No. 3 and 4, the National, daily; Nos. 46 and 47, daily; Nos. 60 and 31, mixed, daily except Sunday; No. 8, mixed, Saturday only; wrecks, freight, Saturday, only; wrecks, passenger, no open season on the T. & N. O." The wreck that roused the sarcasm of The Advance was at Kenogami Lake, and like some fires, it was of unknown origin. Three cars in the train went off the track and piled all over each other. The passengers on No. 47, northbound, got a jolt and a shaking-up, but no one was really hurt. There was a long delay to all traffic, however. The passengers for Timmins were about eight hours late in reaching here. Those for Iroquois Falls were left at Porquiss Junction for about seven hours. The Advance begged the T. & N. O. to make better provision for handling such cases without so much inconvenience and hardship to the travelling public. The T. & N. O. since then has done its level best and conditions now are generally excellent, thank you.

The Advance of Sept. 29th, 1920, said: "A pretty wedding took place this morning at the home of Mr. and Mrs. M. S. Nagle, when Miss Margaret Murray and Mr. Wallace Stroud were united in marriage. Rev. J. D. Parks, pastor of the Timmins Presbyterian church, officiated at the ceremony. Mrs. Sid McCoy played the wedding march, and Miss Craig Hogarth sang in her usual pleasing way. Mr. Stroud's father was up from Montreal to be present at the event. After the ceremony a delightful wedding breakfast was served by Mrs. Nagle to the party of immediate friends and relatives present. The young couple left on the 11.30 train for their wedding tour, after which they will take up residence in Montreal. The best wishes of all in the camp will follow them as they were both highly esteemed and very popular in many circles. Miss Murray was for some time past on the office staff of the Hollinger Stores. Mr. Stroud was formerly on the staff of the Hollinger Mine and among the most popular of the old-timers of the Porcupine."

Wm. Birdick, cameraman of Filmcraft, and another member of the Filmcraft staff, were in Timmins ten years ago in connection with a tour of the North Land where they were making pictures for the T. & N. O. Railway. These pictures were shown to the outside world to give a correct impression of the great land through which the T. & N. O. Railway runs. The pictures were good and no doubt had the desired effect in giving favourable publicity to the North Land.

The Advance ten years ago said: "Billy Matheson, the evangelist, left this week for North Bay after a month's struggle to rescue the perishing in Timmins. Timmins, however, still has to be good for the Missions as still in progress at the R.C. church here. It is just such visitors as these, together with the local clergy who are busy all the time, that keep Timmins trying to be good all the time." In connection with the Mission at St. Anthony's R.C. church, The Advance also published the following paragraph: "A gentleman living up on the hill has reasons for believing that the Missions now being conducted at the R.C. church here are assuredly helpful and improving. Recently he lost five

chickens from his poultry house and he had counted them as lost forever. The missionaries at the church, however, had very earnestly impressed the lesson of property rights, and very carefully explained that if a man "found" anything or acquired anything that did not belong to him, it was his duty to search out the owner and make return of the strayed property. As a consequence of the good morals and the Christian citizenship thus taught, the gentleman on the hill was sought out last week and four of his strayed fowl duly returned. This sort of respect for others and their rights very naturally creates a respect for the religion that inspires it. But if it became too universal it might cause considerable disorganization in affairs these days."

The Advance noted ten years ago that E. J. Zavitz, Director of Forestry in the Department of Lands and Forests, was to be given an important new post in connection with the forestry policy of the Government then in power—the Drury Government. He was announced as the Superintendent of Woods and Forests, and as such was to be entrusted with the greater part of the responsibility for the reforestation policy that had for some time previous been receiving attention at the hands of the Government. Mr. Zavitz was credited with much of the improvement made in fire-rangings and forest fire protection up to that time in Ontario.

In the issue of The Advance of Sept. 29th, 1920, there was a rather lengthy article on Iroquois Falls. Special reference was made to the beautiful parks at Iroquois Falls, the good roads, the miles of sidewalks, the lawns, the well-equipped homes, the large and modern school, the facilities for all kinds of sports from tennis to soccer and baseball, the golf course, and the fine hotel boasted by the town. The hotel, it was pointed out, had 200 rooms and about 25,000 meals were served in it every month. There was also comment on the construction work in progress in the town. "One of the wonder towns of the North" was the heading on the article, a sub-heading saying: "Iroquois Falls, the Big Paper Town has Made Remarkable Progress. One of the Province's Beauty Spots."

The death of a well-known and very highly-esteemed railroad man was chronicled by The Advance ten years ago, when this paper spoke of the sincere regret felt by wide circles of friends in the district at the sudden death at Kapuskasing of P. J. McConomy. The late Mr. McConomy was for several years on what was termed "the Falls run," from Porquiss Junction to Iroquois Falls and return. Mr. McConomy for some little time previous to his death had been at Kapuskasing where he was yardman for the Canadian National. He passed away on Sunday, Sept. 21st. Among the near relatives surviving, The Advance specially mentioned his son, Ken McConomy, who was then and later very well-known and popular in sporting and in railroad circles.

The following paragraph is from The Advance of Sept. 29th, 1920: "Mrs. A. Roberts, Miss Jean Roberts, and Master Bobby and the twins, returned on Friday morning to their home after their trip to Scotland, Mrs. Roberts' old home land. They were accompanied here by Mrs. Roberts' sister and the latter's husband (Mr. and Mrs. Jas. Cowan) and Mrs. Roberts' mother, Mrs. Simpson, all of whom are taking up residence in Timmins. Mrs. Roberts and family had a pleasant visit in the Old Country, but found conditions there generally not as promising as before the war. The return voyage was stormy and the wreck on the T. & N. O. Thursday evening was also encountered with its accompanying tiresome delay. Mr. A. Roberts went south last week to meet the home-coming party."

Among the local and personal items in The Advance ten years ago were the following:—"The foundation has been built and the work of construction well under way, in the building of a big modern store for the McIntyre Mercantile Company of Schumacher. Work is also under way in the construction of a new refinery building for the McIntyre Mine. The new refinery, when completed, will be the finest of its kind in Canada, it is said." "F. T. Stewart, manager of the Kirkland Lake office of H. B. Wills, & Co., spent the week-end in town." "Robt. Wilson has returned from a visit to Kingston and other points south." "Mrs. B. Harker visited her old home in Renfrew last week." "Mr. and Mrs. J. W. Faithful returned last week from their holiday visit to the U.S.A." "Miss L. Lacasse returned last Friday from a visit to Bay City, Detroit and other points in Michigan." "D. Loughrin returned last week from his vacation visit to his home at Mattawa, and to other points east and south." "Mr. Geo. Schaeffer, of the Hollinger Stores Ltd., returned on Wednesday last from the south, accompanied by his bride, Mr. and Mrs. Schaeffer have taken up residence in Rochester townsite, in the house formerly occupied by Mr. J. F. Tierney. Friends in the camp extend best wishes to the newly-wedded couple." "Jos. A. Theriault, of Montreal, is renewing acquaintances in the camp, being on a business trip and to see old friends here." "A group of hunters, including Art Young, Fred Sexton, and others, left last week to be ready and in position for the opening of the season."

E. Montgomery, J. W. Fogg and others were expected to join the party this week." "Married—At the Presbyterian manse, Timmins, by Rev. J. D. Parks, B. D. Kelly, of Timmins, to Miss Margaret McDougall, South Porcupine. Mr. and Mrs. Kelly have taken up residence in Timmins. Their friends in the camp extend sincere good wishes." "Mrs. Brough has returned from a visit to her son, A. G. Brough, at Shawville." "Mrs. P. Jeffrey left on Thursday last for Halleybury to take treatment in the hospital there. Her many friends in the district will sincerely wish her an early and complete return to health." "Born—On Saturday, Sept. 25th, 1920, to Mr. and Mrs. J. E. Sullivan—a son." "Joe Brennan, volunteer fireman, and very popular in baseball and hockey in which games he is very expert, left last week for North Bay and the Sault." "Mrs. C. G. Beaudin is taking medical treatment at Halleybury hospital. Word received this week by Mr. Beaudin indicates that she is making excellent progress to complete recovery." "W. T. Curtis left this week for the south and is expected to return in the course of a couple of weeks accompanied by his bride. He is to be married to-day, and his hosts of friends in the camp will extend him the sincerest good wishes on the occasion." "Owing to lack of a quorum the regular meeting of the town council was not held on Monday evening. Many of the councillors, as well as the mayor, are out of town on well-earned holidays, and for Monday evening's meeting only Councillors E. L. Longmore, W. DePeu and D. Laprairie were present." "R. Bryce has returned to Halleybury after spending the past week visiting in the camp." "P. Bar-desco left on Sunday for a holiday trip to the West and South. Gene Colombo is acting manager of the theatre during the absence of the big boss himself." "Nick says: I never take a single drink. I always take two. A bird can't fly with just one wing. And I want you to understand I am some bird." "Steve Berrigan, an old-time prospector, is back in town after some months spent in the Hurricanaw district. He says that things look bright enough in the Hurricanaw district and he thinks this area a very promising one for honest and persistent prospecting." "At the Fall assizes at North Bay commencing October 4th, a case of special interest to the people of the Porcupine will be the trial of A. Calvano, accused of the murder of William Gurrino ("Billy the Pig"), formerly of the King George hotel, South Porcupine. Calvano is being defended by Hon. T. W. McGarry, K.C., of Toronto, and G. A. McGaughey, of North Bay." "The Advance herewith quotes the following from The Pas Herald (Manitoba):—Some crazy loon was

Organization in Canada in Industry and Commerce

The Department of Labour has just issued the ninth report on organization in industry, commerce and the professions in Canada for the year 1930, a volume which conveys some idea of the extent to which organization has developed among those identified with the industrial and commercial life of the Dominion. The report also contains much information in regard to associations whose members are engaged in professional, technical and scientific pursuits. The organizations are divided into the following groups:—I. Manufacturing; II. Building and Construction; III. Mining; IV. Transportation and Communication; V. Printing and Publishing; VI. Laundering, Cleaning, Repairing; VII. Personal Service and Amusement; VIII. General Manufacturers and Employers; IX. Financial; X. Agriculture; XI. Dairying; XII. Horse, Live Stock, Sheep Breeders, etc.; XIII. Wholesale Merchants; XIV. Retail Merchants; XV. Real Estate Dealers; XVI. Professional; XVII. Technical and Scientific; XVIII. Insurance; XIX. Funeral Service.

According to the report, there are in the Dominion 347 main and branch associations, with a combined membership of 45,620, composed of persons or firms who are connected with industries in which the employment of workmen is an important factor. With some of the corresponding unions of wage earners many of the organized employers have agreements covering conditions of employment in their various establishments. In the remaining eleven groups the employment of labour is in some cases only incidental, and with the exception of the retail merchants' section there is no corresponding body of organized employees.

While for the most part the associations whose names appear in the report are purely Canadian, a number are affiliated with organizations whose headquarters are in the United States. The names of associations printed in the report number 791 main organizations and 733 branch associations, making in all 1,524 associations, with a combined membership of 946,244, which in some cases apply to companies, but in the main the figures represent individuals.

shooting off an automatic revolver on Sunday morning near the bath house, and it is generally suspected he was crazy over a woman. The poor boob! Inspector Maybury was watching the practice and he allowed that the son-of-a-gun was trying to blow up Norgrove's ballots."

NEW UNITED CHURCH NOW OPENED AT LATCHFORD

Another new United Church in the Presbytery of Temiskaming has been opened. This latest church to be added to the North was recently dedicated at Latchford. Rev. D. A. MacKeracher, of Halleybury, chairman of Presbytery, officiated at the ceremony of dedication on Sunday morning, and Rev. R. B. Cochrane, of North Bay, superintendent of missions for Northern Ontario, preached the sermon. The service was conducted by Rev. D. J. Ewing, pastor of the church. In the evening, Rev. Mr. Cochrane again preached. While the building was in course of erection, services were held in the Anglican church in the town.

SCHUMACHER MALE CHOIR TO BE AT TIMMINS, OCT. 17TH

The people of Timmins will have opportunity to enjoy a genuine musical treat on Friday, Oct. 17th, in the Timmins United Church, when a concert will be presented by the Schumacher Male Voice Choir, under the auspices of the Young People's Society. The Schumacher Male Voice Choir will delight all with the variety and the excellence of the programme presented. There will be solos, duets, quartettes and choruses, and the general opinion will be that any single item will be worth the price for the whole programme. The Schumacher Male Voice Choir's quartette is a particularly good one, as those who heard it at the Cornish Football Club event on Saturday evening will very gladly testify. The Schumacher Male Voice Choir is one of the best-balanced and best trained choral organization ever gotten together in this camp. This is the opinion of music lovers in Schumacher, Comaught and South Porcupine, where they have been heard. The choir has achieved a very enviable reputation, so much so, indeed, that they have been asked to sing at places as distant as Cochrane and Kapuskasing. Under the very competent leadership and direction of Mr. Bowden the Schumacher Male Voice Choir has reached a high standard of excellence. Friday evening, Oct. 17th, will be their first appearance in Timmins, and there certainly should be a large attendance at the United Church to hear this talented choir.

Pembroke Standard-Observer—Announcement is made by Premier Ferguson that an extensive educational campaign to encourage the buying and eating of Canadian products in Ontario will be launched by his Government in the very near future. Radio, lecture staffs and the newspapers are all to figure in the program.

NORTH BAY COUNCIL HAS STARTED INVESTIGATION

Charges that a Toronto firm of contractors working on the new technical school at North Bay were not following specifications and that they were persisting in this attitude despite warnings, were made by Alderman Stevens at a special meeting of the North Bay city council on Saturday evening of last week. Alderman Stevens referred specifically to the use of pit run of gravel when the specifications unequivocally call for screened material. The contractors had been told earlier in the week to quit using unscreened gravel but he said, they had continued to do so.

Other features calling for investigation, the alderman continued, were the addition of \$1,300 to the plumbing and heating contract, the date set for the completion of the contract and the provision of \$2,000 by the contractors for the use of the architects to take care of contingencies, when the architects are being paid a regular fee. Impressed by the seriousness of the alderman's charges, council decided that an investigation should be made by joint committee of the council and the Collegiate Institute Board, under the chairmanship of Major Robert Rowe. No money will be paid by council on progress estimates until the report of the committee is dealt with. Aldermen Stevens, C. Gerry and Workmen were named as the council's representatives.

Annapolis Royal Spectator:—Look out for garden thieves. Not only squash and pumpkins but potatoes and all sorts of vegetables are being stolen out of the ground these nights, both in town and in the suburbs. The thieves work with pocket flashlights. Two or three shot guns are however being prepared to be fired on chance.

London, England, Morning Post—It is news to me that the sidemarks carried by Chinese soldiers include umbrellas. A correspondent who knows their battle order tells me that it is usual for them to go into a fight prepared to resist not only a rain of shot and shell, but the gentler rain. General Feng Yu-Hsiang, who appears mysteriously in telegrams as the "Christian General" is said to attribute much of his success to the fact that he has succeeded in training his men to fight without umbrellas. In a recent battle he charged in a thunderstorm, and the enemy abandoned heavy guns and ammunition, but, I presume, saved their umbrellas and were not disgraced. Feng's new method of warfare has caused resentment at Nanking, where it is declared to be contrary to the conventions of Chinese warfare.
