INDIVIDUAL AVERAGES IN THE FRATERNAL BOWLING

A. Tomkinson Heads the List with A. Sauve a Close Second. Results of the Bowling in the Fraternal Bowling League for 1929-1930.

The following are the individual averages in the Fraternal Bowling League for the season's bowling of 1929-1930:—

Table with columns: Name, Games Av., Score. Lists bowlers like A. Tomkinson, A. Sauve, D. Reid, etc.

Fall Gardening Work In the North Country

Writing in The Northern Tribune last week H. Stratton says:—

"In our Northern climate fall gardening is more important than the spring gardening. By weeding, digging, and planting, spring work is very much lightened, and also gives one an opportunity in the spring to do the more important work without so much rush. Although the weather is a little cool and we have had a few frosts, do not neglect your flowers. Go over your flower beds and cut off all that have been frozen or are finished blooming. There are many flowers that will keep on blooming until the snow covers them, and even then they make a stubborn fight for existence. This is the season when flowers are appreciated. When the sun is hidden by dark clouds and the days are getting short they brighten your garden with a light that no overcast sky can hide, so keep them blooming on; they will be a few months before you see their sunny faces again.

"You know, folks, flowers are like true friends—we are loath to see them go. Of course there are the everlasting, the artificial and the waxed flowers to brighten the eye, but we people of the North do not care for artificialism; we want reality; so let us keep reality with us as long as we can.

"Let us take a look around. This is the 25th of September. We have had several hard frosts, the worst one on the morning of the 23rd; but fortunately there was a heavy mist which obscured the sun and allowed the stuff to thaw out gradually, thus saving it all. This is the first summer since 1920 that all the soft plants such as nicotiana, dahlias, marigolds, salvia, balsams, zinnias, geraniums, nasturtiums, etc. have not been cut down by frost on the 23rd of September. But that does not mean that we haven't had frosts. It is because it has turned cloudy or misty before the sun has struck in the morning.

"The flowers that will keep you cheered by their bloom from now till snowfall are as follows: antirrhinum, asters, pansies, petunias, alyssum, coreopsis, mensembranthemum, crystallinum, phlox drummondii, portulaca grandiflora, mignonette, scabiosa, schizanthus, verberna."

O'BRIEN CO. SUIT RE MINES PROFIT TAX TO BE DROPPED

Cobalt Mining Company Now Said to Be Agreeable to Drop Action Started Against the Township of Coleman.

A couple of weeks ago in mentioning the suit entered by the O'Brien Mines Co. against the township of Coleman in regard to the disposition of the money received by the township from the mines profit tax, The Advance pointed out that the case would be following with very great interest in the North because its decision might affect to a considerable extent the financing of each and all the mining towns and townships of the North. In pursuance of this idea it is logical to believe that there will be very general interest in the following despatch from Cobalt published in The North Bay Nugget last week. The Nugget correspondent at Cobalt writes:—

"The dispute between the owners of the O'Brien Mine at Cobalt and the township of Coleman, and which related to the disposition of the municipality's share of the revenue accruing from taxation of the mine's profits for 1929 will not be pressed before the courts if it is learned, O'Brien interests had launched an action in the Supreme Court, in which it had been sought to compel the township council to accede to wishes expressed regarding the money involved, but it is stated they are now agreeable to dropping the action and to agree to a non-suit, with costs. The matter may be referred to formally at the non-jury sittings of the Supreme Court in Halleybury next month, but it will be only for the purpose of settling the costs. The Nugget was told here. The mine has paid over the money, nearly \$4,500 to the municipality. The owners tried to have the revenue from this source applied wholly to schools, in the proportion of 95 per cent. to the separate school and the balance to the public school, while the township council argued that it was payable into the general funds. An injunction taken out by the mine interests was dissolved by Mr. Justice Raney in Toronto recently, and His Lordship at that time left the disposition of costs until the action would come before him a Halleybury in non-jury court, at which he is to preside. The case had aroused much interest in the district in view of its possible relation to the general question of mining profits and their taxation."

CANADA'S SOLICITOR-GENERAL

HON. MAURICE DUPRE Solicitor-General in the Bennett Cabinet, from his most recent photograph. Mr. Dupre is a former Rhodes scholar and a graduate of Oxford University.

It may give many people a different idea of agriculture in this North Land just to peruse this little item from the Shillington correspondence of The New Liskeard Speaker last week:—"Mr. Wm. Hartford has finished his harvest. Mr. Hartford has one of the largest farms in the community and this year he has done most of his work by tractor."

PREDICTS NEW CALENDAR

MOSES M. COTSWORTH Expert of the League of Nations' Committee on calendar simplification, pictured at Tokyo, Japan, where he is interesting the chambers of commerce, employers and employees, in the 13-month calendar. Mr. Cotsworth predicts that by 1933 the new calendar, instead of the Gregorian one now used, will become international in use.

TIMMINS BOWLERS ELECT OFFICERS FOR THE YEAR

Bowling Appears off to a Good Start. Some New Rules Adopted at Annual Meeting. Prospects Appear Bright for Good Season Here.

The annual general meeting of the Timmins Bowling Association was held on Monday night in Stevens' Amusement Parlours with a representative gathering of bowlers present, and among the high-lights of business discussed was the election of officers, decision regarding the league and the inter-town league.

The financial report of the past year was read and adopted, and President E. Reid then declared the meeting open for nomination for officers, the following being elected by acclamation:—President, K. Eyre; vice-president, E. H. Hill; secretary-treasurer, A. Sopha; these and three elected members and the immediate past-president are to constitute the executive committee of the association.

It was decided to appoint three members to present the secretary with some memento as a token of appreciation for his work during the past year. It was decided that the name of the old Ostrosser League be changed to the Timmins Mercantile League, and this league play their games on Monday evenings instead of Wednesdays as on previous years.

A motion that the entry fee for each team be five dollars, the sum to be returned at the end of the schedule if the team completes its games, defaulting two consecutive games to consist of forfeiture of standing in league and entry fee, was passed with small discussion.

The picking of players for the inter-town league caused some discussion, a motion that players be picked from the seven highest averages from last year's players, and an amendment that the players be picked from the seven highest averages for the first half of the present schedule, or the highest averages from this schedule when the inter-town league starts if the first half is not completed, were voted on, the amendment carrying. Accordingly players for the inter-town league will be picked from the seven highest averages of players in the present schedule.

It was decided that all teams and players be registered without delay so that the bowling season get away to an early start. All players are requested to have names of players into the hands of the secretary by next Monday evening, so that schedules may be drawn up and the game get started.

Representatives from Marshall-Ecclestone Limited and The Porcupine Advance signified their intention to enter teams in the Ostrosser Mercantile League.

Various other matters relating to the Bowling Association were discussed before the meeting adjourned.

Pembroke Standard-Observer:—"The duty of 8 cents per pound on our butter is prohibitive," says Premier Forbes of New Zealand. Well, that is just exactly what the Canadian farmers want and they would be a mighty lot in pocket to-day if there had been a duty of 8 cents years ago.

Report of Milk Tests Township of Tisdale

The following is the report of the laboratories of the Ontario Board of Health on milk samples received from C. McInnis, chief of police, South Porcupine, on Sept. 23rd. It may be noted that this is the best report received by the township for some time. It may also be said that the close attention given to the matter by the township officials has resulted in the township having a splendid supply of good milk.

The report as signed by W. A. B. Mitchell, M.D., director of branch laboratory at North Bay is as follows:—

Table with columns: No., Collected, Fat, Bact. P.C. Lists samples from Geo. Helmer, Kinninan, Joe Bospalkro, etc.

INCREASE SHOWN IN THE MANUFACTURE OF PULP

Dealing with the pulp and paper industry in Canada for 1929, a report issued of Statistics said: "It is seen that the exportation of unmanufactured pulpwood is decreasing in quality and relative importance while the further manufacture of this raw material into pulp in Canadian mills is increasing at a rapid rate."

The report placed the gross value of production for 1929 at \$243,970,761 and shows how this mounted steadily from \$193,092,937 in 1925. Since 1922 the industry in Canada has stood first for gross and net values of manufactured products; in 1929, it stood second for capital investment and was second for numbers of persons employed.

There were 108 establishments in operation in 1929. Of these, 34 made pulp only, 46 were combined pulp and paper mills and 28 made paper only. Newsprint paper made up 85 per cent. of the total tonnage of paper manufactured in 1929, amounting to 2,725,331 tons, valued at \$150,800,157.

TIMMINS BRANCH WINS TWO GRAND PRIZES IN CONTEST

Championship Trophies and List of Prizes Come to Manager and Salesmen in Very Washer Store at Timmins. Worthy Creditable Record for All Concerned.

In the 1930 "All Canada" summer washer sale held by Beatty Bros. Limited, and concluded on August 31st, the Timmins branch store under the management of Delmar Chappe won the highest possible awards of the company in this annual event, according to figures just made public by Beatty Bros. Limited. For the first time since championship cups were awarded, the two cups, one for volume and one for percentage sales, were won by the same store, and this high honour comes to Timmins.

In summarizing the achievements of this branch, Timmins is listed as having won two grand prizes for the first and second highest sales for individual salesmen; the first prize for store manager having highest volume over quota in the contest; first prize for store manager having highest percentage over quota; two cups for having the highest volume of sales over quota, and biggest percentage increase over quota; a prize for the manager leading the stores in his group in volume over quota, two weekly prizes for the two salesmen having highest sales in the last two weeks of the contest, a prize to be distributed between the winning salesmen and crew managers, and a dinner given to the entire staff and salesmen.

The Timmins store led all Canada by exceeding their quota by 295.9%. Two Timmins salesmen, Messrs W. D. McIntyre and M. Sawchuck, are among the leaders in Canada, McIntyre actually topping the list of salesmen, winning the special prize for top-notchers in August, and the 1st grand prize for the summer contest.

In "The Beatty Booster," a publication issued by the firm for employees, the front cover contains a picture of Mr. McIntyre as the leader in selling washers, as well as giving detailed reports on the achievement of the Timmins store. Mr. McIntyre's and Mr. Sawchuck's pictures are also listed under the grand prize winners for washers and several bouquets are handed Mr. Chapple and his staff for their achievement, which reflects great credit not only on the store manager, but also on the salesmen who assisted him in putting his store in the first rank among all Canadian stores, an achievement more worthy of note when it is remembered that Beatty Bros. have only had a store in Timmins for a few months.

Miss Margaret Macpherson left last week to attend Toronto University where she will take a course in Art.

AVERAGES OF OSTROSSER LEAGUE FOR THE SEASON

Averages of the Various Bowlers for the 1929-1930 Season. R. S. Webb of the Hounds Team, Has the Highest Average.

The following are the averages for the Ostrosser League for the season's bowling of 1929-1930:—

Table with columns: Name, Games Av., Score. Lists bowlers like R. S. Webb, A. Sauve, E. Reid, etc.

MOOSE FACTORY PICTURED AS SUMMER RESORT IN 1932

An editorial in The Toronto Mail and Empire last week says:—

"The Ferguson Government, like the Bennett Government, possesses in remarkable degree the faculty of achievement. It knows its own mind and goes ahead and gets things done. A notable instance is to be found in the manner in which it has handled the provincial railway, which has lately opened up enormous commercial lignite deposits on the Hudson Bay slope and which is now being pushed to Moose Factory, on James Bay. It is, indeed, announced that the T. and N. O. Railway will reach that very remote, hitherto romantic and almost imaginary Hudson Bay post, by the middle of August, 1931. Thus, for the first time in its history, Ontario will obtain a seaport of its own. An adequate railway terminus is to be built and harbour facilities provided. Not only this! We learn from Mr. Lee of the provincial railway that the management is to provide Moose Factory with a modern hotel with 200 rooms, to accommodate the considerable tourist traffic that is expected to follow the completion of the railway. It is, therefore, quite on the cards that many people from Toronto and other parts of Ontario will spend their summer holidays in 1932 on the shores of that immense inland Canadian sea upon which Hendrik Hudson perished in giving it his name."

Toronto Mail Empire—While the police have made no progress in the Rumbold and Perri murder cases, they are at least not slipping. They are holding their own.
