**MOOSE LODGE CARNIVAL
 TO BE HELD HERE NEXT WEEK**

Mammoth Exhibition and Carnival in the Skating Rink, Oct. 15th, 16th, 17th and 18th. Good Show Promised and Attractive Prizes.

Arrangements are now about perfected for the mammoth exhibition and carnival to be held in the skating rink, Timmins, on Wednesday, Thursday, Friday and Saturday, October 15th, 16th, 17th and 18th, under the auspices of Moose Lodge, 1658, Timmins. The Timmins Lodge of the Moose have a reputation for doing things well and they say that for the event next week they are planning to have the biggest success yet.

The event next week will include a large number of booths with elegant displays of merchandise and novelties. All the booths will be attractively decorated and well worth a visit every evening. Then there will be the usual games and specialties with a number of new ones. The prizes will be notable for quality and value. There will be something for everybody and everything for somebody in the way of fun and entertainment.

One of the special features for the exhibition and carnival will be a series of vaudeville acts coming direct from Buffalo, Detroit and Toronto. The vaudeville, those in the know assert, will please all, and will be one of the things that will help to make this carnival different.

As a feature of the carnival a 1930 Ford Sedan car is to be given away. This car will be run on the streets for twenty-eight hours and the person who makes the correct estimate of the actual mileage travelled will receive the car free as a prize for his or her skill. Tickets are being sold which allow an estimate on the mileage of the car and at the same time entitles the holder to five admissions to the exhibition and carnival. These tickets may be secured from any member of the local Moose Lodge.

The Moose Lodge expects that the patronage at the event next week will be large, as the lodge is popular here and has done a considerable amount of good and hopes to continue to help in the future as in the past.

**REV. MICHAEL J. O'GORMAN
 GIVEN NEW APPOINTMENT**

Many in Timmins know Rev. Michael J. O'Gorman, brother of Rev. Father J. R. O'Gorman, parish priest of the Church of the Nativity, Timmins. Rev. Father O'Gorman has visited in Timmins and made many friends here. There will accordingly be much interest in the despatches recently announcing his appointment as domestic prelate. He has been for some years past the pastor of the Sacred Heart Church in Edmonton, Alberta. Continuing the despatches say:—"Father O'Gorman was born in Renfrew, a son of the late J. K. O'Gorman and Mrs. O'Gorman, now of Cobalt. Rev. John R. O'Gorman, of Timmins, is a brother. Educated in the schools of Renfrew, Ottawa University and the Grand Seminary, Montreal, he was ordained in Pembroke in 1915. For a time he was curate at Fort Coulonge, Que., afterwards serving as chaplain overseas for two years with the Canadian Railway corps. On his return he was parish priest at Wylie for two years, and then transferred to Edmonton archdiocese. His investiture will take place in his own church in Edmonton on October 26, with Archbishop O'Leary officiating."

**Provincial Officers
 Face Charge of Assault**

**Moose Motor Car to be
 on Display on Saturday**

The handsome motor car to be given away free in connection with the mileage estimate under the auspices of the Moose Carnival at the skating rink, Timmins, on Wednesday, Thursday, Friday and Saturday of next week, Oct. 15th, 16th, 17th and 18th, has been duly purchased and will be on display on Saturday of this week. There will be great interest in this feature of the carnival—a feature that all who buy tickets for the event may participate in. The tickets are to be sold at a dollar each and will give five admissions to the carnival. The holder of a ticket may estimate the amount of mileage on the car, the auto to be in action for twenty-eight hours next week, and the person giving the correct estimate of mileage wins the car. A number of young ladies will assist in the sale of the tickets and these may be recognized by the official badges which they will wear.

At police court at Cochrane this week Provincial Constables Page, Reavley and Kearman were charged before Magistrate Tucker with assault occasioning actual bodily harm to Oscar Witanen, of Cochrane. In connection with the same matter Constable Page is also understood to be facing a suit for \$5,000.00 damages for injuries occasioned to Witanen. The police court proceedings on Monday were adjourned for a week. It is likely the damage case will be completed until the police court cases are disposed of. According to information in despatches from Cochrane Witanen is a highly respected citizen of Cochrane and the owner of a hotel and taxi-cab business there. The facts of the case are outlined in the despatches as follows:—Witanen was hired by three Finlanders to take them for a drive. It is alleged that two of the passengers were in an intoxicated condition, and the third reasonably sober. When several miles from town the car, through some misadventure, went into the ditch. Witanen returned to Cochrane for a salvage car to pull him out, leaving his passengers with the car. While Witanen was away the passengers got into a fight, and Constable Page, in plain clothes, and accompanied by his wife, happened along. The provincial officer attempted to stop the fight, but was not only unable to do so but states he was roughly handled by the two Finlanders. He went on to Cochrane and secured the aid of Constable Reavley, of Ansonville, and Constable Kearman, of Coral Rapids. The three went back to the scene on the highway. In the meantime Witanen and a garage man were at work on the auto. Witanen says that when the three constables arrived Page pointed him out to the others as one of the men who had assaulted him, and the three of them pounced on him in spite of the protestations of the garage man, and proceeded to "beat him up," breaking his collar bone and causing other injuries. On his return to Cochrane he charged the three officers with assault, and is suing them jointly for \$5,000. One of the despatches from Cochrane in referring to the matter says:—"Popular sympathy appears to be with Witanen, who bears a blameless reputation. It is stated that he runs a model hotel and is in every way a respectable and quiet citizen. On the side of the constables it is pointed out that the Finnish residents of the town have an unenviable reputation for carrying knives and using them in combat. They undoubtedly believed that Witanen was the man who had attacked Page, and assault on a constable is an offence for which a warrant for arrest is not required. They were justified in using whatever force was necessary to effect the arrest."

**LEGION'S FOURTH ANNUAL
 HALLOWEEN BALL, OCT. 31**

Arrangements are now well in hand for the fourth annual Halloween ball, held under the auspices of Timmins Branch 88, Canadian Legion. The event this year will be held on Friday, Oct. 31st and all intending to be present are asked to take this notice as a warning to get their costumes ready. Past Halloween events of the Legion have proven to be outstanding in the number and novelty of the costumes for like events, and this year should prove no exception to the rule. Good prizes will be awarded for the costumes and patrons are asked to watch The Advance for particulars.

**PRISONER ESCAPES FROM
 COBALT JAIL ON SUNDAY**

A prisoner in the Cobalt jail made his escape on Sunday afternoon and is still at large according to all accounts. His name is given as Leo Bonin and his age at 18 years. He gave his home town as St. Hyacinthe, Que. He was arrested last week by Serg. Delves of the provincial police force after a newsboy had complained to the police that Bonin had passed off on him a cent piece silvered over to appear to be a quarter. He received a paper and twenty cents in change from the newsboy. When Bonin was arrested two one-cent pieces, apparently treated with some mixture to give them the appearance of silver, were found in his possession. He was waiting trial when he decided to leave on Sunday afternoon. He had been allowed the freedom of not being locked in a cell but having the run of the corridor outside the cells. By the use of an old auto lamp bracket that had been left in the corridor Bonin was evidently able to wrench open the door from the cell corridor into an outer passage where there were no further locks to detain him. He was able to make his getaway without being noticed by anyone so far as can be learned.

Ottawa Journal—Dr. Langsner is now in the limelight in Poland, and prepared no doubt, to produce testimonials from Canada.

MARRIAGE ANNOUNCED

MISS AGNES MULDREW, M.A. of Toronto, former Secretary and Technician of the Radium Institute, Toronto, whose marriage to Edgar Stone, Assistant Director, Ontario Government Motion Picture Bureau and Producer, Hart House Theatre, took place at Hart House Chapel, Toronto, on October 4. Miss Muldrew is the eldest daughter of Mrs. Jean Muldrew of Ottawa, Director Home Service, Soldiers' Settlement Board.

**Premier Bennett Leads
 for Empire Preference**

There will be general interest in the following two despatches coming over the R. E. Jackson & Company private wire this morning:—
 London, 8th—(Mail)—"I propose that we of the British Empire in our joint and several interests, do subscribe to the principle of an Empire preference and that we take without delay the steps necessary to put it into effective operation." In those words to-day did Canada's Prime Minister, Hon. Richard B. Bennett, leap to the forefront of Empire statesmen at the Imperial Conference, launching in terse, clear and apt language the issue which undoubtedly must dominate the conference and command the attention of the world.
 Toronto, Ont. 9th—(Mail)—Warm endorsement of the stand taken by Hon. R. B. Bennett in placing Canada in the leadership of the Dominions favouring preferential Empire trade and in making a definite proposal towards such an end was expressed by Toronto financiers and industrialists last night.

**WRIGHT-HARGREAVES HAS
 NEW HIGH FOR PRODUCTION**

Despatches this week from Kirkland Lake says:—
 "During the nine months ended Sept. 30th, Wright-Hargreaves established a new high record in production of gold. Preliminary details show approximately \$1,750,000 produced during the period. Production so far this year was actually higher than the entire output for the full year 1929. Grade of ore continues at about \$12 per ton and capacity of mill is undergoing further development. Indications are favourable for production of close to \$700,000 during the remaining three months, in which case total for current year will reach \$2,450,000."

NAMING THE BABY

(C. G. in the New Bedford Standard)
 Cecile Norma Rollande-Turgeon is the name of a little Montreal girl who was born on a railway train. It was a train on the Canadian National Railway, and because the parents were very grateful to the crew for the assistance rendered in the emergency they chose names whose initials were identical with those of the road. C. N. R. Turgeon ought always to remember the place of her birth. "And she ought to be very thankful," said the associate who clipped the item and turned it over to me, "that she was not born on a boat of the New Bedford, Marthas Vineyard and Nantucket Steamboat Company." Or, for that matter, on a train of the New York Central and Hudson River Railroad.

Miss L. Garvey, has returned from a pleasant holiday in Toronto.

**Report of the District
 Children's Aid Society**

The superintendent of the District of Cochrane Children's Aid Society continues to do a lot of work and a lot of good for the youngsters of the district. Some idea of the activities of the superintendent, A. G. Carson, may be gathered from his report for the month of September, which is as follows:—
 Applications for children 3
 Interviews 52
 Complaints received 37
 Investigations made 39
 Children involved (apart from Shelter) 36
 Mail received 54
 Mail sent out 54
 Court attendance 6
 Juvenile court cases 6
 Wards visited 8
 Children in shelter 27
 Children boarding out 6
 Children placed in foster homes 3
 Children given hospital attention 2
 Unmarried Parent's cases 2
 Prosecutions for contributing to the Delinquency of children 2

**Midnight Frolic to be
 Held on Friday, Oct. 17th**

One of the big features of the dancing season last year was the midnight frolic presented by Tommy Stephens and his orchestra at the McIntyre hall. The crowds that enjoyed that event will be pleased to note that another similar event is to be held this year. Cards just issued announce "Midnight Frolic—Whoopie—Tommy Stephens and his 5 Orchestra—Friday evening, October 17th, in the McIntyre hall, Schumacher. Dancing from 11.30 p.m. to—who cares? Novelties galore. Playing all the latest dance hits."
 Last year much attention was created by the novel tickets used for the dance event. This year's tickets are equally novel. They are red tags of classy type, duly numbered and bearing the advice:—"Keep this! It's worth \$5.00 in gold to you to attend the biggest event of the season." The event in the McIntyre hall on Friday evening of next week, Oct. 17th, should draw a bumper house all right.

**OUTLOOK AT HOWEY MINE
 SAID TO BE IMPROVING**

Howey Gold Mines at Red Lake is gradually being worked into a position of prosperity. Officials of the company are of opinion that the initial difficulties have been overcome and that from this date forward it will be possible to show steady improvement. A feature of the results being obtained is the very large tonnage of ore being placed in sight. The results at the 875 and 1,000-foot levels have been particularly favourable. Instead of reckoning a mine of moderate tonnage carrying \$6.50 to \$7.00 per ton, the outlook is that the mine will be one of very great tonnage and having an average recoverable value of about \$5.00 per ton.

THE CRIMINAL ON THE ROAD

(Douglas Jerrold in the English Review, London, Eng.)
 It is doubtful if any worse Act than the new Road Transport Act could be imagined. . . . To send a man to jail for stealing and to fine a man £50 for dangerous driving is wicked. There are plenty of excuses for stealing; none for the callous indifference of motorists to human life; the risks which they take are purely selfish, and, what is worse, purely foolish. As for the argument that the pedestrian is at fault, the law should not allow motorists to drive at a pace which requires everyone else on the roads to be cool, sure-footed and capable of forming quick decisions and accurate judgments of time and distance. Many men who possess none of the qualities necessary to satisfy in a pedestrian are valuable citizens; few motorists who habitually drive at forty miles an hour are anything of the kind.

The flag at the new post office building is flying at half-mast to-day in respect for those who died in the tragic destruction of the airship R-101. Orders for this honour to the dead on this occasion were sent from Ottawa here.

**The Motor Car for
 Mileage Estimate**
 in connection with the
MOOSE CARNIVAL

being held in the
Timmins Skating Rink
 On October 15th, 16th, 17th and 18th

has been purchased and will be on display on the streets of Timmins on Saturday evening, October 11th.

A number of young ladies have been appointed to assist in distributing the tickets and may be recognized by the official badges worn.

**Hart House Quartette
 Returns from Europe**

Further evidence of Canada's growing prominence in the artistic world is shown in the return to Canada this week-end on board of the Cunard liner Ascania of Boris Hambourg, of the world-famous Hart House String Quartette, who is arriving in Montreal on Sunday.

Mr. Hambourg, who sailed on the Alania from Montreal on August 1st to attend the Wagner Festival of Music at Bayreuth, was accompanied by his brother, Jan Hambourg, who is studying the violin in Paris.

At this festival a precedent was created when Toscanini was the conductor. This position has always been filled pre-eminently by a German and this caused considerable comment both here and abroad.

This organization of Toronto musicians assembled together in Toronto at the latter part of August and made a pre-arranged tour of Great Britain and the Continent that proved both a financial and artistic success receiving fine notices from the various European critics. Already plans are being laid for a similar tour next year.

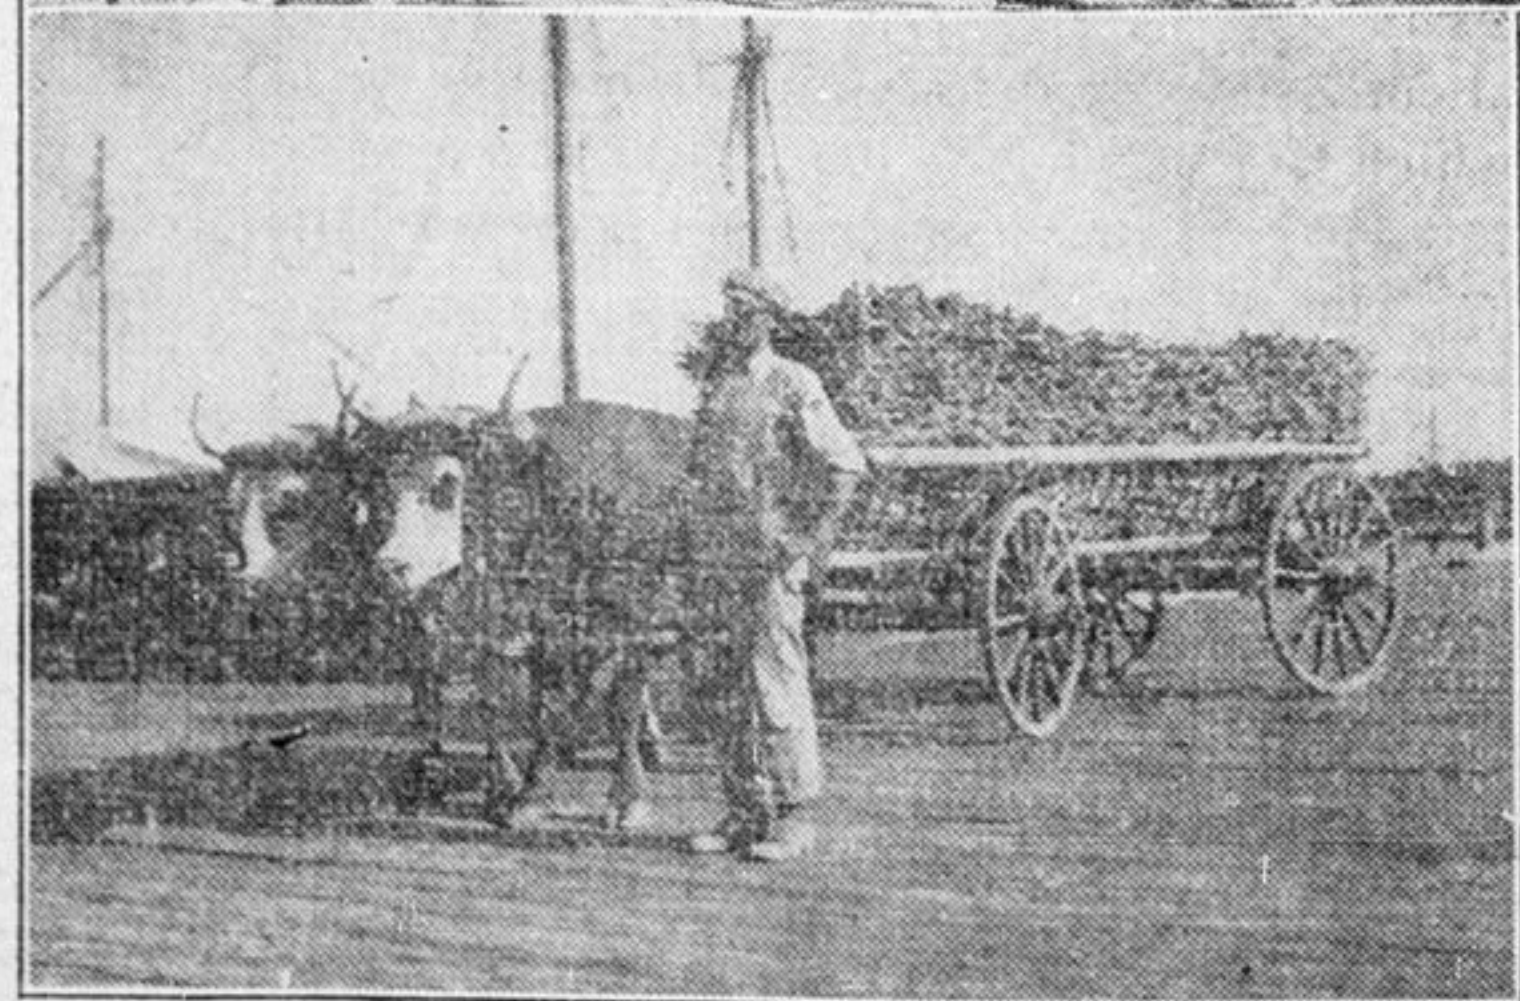

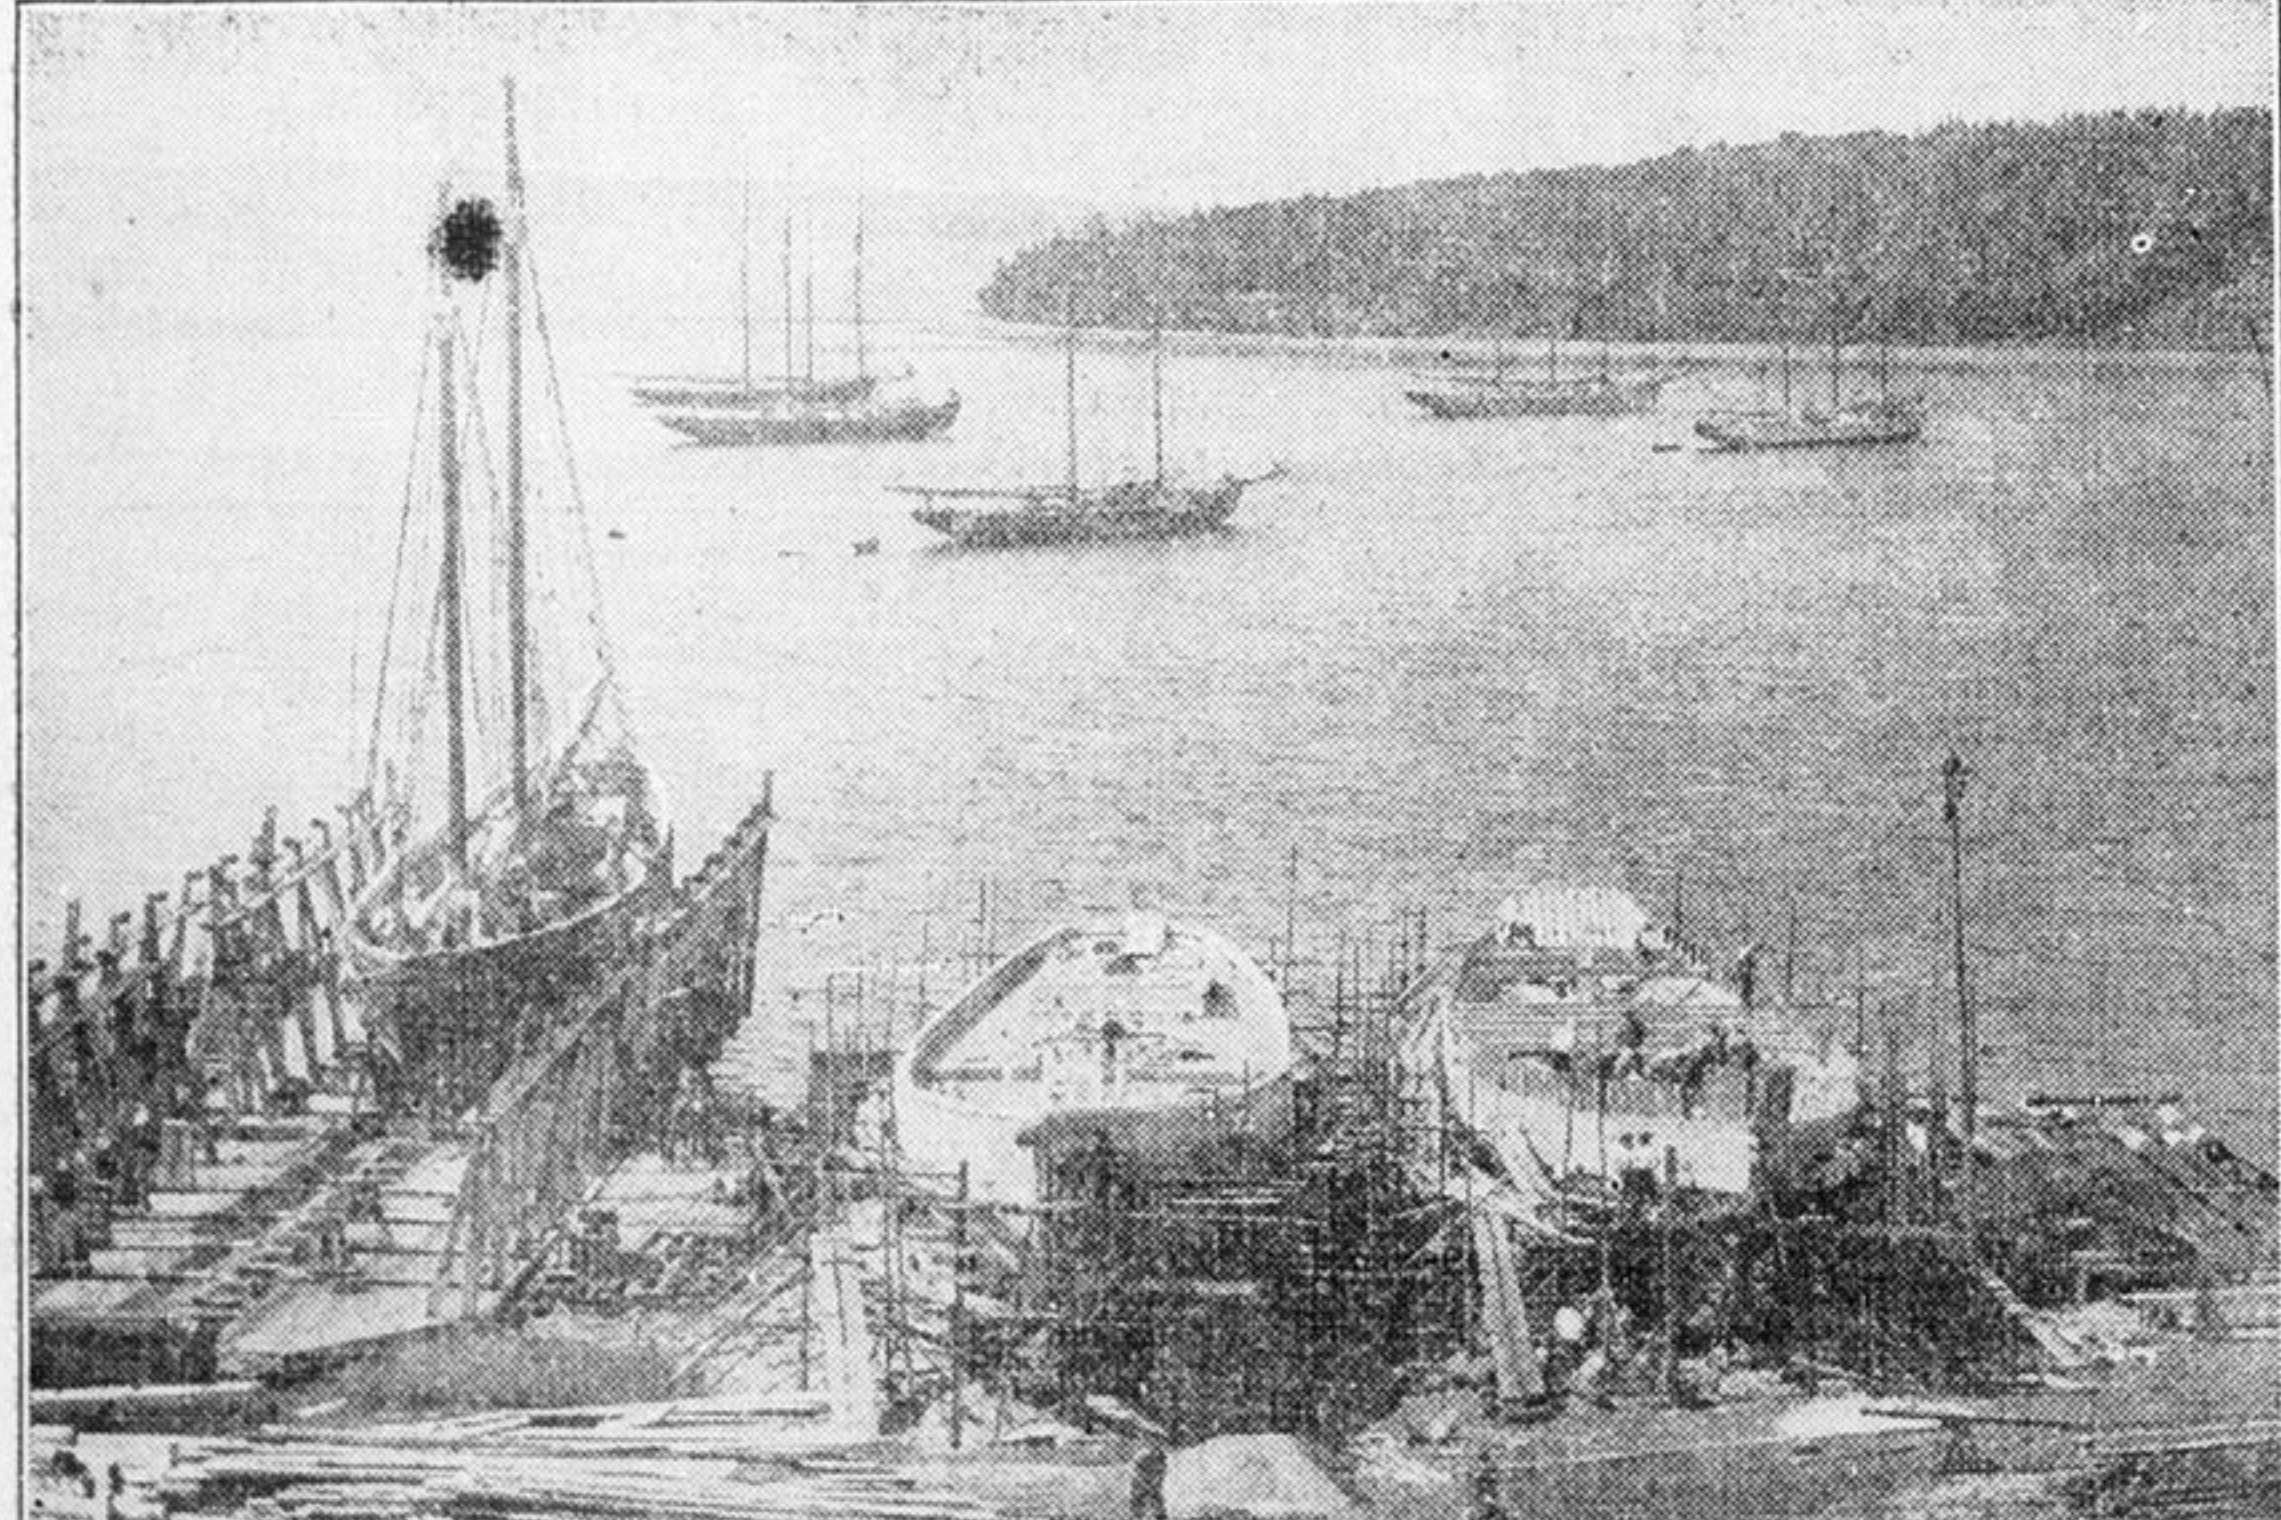

During their stay in Great Britain the Quartette performed over the radio under the auspices of the British Broadcasting Company and gained considerable notice from the British Press

for their very fine work on that occasion.
 The Quartette are all returning to Canada within the next few weeks and will leave at once on a coast-to-coast tour of Canada and this will be followed by an American tour which will keep them fully occupied until the spring of 1931.

The Quartette is composed of the following members: Gez de Kresz, first violin; Boris Hambourg, cello; Milton Blackstone, viola; and Harry Adaskin, second violin; the same personnel that delighted Timmins audiences with their great music.

THIRST v. PATRIOTISM

("Peter Simple" in the Morning Post)
 I am afraid there would be an unconvincing note in any threat, whether made by farmers and farm labourers or by any other section of the community, to abstain from drinking beer for three months, such as a member of Parliament urged upon his hearers at an agricultural show. If the use of foreign barley was sufficient to drive beer drinkers to this heroic kind of protest, many of our unemployment problems would be easily solved. The picture of a farm labourer, after a thirsty day's work, torn between the temptation to take his pint at the "Rose and Crown" and his determination to support home industries would be one of infinite pathos.

**WITH THE FISHING FLEETS
 OF NOVA SCOTIA**

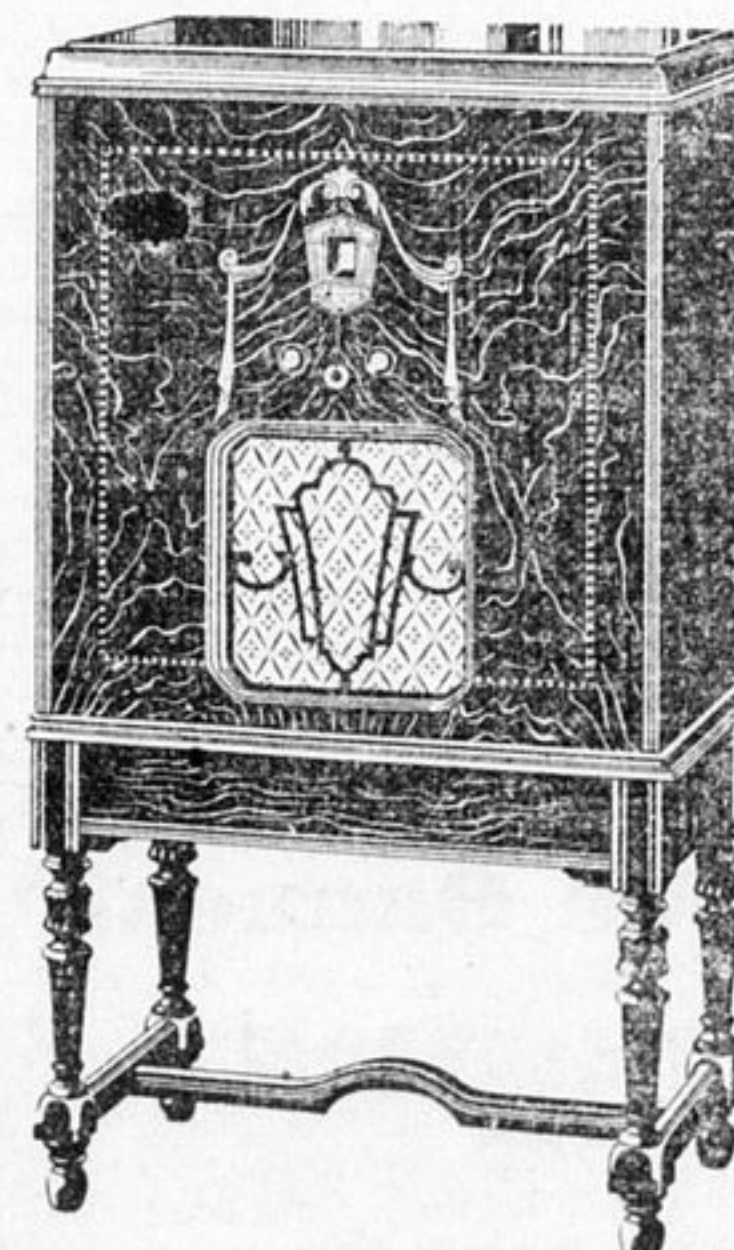

The Bluenose fishermen of Nova Scotia have won a world-wide reputation as intrepid sailors of the salt waters, and their skill and courage and their storm-beaten schooners have been preserved to posterity in some of the finest of American literature. A typical fishing harbour of Nova Scotia is shown in the upper picture. Lunenburg boats have always been foremost among the fishing fleets and in the foreground can be seen schooners in various stages of construction, while anchored in the back-ground are a number of the ships waiting to leave for the banks. At the bottom is a scene reminiscent of the old world, but one not unusual in the Nova Scotia fishing towns. It shows an ox team bringing a catch of cod fish from a schooner upon its arrival in port.
