And take notice further that in the event of a Poll being required, the same will be held in the St. Anthony's Parish Hall on Wednesday, January 7th, 1931, and will be open between the hours of Ten a.m. and Five p.m.

J. A. WALSH, Secretary. -51-52.

## AIRPLANE ALMOST READY FOR TRIPS TO MATACHEWAN

Trucks and Teams Busy Hauling Supplies Into New Camp. Several Stopping Places to be Built Between Matachewan and Elk Lake.

Activity in connection with the new Matachewan gold camp continues and increases. A correspondent writing The Advance from Elk Lake tells of an airplane being almost ready for trips into the new camp, while trucks and teams are already busy. Stopping places are to be built and operated between Elk Lake and the new camp. This correspondent also refers to work on properties in the new field as well as to prospecting activities. The correspondent in question writes as follows:—

Elk Lake, Ont., Dec. 20th, 1930. "The diamond drill has left for the Ashley-Garvey claims.

"Several parties are moving in and out to the new field.

"A couple of brothers, well-known as pioneers of Kirkland Lake and interested in the mine named after them, have told the correspondent of The Advance that they are in Matachewan to stay, and this looks true by the amount of property lately acquired in different parts. It looks good enough to these pioneers of Kirkland, who claim that if everyone else were to quit, they will still stay right at it. They have started already, and are not waiting for the spring to come.

"Two prospectors who came from Alberta, and who have spent years in the Klondyke, arrived in town recently and proceeded to Matachewan. Next spring they intend to look over ground for placer mining.

"The airplane is almost ready to make trips during the winter. The trucks have been making several trips; also teams have been busy.

"A lookout tower for the Forestry Branch will be erected on Mount Collins in the new gold field, as this is the highest point there. From Mount Collins tower a grand sight of a wonderful country will be possible.

"Several stopping places will be built between Elk Lake and the new gold field at Matachewan. Also stopping places will no doubt be erected for the general convenience on the Gowganda route where many will be going to their claims in Tyrrell and Knight townships and in the Shingitree area.

Furs valued at \$500.00 were stolen last week from A. F. Furter's store at North Bay. The goods included two silver fox skins, made up, one cross fox, three red fox skins, tanned but not manufactured, and one kolensky choker.

## FORMER MONETA RESIDENT GIVEN TERM OF TEN YEARS

Anchiro Sanguigno, Alias Tony Romano Given Heavy Term on Charge of Robbery Under Arms at Toronto. Was in Court Here One Time but Acquitted.

Those who noted last week the sentencing at Toronto of Anchiro Sanguigno, aged 40 years, to ten years in the penitentiary on a charge of attempted robbery, while armed, and shooting with intent, may not have known that the accused was a former resident of Timmins, having lived in Moneta, and being well-known to the police here. He was a frequenter of gaming houses while here and went under the name of Anchiro Sanguigno, Tony Sanguigno and Tony Romano here. He left here a couple of years ago and since then he has gotten into more or less serious trouble. In addition to the charge on which he was sentenced to ten years, Toronto police say he is also wanted across the boundary line on a charge of murder. While resident in this district Sanguigno was far from popular with the police. They claimed that he did not work and they also suspected him of certain breaches of the law. Eventually a little more than two years ago a warrant was issued for his arrest on a charge of assault with intent to do grievous bodily harm, the assault charged against him being that he was accused of almost severing a man's nose from his face. The man in question claimed that he had been playing cards in the house and Sanguigno requested some money from him. When he refused to hand over any money, according to the story of the man in court, Sanguigno cut him across the face with a knife, almost severing the nose from the face. The man spent considerable time in hospital but eventually recovered. Later Sanguigno was arrested and tried here on the assault case. He pleaded not guilty and told so fair a story that he was acquitted. Shortly after his acquittal he left Timmins and so far as can be learned has only been back here once and that time only for a brief visit. When the case against Sanguigno was in progress in Toronto the Timmins police recognized the picture of the accused man as that of the former resident here. Enquiry to the Toronto police force brought confirmation of the identity of the man, scars on his forehead and one finger making the identification quite complete.

## Only One Serious Case At Police Court To-day

On account of the holidays, police court is being held to-day (Tuesday) for this week and will be held on the same day next week, in each case the court being for the one day only, instead of two days as usual. The court will not be concluded before the paper goes to press this week. The Advance being published on Tuesday this one week to allow the merchants and others to give their messages once more to the public before Christmas.

There are only three cases on the docket this week and only one of these is for a serious charge. The latter charge is one of assault with intent to do actual bodily harm, preferred against Gideon Charlebois, 155 Cedar street north, by Miss Jean Mondville, who asserts that the accused attacked her after some words on street, cutting her face and also injuring her hand.

## REMEMBERED THE SHELTER AT THIS CHRISTMAS TIME

During the present Christmas time many people have very kindly remembered the youngsters at the Shelter. Christmas being specially the children's festival, it is perhaps natural that kindly thoughts should be turned to the youngsters, many of whom are having their first real Christmas. Among the gifts sent to the Shelter during the past week were the following:—Two fine big turkeys, by Don. Lough, District Engineer for the Northern Development Branch; two big turkeys, by Mr. Scott, manager of the Bank of Commerce; presents for the youngsters by Miss James' class, and by another class in the public school; hamper from the Charity Turkey Stag, containing two turkeys, two geese, and two sides of bacon, the latter being a specially acceptable item for the youngsters.

## REFUSED TO ALLOW USE OF BAY PASTEURIZING PLANTS

The North Bay Nugget on Saturday said:—"In a statement by Dr. A. E. Ranney, Medical Officer of Health, North Bay, he definitely refuses to permit the pasteurizing of milk from the infected district at Kirkland Lake, in pasteurizing plants that supply milk to this city. He explains that the disease that has taken such a toll in Kirkland Lake, septic sore throats, is a very virulent one, more deadly than scarlet fever, and that the smallest amount left in a can, or imperfect pasteurization, might cause an outbreak here. The disease is, in fact, blood poison in the throat and was caused by milk from one infected cow. One drop of this milk, said Dr. Ranney, could cause death. Dr. Ranney also pointed out that with 100 per cent. pasteurization, as is the case in North Bay, it would be almost impossible to have an outbreak such as ravaged Kirkland Lake. But as M.O.H. here he felt it was his duty to use absolutely every precaution to safeguard the health of the residents of North Bay."

Miss Margaret Macpherson is home for the holidays from the University of Toronto where she has been taking up a course of studies.

## EIGHT HUNDRED POUNDS OF FLOUR STOLEN FROM STORE

Thief or Thieves Get Away With Quantity of Flour and Feed Early Sunday Morning From Warehouse of Maurice Shub.

On Sunday morning at an early hour the warehouse of Maurice Shub was entered by some person or persons unknown at present and a quantity of flour and feed stolen from the premises. The exact amount of goods taken is not known, but is understood to include at least 800 lbs. of flour and a quantity of feed. The breaking, entering and robbery is believed to have occurred during the early morning hours of Sunday. As soon as the robbery was discovered the police were notified and officers were soon on the scene making investigation.

Tracks in the snow around the warehouse were noticed and these were followed for some little distance. Other tracks, however, made it impossible to trace the burglars to their lair or lead to the hiding place of the goods stolen. The police, however, secured some clues, and search warrants were secured for a couple of houses under suspicion. These places were searched thoroughly but without any trace of the stolen goods being found.

In view of the fact that there have been several robberies lately the police are making special efforts to trace out the perpetrators of this crime, the belief being that nearly all the robberies will likely be traced to the one gang or group of friends. While 800 lbs. of flour, not to mention the feed taken, seems to be a large load of stuff to get away with and successfully hide it should be noted that the robbers had several hours' start on the law in the matter. The police, however, are still working on this and some other cases and the clearing up of this and other similar events may be expected at an early date.

## SUSPENDED SENTENCE FOR FARMER WHO USED SHOT GUN

The farmer at Moore's Cove, who was charged recently at police court at Halleybury with wounding, following the peppering of a youth thought to be out on Halloween pranks, was allowed to go on suspended sentence. He admitted the shooting but claimed in extenuation that he had been annoyed for the past fifteen years by boys playing Halloween tricks, some of them causing him loss and damage. The boy had received a number of pellets from the shot gun but has since fully recovered from the injuries. Another boy also received some of the shot, but did not lay any complaint.

## PEDIGREED PEKINGESE DOG GIVEN TO CHRISTMAS FUND

Mrs. C. G. Hirsch, Ossington avenue, Toronto, who is a sister of W. W. Orr, of town, donated a rather unusual prize to The Toronto Star Santa Claus fund. This prize was a very attractive little pedigreed Pekingese dog. To help along the donations to the fund for Christmas cheer in Toronto Mrs. Hirsch suggested a contest with the prize dog as a reward; the prize to be awarded for the person making the greatest number of other words from the two words, "Pedigreed Pekingese," each one entering to send a dollar to the fund. The Star accepted the kindly offer and the contributions to the fund were swelled by the novel competition and the unusual prize. The winner of the prize was also delighted with the beautiful toy dog thus won.

## McGART TOWNSHIP SETTLER RAN TAX COLLECTOR WITH GUN

Reports from Porcupine Junction tell of the action of a McGart township settler in protest against taxes and tax collectors. When the township tax collector visited this particular farm to see about tax collections, the settler did not settle the tax bill but he tried to settle the tax collector by running him from the premises at the point of a gun. For fear that others of the many who dislike to pay taxes may think this a good system, it must be added that the settler was up in court for his action in the matter and was fined \$10.00 and costs. In addition he will be required to pay the taxes and so has a bigger burden than before. There does not seem to be any way to avoid paying taxes, disagreeable though the matter may be.

## L.O.B.A. CHRISTMAS TREE AT CONCERT ON DEC. 30TH

Special attention is directed to the Christmas tree and concert to be given in the Oddfellows' hall, Timmins, on Tuesday evening of next week, Dec. 30th, commencing at 8 p.m. sharp. The event is under the auspices of the L.O.B.A., and is for a very worthy cause—in aid of the Orange Orphanage. The programme for the evening will be equally worthy and is sure to be enjoyed by all, as a list of unusual talent has been provided for the occasion. During the evening the drawing for the Christmas cake will be made.

All who like to help on a good cause and enjoy a very happy entertainment should make a note of the date, the place and the event—L.O.B.A. Christmas tree and concert, in the Oddfellows' hall, on Tuesday evening of next week, Dec. 30th, at 8 p.m. sharp.

Miss Ann Young is home for the Christmas vacation from the college in the south which she has been taking university studies.

## BEST WISHES for the SEASON

To One and All we Extend Best Wishes for a Merry Christmas and a Happy New Year.

L. HALPERIN  
JEWELLER AND OPTICIAN

Timmins Schumacher

## EPIDEMIC AT KIRKLAND LAKE NOW MUCH ABATED

Few New Cases Developing and Situation Well in Hand. Plans for Pasteurization of Milk, North Bay M.O.H. Vetoes Temporary Plan.

The epidemic of septic sore throat at Kirkland Lake is now abating and the worst is over according to accounts from Kirkland Lake this morning. There have been from 500 to 800 cases according to reports, with a total of five deaths, the proportion of deaths to the cases being very small in proportion to other illnesses. The belief now is that the epidemic is completely checked. There are few new cases being reported. Dr. W. E. George, the district medical health officer, was quoted this week as expressing very general satisfaction with the improvement in the general situation. Progress continues good, Dr. George said, and he attributes this to the prompt cutting off of the local milk supply some ten days ago and to the free use of scarlet fever anti-toxin. The softness of the weather, Dr. George thought would have no effect on the situation. Dr. George is quoted further as saying that it is difficult to estimate the number of cases actually under treatment, only new patients having been reported. Many of the patients affected in the early stages of the epidemic are now recovered and around again, but a large number are still ill, some of them seriously so. A peculiar thing about the disease is that many had only light attacks and others were very critically ill.

The cause of the epidemic was traced to infected milk which caused a form of blood poisoning in the throat. The whole trouble is said to have come from one cow. The only dairy infected supplied milk to other dairies, all of which were then affected, the result being a very serious situation. The prompt closing of the dairies did much to check the epidemic but not before there was a serious spread of the disease. The epidemic is said to be the worst of its kind ever occurring in Canada.

At a meeting of the township council at Kirkland Lake last week temporary measures for handling the milk supply, pending the installation of properly approved pasteurizing plants in the local dairies were adopted. The plan is to have a plant for disinfecting milk bottles and cans and milk that has been pasteurized will be placed in sterilized containers for distribution to the citizens in the usual manner. In the meantime Kirkland Lake's milk supply has been coming from North Bay. The meeting of the council was attended by milk vendors, health authorities and others and it was decided that until regular pasteurization plants were installed by the local dairies the milk could be shipped to North Bay in sterilized containers, pasteurized, and returned in the usual sterilized containers. This plan was vetoed by the North Bay medical health officer. The North Bay medical health officer gave as the reason for his stand that such a plan might cause infection in North Bay. One germ in the supply from Kirkland Lake dairies might get to North Bay in the milk or containers and cause an outbreak there. The disease was very infectious and one drop of infected milk could cause death, he said. As a consequence Kirkland Lake will have to continue its present importation of milk until the pasteurization plants are installed at Kirkland Lake. The dairies there are all ready to adopt pasteurization as soon as can be arranged. The disease at Kirkland Lake is very infectious, this being shown by the fact that doctors and nurses have been among those falling ill from the disease. Last week there was a call for nurses to go to Kirkland Lake, but this call issued by the provincial department of health was cancelled this week, it not being considered necessary under the improved conditions and the abating of the epidemic.

At a meeting of the township council at Kirkland Lake last week temporary measures for handling the milk supply, pending the installation of properly approved pasteurizing plants in the local dairies were adopted. The plan is to have a plant for disinfecting milk bottles and cans and milk that has been pasteurized will be placed in sterilized containers for distribution to the citizens in the usual manner. In the meantime Kirkland Lake's milk supply has been coming from North Bay. The meeting of the council was attended by milk vendors, health authorities and others and it was decided that until regular pasteurization plants were installed by the local dairies the milk could be shipped to North Bay in sterilized containers, pasteurized, and returned in the usual sterilized containers. This plan was vetoed by the North Bay medical health officer. The North Bay medical health officer gave as the reason for his stand that such a plan might cause infection in North Bay. One germ in the supply from Kirkland Lake dairies might get to North Bay in the milk or containers and cause an outbreak there. The disease was very infectious and one drop of infected milk could cause death, he said. As a consequence Kirkland Lake will have to continue its present importation of milk until the pasteurization plants are installed at Kirkland Lake. The dairies there are all ready to adopt pasteurization as soon as can be arranged. The disease at Kirkland Lake is very infectious, this being shown by the fact that doctors and nurses have been among those falling ill from the disease. Last week there was a call for nurses to go to Kirkland Lake, but this call issued by the provincial department of health was cancelled this week, it not being considered necessary under the improved conditions and the abating of the epidemic.

Messrs C. G. Williams and V. H. Emery, consulting mining engineers, of Toronto, were visitors to the camp over the week-end, returning to the city on Sunday. They were heartily welcomed here by hosts of old friends.

The Daughters of England expect to have a particularly pleasant time at their Christmas Eve dance in the Hollinger hall. The Club Royal orchestra will furnish the music for the occasion. The doors will open at 8:30 p.m. for the event.

The Children's Aid Society received last week a contribution of \$15.00 from Porcupine Lodge, A. F. & A. M., South Porcupine. Porcupine Lodge always kindly remembers the youngsters at Christmas time and their interest is always helpful and appreciated.

The annual Christmas tree of the Daughters of England will be held in the Hollinger hall on Christmas Eve (to-morrow) Wednesday, Dec. 24th, at 4 p.m. Santa Claus will arrive at 6 p.m. All members are asked to bring refreshments and to be on time with their children for the tea.

The many friends of Mrs. John Dalton will wish her a speedy and complete recovery. She is at the St. Mary's hospital at present where she was operated upon for appendicitis. At the time of writing she is making good progress to recovery and her hosts of friends in the town and camp will hope that this progress continues to early recovery of health.

There has been very general complaint during the past few days at the big increase in the price for tickets for skating at the rink here. While last season eight tickets were sold for one dollar, the price this year has been boosted to five tickets for a dollar. With times not so prosperous as in other years the increase bears particularly heavily on those enjoying the recreation of skating. Had the price been made seven tickets for a dollar or even six the charge would not have appeared so burdensome.

## Milk Report for the Township of Tisdale

The following is the report on milk samples as received from the provincial laboratories by Chief of Police Chas. McMillin of the township of Tisdale:—

Where Collected	Bacteria per c.c.	p.c. butter fat
Baspaiko	10,000	2.9
Kenesky	12,000	3.2
Cahill	150,000	3.0
McLeod	80,000	3.2
Huhta	10,000	4.9
Luhita	50,000	3.4
Helmer	80,000	2.7
Zaitz	12,000	2.7
Kinnunen	11,200	3.5
Rein	12,000	3.5
Sena	20,000	3.2
Setactia	12,000	3.4
Hueta	16,000	3.9
