Every restaurant tells a story... important to you!

BAKER'S COCONUT
Three Styles:
BAKER'S SOUTHERN STYLE—moist—packed in tins—slightly-sweetened—deliciously fresh.
BAKER'S PREMIUM SHRED—in the familiar triple-sealed, stay-fresh carton.
BY THE POUND—the same fresh, full-flavoured coconut in bulk.

"ALL the many tasty dishes that can be made with coconut," say prominent restaurateurs, "take first place in the menu among our men customers." Yet why should your husband have to get his favourite desserts away from home? Such home-made desserts are so much more appetizing.

You'll find extra praise for such tasty dishes if they are made with Baker's coconut. It's always so lusciously-fresh, full-flavoured and handy. Made in Canada. A1-31

BAKER'S COCONUT

PRELIMINARY REPORTS ON THE KOWKASH GOLD AREA

Location and Access. Additional Mapping of the Geology. Work on Properties. Mineral Possibilities of the Area.

Many prospectors in Timmings and district and others concerned in mining have or have had properties in the Kowkash area, and many of the old-time prospectors believe the district referred to is one holding special promise. As a consequence there should be general interest in the preliminary report on the Kowkash gold area issued by the Ontario Department of Mines. The report is by L. F. Kindle and reads as follows:—

This map area embraces the Onaman country, Kowkash river, Muriel lake, and in general the region east of the Fort Hope route to the Albany river as far north as Ogoki lake. The predominant rocks of the pre-Cambrian are large areas of Keewatin volcanics and sediments, an older series of quartz-biotite and garnetiferous schists (Couchiching) and granite of two ages.

Location and Access
The Kowkash area lies northeast of Lake Nipigon. The C.N.R. passes through the southern part on the line between Nakina, Kowkash, Tashota and Ombagika. The waterways for canoe travel are excellent, the most useful of which is the Kowkash river. This is reached via Johnson creek, one mile east of Kowkash station. The river may be followed its length to Percy lake or only part way en route to Muriel lake or to Ogoki lake.

Additional Mapping of the Geology
During this field season certain areas of Keewatin greenstone and intrusive hornblende syenite were located. The syenite at Gzowski lake was found to extend for several square miles to the north. Eastward, a number of ridges of Keewatin volcanics approach the Kowkash river.

Beyond this, three hitherto unknown, widely-separated bosses of syenite were encountered. The nearest to Kowkash lies 2 miles east of the outlet of O'Sullivan lake between the greenstones northwest of Muriel lake and more northerly quartz-biotite schists. The greenstone is well exposed in ridges, is partly tuffaceous and rhyolitic, and is cut by a few syenite dikes, radiating from the main mass three square miles in extent.

A narrow intrusive body of syenite occurs 1 1/2 miles northeast of the large lake upstream four miles from Percy lake. Here, a narrow strip of greenstone appears to be embedded in the Couchiching schists. The lavas have been sheared parallel to the general strike which is east-west and a number of small barren looking quartz veins developed.

The most northerly showing of hornblende syenite borders the south shore of Ogoki lake for three miles at the narrows. Certain portions of rock may better be termed a pyroxenite or hornblende. These parts are coarse grained and extensive and show on their margins transitional characteristics close to the normal syenite. The neighbouring granites, both massive, and the older biotite gneisses are crossed by narrow fissure seams filled with the syenite.

An Algoman age is most likely true for the syenites because each is massive and they rarely show gneissic qualities. An extensive portion of the (Couchiching), Marshall Lake Series, of approximately 100 square miles, was mapped bordering the north side of the Kapitongwa river. Lenses of pyrrhotite have replaced in part certain pyrite zones in this quartz-biotite, and abundantly garnetiferous, chist. The pyrrhotite bodies, however, have so far been found merely slightly replaced by chalcopyrite veinlets.

The Marshall Lake Series is commonly cut by tourmaline and, rarely, beryl-bearing pegmatite dikes, in the general vicinity of Little Dog lake. The lake is only one mile long and forms part of the main channel of the Kapitongwa river. On it are located two trading posts.

Work on Properties
No extensive work has been done on properties in Muriel lake since June, whereas considerable trenching was done during the past winter. None of the deposits have so far proven to be extensive. The mineralization occurs in sheared greenstone, usually where there is crystalline limestone. Pyrite, pyrrhotite, and chalcopyrite predominate, while small occurrences of sphalerite and galena have been found with these; the vein gauge is largely quartz.

A stamp mill has been erected at Tashota lake by Messrs-Cameron and Picotie who have begun the mining of high grade ore which occurs in a shear zone in greenstone, quartz-porphyr and lamprophyre. Carbonate has been developed close to the porphyry here and on adjoining claims. Gold-bearing veins having a northwesterly strike occur in this locality.

At present small quantities of ore are being shipped from the Adair property 2 miles south of Tashota.

At the King-Dodds stripping of overburden has shown a length of 200 feet along the narrow quartz vein with free gold west of the shaft. The vein has been followed to a depth of 60 feet. No stripping has yet been done in the low ground immediately north of the shaft.

Mineral Possibilities
List of the most promising parts of the country for prospecting:
(a) The Keewatin greenstones lying between the outlet of O'Sullivan lake and Muriel lake. The outcropping of volcanics and syenite is fairly common. Feldspar and quartz porphyry dikes occur but sparingly toward the southern part of this locality.
(b) The Keewatin volcanics and sedi-

RULES OF PUBLIC LIBRARY FOR THE USE OF SETTLERS

Twelve Hundred Volumes Now at Cochrane to be Loaned to the Settlers and Their Families. T. Eaton Co. Make Generous Gift to Settlers of This District

Some weeks ago reference was made in The Advance to the gift of a large number of books to form a public library for the use of the settlers of the District of Cochrane. Further particulars of this handsome and useful gift are now to hand and should prove of very general interest. This new public library for the District of Cochrane should prove of as great service and value to the settlers and their families as the libraries in several of the towns of the North have done to the people in the towns in question. Take the town of Timmings, for instance, and its public library! What citizen here, knowing the number of people to whom this public library has proven of such great value, both from the standpoint of education and of entertainment, would care to set any value in dollars and cents upon the Timmings public library! It is more within the actual facts to say, as has often been said, that the Timmings public library is simply invaluable. In the same way the new public library for the settlers of the District of Cochrane may well be set down as invaluable.

In the new public library for the settlers of this district, there are over 1200 volumes. These are the generous gift of the T. Eaton Co., Ltd., of Toronto, Ont., one of the largest departmental stores on the continent. The company made the generous gift of books to the Cochrane branch of the Ontario Department of Agriculture for use as a lending library for the settlers and school children in the District of Cochrane.

The books are now at Cochrane, and are under the supervision of D. J. Pomerleau, Agricultural Representative for the Ontario Department of Agriculture. Mr. Pomerleau has kindly sent The Advance a complete catalogue of the books, together with the rules and regulations adopted for the conduct of the new public library for the settlers of the district. The regulations are as follows:—

1. The library will be open daily except Sundays and holidays from 9 a.m. to 12 noon, and from 2 p.m. to 5 p.m., except on Saturday, when the hours are from 9 to 12 only.
2. No fee will be charged, but a registration deposit of one dollar will be collected from each application, which will be returned when the use of the library is discontinued.
3. Two books may be taken out at the same time for a period of not more than one month. After one month a fine of two cents a day will be charged for each day over the month, and no more books may be taken out until the fine is paid.
4. Application for books can be made by mail, or in person, to the Agricultural Representative's office, Court House, Cochrane. (Address all letters to D. J. Pomerleau.)
5. Books will be sent postage paid, but the applicant must pay return postage.
6. Orders for five or more books for school children or settlers, ordered through the school teacher, will be sent by express prepaid and by returned express collect.
7. Any books kept more than three months will be considered lost and the deposit will be cancelled.
8. Residents of towns in the district of Cochrane in which there is a public library will be charged one dollar deposit and 10 cents for each book taken out, and must pay postage both ways. All other rules to apply.

In the 100 volumes there are 22 not under special heading. These range from volumes like "Pilgrim's Progress" to "The Cannibal Islands," "Biography of a Grizzly," "Stories from Grimm," "Peeps at Many Lands," "English Seamen in the Sixteenth Century," etc. Under the heading, "Books for Girls," there are 35 volumes, the authors including Benson, Amy, Emerson, Pansy, Meade, Harrington, Hope and other popular authors of girls' books.

There are 109 volumes under the heading, "Books for Boys." These include:—"The Arabian Nights," "Bare, Son of Kazan," "Tom Sawyer," "Westward Ho," "Huckleberry Finn," books by Robert Louis Stevenson, Zane Grey, Jack London, Oilwant, Henty, Cooper, V. Appleton, Allen, Alger, Hayes, Drake, Forbes, Webster, Chapman, Sandford, Stakes, West, Hoare, Fitzhugh, Carson, etc. There are books on Boy Scout work, "Tom Browns School Days," "Jack Harkaway's School Days," etc. "Fiction," as catalogued includes some 732 volumes. The authors of these volumes include:—E. M. Albenesi, S. H. Adams, M. Arlen, T. Bailey, H. C. Bailey, Rex Beach, J. J. Bell, Lillian Bell, Arnold Bennett, H. Blindness, G. A. Birmingham, G. Bishop, E. Bronte, G. Buchan, F. H. Burnett, K. N. Burt, E. R. Burroughs, Boyd Cable, Hall Caine, Robt. W. Chambers, Winston Churchill, H. A. Cody, Ralph Connor, Marie Corelli, Marion Crawford, R. Cullen, E. N. Croke, James Curwood, Frank Danby, Eimer Davis, Coningsby Dawson, Holman Day, Warwick Deeping, Richard Dehan, Ethel M. Dell, Margaret Deland, Thomas Nixon, Chas Dickens, Ruih Alexander, Dumas, Conan Doyle, The Duchess, Charles Dutton, Jeffrey Farnol, Edna Farber, J. S. Fletcher, Hulbert Footner, Sewell Ford, N

J. Farman, Ellen Fowler, John Fox, Jr., H. W. Freeman, E. Gabarlan, A. G. Gardiner, N. Gerard, George Gibbs, Zane Grey, R. C. Gull, Sir Rider Haggard, Ian Hay, O. Henry, M. Hewlett, M. Hine, Joseph Hocking, M. J. Holmes, Anthony Hope, Hornung, E. Hough, Victor Hugo, W. W. Jacobs, May Johnston, R. E. Knowles, P. B. Kynes, Charles Lamb, Prof. Stephen Leacock, Lewis Sinclair, J. C. Lincoln, Jack London, Edna Lyall, Capt. Marryat, E. Marshall, G. B. Matthews, L. J. Milne, L. T. Meade, W. H. Moore, W. de Morgan, Katharine Norris, Oliphant, E. P. Oppenheim, Baroness Orczy, Ouida, G. Overton, J. Oxenham, G. Page, Gilbert Parker, Max Pemberton, R. Portwee, Eden Phillpots, G. S. Porter, Le Quex, C. Raymond, Chas. Reid, Morgan Robertson, C. G. Roberts, Rev. E. P. Roe, R. Sabatini, M. Saunders, Sir Walter Scott, Robert Service, C. E. Smith, Hopkinson Smith, Southworth, R. L. Stevenson, Booth Tarkington, W. M. Thackeray, Tolstoy, Louis Tracey, Mark Twain, Anthony Trollope, Louis J. Vance, Edgar Wallace, Jules Verne, Henry Van Dyke, Hugh Walpole, E. Wetherell, Stanley Wayman, Wharton, Kate Douglas Wiggin, Williamson, Augusta Jane Wilson, Wodehouse, Owen Wister, Mrs. Wood, Harold Bell Wright, P. C. Wren, S. Crockett, Annie Swan, Winslow.

Children's books (books to be sent by express only) include:—The Boy's Own Annual, the Canadian Boy's Annual, Oxford Annual for Scouts, Empire Annual for Boys, Girls' Annual, Wonder Tales, The Wonder Book of Knowledge, The Wizard of Oz, Sports and Pastimes, Robinson Crusoe, Chatterbox, The Water Babies.

There are thirteen volumes of biography including:—The Golden Book, Chinese Gordon, Life of Drake Great Men, Life of Benjamin Franklin, Theodore Roosevelt, and some war stories in biographical form.

Nine volumes of travel and adventure, 26 of poetry and literature, 13 of religious literature, and 8 of miscellaneous character complete the library, with the exception of a list of bulletins available to farmers. These bulletins are ones published by the Ontario Department of Agriculture. There are over 30 bulletins in the list. After the list of bulletins the following paragraphs are appended:—

A charge of 10 cents (including postage) for a single bulletin is made to individuals outside of Ontario; reduction in quantity.

These are sent free to Ontario schools, for library purposes, but not to pupils.

Note:—Applications from teachers should show location of school by giving section in township or otherwise.

FALLACY OF BUYING FROM THE ITINERANT TRADER

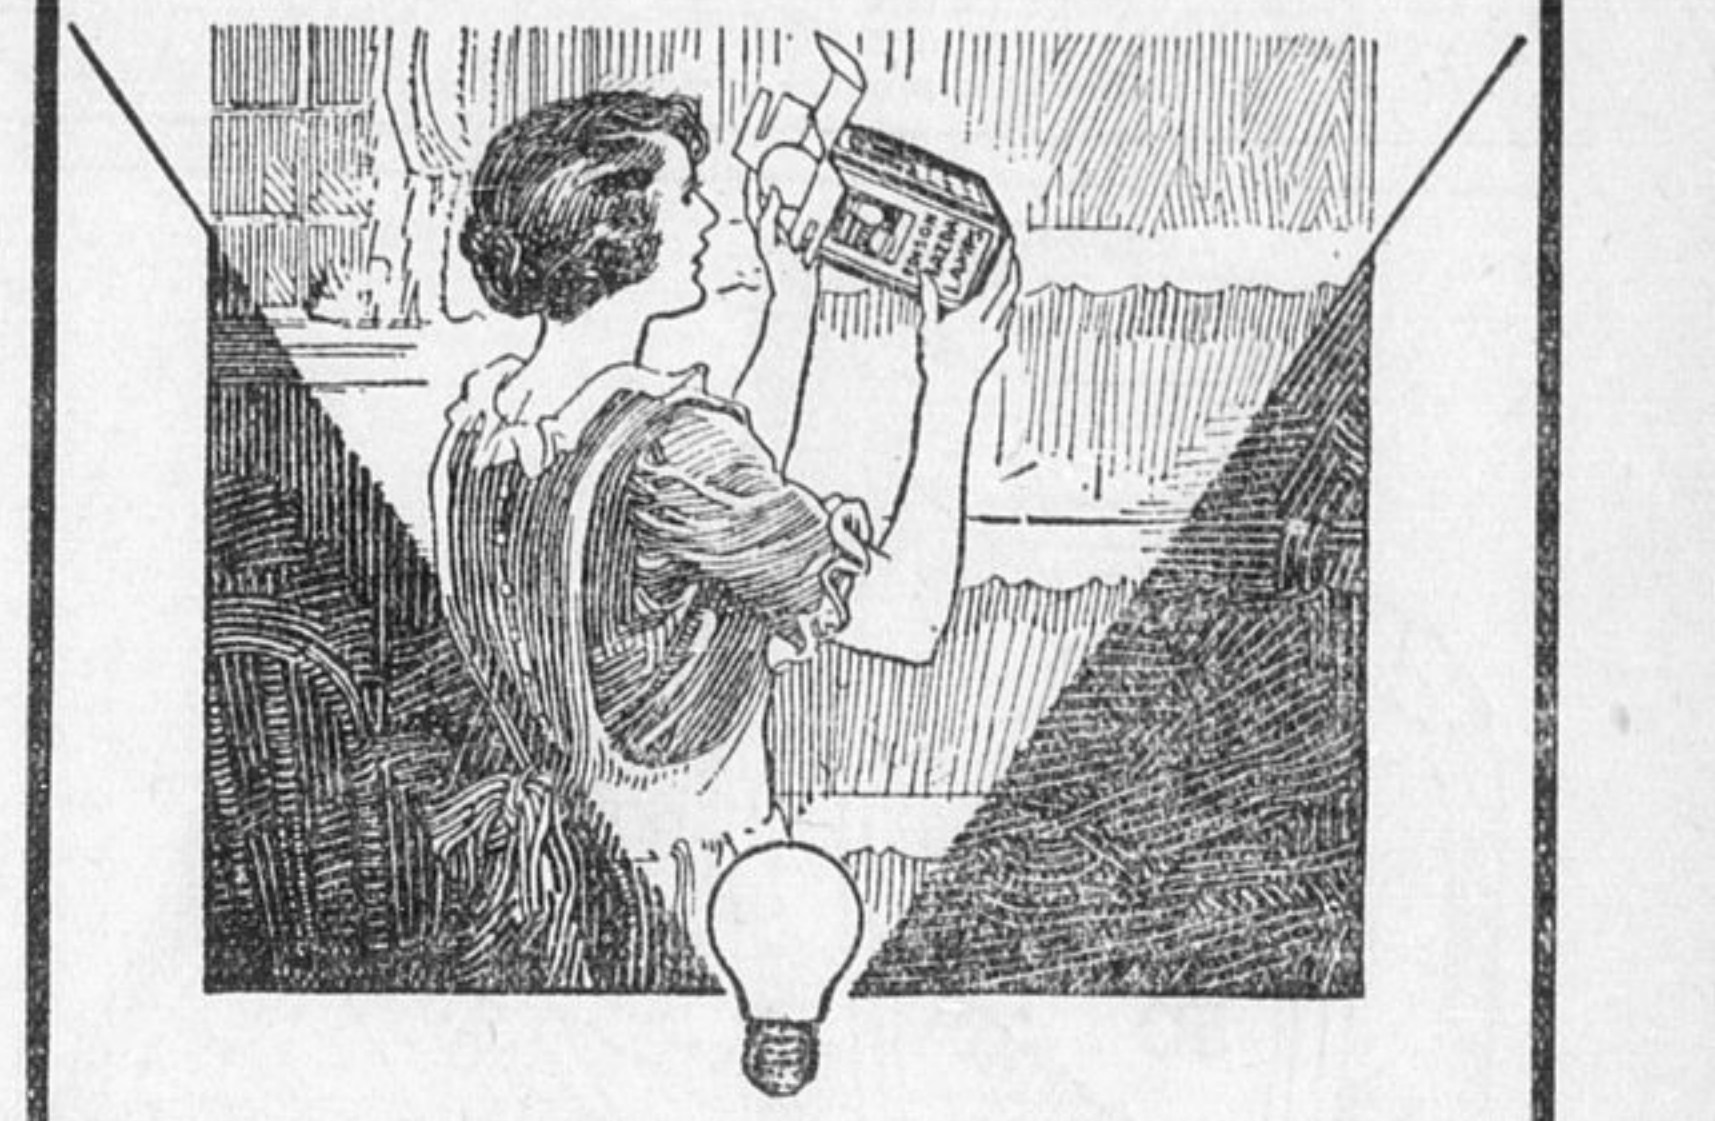

In a recent issue The Perth Expositor deals with the unsatisfactory results that so often result from dealing with the transient trader. The unfairness of dealing with the transient trader should be apparent at a moment's consideration. It is not treating fairly the local merchant who pays taxes, supports the town otherwise, and also extends credit very often to those who need it though sometimes it is only too true that their surplus cash has gone to the transient trader. These features have been often emphasized to the disadvantage of the customer. The Expositor says:—"The fallacy of buying from unknown transient traders has been experienced in Perth lately by several ladies who were inveigled into buying rugs to be made by a certain Toronto concern. Excellent samples were shown by the salesman and the price was so attractive that several placed orders for rugs at prices varying from twenty to thirty dollars. They were sent to

town by this firm on a C.O.D. basis, which admits of examination after the article has been paid for; otherwise few of them would have been accepted at all. The actual product was far from an imitation of the sample shown; the salesman has departed and so has the money from the community, with scant chance of the buyers ever getting satisfaction or their money returned. In merchandising, as in practically every line, one gets just what he pays for, and there are too many fly-by-night transient traders of the type that visited Perth on the roads today. Buyers are well advised to buy from a reliable home town source and be assured of satisfaction."

Ottawa Journal:—The Detroit Museum has just acquired a motor car built in 1888. If we mistake not, this machine was seen last summer going through Sudbury, and it is believed it got at least as far as North Bay.

Try this delightful **MAGIC BAKING POWDER** MENU

Look for this mark on every tin. It is a guarantee that Magic Baking Powder does not contain alum or any harmful ingredient.

Next time you're entertaining, try this delightful Tea Menu, suggested by Miss McFarlane, Dietitian of St. Michael's Hospital, Toronto.

TEA MENU
Tomatoes stuffed with pineapple
Graham Gems* Nut Cookies
Chase & Sanborn's Tea

Miss McFarlane says: "My successful experience with Magic Baking Powder dates back many years. Consequently, I always use and recommend it because I know it will give dependable baking results. Even a beginner can use it confidently."

Here is Miss McFarlane's Recipe for ***GRAHAM GEMS**

1 cup flour	1 cup Graham flour
4 tablespoons brown sugar	1 cup milk
3/4 teaspoon salt	1 egg
4 teaspoons Magic Baking Powder	4 tablespoons butter, melted

Sift together white flour, sugar, salt and baking powder. Add Graham flour, add milk, egg and melted shortening and beat well. Half fill greased muffin tins and bake in hot oven at 425° F. about 20 minutes.
