

Only Pasteurized Milk to be Sold in Timmins after May 1

By-law to be Passed by Town Council to this Effect, at the Request of the Provincial Board of Health. Measure Designed to Protect Public Health. Other Matters Dealt With at Council Meeting on Monday of This Week

The regular meeting of the town council was held on Monday afternoon with Mayor Geo. S. Drew in the chair, and Councillors Alfred Caron, Dr. S. L. Honey, R. Richardson, J. T. Chemler and J. E. H. Chateauvert and John Morrison present.

The chief business of the meeting was centred round a resolution passed at the last previous meeting of the Timmins board of health. By the terms of this resolution the council was asked to pass a by-law whereby no milk but the pasteurized kind could be sold by dairymen in town. The resolution of the local board of health was in accordance with a request from the Provincial board of health, the latter feeling that Timmins should be protected from the danger of epidemics such as the recent one at Kirkland Lake and also that the public health should be guarded against the danger of diseases that always threatened where large-sized communities used unpasteurized milk.

Mayor Drew explained the stand of the local board of health of which he was a member by virtue of his office. They felt that Timmins should fall in line with other municipalities by having the milk used in the community protected by pasteurization. Timmins was now the only town of any particular size north of Toronto that did not require the pasteurization of all milk sold. Cobalt, New Liskeard, Halleybury, Kirkland Lake, and even towns no larger than Matheson and Monteth were insisting upon pasteurization. The local board of health had studied the matter very carefully and were of the opinion that pasteurization was an absolute necessity for the protection of the public health. He pointed out that the use of unpasteurized milk led to the spread of such diseases as tuberculosis. In Sudbury this had been found to be the case, a large number of deaths there from tuberculosis and other diseases being traced to the milk and not a single similar case being due to milk after only pasteurized milk was permitted. The mayor referred to the special dangers here from the fact that few cows were bred and raised here for milkers. Most of the milking cows came in from outside and there was a constant changing of cows, this adding to the difficulties and inefficiency of inspection of the cows and the dairies.

Mayor Drew said there were about 20 milk dealers here. One dairy had 22 cows, two had about 20 each, five or six others had 14 or 15 cows each, while the balance of the people selling milk here had only a few cows each. He suggested that all the dairymen could club together and install a syndicate pasteurization plant to meet the needs of all of them. If any of the bigger dealers wanted to install their own separate plants they could do so. The idea was to subject the milkmen to a little inconvenience or expense as possible, while at the same time protecting the public health.

Dr. H. H. Moore, medical health officer for Timmins, was asked to say a few words on the matter. Dr. Moore said that after careful consideration of the matter he felt that it would be advisable for the town to pass the proposed by-law insisting upon pasteurization of all milk sold in town. The town of Timmins had had a couple of close calls from epidemics from infected milk. For the protection of the people the by-law seemed necessary, as no chances should be taken of having epidemics similar to the one at Kirkland Lake. The present milk by-law depended upon inspection of cows and dairy premises to protect the town. Dr. Moore showed that through circumstances and conditions inspection could not be fully relied upon. Inspection was very necessary and valuable, and Dr. Moore recommended a clause in the new by-law requiring all dairies selling milk here to be located within a certain limited radius so that they could be frequently inspected. Cattle were like human beings in so far as they might be well one day and ill or infected the next day. Dr. Moore thought it would be well if the town could induce a veterinary to locate here and engage him on a fee basis to inspect all cattle, dairies, etc., regularly. In answer to a question, Dr. Moore said the milk sold in town at present was very good. This was due to the excellent work of the sanitary inspector, I. E. Dunn, who saw to it that all dairies were kept clean and in good condition so far as he could secure these necessary conditions. Cleanliness, Dr. Moore said, is a prime essential to assure good milk. In answer to another question Dr. Moore said that pasteurized milk would not cost the consumer more. It did not in other towns and it should not here. Councillor Morrison commented that pasteurized milk sold in town some years ago had not proved specially desirable, to which Dr. Moore replied that the milk in question had come from out of town and that it was not clean. It was not the fault of the pasteurization

but of the lack of cleanliness in the first handling.

Councillor Chateauvert said that if the by-law were passed people might go outside the town to buy ordinary milk. For this reason he thought the township of Tisdale should be approached and asked to co-operate by passing a similar by-law for pasteurization. Dr. Moore said that the town had to consider first the general public interests. The mayor had said that he did not like the taste of pasteurized milk, and there might be others who would go out of town to buy raw milk, just as some people for a time had brought in spring water from a distance in place of using the town water.

Councillor Caron asked if pasteurization would kill all germs. To this Dr. Moore replied that it would kill most of them. In reply to another query the medical health officer said the Kirkland Lake epidemic would not have occurred had all the milk there been pasteurized.

Councillor Chateauvert suggested that some of the dairymen might not be prepared to finance the putting in of the proposed pasteurization plants. Dr. Moore replied that the various dealers could combine to install a plant they could all use. The cost was not prohibitive. He suggested \$1200.00 to \$1600.00 as the probable cost. In answer to another question, he suggested that the installation of a general municipal pasteurization plant was hardly practical. He knew of only one town that had tried it. Dr. Moore emphasized the fact that it was not at all desired to impose any hardship upon any of the dealers. He thought time should be given them to arrange for pasteurization plants, but three months, he thought should be the limit for this.

After some further discussion, during which it was noted that as the milkmen would need to put in ice, the sooner they knew the council's decision in the matter the better, it was duly decided by the council that the clerk be instructed to prepare a by-law allowing only pasteurized milk to be sold in town and that the date on which the by-law should go into effect would be May 1st of this year.

A gentleman over 74 years of age who had paid off \$247.00 on back taxes some months ago, asked that the town drop off a part of the ten per cent penalty. Only \$24.00 remained unpaid, and he was only working two days a week, but he said he would gladly pay \$10.00 more on next pay day if the council would drop the balance. He found it hard to struggle along, but he maintains his wit and good humour and gave those in the council room a few good laughs. Among other things he mentioned that for seven years he had worked for the town and been paid regularly. "My good friend over there," he said pointing to Clerk H. E. Montgomery, "never was a day late in making out my cheque and in all the seven years he never made a mistake in what I should get." Councillor Dr. Honey was among those laughing at this salty, and the old gentleman turned to him. "Yes," he said, "and Mr. Honey there pulled out all my teeth and never gave me a cent for them." The mayor explained that no action would be taken to collect the penalty until after the next meeting and in the meantime the council would take the matter into consideration.

Accounts were passed for payment. (Continued on Page Eight)

ACCOMPANYING PRINCE

VISCOUNT EDNAM Son and heir of the Earl of Dudley and regarded as an authority on British industry, who is accompanying the Prince of Wales and Prince George, on the royal brothers tour of South America.

FROM SULTAN'S HAREM TO ASSEMBLY

NAIYME SAMY HANOUM A startling career that has swept her from the Sultan's harem to a seat in the nation's highest legislative house, the National Assembly, is the life story of this Turkish woman. Starting as a lady of the Sultan's seraglio, she has just been elected by the voters of Konia to represent them in the National Assembly of Turkey.

To Choose Queen Esther at the Purim Ball Here

One of the novel features of the Purim Ball which is to be held Feb. 4th by the Hebrew societies of Timmins will be the selection and crowning of Queen Esther. The lady will be chosen in a popularity voting contest, irrespective of nationality. The refreshment committee held its first session and decided that "Humentachens" will be served among other delicacies. The McIntyre hall, for the occasion of the Purim Ball, will be decorated with scenes of the period of Egypt and Media.

DEBATE BETWEEN YOUNG PEOPLE OF TWO CHURCHES

Teams Representing St. Matthew's A.Y.P.A. and United Church Young People's Society Debate on Respective Values of Libraries and Travel in Education.

The weekly meeting of St. Matthew's A.Y.P.A. was the scene of an interesting debate between a team representing the young people of the United Church and St. Matthew's young people. The subject of the debate was: "Resolved that a library is of more educational value than travel." J. Gordon and F. Woodbury, on behalf of the United Church Y. P., upheld the affirmative, while Miss M. Henman and C. Read took the negative side of the question. The subject matter was well presented, and upheld by strong, convincing arguments, and in like manner the negative team submitted subtle but logical rebuttal. Many of the statements by the various speakers were humorous, while the general presentation of both sides were demonstrative of serious preparation on the part of the contestants. Miss Thorburn, Mrs. Burt and S. G. Fowler were the judges for the occasion. Their verdict was in favour of the team presenting the negative side. St. Matthew's Y. P. team was awarded 35 points and the United Church Y. P. debaters, 34 points, so it will be noted that the decision was a close one. After the debate a short programme was enjoyed by the audience. A song, "Good-bye, Sweet Day," by Mrs. Cretney, was much enjoyed. The peanut race was won by Miss J. Scott of the United Church Y.P.S. Cross-questions and crooked answers was a game that aroused much fun and hilarity. Community singing too was engaged in to the great enjoyment of all. Dainty refreshments were served, bringing a delightful evening to a successful conclusion. About twenty young people and Rev. Mr. Millar and Mrs. Millar of the United Church visited the A.Y.P.A. along with the debating team. Miss B. Sinclair, president of the A. Y. P. A. presided at the meeting in most acceptable manner. Two events of unusual interest for St. Matthew's A.Y.P.A. will be a hike to the Hayden next Tuesday, and a visit from the Bishop of Moosonee who will give a talk on the 1930 Lambert Conference.

SOCIAL, FEB. 4, TO OBSERVE ANNIVERSARY OF THE D. OF E.

There will be a social in the Hollinger hall on Wednesday, Feb. 4th, to celebrate the anniversary of the opening of the Daughters of England lodge here in Timmins. For the occasion the D. of E. certainly expect a good time for all. The members are asked to bring refreshments, and also to invite their friends to the event. There will be dancing, games, music, etc., for the occasion.

RUMMAGE SALE, AUSPICES ST. MATTHEW'S ALTAR GIRLS

A rummage sale will be held in the church hall on Saturday, Feb. 7th, commencing at 9 a.m. sharp, under the auspices of the St. Matthew's Altar Girls. Previous rummage sales under the same auspices is assurance that the event will be well worth attending by all who wish to purchase goods of value

LESSONS IN FLYING TO BE OBTAINABLE IN TIMMINS

Plans Under Way for the Formation of a Flying Club Here. In the Meantime Opportunity Offered to Learn Flying Camp.

W. N. Millar, who visited Timmins a couple of times last year by airships and gave passenger flights here, came to town again last week with his airship, and his machine in its work in the air over the town on Saturday attracted much attention. Mr. Millar is well-known in the North Land as a flier of experience and ability. He has over four years' experience in flying, doing passenger work and instruction in Eastern Canada. His visit here last week was with the purpose of arranging to give lessons in flying here and eventually establishing an aeroplane club here. He thinks that Timmins is the logical location for a flying centre, and now the time for any interested to prepare for actual flying. He says he can have students ready to do solo flying by spring. Mr. Millar returned south this week but will be back here next week. In the meantime any interested in flying should see J. D. Brady, Bank of Commerce building. If a sufficient number of young men interested in flying come forward, instruction in actual flying work will be started immediately. Pearl Lake will be used temporarily as a base. The idea is to form a flying club here, flying being the new art and profession and Timmins being the logical centre for the work here. All interested, and there should be many such here, should get in touch with Mr. Millar or Mr. Brady at once.

IROQUOIS FALLS WINNER FIRST GAME, SECOND HALF

Match on Monday Night Resulted in Whitewash for Timmins Team, Big Feature Was the Brilliant Work of Both Goal-tenders.

In the first game of the second half of the N.O.H.A. senior series, played at Timmins on Monday evening of this week before a well-filled rink, Iroquois Falls won from Timmins with the score 4 to 0. The game was rather disappointing to the fans here, the Timmins lads apparently being unable to get going rightly after the first period in which they showed considerable speed. It may have been an off-night for them or it may be that they became discouraged at some of the decisions of the referee. While the game was not rough, the Timmins team suffered considerably from men being off the ice. The chief feature of the game was the brilliant work of both goal-tenders. Both were kept busy all evening. Hudnut had a specially difficult night and did wonderful work. On a couple of occasions he had to come out of the nets to save and he did the work with marked skill. He saved them from all directions and was fairly peppered at times with speedy shots. His good work saved a bigger score. The play at times was ragged. The Falls should much good combination and put up a lively game. A section of the Timmins Citizens' Band provided music for the evening. The teams lined up as follows:— Iroquois Falls:—Powers, goal; Porter Brothers, defence; Wimperis, centre; Pender and Smith, wings; Czubulski, Bennett and Walsh, spares. Timmins—Hudnut, goal; Jago and Jodin, defence; Arundel, centre; Spence and Auler, wings; Krupka, McKinnon and Laflamme, subs. Referee—P. J. Fahey, Iroquois Falls. The first period showed Timmins on the aggressive, Arundel and Jago being particularly effective. The play went from end to end and was very spirited. Iroquois Falls put up a nice game, but thanks to the good work of the Timmins team, and especially Hudnut, they could not score despite brilliant combination and spectacular rushes. Powers had much work in this period and showed his usual skill. The period ended without a score. There was some good hockey in the second period, both teams making very strenuous effort to get a lead. Both goals were fairly bombarded with shots at times, their work being unusually good. The second period saw several men off for infractions, but still there was no scoring, though there was some good combination work by both teams. In the third period, with men off the ice, and the defence being passed several times by the Falls, Hudnut had a very difficult time. Clever combination work by the Falls resulted in four scores by the Falls in this period. The Timmins team seemed to be unable to get going rightly and though they made strenuous efforts to get at least one, they saw the period end without a goal.

HAMILTON MAN LEFT HERE ON SKI HIKE TO TORONTO

James Graham ("Red") Planning to Better Record Made by Claire Severt on Skis. Expects to Make 35 or 40 Miles Per Day.

James Graham, of Hamilton, was here on a visit this week, being the guest of the Kiwanis Club on Monday, and left Tuesday morning for Toronto intending to make the trip on skis. He is doing this simply for his own pleasure and not as a wager or other reason. At the same time he hopes to better the record made by Claire Severt in his ski hike to Ottawa. Mr. Graham will follow the Ferguson highway and hopes to make from 35 to 40 miles a day. He thinks he will complete the trip in twelve days or less. He was accompanied on the start from here by Claire Severt on Tuesday morning. The mileage from here to Toronto is about the same as from here to Ottawa, so the Graham trip will be watched with interest to see how it compares with the Severt record to Ottawa on skis.

LIST OF THE OFFICERS INSTALLED AT THE W.O.M.L.

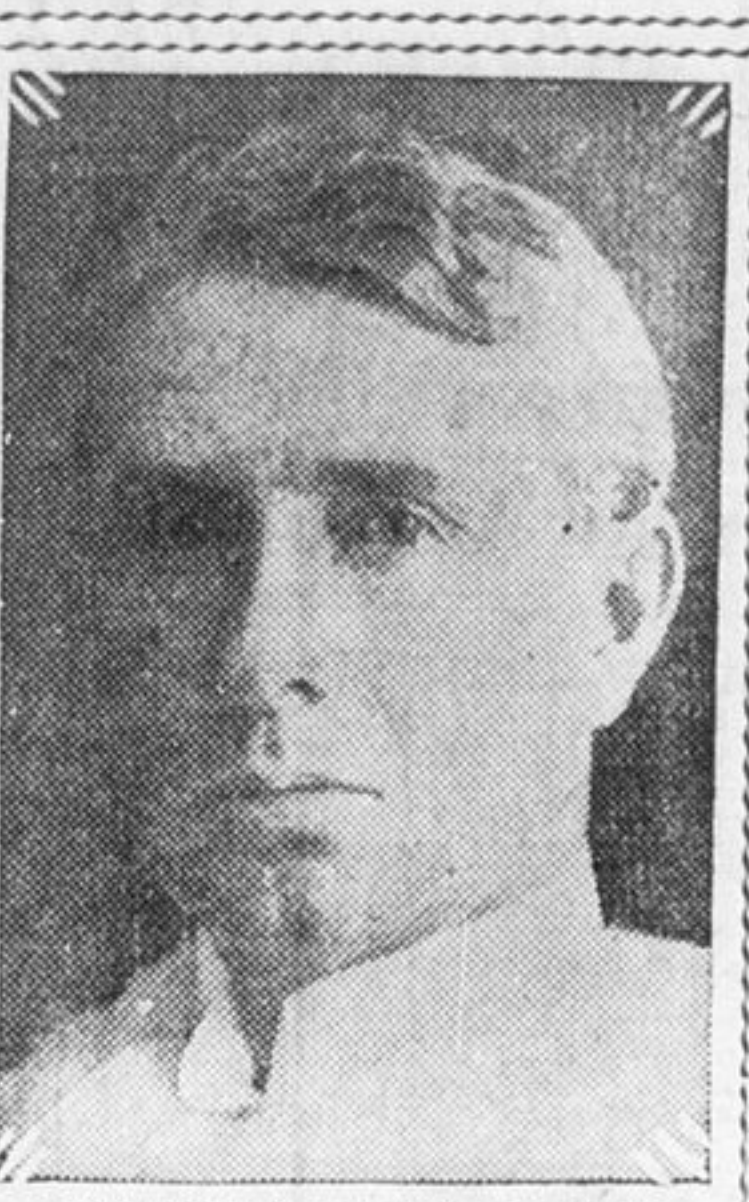

The following are the officers installed for the ensuing term at the W.O.M.L., Timmins:— Argus—Legionaire S. Ray. Sentinel—Legionaire B. Allen. Guide—Legionaire M. Donaldson. Guide—Legionaire A. Byck. Treasurer—Legionaire M. Shaheen. Recorder—Legionaire H. Lees. Chaplain—Legionaire M. Demille. St. Regent—Legionaire M. Eyre. Pianist—Legionaire Surman.

New Officers at Cercle Canadien-Francais Here

At the annual meeting of the Cercle Canadien-Francais, held in the basement of the Church of the Nativity, the following officers were elected for the year 1931:— President—O. Saive, barrister. Vice-president—J. E. H. Chateauvert, merchant. Sec.-Treas.—J. Ed. Jacques, teller, Bank of Montreal. Directors—F. Cardinal and U. Aubry. Auditors—A. Thiboutat and H. Remigault.

There was a good attendance at the annual meeting on Friday, Jan. 23rd, and all were enthusiastic over the promise of such and progress for the club in the present year.

CANADA'S ADMINISTRATOR

JUSTICE LAYMAN P. DUFF Chief Justice of Canada, who has been sworn in as administrator of the Dominion pending the appointment of a new Governor-General.

Commencement Exercises of Timmins High School

The annual commencement exercises of the Timmins High and Technical Schools will be held in the auditorium of the school on Thursday and Friday evenings of next week, Feb. 5th and 6th. As usual the event will include the presentation of certificates and prizes and the medals for the athletic events. There will also be a review given of the past year's work. The details of the programme are not available for this issue but further announcement will be made in The Advance next week.

RESULTS OF PUBLIC AND SEPARATE SCHOOL HOCKEY

The following are the results of the public and separate school hockey in the T.B.A.A. as at Jan. 24th. The standing of the teams was published in The Advance last week and will appear again next week. Under 12 division—Holy Family, 7; Central, 3; Moneta, 2; St. Anthony, 1; Mattagami, 2; St. Charles, 1. 12-year division—Central, 2; Holy Family, 1; St. Anthony's, 6; Moneta, 3; Mattagami, 3; St. Charles, 0. 13-year division—Central, 5; Holy Family, 2; St. Anthony's, 2; Moneta, 0; Mattagami, 2; St. Charles, 1. 14-year division—Mattagami, 3; St. Charles, 2; Central, 8; Holy Family, 1.

Rarely Given S. J. A. B. Medal Presented by Hon. Mr. Gordon

Formal Presentation to Winning Team of Medals and Cup at Event in Hollinger Hall Tuesday Evening. Bravery and Talent of Fred Jackson in Time of Hollinger Disaster Recognized by St. John Ambulance Association. Several Distinguished Visitors Here.

At the Hollinger Recreation hall on Tuesday evening formal presentation was made to the Hollinger St. John Ambulance First Aid team of the medals for the winning of the Hon. Chas. McCrea Cup for 1930, the medals to the team as runners-up for the Coderre Cup, and the special medal awarded to Fred Jackson for particularly meritorious work at the time of the Hollinger disaster. Owing to lack of notice and publicity for the event there was a small attendance, but there were several distinguished visitors present, including Hon. W. A. Gordon, Minister of Mines for Canada, Dr. Campsall, Deputy Minister of Mines for the Dominion, G. A. Bateman, secretary of the Ontario Mining Association, Col. C. A. Hodgetts, C.V.O., superintendent of the St. John Ambulance Association in Canada, J. Dickenson, manager of the O'Brien Mine, Cobalt, and N. J. McAulay, of Halleybury.

E. L. Longmore presided and gave hearty welcome to the distinguished visitors. He also touched on the good work done by the St. John Ambulance first aid teams. Mayor Geo. S. Drew, in presenting the medals to the winners of the McCrea Cup for 1930 said they were a credit to themselves, to the mine and to the town, and the value of their work could not be overestimated. In presenting the handsome and interesting McCrea Cup to A. F. Brigham, general manager of the Hollinger, for custody during the year, the mayor pointed out that this was the second year the trophy had been competed for being won the previous year by the Dome Mines team. The winning team was:— T. Richards, captain; G. A. Gibson, Edward Keen and W. D. Forrester, the last-named being unavoidably absent. In accepting the McCrea Cup for the team, Mr. Brigham apologized for the delay in holding the formal presentation. He said an appropriate case would be provided at the Hollinger office to hold the trophy and he hoped it would be kept there permanently. He said that his interest in first aid work and the St. John Ambulance had been greatly stirred and this interest would be much greater than in the past. "The Hollinger is still one of the foremost mines in the country" was one of the incidental remarks made by Mr. Brigham.

Col. Hodgetts, C.V.O., director-general of the St. John Ambulance Association, presented the medals to the runners-up for the Coderre Cup, competed in by mine teams throughout Canada. He wished the Hollinger team continued success and said they did excellent work and had only been a few marks behind the winner. This year they would have the added competition of a Nova Scotia mine team. Hon. W. A. Gordon, Minister of Mines, in an eloquent and impressive address spoke from personal knowledge and acquaintances of the fine type of men engaged in mining in all its branches from the executives down to the humblest man underground. Their calling made it imperative that they have courage, resourcefulness, intelligence, and these were the qualities displayed by Fred Jackson, to whom the St. John Ambulance Brigade had given the honour, rarely proffered, of their medal for special meritorious service, the award being made for the great assistance given by Mr. Jackson to his fellow miners at the time of the Hollinger fire. Hon. Mr. Gordon paid tribute to the way the mining industry had carried on during the depression. The speaker paid eloquent tribute to the S.J.A.B., which was one of the oldest institutions of which history has record. Tribute was also paid to Col. Hodgetts for his great work for first aid. In presenting the medal to Fred Jackson, Hon. Mr. Gordon said he had displayed the courage of a real man when the testing time came.

On behalf of the S.J.A.B. and all others concerned Mr. Longmore thanked all who had taken part in the meeting, especially Hon. Mr. Gordon and Col. Hodgetts for giving of their valuable time to be present. Had there been more time for publicity the attendance would have been much larger, Mr. Longmore said.

CAPTAIN W. J. FLEWELLEN PASSES AWAY AT THE DOME

Mine Superintendent at Dome Mines Succumbs to Illness. Died on Sunday Morning. Largely Attended Funeral at Timmins This Week.

South Porcupine, Jan. 28th, 1931. Special to The Advance.

The whole community was saddened on Sunday last when it became known that Captain W. J. Flewellen, of the Dome Mines, had been called to his eternal home early Sunday morning, January 25th. He had been at his work on Friday, January 16th, so was confined to the house only eight days before the final release came. Suffering still from the general debility which troubled him since last spring before he took a vacation, he was a ready prey to the cold and did not seem to be able to throw off a severe cold which he contracted about Christmas time. The funeral took place from Walker's Undertaking Parlours to the Church of the Nativity in Timmins, Rev. Father O'Gorman celebrating the mass. Father Caulfield and Father Gelinus were in the sanctuary. The body will be kept in the vault at Timmins until Mrs. Flewellen can arrange her affairs to take it with her to California for burial there. The funeral was one of the most largely attended ever known in the camp. Out of respect to the late Captain Flewellen, who officials and employees alike loved, the underground work at the Dome was suspended for the day and the shops and offices closed for the half-day. Hundreds of men from the underground workings attended the funeral, feelingly showing their respect to the man who had been to them as much friend as master. A man who knew men and was possessed of a very keen sense of justice, along with a quiet forceful personality, the late Mr. Flewellen was honoured and loved by all who had worked for him, no matter of what nationality. When it became known that he was gone many an expression heard in broken English on the street showed how keenly his loss was felt even by the lowliest of his workmen. To those more closely associated with him in his work, the quiet, unassuming yet masterly mind of the man who walked beside them in their daily tasks will be an inspiration reaching out into the future. The pallbearers were Messrs W. Wottam, F. Demers, J. McCrea, R. Murphy, W. McLean and F. Laforest. The late William James Flewellen was born at Virginia City, Nevada, fifty-two years ago this next March. Most of his boyhood, however, was spent in Nevada City, California. He went from there to South Africa, first as shift boss at the Robinson Gold Mines, then as captain at the New Modderfontein Gold Mines, later as captain and then underground manager at the Crown Mines. After ten years in South Africa he came back to Nevada City and held positions in the gold mines of California for about three years before coming to Porcupine in the spring of 1921, as assistant captain at the Dome Mines, and has held the position of mine superintendent there since the retirement of Mr. George Johns. He was married in San Francisco, California, to Miss Eva Hussey in 1921 just prior to leaving for Porcupine, and the hearts of all go out in sympathy to Mrs. Flewellen in her great loss. Both Mr. and Mrs. Flewellen have been active in church work and in all activities that spoke for good citizenry. Beloved as neighbours, and honoured as citizens their place in the community will be hard to fill. Three sisters, two in California and one in Nevada, survive Mr. Flewellen. The floral tributes sent in respect were wonderful and very numerous, among the floral offerings being floral tributes from—H. P. DePenier, Mr. and Mrs. P. Richards, W. A. Andrews and family, Dr. and Mrs. Russell and family, Mr. and Mrs. Lahti (Sudbury), Mr. and Mrs. Harold Hall, Mr. and Mrs. George Doner, Canadian Ingersoll Rand staff at Timmins, Mr. and Mrs. O. N. Spiers, A. C. Stevenson and family (Sudbury), Mr. and Mrs. G. M. Longworth, Mr. and Mrs. J. J. Jordan, Mr. and Mrs. J. H. Stovel and family, Dome Mines Office staff, Mine Employees and Shift Bosses of Dome Mines, The Dome Mines Co., Ltd., Mr. and Mrs. W. F. J. Cosser. Spiritual offerings:—From Mr. and Mrs. Alfred Laforest, Mr. and Mrs. W. P. McLean, Mr. and Mrs. E. J. Rapsey, Miss Teresa Burns, Mrs. J. Cunningham and family, J. Cunningham, Mr. and Mrs. S. Kennedy, Mr. and Mrs. T. E. Cahill, Miss Marcella Lynch, Mr. and Mrs. Gideon Demers, Mr. and Mrs. Maurice Besette, Mr. and Mrs. H. Ferrigan, Mr. and Mrs. P. Cooper, Mr. and Mrs. A. Laprarie.

RESULTS T.B.A.A. JUVENILE HOCKEY AS AT JANUARY 24

The standing of the teams in the T.B.A.A. Juvenile hockey was given last week and will be given again next week. The following are the results of the games on Jan. 24th:— Junior—Tuxis, 6; Trail Rangers, 0. Intermediate—Holy Name, 2; High School, 1. Senior—Holy Name, 3; High School, 2.
