### Try Magnesia for Stomach Trouble

To Neutralize Acidity and Fermentation. Prevents Indigestion, Sour Gassy Stomach.  
People who suffer from indigestion usually have tried pepsin, charcoal, soda and various digestive aids and got little more than slight temporary relief—sometimes not even that.  
But before giving up to chronic dyspepsia, just try the effect of a little Bisurated Magnesia—not the ordinary commercial carbonate, citrate or milk, but pure Bisurated Magnesia which you can obtain from any druggist in either powder or tablet form.  
Take a teaspoonful of the powder or four tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat. You can enjoy your meals without a fear of indigestion.
