

# KELLOGG MAKES THEM BETTER

EAT the latest in bran flakes. A marvelous blend of the nourishing elements of the wheat with just enough bran to be mildly laxative. And above all the famous flavor of PEP. Crisp, ready-to-eat with milk or cream. Sold only in the red-and-green package. Made by Kellogg in London, Ontario.

BETTER BRAN FLAKES

The wonderful medicinal properties of Gin Pills acting directly on the kidneys, neutralize the urine, soothe and heal the inflamed tissues and restore the bladder to regular action, giving permanent relief from all kidney and bladder troubles. 50c a box at all druggists.

## DR. HARVEY CAMERON-SMITH WAS A MAJOR, NOT CAPTAIN

The Powassan News last week says:— "A regrettable error occurred in connection with the Dr. Harvey Cameron-Smith obituary notice last week. He should have been credited with the rank of Major, not Captain. Also through an oversight the name of Mr. Cox, the esteemed Nipissing pastor, was omitted, he having assisted with the service. Those who comprised the firing party were: Sgt. C. B. Harris, Bulger A. Smith, Sgt. A. Adfield, Corp. G. Grawey, Corp. P. Cadden, Corp. S. Lang, and Privates H. Hammel, Joe Alston, Alf. Gougeon, D. Selwood, L. Jardine and Cecil Hall."

## MAKING NEW PULP FROM OLD NEWSPAPERS AND MAGAZINES

(From The Canada Lumberman)

A machine has recently been developed whereby pulp is manufactured from old newspapers and magazines. This is believed to be one of the most important developments in the paper-making industry in recent years and the patents are held in every country in the world by the Canadian inventor, J. J. Herb, of the Westminster Paper Co., New Westminster, B.C., became interested in the invention and, after exhaustive experiments and changes, has at last got the new machine operating efficiently. The company for its share in the perfection pays no royalties, while Mr. Herb, also has an interest with the patentees.

The purpose of the machine is to take all the ink and colouring out of newspapers and magazines, and a complicated washing process had to be devised to attain this purification. The result leaves a 93 per cent pure pulp, white and smoother than the original pulp put into the newspaper.

A total of \$22,000 has been invested in the de-inking equipment at the Westminster Paper Co., which is paying its way in the saving derived from salvaging old paper. Installation of a better shredding machine shortly will complete the process to an almost perfect state. The pulp produced by this means is manufactured into especially high class grades of tissues and paper napkins.

## Suing Einstein

ERA D. EDWARDS

Is suing Dr. Albert Einstein on a charge of using his ideas in the famous Einstein relativity and "unified field" theories, basing his claim on a pamphlet of which he is the author. Edwards' theory is that "all constructive activities are the result of harmonized universal rhythm."

## GOLD PRODUCTION IN 1930 INCREASED, OTHERS NOT SO

Mineral production in Ontario during 1930 was 4.3 per cent. lower than in 1929, according to a report issued by the Provincial Department of Mines last week. The total value of the output in 1930 was \$112,926,411, as compared with \$117,960,722 in 1929. The decreases were proportionately greater in clay products and structural materials than in the metallics and non-metallics.

"While other industries throughout the country have been experiencing a severe business depression, the mining industry as a whole has maintained its position remarkably well," says the report in a foreword. "Although the total output was lower in value than in 1929, the decrease was small, particularly as regards the metallic group."

Gold from all sources in Ontario in 1930 totalled 1,736,855 fine ounces or an increase of seven per cent. over 1929 production. The value of the 1930 gold output was \$35,912,263. Despite low prices obtaining for silver, the Ontario output was greater in 1930 than in the previous year. Production or shipments from all sources totalled 10,481,772 fine ounces valued at \$3,994,169, as against 8,711,643 valued at \$4,630,820 in 1929.

There were 37 mining companies incorporated and licensed in Ontario during 1930 with capital for use in Ontario amounting to \$5,525,000.

Sudbury Star—Sudbury continues its favourable record in respect to fire losses, the damage for the last 13 months having been kept down to normal proportions, according to the report of Fire Chief Andrews, submitted recently to the city council. The net loss per capita for the period under review totals \$1.53. While the gross damage was valued at \$93,040. Insurance on the premises in question totalled \$62,388.99.

## School Report of the Central School

Standing of the Pupils of the Various Classes in the Central Public School, Timmins for Past Two Months.

The following is the honour roll for the Central public school:—

Room 1—Sr. IV—N. R. Wightman, principal—Arthur Pritchard 80, Gerald McInnis 78, Jack Brovender 78, Harold Gauthier 76, Denis Lawley 75. Room 2—Sr. IV—G. D. Everett, teacher—Catherine Kelly 87, Eva Riley 82, Mary Stachow 81, Rose Shirreffs 78, Helen Andrichuk 78, Geraldine Beaudin 75.

Room 3—Jr. IV—Girls—Miss Baker, teacher—Ennie Honkala 85, Jean Scott 81, Lily Feldman 80, Dorothy Abraham 79, Irma Riihinen 79, Annie Lukon 78, Sarah Shankman 78, Grace McQuarrie 77, Jean McGrath 76, Ella Wilson 76, Mary Denisvitch 76, Ida Williams 75. Room 4—Jr. IV—S. M. Robinson, teacher—Wilho Sivunem 81.

Room 5—Sr. III—Miss Heaman, teacher—Basil Howse 87, Sam Habib 84, Helen Crews 78, Clarence Black 77, Earle Cavanagh 77, Violet Ringstad 77, Violet Black 76, Lena Dolynchuk 76, Margaret Clutchey 75.

Room 6—Sr. III—Miss Ramsay, teacher—Patsy Carson 87, Betty Madden 86, Leone Morrison 85, Kauko Salo 84, Anton Harting 83, Teddy Byck 83, Laura Kari 83, James Clarke 82, Stuart Scott 81, Lorraine McPherson 81, Geraldine Gauthier 81, Mary Jones 81, Peter Moroz 79, Lorna Monck 77, Mary Borkoski 77, Gordon Mayes 76, Phillip Borkoski 75.

Room 7—L. Kilfoyle, teacher—Sr. III—Reginald Pope 82, Frank Shub 80, Hector Crocino 80, Sadie Feldman 76. Jr. 1—Tom Stonehouse 85, Donald Blackman 82, Mae Baker 81, Kenneth Blow 80, Leo Laitinen 79, Sylvia Niemi 78, Jerome Shragra 78, Nellie Taylor 78, Rose Gierievitch 77.

Room 8—Jr. III—Miss Morrison, teacher—Eddie Blahay 84, Joe Greenberg 80, Mary Moroz 76, Earl Waldon 76, Olga Green 75. Room 9—Sr. II—Eileen Ohlman, teacher—Barbara Lowe 90, Edna Pond 90, Eina Enison 87, Cherry Gauthier 82, Mona McInnis 80, Greta Kaitunen 80, Earl Abraham 80, Elmer Junnilo 76, Solomon Ansara 76, Fred Stonehouse, Dorothy Habib 75.

Room 10—Sr. II—J. Bogie, teacher—Grace Lawrence 80, Betsy Dodge 78, Allan Roos, Eddie Bokla 76, Helen Prohman 75. Room 11—Miss McKinley, teacher—Sr. I—Billie Korpan 78, Jerry Kobziak 75, Victor Romiscon 75.

Jr. II—Meyer Bucovetsky 86, Jack Carson 84, Doris Read 82, Jim Cowan 78, Willie Samborski 77, Tegwin Thomas 77, Velma Elmes 76, Ken Riley 75.

Room 12—Sr. I—A. M. Loyst, teacher—Joe Drabuta 87, Wilbert Hill 84, Rita Press 82, Peter Senyk 82, Reino Aalto 80, Ona Johnstone 80, Iris Cocklin 80, Clifford Cretney 79, Taini Ruusunen 78, Ladislav Medve 76, Marjorie Pexton 76, Jenny Mattson 75, Annie Volchuk 75, Irene Sollitt 75.

Room 13—Jr. I—Mrs. J. E. Dunlop, teacher—Joan Davies 85, James Hadley 78, Annie Hrhikivitch 77, Betty Roxburgh 77, Elsa Pettoniemi 76, May Cadman 75.

Room 14—Sr. Primer—Miss H. E. Everett, teacher—Alan Costain, John Davies, Oale Passi, Tertu Kaiho, Pete Nastasuk, Annie Pannas.

Room 15—Jr. Pr.—Miss McIntosh, teacher—Bruce Taylor, John Medve, George Doner, Rosie Morowson, Ellen Farnan, Ruth Lago, Francis Simpson.

Room 16—K. P.—Miss Sime, teacher—A. Class—David Rowe, Leslie Shiels, Rosie Kremer, Carlo Wasyluk, John Boychuk.

B. Class—Ross McIntosh, Nerol Raffael, Dorothy Horwitz, Barbara Honey, Costica Majerin.

## HAILEYBURY JAIL RATES HIGHER THAN THE HOTELS

Despatches last week from Haileybury pointed out that is cost H. G. Loranger, a young man from Earleton, considerably more than hotel rates to be a guest in the provincial district jail for just more than around the clock and the accommodation was not so good, either. Bed and breakfast in that institution set him back exactly \$7.70.

Loranger arrived in the jail, under police escort, about 6.30 in the evening to start serving a 30 day term imposed on him by Magistrate Atkinson in default of paying a fine and costs amounting to \$27.60. The following morning, at eight o'clock, he walked out to freedom, having settled not only the original bill, but also an additional charge of seven dollars and five cents, representing extra costs incurred. On top of this, he had to pay 65 cents railway fare back home. Included in the costs were the expenses of the provincial officers who went to Earleton to get him, and there was also charged against him the price of supper in his home community, and provided before the evening train left Earleton to bring Loranger and four companions to the district lockup.

Loranger had been convicted of creating a disturbance outside the home of an unsuccessful candidate for the school board in Earleton. Eight others were similarly treated, each being assessed \$27.60 for his share in the celebration held to rejoice over the candidate's defeat. The magistrate allowed the company a month in which to raise the funds, and when these were not forthcoming them from five of the accused, the police picked them up and took them to jail.

## H. C. CROW RESIGNS FROM PRESIDENCY OF BARRY-H.

At the annual meeting of shareholders of Barry Hollinger Mines, Ltd., H. C. Crow, who, for several years, has headed the board of directors, resigned the presidency. A new president will be elected by the board at once.

J. C. Houston, mine manager, read a report covering operations at the property to the end of the year and a supplementary report to February 28. Production record for 1930 shows a steady increase in values, which has persisted into 1931. The recovery per ton went from \$6.36 in the first quarter of 1930 to \$8.23 in the first quarter of 1931. The output for 1930 was \$217,290.00. The increase in values has resulted from better grade ore from 1907 stope. The winze has reached a point where crosscutting on the 1,875-foot level will begin on March 10th, the manager announced.

The new board of directors consists of Dr. E. H. Green, M. J. Conkey, P. A. Barry, G. A. Morris and Robt. Pennell, the latter being the new member.

## FANTASTIC PICTURE OF THE RUSSIAN LUMBERJACK

A pretty picture of happy lumberjacks in the Arctic forests, their six hours of daily work finished, loafing in the warm clubhouses, singing songs, drinking tea, discussing world politics and indignantly denying the suggestion that compulsory labour is used in Soviet timber regions, is given in the Moscow Pravda, organ of the communist party.

Pravda says that when newspapers arrived containing the report of the Fish committee, interrupting the happy workers drinking tea, they guffawed loudly and then became indignant and decided to stay in the north timbering until the five-year plan is completed.

A sour note from the Utopian north is the news dispatch in another column of Pravda, reporting a fight with serious consequences in the Kotlassky lumbering camp. The newspaper says that the fight was due to Kulaks, though Kulak timber jacks are new. The Moscow Trud, Labour Union organ, also relates that workers in the Donetz coal basin deserted by tens of thousands last year and it was necessary to "Zakrepolit" 15,000, meaning to tie them to the jobs this year.

## MILL TO BE INSTALLED ON PROPERTY NEAR AMOS, QUE.

J. E. Hammell, president of Greene Stabell Mines, Ltd., is authority for the statement that plans are now being drawn for a 100-ton installation on this gold property, which is located about 80 miles by river southward from Amos, Quebec. The property, which has been idle for over a year, revealed in former work interesting ore conditions, commercial grade in considerable footages being shown down to a depth of 600 feet. An adequate mining plant is in place.

The last report on the property, following shut down referred to the fact that the oreshoot exposed on surface for a distance of 270 feet had been opened on the 285-foot level for 390 feet in length. The ore on the 285-foot level averages \$13 for a length of 350 feet over four-foot width. The ore on the 450 and 600-foot levels is similar in values and widths to the above. The oreshoot already developed and indicated above the 400-foot level alone is approximately 350 feet in length by 450 feet in depth. This body is considered sufficient to warrant the construction of a small mill. The possibility of discovering other oreshoots is good.

The property is easily reached by water from Amos in summer, and over

a good winter road. The head office of the company is at 100 Adelaide St. W., Toronto.

Albany (N.Y.) Evening News:—The Upper Legislative Council of Bermuda has rejected the measure which the Lower Council has passed, permitting physicians on the island to use automobiles while calling on patients. So the old remains. The island which has always been free of the modern automobile, will keep its freedom. And somehow we are glad. It is good to think that somewhere in the world is a place where motors are not and motor horns never rack our nerves.

### THE OIL OF GLADNESS

SUFFERERS FROM COUGHS, COLDS, CROUP, CHEST AND THROAT TROUBLES, COLIC AND OTHER INTERNAL AND EXTERNAL PAINS ARE READILY RELIEVED BY

**Dr. Thomas' ELECTRIC OIL**

GOES RIGHT TO THE SEAT OF TROUBLE AND ESTABLISHES A NORMAL CONDITION. HAS GLADDED THE HEARTS OF SUFFERERS FOR GENERATIONS. DON'T ASK FOR JUST ELECTRIC OIL—BE SURE YOU GET Dr. Thomas' ELECTRIC OIL.

## For heavy work the whole year 'round at the lowest cost-per-mile.

CHEVROLET trucks are always ready to do a good job—at low cost. These big, powerful Sixes have the strength and stamina for long hauls, hard pulls, fast schedules and rough going. And Chevrolet's cost-per-mile is not only extremely low, but it stays low, season after season.

You will find it well worth while to inspect today's Chevrolet truck line. Chevrolet bodies of every type are now built in Canadian plants exclusively for use on the Chevrolet chassis.

Chevrolet 1 1/2 Ton Chassis with 131" Wheel-base, \$675  
(Dual wheel option, \$50 extra)

1 1/2 TON CHASSIS WITH 157" WHEEL-BASE, \$730  
(Dual wheel option, \$50 extra)

COMMERCIAL CHASSIS, \$470

Illustrated above is the Chevrolet 1 1/2-ton truck complete with Chevrolet cab and motor body. All prices f. o. b. factory. Tons and special equipment extra.

FEATURES: Three wheelbase models—a 109 inch commercial chassis of half-ton capacity, and two 1 1/2-ton trucks—one of 131 inch wheelbase and the other 157 inch. Features include: New dual rear wheels, with 30" x 5" 8-ply truck-type cord tires. New and heavier front axle. Special truck-type clutch with ten-inch discs. New and heavier rear axle. Massive new frames. Fully enclosed 4-wheel brakes with larger rear drums. Four-speed transmission. New, roomier, finer-looking cabs. 50-horsepower 6-cylinder valve-in-head engine.
