Projectors' Union Present Their Case

Reply for Local Union 634, Sudbury, Regarding the Controversy in Connection with the Operation of Northern Theatres.

The Advance has received the following letter for publication in connection with the controversy between the Timmins theatres and the I. A. T. S. E. & M. P. M. O., Local 634, Sudbury. The case as viewed by the Timmins Theatres was presented in these columns in the issue of March 19th. The following letter is sent as a reply from the standpoint of the projectors' union concerned:—

To the Editor of The Advance, Timmins.
Dear Sir:—Permit us through the columns of your valuable publication to present the truth to the theatre-going public, and refute most of the statements made by Mr. Mascioli as quoted in your issue of March 19th.

It is true that we distributed handbills throughout the town and again we repeat our warning of safety to the theatre-going public, emphasizing the danger of one man having to do two men's work which is contrary to the Ontario Government Cinematograph Act. The various theatres which we declared unfair to organized labour may be under control of two different companies, but, let it be clearly understood, that one president governs both syndicates and negotiations have heretofore always been conducted with Mr. Mascioli, who is the president. The general public were not aware of the Northern Theatres, Limited, being a separate concern from the Timmins Theatres, Limited, until the controversy arose. The Northern Theatres, Limited, claim to have had a contract with the Union for the Empire theatre of New Liskeard. This statement is not true. Different union officials approached the one president of the theatre companies on more than one occasion with regards to having the contract signed, but the nearest they could come to securing the contract was a hurried exit from the places of conversation. A contract for the Goldfields theatre at Timmins was secured a year ago where two experienced union men were employed, and the start of the existing controversy began when the president of the company interviewed the oldest union man at the Goldfields and asked him to withdraw from the union. This member replying in the negative, that he would not, was instantly dismissed, without the due notice of two weeks which the contract clearly states both parties must adhere to, or in default must forfeit the wages for two weeks. This clause was not objected to by the union, in order to avoid unnecessary arguments with the president, and with the hope of coming to terms in view of this member being so unjustly discharged. The president then ordered the remaining theatres locked up. On Tuesday afternoon, March 3rd, this procedure was carried out at both theatres in Timmins and the one in Ansonville, also the one at New Liskeard. Further, in the article mentioned, it was stated that these theatres were the finest in the North and were built according to Government regulations. True enough, the theatres are beautiful, but let it be remembered that before a theatre can be opened it must comply to the regulations and be approved by the Ontario Government; before a license can be granted. This subject is not for us to bring up for public criticism, but we maintain and will impress that the heart of all theatres is the "Projection Booth," where, in the hands of our experienced projectionists, lies the amusement and safety of the public. Further, the advanced stages of our craft with the additional equipment for sound pictures requires more care and time of the projectionist, and while in operation the equipment does require two experienced men, and if these theatres wish to continue the practice of one man doing the work of two, again we say the safeguard of the public is greatly endangered. The president of these companies states he was not allowed to call a meeting of the directors. The president did not consider one whole year ample time, so a few more days was granted. Let us point out here a few conditions which our men were compelled to work under at the Empire theatre in New Liskeard. Two union men were engaged there without a contract at a salary of \$55.00 for the first man and \$45.00 per week for the second. The higher paid man had to act in the capacity of manager, billposter, furnace tender, see that everything went all right, besides operating the machines. He has to be a first-class electrician, a mechanic, a radio-trician, or what have you, etc. This work requires about sixty hours per week of one man's time. The \$45.00 per week man was then taken out to be used to better advantage at Timmins. He was replaced by an inexperienced

assistant who received the large sum of \$2.00 per week for 18 hours' work and at this time the first man's wage was cut down to \$45.00 per week. This is putting the affair in very brief form and as mentioned previously they are positive facts. Let us enlighten you as to what our organization really is, since the president of the theatres has called us "Reds" and "Bolsheviks." We are a trades union recognized throughout the Dominion of Canada and the United States of America. We operate under a Dominion charter and are affiliated with the American Federation of Labour and Trades and Labour Councils of the World, being a member of the Trades and Labour Council of Sudbury. Our craft has over one million headquarters are situated in New York. You will hereby readily see that comparing the handful of men belonging to the so-called Canadian Independent Projectionists' Union, they have a long ladder to climb prior to reaching our standard which we have maintained throughout the years of experience since our incorporation. The article printed in The Advance, of Timmins, was a very serious definition of our Alliance to which we bear true allegiance and to our employers. We thank you, Mr. Editor, for the space you have given us and appreciate the effort you have extended in order that our story may be told. I am,
Harry L. Walker,
Secretary and Treasurer of
I. A. T. S. E. & M. P. M. O.,
Local 634, Sudbury, Ont.

Editor's Note—Both sides of the question have been given now at considerable length. The public will be able to draw its own conclusions. It may be said however, that the original statement in The Advance does not appear to need much re-stating or amendment. The trouble appeared to be centred more around Liskeard and Ansonville theatres (owned by the Northern Theatres, Ltd.) rather than at Timmins theatres (owned by the Timmins Theatres, Ltd.). One point of special public interest is the fact of safety. The letter from the union admits that the theatres are safe, and virtually suggests that the Government will not allow them to be otherwise. It seems to be admitted also that there were two operators at the Timmins theatres, and that there are still two for each projection booth, thus assuring safety to the public. The present operators at Timmins are members of the Canadian Independent Projectionists' Union—Editor The Advance.

Mrs. McCendie Honoured on her 74th Birthday

On Tuesday afternoon at the home of Mrs. Lyman McFadden, 9 Tamarack street, a very pleasant afternoon was spent when a number of ladies surprised her mother, Mrs. McCendie, on the occasion of her 74th birthday. A very pleasant afternoon was spent with music and singing. Then a dainty lunch was served, after which the guest of honour, Mrs. McCendie, received a number of gifts, including a beautiful bouquet of flowers presented by little Edith Golding, while there was also a regular shower of good wishes for many happy returns of the day.

Mozart's "Magic Flute" Over Radio on Sunday

Radio took a prominent place this year in the celebration of the 175th anniversary of the birth of Mozart. One of the most interesting broadcasts went out from Salzburg, where Mozart was born, and included one of his youthful compositions, "Ave Verum," played on his own pianoforte. The whole of Europe united in homage to the genius who as a child sat in the laps of empresses and charmed kings with his brilliant music, only to die at the age of 35 in destitution and to be buried in a pauper's grave that has never been found. "The Magic Flute," the enchanting opera of Mozart's last year, fell flat on its first performance but afterwards earned fabulous rewards, though never a farthing for the unfortunate composer. Sunday afternoon, the Toronto Symphony Orchestra, broadcast over the Canadian National Railways' transcontinental network, will pay its tribute by performing the overture to "The Magic Flute". The occasion will be of particular interest to one member of the orchestra, the viola-player and librarian, Louis Walzman, who was born in the same house where Mozart first saw the light. Walzman's father, like Mozart's was organist in Salzburg cathedral. On Sunday afternoon, the orchestra will also play Suite: G Minor, Bach-Regner, and Smetana's symphonic poem, "Vltava."

Toronto Mail and Empire—A report from Moscow declares that Russia is the hungry man's Utopia. Probably the proof of it lies in the fact that the country is full of hungry men.

Easter in the EATON GROCETERIAS
