**TEN YEARS AGO. IN TIMMINS**

From data in the Porcupine Advance Files.

There was a very large attendance at the annual meeting of the Timmins Golf Club on April 1st, 1921. The Advance quoted one citizen as saying:—"If the board of trade could only get a crowd like this there would be something doing for the town." The report of the secretary-treasurer of the club for the year showed that there were 66 active members with 10 lady members and 2 students. The following officers were elected for the ensuing season, most of them being re-elected by acclamation from the list of officers for the previous year:—Honorary patrons, the Hollinger directors, Messrs N. A. and L. H. Timmins, D. A. Dunlap, J. B. Holden, Dr. McDougald and J. R. Timmins. President, A. F. Brigham. Vice-president, J. W. Fogg. Second vice-president, R. J. Ennis. Secretary-treasurer, J. P. Tallon. Captain, D. Mackie. Vice-captain, H. C. McDonald. The fees were set at \$15.00 for playing members, \$5.00 for lady members, and \$3.00 for students. The Advance commented on the great popularity achieved by golf in the town.

In The Advance ten years ago reference was made to the fact that the Lake Shore Mines had had a sort of off month in February, 1921, the value of the ore milled being only \$16.50 per ton and the total production being but \$24,068.00, whereas usually it was around \$35,000 or \$40,000 per month, with grade around \$40.00 per ton. The Advance commented on the idea of \$16.50 per ton being considered as below the usual grade, remarking on the luck of the Lake Shore in this respect. Ten years ago a revision of the voters' list was made for the referendum vote on the liquor question, H. E. Montgomery being the registering officer for Timmins. There were 49 names added to the list here and none taken off. Personal application had to be made to have names added. Reference was made in The Advance ten years ago to the finding of the board of conciliation sitting at Cobalt to consider the complaint of the mine employees there regarding a cut of 75s per day in wages. The board's unanimous finding was that the wage cut

should be deferred until April 1st, 1921. The reduction had been announced by the mines on Jan. 8th to take effect on Feb. 16th. The mines claimed that the reduction was necessary on account of the decreasing price of silver. The board of conciliation secured a conference of representatives of the men and the mines and this conference agreed, subject to the approval of a mass meeting of the men, that the mines should continue at the usual rate of pay until April 1st, after which date, in view of the low price of silver, the reduction of 75 cents per day should be made. The mass meeting of the men, however, rejected this proposal, which the board of conciliation greatly regretted.

The outside newspapers used to make a practice of exaggerating and misrepresenting everything in connection with the North Land. At least it appeared to be so. The Advance believes now that the trouble was chiefly due to the fact that Southern Ontario newspapers had little idea of the facts about this country and in addition had a whole host of misinformation and misconception about conditions and that for this reason every item about the North was practically sure to be twisted and distorted some way or another. However, since then the truth about the North and its people and conditions has been given so often that now practically all the South Ontario newspapers know what they are talking about when they discuss the North. Ten years ago, though, The Advance was often puffed with the misconceptions and misrepresentations of the North and did not hesitate to express its objection. Ten years ago yarns about Kapuskasing were the point at issue. According to the stories in South Ontario newspapers, and even in The Cobalt Daily Nugget, a thousand men had been discharged from the pulp mill at Kapuskasing, but The Advance printed the official facts of the case, namely that about 300 men working in the bush had been paid off as it was the end of their season, and this was all there was to it.

Geo. R. J. Donaldson, a well-known and highly esteemed resident of Cobalt, passed away at his home there ten years ago after a lengthy illness. He had been in poor health for some time and after the death of his wife some five months previously his condition had become the more serious. He was a native of Buckingham, Que. He was survived by seven sons and four daughters, two of the latter, Mrs. Hardy, of Timmins, and Mrs. F. C. Evans, of South Porcupine, then living in the Porcupine.

There was some excitement noted by The Advance as occurring in the Sudbury district ten years ago owing to the reported find of coal at Chelmsford. The Advance said that the most of people would "hate their doots" about there being coal near Sudbury, but all would wish the hopeful fellows were right, as the North Land would receive unusual and striking impetus to greater development and prosperity if a workable coal field were opened in or near the widespread borders of the North Land.

The Advance ten years ago said:—"A quiet but pretty wedding took place at St. Matthew's rectory on Saturday, April 2nd, when Rev. R. S. Cushing, rector of St. Matthew's church, Timmins united in the holy bonds of matrimony Mr. Ronald Vary and Miss Susie Bartlett, both popular and esteemed young people of the town. Mr. Fred Bailey supported the groom, and Miss Florence Vary, sister of the groom, was bridesmaid. Mr. and Mrs. Vary left on a wedding trip to points south and east. The groom, who is a son of Mr. and Mrs. Geo. Vary, is one of the popular young men of the camp. Miss Bartlett has been for three years on the staff of the Bank of Commerce here and is popular in social and other circles. To the young couple very sincere good wishes will be extended from their hosts of friends in Timmins and district. Previous to the event, the staffs of the Bank of Commerce at Timmins and Schumacher met to express their appreciation of Miss Bartlett and their good wishes. The meeting took place in the office of the manager at Timmins on Friday and Miss Bartlett was presented with an address and a beautiful casserole and a plate of pyrexware set in silver. The address was read by the accountant, Mr. T. M. White, and Miss Bartlett was showered with good wishes."

Ten years ago the New Empire theatre inaugurated the plan of two shows a night, carrying this on for a time, but reverting later to the one show per night. "Gene Colombo was then manager of the New Empire, P. M. Bardsone being busy supervising the several theatres then owned in the North by the New Empire Theatres, Ltd. The theatres included two in Timmins, and one each in Cochrane and Kapuskasing.

Reference was made in The Advance ten years ago to the report published in The Cobalt Daily Nugget that the new Hollinger houses would be built on the athletic field. The Advance replied to this, concluding its article as follows:—"The truth of the matter regarding the sites for the new Hollinger houses is materially as stated in The Advance a few weeks ago. When Mr. Brigham was asked regarding the truth of the suggestion in The Nugget last week he gave the idea very emphatic denial. "The Hollinger will not deprive the people of their athletic field until there is a new and better grounds all ready to replace it," he said.

In the issue of The Advance ten years ago there were seven deaths recorded. These included:—Mrs. Crossley, Timmins; Robert Vial, of the Dome Mines staff; Dennis Mooney, who passed away at the St. Charles hotel from pneumonia; the five-year-old son of Mr. and Mrs. Armand Cote; Cecil Edgar, and T. Carpovich, and also an infant who passed

ed away during the week. The sudden death of Mrs. Walter Crossley at her home in Moneta came as a shock to her hosts of friends in the district. She had returned a short time before from a visit to her native land overseas and was apparently in her usual health. On Saturday, April 2nd, 1921, Mr. Crossley returned from his work at the T. & N. O. shops to find his wife lying dead at their home. She had succumbed to heart failure. The late Mrs. Crossley was among the pioneers of the North Land, her husband being at Elk Lake before coming here. She was well known and highly esteemed by all in town. She was born in Manchester, England, and was 51 years of age at the time of her death. The funeral took place at New Liskeard. She was survived by her husband, Robert Vial was one of the Cornishmen coming out to work at the Dome. He died from tubercular trouble arising from underground work in the Cornish mines. Cecil Edgar was employed by Ernest Blodgett as a teamster. He was about 21 years of age and death was due to a decline. He had no relatives or friends in this country with the exception of his employer, who certainly was a fine friend to the young man and did all possible to assist and befriend him. Tom Carpovich was about 27 years of age, and was a victim of tuberculosis. He lived at 45 Fifth avenue. He was well known in town, at one time being one of the town scavengers. The funeral was featured by hand music.

Ten years ago The Advance noted the opening of a new private hospital in Timmins. The Advance paragraph in the matter read:—"Mrs. Moffat has moved to 75 Fourth avenue and has there opened a private hospital to be known as the Cairns hospital, where every care, attention and skill will be given patients. Mrs. Moffat is a trained nurse of special ability and has won a good opinion during her stay in Timmins. Among the gifts to the new hospital is a gramophone presented by E. W. Johnson in recognition of the excellent care given him while ill with pneumonia some time ago."

D. Walkam, formerly of Sault Ste. Marie, was appointed public school inspector of this part of the North Land, with headquarters in Cochrane, the large inspectorate of Temiskaming having been sub-divided ten years ago. Delos Chowan, for many years on the staff of the Hotel Goldfields, and known to everyone in the Porcupine in its early days as "Tom," few knowing his real name, died at Gravenhurst on March 27th, 1921. He had been at Elk Lake and Porcupine prior to coming to Timmins and was one of the distinctive characters in the North Land's early days. He was a graduate of Harvard university and was widely travelled and well informed. He was over 55 years of age at the time of death. His people were residents of New York and the body was taken there for interment. Many will remember "Tom" and regret his departure from the world that he helped to make interesting.

Among the local and personal items in The Advance ten years ago were the following:—"Rev. J. A. Donnell, Haileybury, occupied the pulpit of the Presbyterian church here on Sunday at both services. In the morning he took as his subject "Law", and in the evening he dealt directly with the referendum on the liquor question. He is an ardent champion of prohibition and delivered two eloquent addresses on Sunday in favour of restricting liquor out of existence." "S. Drew, of Cobalt, is a visitor to town." "R. J. Ennis was in Gowanda last week where he is consulting engineer for one of the promising properties in that locality." "Messrs J. W. Fogg, G. S. Lowe and G. Adams were the first enthusiasts to go round the Timmins golf course this year "on business" as it were. They went around last week, this officially opening the golf season in Timmins." "Mr. Donohue, the new mining recorder, came to the camp last week to take up his new duties. The appointment of Mr. Donohue is generally approved. He is an old-time resident of the North, a returned soldier who was wounded overseas, and a first-class all-round good citizen." "E. W. Johnson, bandmaster

of the Timmins Citizens band, has written the town council resigning as leader of the band. Mr. Johnson has suffered considerable illness during the past few months and this has interfered with his work as leader. All will be pleased to know that he is now well on the way to complete recovery." "The number of visitors to Timmins these days is one of the auguries of the coming boom. The hotels are filled up every day with visitors on mining affairs and other business. When the power situation is completely remedied it looks as if the Porcupine would be a very busy and prosperous place." "Mr. and Mrs. J. W. Faithful spent the weekend the guests of Mr. and Mrs. D. Allen at Monteth. Mr. Allen, who was formerly station agent at Timmins, has been at Monteth for some years." "Mrs. Smith, of Aurora, Ont., is visiting her son, W. G. Smith, in town." "All will be pleased to know that Mrs. Geo. Dewar is fully recovered from her recent attack of the grippe." "S. Bucovetsky is away in Montreal, Toronto, Kitchener and other points south on a buying trip. S. Bucovetsky & Co. are continuing their present store and in addition are to have big new stocks of men's furnishings in the fine modern store next to the Hollinger Grocery department." "W. D. Cuthbertson, representing the taxation branch of the department of finance, Ottawa, was in Timmins on Monday and Tuesday of this week ready to give any assistance to any desiring help or advice in the making out of their income tax returns. Mr. Cuthbertson has been visiting Timmins several times each year since the income tax has been put in force and his knowledge of the complicated law, and his patience, courtesy and carefulness have been of the greatest assistance here in helping the due observance of the requirements of the law." "H. Webb is on a visit to Toronto and other points south." "E. J. Meyers is attending the Rexall convention in Toronto this week." "Miss Sophie Levine left on Saturday on an extended trip to Toronto and other points south." "D. L. Jemmett, of Cobalt, was a visitor to town this week." "The Plank Dance at King's hall last Thursday proved a big success. The attendance was large and the music excellent, being supplied by Al. Wilson's orchestra. The contest for the "plank dance" was won by Evan Macdonald and Miss Mary Downey, this couple being the first to successfully go through the waltz on the plank. It is the intention to have one of these novelty dances each week, the novelty each time to be something out of the ordinary." "In the report of the euchar and musical in the parish hall last Monday evening, The Advance referred to Mrs. Lawlor as the president of the Ladies of Charity. This was an error. Mrs. H. Charlebois is the president of the Ladies of Charity. Mrs. Lawlor was the president of the committee in charge of the euchar event. Another error in the same item credited the \$5.00 gold piece as being given by the Ladies of Charity. The \$5.00 gold piece was given by the ladies of Moneta.

**Hon. W. A. Gordon One of the Present Cabinet**

(From The Ottawa Journal)  
 The Hon. W. A. Gordon, Minister of Immigration and Colonization and Mines, has been referred to during recent months as one of the real finds of the present Cabinet. His statement on the immigration situation, which was published in Wednesday's Journal, indicates that the designation has not been a misnomer. Possessing a forceful personality and singular administrative ability, Mr. Gordon, while a new comer to public life, has brought to the departments under his direction the benefit of a background of practical experience after 25 years' residence in Northern Ontario where mining, lumbering and agriculture are the basic industries and where 25 languages are in daily use. He knows something of the assimilative qualities of various races and nationalities and of their outlook toward our Canadian institutions.

On assuming office in August last, Mr. Gordon logically and properly took the stand that the 99,367 male immigrants over 18 years of age who were admitted to Canada during the sixteen months immediately prior to July 31, 1930, had either displaced Canadians or had joined the ranks of the unemployed. Of these male immigrants 25,305 had entered during the first four months of the fiscal year beginning April 1, 1930. Restrictive immigration measures were immediately put in force. Following conferences with provincial governments and the presidents of the transportation systems, a clear-cut enunciation of policy was issued that the primary duty of the Federal Department of Immigration, the provinces and the railways is the assimilation and absorption of our own people into productive work, and that the efforts of all shall be consolidated and devoted to this end until our house has been put in order. Until the situation has been rectified, restrictive immigration measures will remain in force, as it is obviously unfair to the newcomer and infinitely more unfair to people now in Canada, to permit any immigration movement which would in any way interfere with their agricultural and industrial re-establishment.

Mr. Gordon may be expected to adhere to this course until the situation has become clear and permits of the inauguration of an immigration and colonization policy that will mean consolidation of settlement as we proceed, and will give promise of continuity in immigration and colonization effort.

The next regular meeting of the Timmins town council will be held on Monday, April 13th, commencing at 4 p.m.

Definitely advanced in style, performance and value, the new Oldsmobile offers everything you could ask of a fine motor car... at substantially lower prices.

This latest Oldsmobile incorporates not only those fundamentals which have proved their superiorities over years of dependable service, but many additional features such as the Syncro-Mesh Transmission, a new Quiet Second Gear, Down-Draft Carburetion and Insulated Fisher Bodies.

Visit our showrooms today and drive Oldsmobile. Learn the advantages of the General Motors Owner Service Policy and of the GMAC, General Motors' own easy financing plan.

**PRICED FROM \$1085**  
 at factory... Taxes Extra

**NEW SILENT SYNCRO-MESH TRANSMISSION**  
 permits smooth, silent shift from first to second to high... and back to second.

**DOWN-DRAFT CARBURETOR WITH NON-FLOOD CHOKE**  
 gives increased power, higher speed, faster acceleration, and greater smoothness.

**AUTOMATIC MANIFOLD HEAT CONTROL**  
 warms up engine quickly and gives it improved performance at all speeds.

**INSULATED FISHER BODIES**  
 are warmer in winter, cooler in summer, and exceptionally quiet.

**NEW EASY STARTING**  
 —starter when engaged, automatically opens throttle to proper starting position.

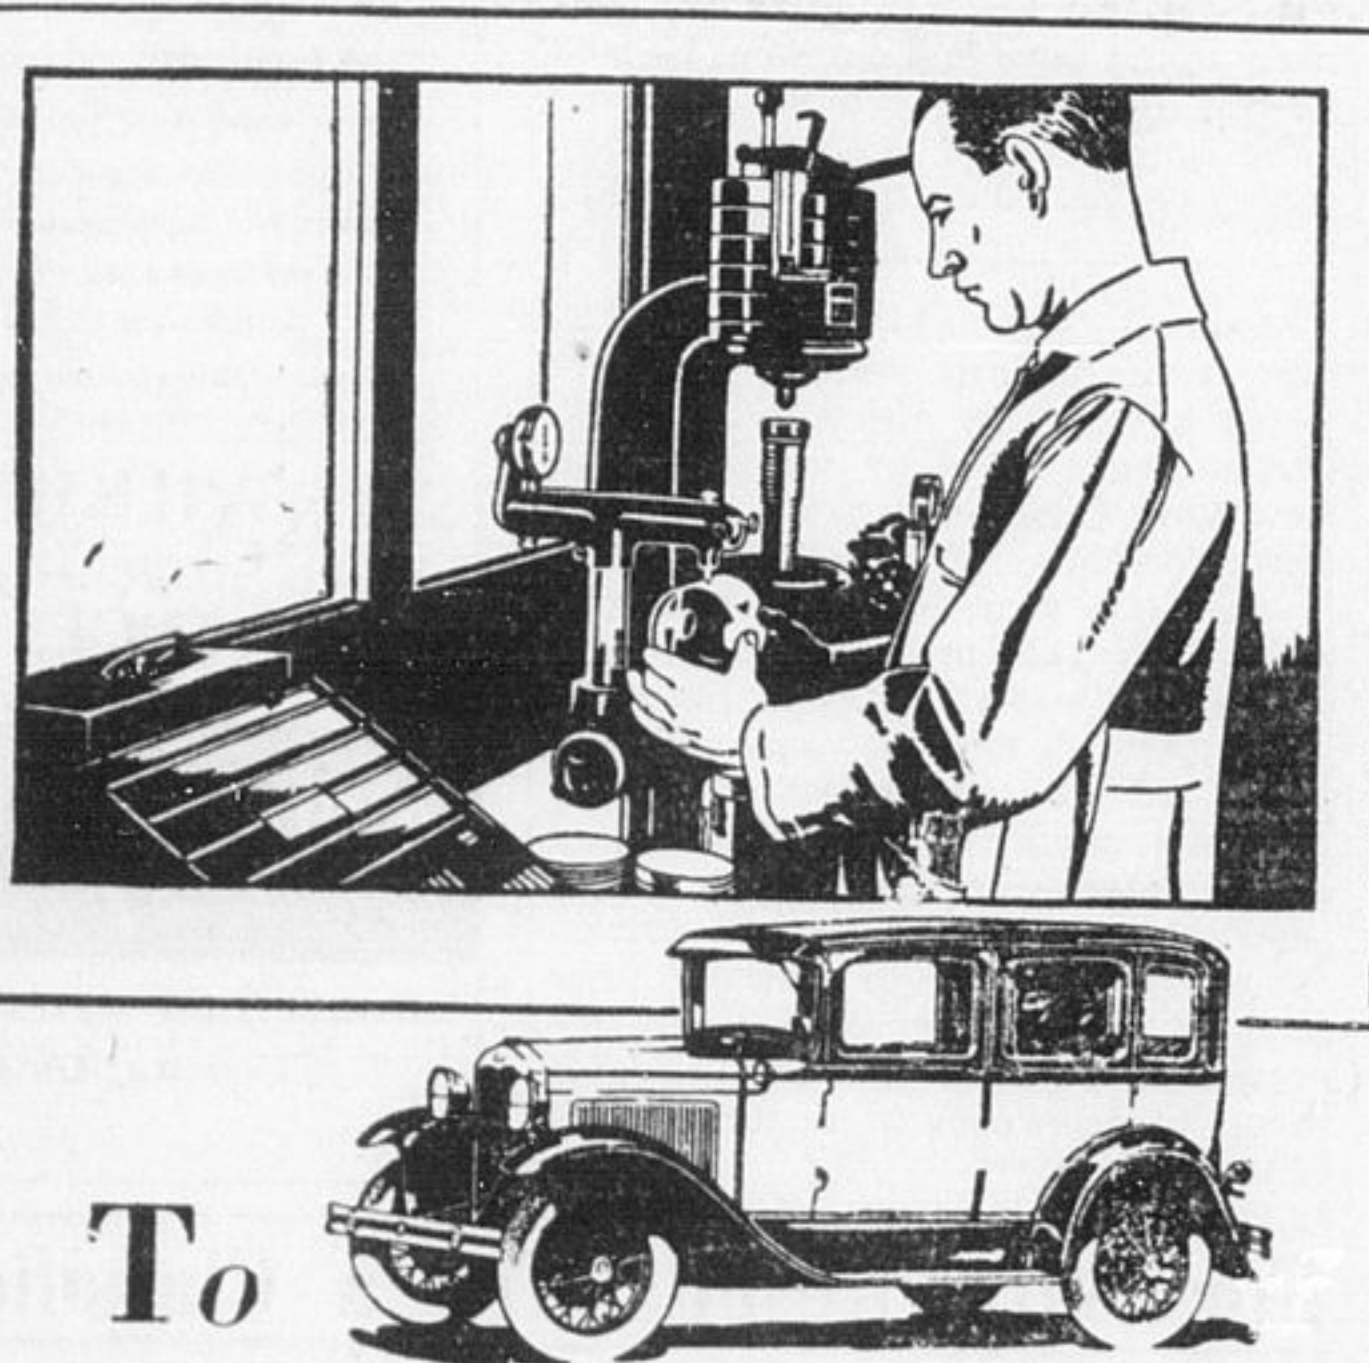

**NEW QUIET SECOND GEAR**  
 assures smooth, swift acceleration rivaling high gear performance in quietness.

TUNE IN FRIDAY NIGHT ON "CANADA ON PARADE"

**To THREE TEN-THOUSANDTHS OF AN INCH**

AN IMPORTANT REASON for the good performance of the new Ford is the precise care with which mechanical parts are made and assembled. Many measurements are accurate to one one-thousandth of an inch. Some to three ten-thousandths of an inch.

To insure perfect fit in the cylinders, the aluminum pistons are held true to within one one-thousandth of an inch of the specified diameter of 3 3/8 inches. Wrist-pin holes are diamond bored to within a variation of three ten-thousandths of an inch. The valve stems are held exactly in diameter to within one one-thousandth of an inch along their entire length.

Every Ford crankshaft is statically and dynamically balanced, with a minimum of 174 checks for accuracy, and is machined to measurements as fine as five ten-thousandths of an inch.

This craftsmanship in volume production, combined with simplicity of design and high quality of materials, is the reason for the good performance, economy and long life of the Ford.

Come in and let us explain the many other features that make it a value far above the price.
