Pretty Wedding at St. Matthew's on April 30th

A pretty wedding was solemnized at St. Matthew's church on Thursday, April 30th, when Maidie, the only daughter of Mr. and Mrs. J. Harris, became, the bride of Mr. R. Stoneman. The bride was attended by Miss V. Lacy, maid of honour, Miss Peggy Williams and Miss Gwen Grill, as flower girls, and Master Art Larivee. The groom was assisted by Mr. T. Harris, groomsmen. Mr. J. Harris and Mr. T. Williams were the ushers. The bride was given away by her brother, Mr. W. Harris. About a hundred guests were present. The groom's gift to the bride was a white gold watch; to the maid of honour, a jade necklace; to the flower girls, gold-beaded handbags; to the attendant, gold ring; to the groomsmen, a fountain pen. The happy couple were the recipients of numerous beautiful gifts, including pyrex dishes from the L.O.B.A. No. 2552. A number of the presents came from friends and relatives in England, while Timmins and Schumacher friends and relatives also sent tokens of esteem and good wishes. After the ceremony a reception was held at the home of the bride's parents, 75 Tamarack street, Timmins.

Huntingdon Gleaner:—John Glenn driver for the American Railway Express, was walking by City Park, in Covington, Ga. He saw a robin. Glenn observed that something was wrong with the bird. He stepped closer. "He" chirped the robin, flapping his wings weakly. Glenn picked the robin up. It smelled faintly of liquor. He investigated and found the juice of china berries, rotting in a damp place under a china berry tree. The berries had fermented, producing an alcoholic substance of sorts. Knowing his story would be doubted, Glenn called in several reputable men of the community, including Ed. W. Fowler, who first marveled and then substantiated Glenn's contention that the bird was indeed drunk from the juice of the rotting berries.

Soviet Parades in Canada on May Day

Summary Given by the Canadian Press of Activity of Communist on May 1st. Attempts to Create Disorder All Forestalled.

In Timmins there has been particular interest in the communists and their attempts to create disorder and trouble in as many places in Canada as possible. People here will be interested in the results of the work of the paid agents of the Soviet. In Timmins the attempts to create trouble have proved abortive through the efforts of the authorities. It was expected, in view of the posters, pamphlets and circulars issued recently that the communists were making special effort to capture May Day. The communists make a specialty of "boring from within" and by this plan have succeeded in capturing or killing several unions and mercantile concerns. It has evidently been their plan to capture the First of May parades, and in view of the fact that the regular unions consider Labour Day as their special holiday, the communists have made progress in this regard. This year they planned to show their strength, and with unemployment and other features of conditions to-day to assist them it looked as if they would make a showing out of all proportion to their real strength. The country, however, is becoming increasingly incensed at the idea of a group of paid agitators from foreign countries attempting to dictate to the people here and wilfully breaking the laws of the land, impeding traffic and disturbing affairs generally. There was a general desire on the part of the public that the alien agitators should be set in their place. No one wanted to stop them spouting, if they wanted to spout, but there was a general call that they be given no special privileges denied to decent law-abiding people. In cases where they had outside meetings in specified areas where the general public was not inconvenienced, they were not interfered with, but where they tried to insult or defy the law, they were dealt with.

The fiasco in Timmins was repeated all over Canada on Friday last. As nearly as can be estimated not more than 25 communists in the whole country were arrested on May Day. Some of these were released as soon as their impudence and freshness had been treated by simply being held in the cooler for a few hours. The Canadian Press gives the following summary of the May Day throughout Canada:— Winnipeg had probably the largest demonstration of any Canadian city, but it was without any serious con-

To Visit Timmins K. of C. on May 15 Representative of Supreme Council, Knights of Columbus, Will Visit Three Ontario Councils Next Week.

A despatch to The Advance this week from New Haven, Connecticut, says:— W. A. Wells, representative of the Supreme Council, Knights of Columbus, will visit three Ontario councils, during the week of May 11. He will arrive in Iroquois Falls on Thursday, May 14 and will be the guest of Iroquois Falls Council on that date. On May 15, he will visit Timmins Council in Timmins and on May 17, he will meet with the officers and members of North Bay Council in North Bay. He will make suggestions regarding the business administration of the council and will also report on the activities of the Supreme Council, chief of which at the present time is the boy work programme. The Order sponsors the only graduate boy guidance course in the world at Notre Dame University and also conducts ten-night institutes in psychology in co-operation with other boy work organizations. The Columbian Squires, junior organization of the Knights of Columbus, has circles in many parts of the United States and Canada, and is growing steadily. Mr. Wells will also give some interesting figures on the membership and insurance strength of the Order. The membership as of June 30 was 618,611 in 2,555 councils in United States, Canada, Philippine Islands, Cuba, Mexico, Porto Rico, Newfoundland, Alaska and Panama. The insurance in force was \$288,304,040 and the insurance liabilities as calculated by the actuaries on Jan. 1 were \$23,370,629. The ratio of assets to liabilities was 130.44 per cent, and the margin of safety was 30.44 per cent, over and above the statutory standards.

High-Grade Samples from Week's Run of the Press Meaford Mirror:—Gandhi is going to wear pants when he goes to London, England. He had better have them padded, too when he meets Winston Churchill.

Midland Free Press:—One of the purest joys of Spring is the opportunity of gardening. With the frost well out of the ground, hundreds of householders are eagerly resurrecting spades and rakes from the woodshed, and duffing their coats, and turning of an evening to the back yard plots.

Toronto Mail and Empire:—Twelve out of 17 police captains so far investigated in Chicago had excessive bank accounts. One of them, on a salary of \$4,000 a year, bought \$48,000 worth of securities in four years. At least it is the substance of him that he did not waste his bid in riotous living.

Barrie Examiner:—New inventions are making this more and more a thingless world. To mention only three or four, we have bloodless surgery, wireless telephony, smokeless powder, caffeineless coffee and now the Germans have developed a nicotineless tobacco.

Hamilton Spectator:—The chorus of protest against the abuse of radio advertising grows louder and louder. It is ridiculous to pretend that the public is satisfied with the prevailing state of things, in view of the continual criticism which finds its way into public print.

Toronto Mail and Empire:—One useful consequence of the visit of the King and Queen of Siam will be to dispel from the minds of a great many people the notion that the chief products of Siam are indivisible twins and white elephants.
