

Fall Twenty Feet From Scaffold on Wednesday

While at work on a scaffold at the McIntyre this week J. C. McDonald inadvertently loosened a nut on one of the supports of a scaffold on which he was working and the sagging of the structure threw him to the cement floor, some twenty feet of a fall. He struck chiefly on the side of his face, being rendered unconscious. He was hurried to the hospital, regaining consciousness before the hospital was reached, and asking to walk into the hospital. It was found that the chief injuries were to his face and to the head alongside the one eye where the flesh was split open. He escaped all serious injuries from the trouble and will be all right in a few days.

Fire Chief Borland Has Arm Badly Fractured

Fire Chief A. Borland had the ill-fortune Saturday evening around eight o'clock to meet with a very painful accident and one that will keep him off duty for some time. He was going down the stairs at the Feldman block when he tripped and was thrown heavily down the stairs. It is thought that his heel caught in some projection on the floor at the one heel was partly torn off the boot. The accident happened so quickly that Chief Borland had no chance to save himself, though apparently he unconsciously threw out his arm to lessen the fall. In any event his left arm was very badly fractured, the bone being completely broken and part of it breaking through the skin of the arm. Medical attention was at once secured and the injured man was hurried to St. Mary's hospital where all possible was done to alleviate his severe suffering. The arm could not be set on account of the swelling and the operation of setting had to be deferred to the latter part of this week. In the meantime Chief Borland's strength and stamina are standing him in good stead and he is in good condition in

view of the seriousness of the badly fractured arm. Chief Borland has taken so prominent and useful a part in so many public activities that he is greatly missed this week and wishes are very general and very sincere for his early and complete recovery. Everyone from the youngsters to the oldest citizens are earnestly enquiring "How is the Chief to-day." The chief himself, with his usual courage, says that he will be out of the hospital and attending the firemen's annual ball on

May 22nd this year. All will hope that he is right in this, and he can be sure of a great reception.

Some dogs held in a garage near the police station some nights ago annoyed patients at the hospital. The dogs were awaiting transportation to the pound. As soon as the police learned the dogs were making a disturbance the animals were quieted. Anywhere in the vicinity of an hospital is a bad place to have a barking dog.

Robt. Pyck Crushed to Death by Fall of Rock

Robert Pyck while at work at the Hollinger on Wednesday about noon was crushed to death by a fall of rock, two tons of the rock coming from the wall. Death was instantaneous. An inquest will be held this week as in the case of all mine fatalities. The late Robert Pyck was 34 years of age and was born in Renfrew County, his parents being from Poland. He had been only six months in Timmins, but during that time had made many friends, "Big Bob" as he was affectionately called on account of his size and strength, being very popular. He was unmarried. The body was shipped from the S. T. Walker undertaking parlours this (Thursday) morning to Barry's Bay, for interment.

Man Seriously Injured at McIntyre on Tuesday

While at work at the McIntyre Mine on Tuesday Wm. Colton was badly injured in a fall of rock. He was hurried to St. Mary's hospital where everything was possible has been done for him, but the extent of his injuries leave him in a serious condition.

BOY HAD GOOD ALIBI

A 14-year-old boy was arraigned in juvenile court at Green Bay, Wisconsin, charged with truancy. "Where," demanded Clatus Chadek, the assistant district attorney, "were you last Saturday when you were supposed to appear in this court?" "I was" replied the lad, "out on a golf course, caddyng for you." "Oh," said Mr. Chadek as he refreshed his memory. "I do believe I recognize you now." "Probation for the boy," said the court.

Addition to be Built to High School Building

For some time past the necessity for further accommodation for pupils at the Timmins High and Technical School has been impressed upon the board by the facts and also by the inspector and other authorities. The board consequently has been seeking ways and means to provide the required accommodation without burdening the ratepayers in any undue way. The plan adopted is that of erecting a four-room structure to house all the machine shop and other technical equipment, leaving the present rooms used available for high school purposes and also improving conditions by having the shops away from the school proper. The plans have been approved by the department and the work will be proceeded with and completed this year. The cost to the town will be the minimum as the grants for technical school purposes will materially help.

SIGN GIRL CATCHER

A 19-year-old girl who bats and throws right-handed has been signed as a catcher by the Western Association baseball club of Joplin, Mo. The recruit is Miss Vada Corbus, whose brother, Luke Corbus, has played in the league two seasons as a catcher and outfielder.

BURIAL SERVICE FOR THE LATE MRS. A. J. T. PEARCE

The burial service took place on Wednesday afternoon of Mrs. A. Pearce, who died about a month ago. Owing to the weather conditions it was not possible to lower the coffin into the ground at the time of death. The late Mrs. Pearce was a popular member of the Ladies' Auxiliary of the Canadian Legion and that organization held a fitting service at the graveside. Rev. Bruce Millar also attended and helped with the ceremony.

LOCALS

Mrs. J. Morton is in St. Mary's hospital where she was successfully operated on for an attack of appendicitis. She is making excellent progress to recovery.

The Northern Ontario Settlers' Association has sent The Advance a cordial invitation to be present at the district convention of settlers to be held at Kapuskasing on Friday of this week, May 8th.

Mrs. G. A. Macdonald, who underwent an operation at St. Mary's hospital on April 27th, continues to make the best of recovery, and is expected to be able to leave the hospital on Sunday or Monday next.

Mrs. Robert Sinclair, of 21 1/2 Fourth avenue, celebrated her 72nd birthday on Sunday last, May 3rd. Owing to the recent bereavement in the family the day was spent quietly. Mrs. Sinclair was the recipient of many gifts and good wishes and looks forward to a further overdraft on her allotted span of three score years and ten. All who know Mrs. Sinclair will join in extending best wishes.

Sudbury Star:—Assuming Mr. Gandhi will wear pants in London, as promised, his is the kind of figure that calls for both suspenders and a belt.

FIRST TRY
The professor was asked to give his definition of woman. After clearing his throat he began in his leisurely way: "Woman is, generally speaking—"
"Stop right there, professor," interrupted a masculine listener. "You'll never get any nearer to it than that."
—Exchange I still prefer golf.

"I told Tom that the average woman's clothing weights only eight ounces."
"And what did he say?"
"He thought it was a shame they had to wear such heavy shoes."
Golfer: "Well, caddie, How do you like my game?"
Caddie: "I suppose it's all right, but —Exchange I still prefer golf."

To Whom It May Concern:
The Workers' Co-operative of New Ontario Limited is going into the PASTEURIZING BUSINESS

The Co-operative Dairy will be at the corner of Birch Street South and Second Avenue, opposite the skating rink.

The building will be constructed of cement in form of blocks, and designed to meet the requirements of the Provincial and Local By-laws.

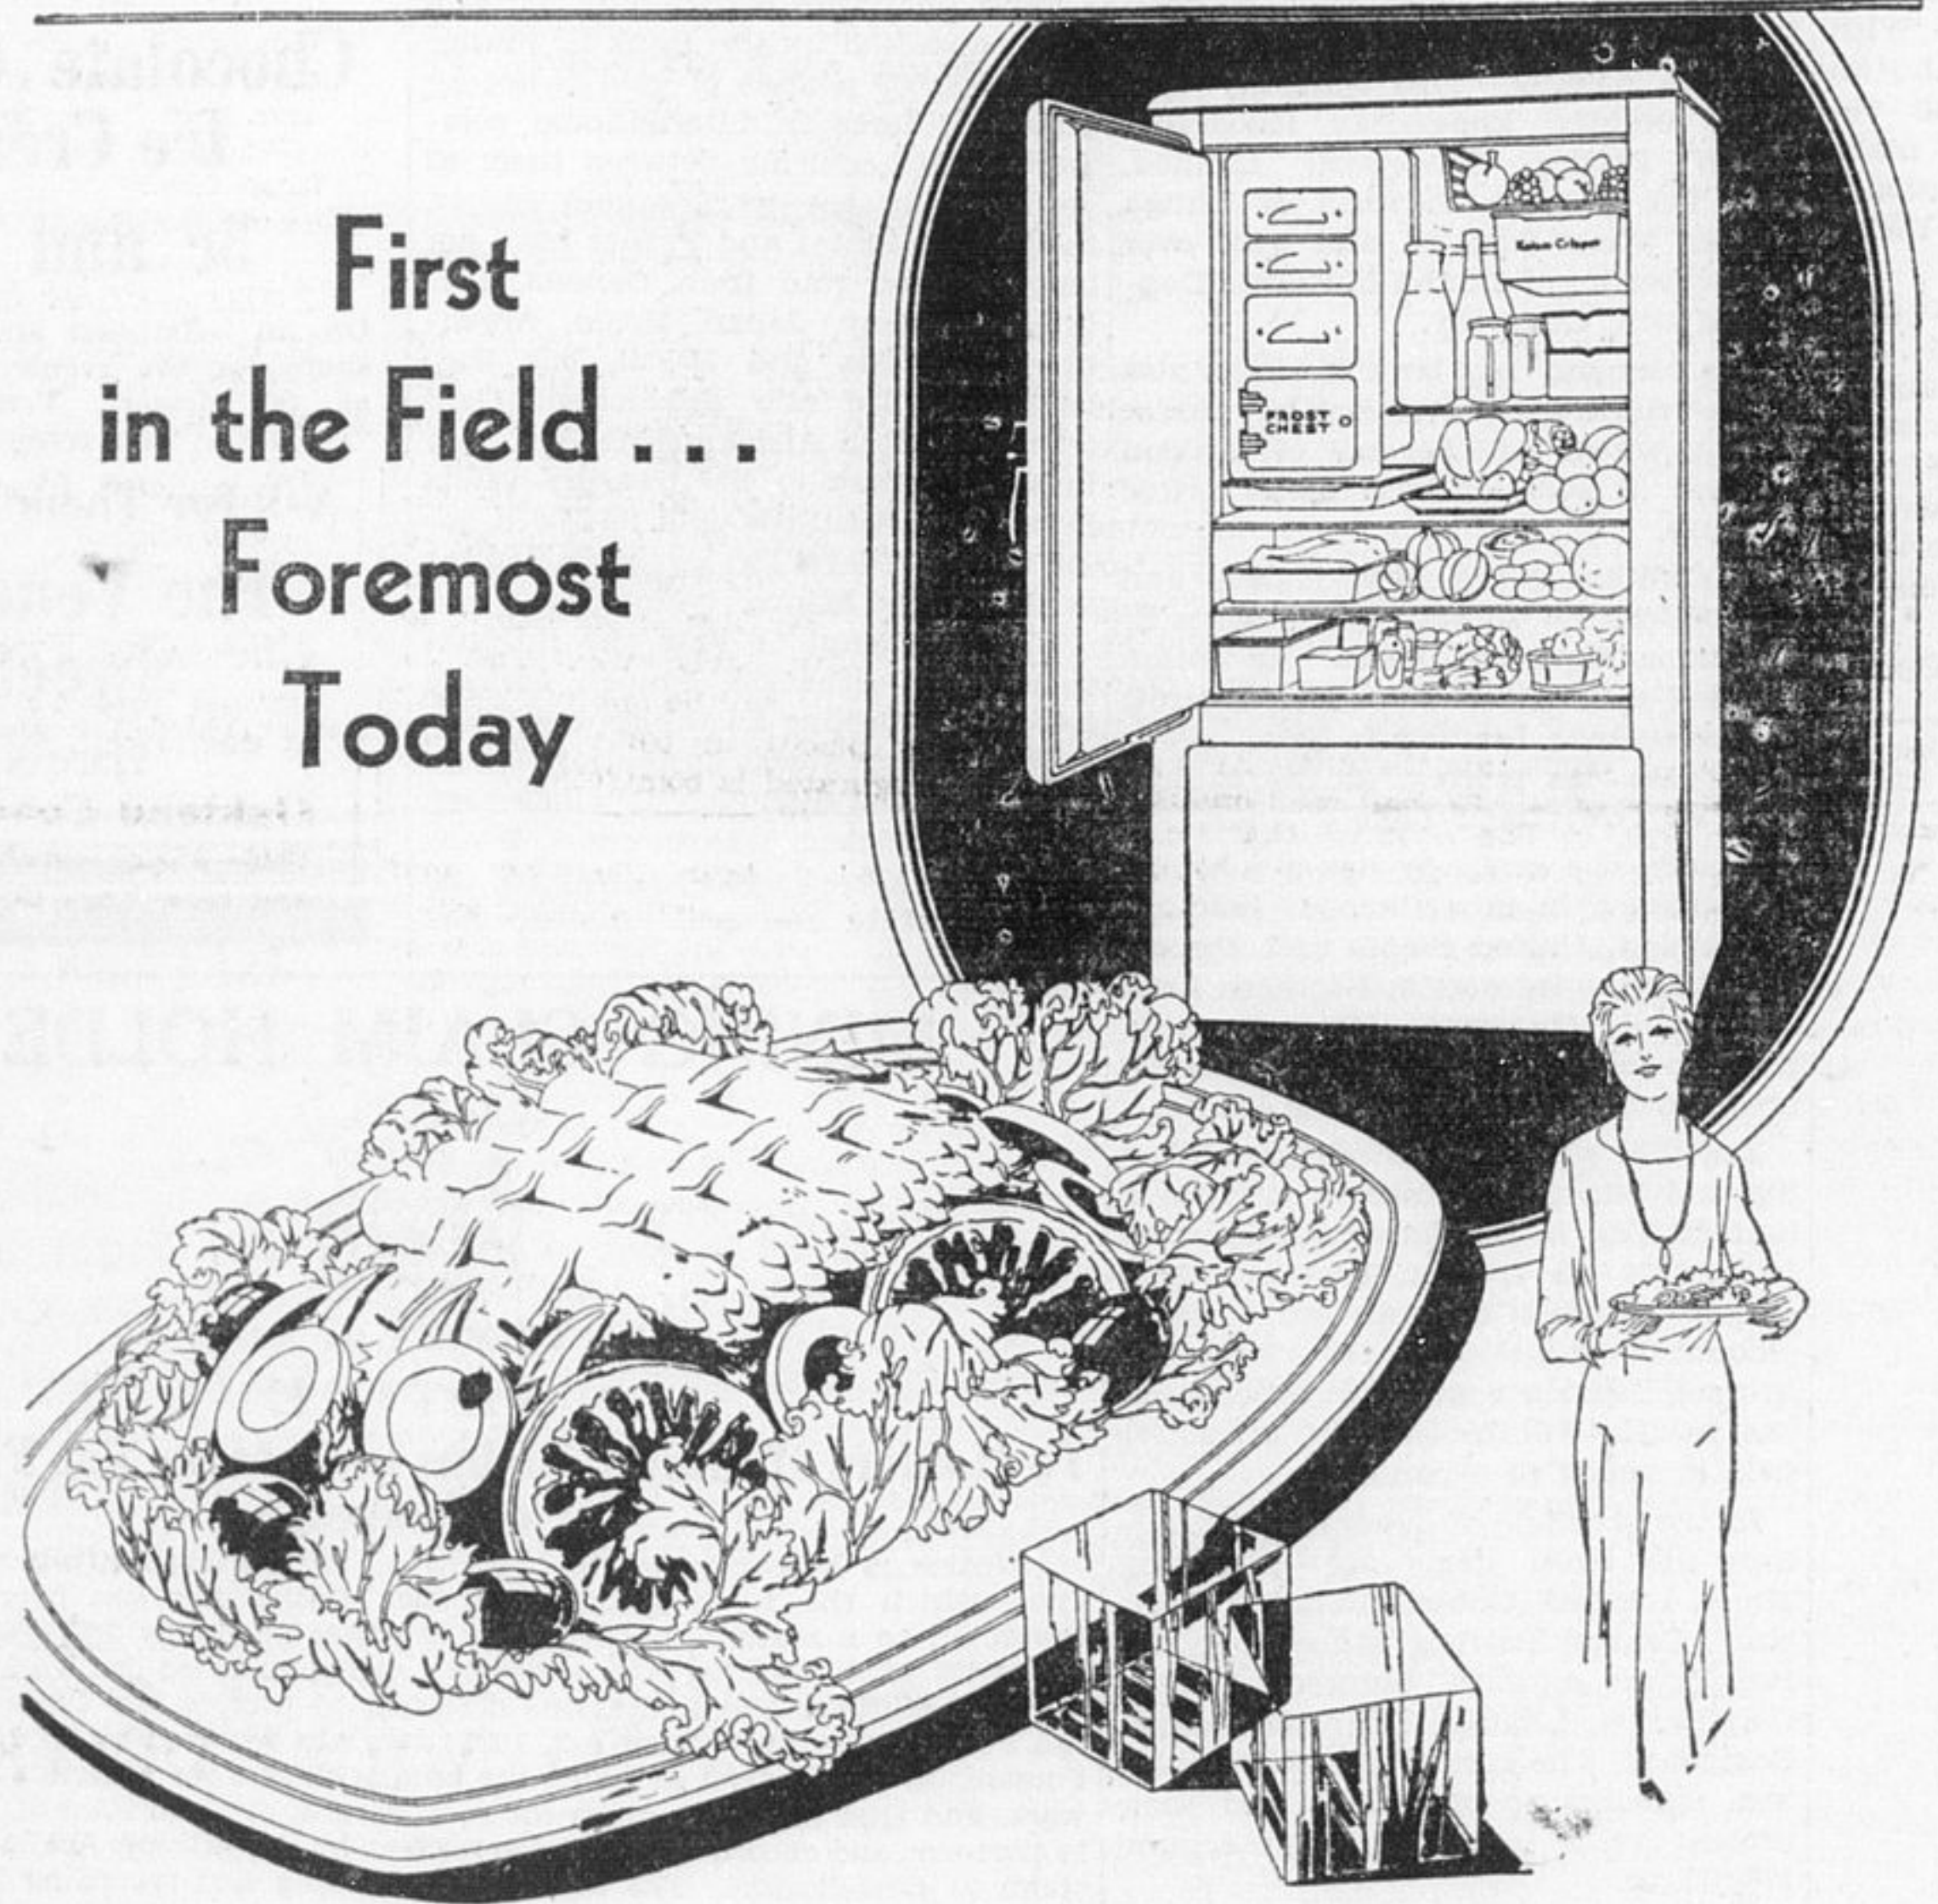

This plant will be equipped with the most modern machinery and made to give the public the purest of dairy products.

We wish to bring to your attention that we are installing a 24 horse-power steam boiler for cleaning purposes.

On July 1st, we will be ready to serve the public with our pasteurized milk.

First in the Field... Foremost Today

IN 1914 the only electric refrigerators made for domestic use were Kelvinators. Since that time Kelvinator has specialized in electric refrigeration only. And of all the Kelvinators made during these 17 years, not one has ever worn out. You can buy a Kelvinator with the certainty of its having a long life of everyday usefulness.

The new Kelvinator models combine a score of improvements which place them far in the lead in the domestic refrigeration field.

- The Kelvin Crisper, for instance, keeps lettuce, celery, and vegetables crisp and fresh, and even restores them when wilted.
- Flexo rubber ice trays for quick and easy removal of ice cubes.
- Kelvinator's patented Iso-Thermic Tubes—world's fastest freezing of ice cubes and desserts.
- The Frost Chest, keeps meat and fish at below-freezing temperature.
- 4-way cold, automatically controlled—an exclusive Kelvinator feature.
- One-piece, round cornered porcelain food compartments.
- Triple-coated porcelain exterior with French Gray trim.
- Quadruple chromium plated hardware. Monel and chromium ice tray fronts.
- Electrically lighted interiors. Balanced doors. No stooping.

Ask a Kelvinator dealer to demonstrate these and many other features. Kelvinators are made in Canada at London, Ontario, by Kelvinator of Canada Limited. Prices from \$215. up, f.o.b. factory, London.
