**The Canadian Legion in  
the Porcupine**

By the  
Secretary-Treasurer

This week we will start off with giving an idea of some of the results of the campaign for membership:—

Wallaceburg won the cup with 337 per cent. increase.

Dresden was next with 280 per cent. increase.

Carleton Place was next with 231 per cent. increase.

Blind River was next with 216 per cent. increase.

Leamington was next with 150 per cent. increase.

Ottawa was next with 117 per cent. increase.

Meaford was next with 115 per cent. increase.

We take our hats off to the above branches but as we are increasing our branch daily we do not show up so much as those who turn in their memberships in bulk or batches.

The editor of The Duckboard apologizes for being late with his issue of May and edited this month's Duckboard propped up in bed. Hats off to the editor and as one comrade said, "That's why he missed Timmins branch out of The Duckboard for the first time for months."

News is scarce this week.

The arrangements for the Week of Wonders are well under way and a real good week of fun and amusement is promised to all and everyone. We did expect to have the Maharajah of Jabberpore with us again but he is at present lion shooting; but we hope to have a very interesting person declare the event open. The first day on Monday, Aug. 3rd, will be a day of sports on the ball grounds with the usual mid-way in the rink. At night boxing, singing, skipping and greasy pigs and poles will be in line during the week and we hope to have our friends of the Ladies' Auxiliary in charge of the refreshments again.

We were able to do considerable relief work this last two weeks, considerable money being spent in this week. The Week of Wonders is to bolster up our relief fund for the ensuing winter so everyone must work hard to make this event a success. All coconut throwers should get in practice for the cocoa-nut shy, as our good comrade Tom Parsons has some special coconuts in view for his cocoa-nut shy this year. Someone suggested that Tom glue the nuts to the stand, but as Tom says, we give value for money, so all get in line for the cocoa-nut shy.

Comrade Cowan our rink manager says he has seen a different kind of grease than we used last year. This grease is so slippery that I think the pig catchers will have a slippery time.

Just a word to the bingo and wheel boys:—You have only a short time to practice so get your voices in tune for the Week of Wonders.

I think several new games are in line that have never been seen in Timmins before so save your nickels and dimes for those games.

The comrades will have to excuse this short letter, and just as a reminder, the end of June is the end of the quarter and the first of July will bring due notices and suspension notices to those who have forgotten the Legion. The more dues that come in before June 30th the more the branch will save in stamps.

Our motto is service. All remittances will be acknowledged by return of post.

—By the Secretary-Treasurer.

**McIntyre in Second  
Place for First Aid**

Timmins Ambulance Division a Third in Annual Competition for the Hon. Chas. McCrea Trophy This Year.

Last year Timmins Division of the St. John Ambulance Brigade won first place in the competition for the Hon. Chas. McCrea trophy for first aid work. This year Timmins has to be content with third place, while the McIntyre team comes second by one point over the Timmins team. The rules of the competition for this trophy do not allow a winning team one year to compete the next year. Accordingly, the Timmins team that won last year could not enter the contest this year. There had, according to the rules, to be two new members on the 1931 team. This added to the difficulty of the Timmins team as the new men had to be practiced and on account of shift work were not able to practice as much as they would have desired. However, it must be admitted that to come so close a third the Timmins team did unusually well. The members of the 1931 Timmins team were:—Supt. Thos. Richards, Fred Jackson, B. Ash and M. Madden.

The McIntyre teams, of Schumacher, are to be congratulated on their fine showing in this contest. McIntyre team No. 2 won second place, and McIntyre team No. 1 had fifth place.

The following letter from the headquarters for Ontario of the St. John Ambulance Brigade, under whose auspices the contests are held each year, gives the list of winners, etc:—

Toronto, June 11th, 1931

G. A. Gibson,  
Box 1175, Timmins.

Dear Mr. Gibson:—I take pleasure in sending you herewith results of the competition in First Aid to the Injured for the year 1931, which are as follows:—

No. 1, Frood Mine, Sudbury, 2081 points.

No. 2, McIntyre team No. 2, Schumacher, 200 points.

No. 3, Timmins Ambulance Division team, 199 points.

No. 4, Teck-Hughes team, Kirkland Lake, 194 points.

No. 5, McIntyre team No. 1, Schumacher, 164 points.

Possible points, 260.

Will you please thank members for the interest they have taken in the competition.

Yours truly,  
Geo. J. Debney, M.S.M.,  
Field Secretary, for the Secretary-Treasurer.

**Timmins Boy Scouts  
Battle Mosquitoes**

Last Week the Local Troop Clash with Mosquitoes on Hike in Bush. Messages from Chief Scout and President.

(By the Scoutmaster).

Last Wednesday evening we had hoped would be an evening of real Scouting as we were figuring on a hike to the bush. We had the hike all right but unfortunately the mosquitoes had arranged for an open air meeting just where we were and of course there was not room for both the Scouts and the mosquitoes, the result being the retirement of the Scouts after about an hour's conflict. However, the boys managed to do a little stalking which of course wasn't made any easier by the very industrious mosquito.

When we arrived at the Scout hall about eight forty-five we were agreeably surprised to see a couple of visitors from the South Porcupine Troop.

The following are a couple of messages taken from "The Scout Leader":

From His Excellency the Rt. Hon. the Earl of Bessborough, Chief Scout for Canada:—

"On assuming the position of Chief Scout for the Dominion, I am delighted to have the opportunity of sending my greetings to all the officers and members of the Boy Scouts Association of Canada. I am eagerly looking forward to having many occasions, during my term of office, of becoming acquainted both with Canadian Scouts and Canadian Scouting and observing their progress. It is most gratifying to me, as Chief Scout, to know that E. W. Beatty has consented to undertake the important duties of president of the Association. With all my heart, I wish the new president and Boy Scouts of Canada every possible success."

From E. W. Beatty, president of the Boy Scouts' Association:—

"It is gratifying to think that so fine a movement as that of the Boy Scouts has captured the imagination of the youth of the world and has become so truly international. For Canada it is peculiarly fitted, as the campcraft which it teaches is so well suited to our geographical conditions. Nothing can be better than its gospel of self-reliance, self-respect, unselfishness and the pledge to help others whatever it may cost; moreover, it appeals to the boy, as he gets a lot of fun out of this process of developing the spirit of true sportsmanship. The qualities inculcated are the qualities of the good citizen and one is not surprised that another name for a good citizen is "a good scout."

The following is an article from Saturday Night concerning our new Chief Scout and president:—

"Few movements have retained vitality under all sorts of conditions in the same degree as that of the Canadian Boy Scouts' Association. In all leading centres energetic and representative men are almost invariably found to assume executive positions in connection with it. The present Governor-General, Lord Bessborough, is understood to be especially interested in its work, and evidence of the permanence of General Baden-Powell's great idea is to be found in the willingness of Mr. E. W. Beatty, president of the C.P.R., to accept the presidency of the Canadian Association. Mr. Beatty's advent to that office is significant inasmuch as it is a recognition by a most eminent and able Canadian of the importance of this national movement. In times like these when humanity is unsettled by the pressure of unusual economic conditions an organization whose primal aim is to give sound direction to boys at the most impressionable period of their lives, is of profound importance. Those familiar with the unique career of Mr. Beatty as a boy and a man are well aware that the Boy Scout movement is one that makes an especial appeal to his temperament. No association could have a better ideal than the sound development of character in those who will direct Canada's affairs in the next generation."

Now for a few remarks regarding the saving of life from drowning:—

A moderate swimmer can save a drowning man if he knows how, and training will enable a small boy to rescue a grown-up person. Understand, though, that this cannot be done without practice. The secret of life-saving is to make the water carry the weight as far as possible. A very slight effort in the water will suffice to keep yourself or another afloat and the body of an unconscious person can often be brought up from the bottom in reasonable depths with comparatively little effort and consciousness restored through well-directed efforts on shore. In salt water the human body is more buoyant than it is in fresh water.

Next week these remarks will be continued with the first steps in life-saving which is another thing the boy of scouting age will learn when he joins a Boy Scout troop.

Montreal Gazette:—In practising on the Indianapolis Speedway for the Memorial Day 500-mile contest, two racers were killed when their car skidded on the track while going at 104 miles an hour. There are few such contests without fatalities, which fact is an argument against removal of speed limits on highways. If the death probability is great on specially-built courses, where drivers are more experienced, and where their cars are thoroughly tested before they are taken out, it is tremendously greater on the public road for the average driver in the average car.

**"All Quiet on the Western  
Front," Here June 24—27**

The picture, "All Quiet on the Western Front," as remarkable a success on the screen as it was as a book of the year, will play at the New Empire theatre on Wednesday, Thursday, Friday, and Saturday of next week, June 24th, 25th, 26th and 27th.

The picture is the screen version of Erich Maria Remarque's sensational book, regarded as one of the great human documents of the war by many. The book broke publishing records and has been translated into almost every language of the civilized world.

A review of the picture, "All Quiet on the Western Front," says in part:—

"Universal presents 'All Quiet' as a super picture produced and directed with the aim of carrying the greatness of the book to the screen, truthfully and without magnification, maintaining all the powerful drama and intense human interest of the Remarque narrative. There is a stirring sequence of romantic appeal, in which Remarque's school boy soldiers have a midnight rendezvous with the French girls across the canal. This is as Remarque wrote it and it is a beautiful interlude of young love in the midst of war."

"Lewis Milestone, one of the youngest and most prominent directors in pictures, directed 'All Quiet.' A sterling cast was chosen by Milestone and Carl Laemmle Jr., and nothing was spared to make this the greatest of all pictures of the war, exactly as the book was the greatest book of the war."

"Louis Wolheim, famous for his creation of the role of 'Captain Flagg' in the stage production of 'What Price Glory' and for his screen characterizations, and Lewis Ayres a brilliant youngster, of 20, head the excellent cast. Wolheim has the role of 'Katzinsky' and Ayres the role of the leading character, 'Paul.' Others in the cast are Russell Gleason, William Bakewell, Scott Kolk, Walter Browne Rogers, Ben Alexander and Owen Davis Jr., as the six comrades of 'Paul'; John Wray, noted New York actor; George 'Slim' Summerville, Harold Goodwin, Richard Alexander, Arnold Lucy, Pat Collins, Bill Irving, Yola D'Avril, Poupée Andriot and Renee Damonde."

"The story of 'All Quiet' is based on the experience and observations of Remarque who went to the front as a schoolboy. Every character is authentic and every incident. Critics have proclaimed the grim realism of the book the secret of its record-breaking success and it is this powerful appeal that Universal has brought to the screen."

"In his own words, Remarque wrote 'All Quiet' to free himself from the memory of the war. It was only after he had completed the novel that he tried to sell it. He wrote simply set-

ting down the story of his own experiences—without glamour or heroics. And his book became the best seller of the past ten years.

"The battle scenes of 'All Quiet', in which more than two thousand soldiers, war veterans of all nationalities, participated are the most spectacular and yet the most genuine ever pictured. They are the war as it actually was fought and not as sideline observers imagined it."

**Production of Gold  
Climbing in Canada**

Returns in the Dominion for April Showed That Gold Production for Year will be Over \$55,000,000.

A writer on mining matters for several daily and semi-weekly newspapers in an article in The North Bay Nugget last week says:—

Several months ago it was estimated that the gold production of Canada would be around \$57,000,000 in 1931. The most recent government figures available, those for April, indicate a rate of \$55,000,000 for the current year and April is a short month.

The Dominion Bureau of Statistics at Ottawa reports that the output for the first quarter of 1931 was 601,721 fine ounces and for the month of April 223,082 ounces. The latter figure shows a sharp improvement over the first quarter average of 200,573 ounces.

The April production is at the rate of \$55,000,000 annually, it is noted.

There are bright prospects for a further improvement in production. Teck-Hughes output will increase, when full play is given to the new mill tonnage. Wright-Hargreaves in the same camp should report bigger output in the latter months of the year when new equipment becomes effective. Lake Shore, as noted in these columns a short time ago, will also add to the flow of gold. Noranda will likely contribute a greater production in the last half of the year.

The complete tuning in of McIntyre's 2,000-ton capacity will undoubtedly add to Porcupine figures. Hollinger also has possibilities in this direction. Some of the smaller operations are ambitiously working towards higher tonnage and greater recoveries. Western producers are keeping up the pace also.

Brantford Exporter:—The tax imposed on United States periodicals, is one that, for the most part, will commend itself to the people of this country. The inferior class of magazines and periodicals, which are objectionable from a moral point of view, ought to be prohibited entirely from entering the country. This is the opinion of practically all good Canadians.

**REAL THOUGHTFULNESS**

Thoughtfulness of every wish of every member of the family; Helpfulness when your need is greatest; Care and Watchfulness in the little usually overlooked matters. Such is the service rendered by
