### GRAVEL AND SAND—AND PLACER

Northland Post to a belated appreciation of the menace of stituted in the instances where such seem warranted. not definitely known at the time of communism. Now, when it is late in the day and much From the present indications it would appear that several harm has been done by foolish theorizing. The Northland people should face trial in the courts for flagrant breaches Post is no longer concerned with idealistic thoughts of free of the law of the land. speech for aliens. What it desires now is freedom for the people of Cochrane and some measure of safety and comfort for honest, loyal men, women and children of the town. The Post says that the citizens of Cochrane are now prepared to go to almost any lengths to get the ungrateful transients out of town. The Post now admits that some of the transients actually stayed in Cochrane for the sole purpose of causing trouble. "Cochrane, along with several other towns in the North, has been afflicted with these transients for far too long, and there is a general feeling of resentment and dissatisfaction among the citizens here and in the other towns affected, that no efforts have been made to remove these men. The citizens of Timmins, Kirkland Lake, Kapuskasing and Cochrane, the four of the towns most affected in this section, feel that they have put up with the situation long enough, and that steps must be taken immediately to bring back peace and security to the citizens. So, says The Post last week. Under the heading, "Better to Organize Efficiently," The Cochrane Northland Post also publishes the following rather remarkable paragraph:-"The suggestion is current among the town's most reputable citizens that failing the removal from town of the undesirable question may well be asked:-"Why is Sir Henry Thornton transient population by the authorities, that a concerted effort be made by the ratepayers themselves. The idea has much to commend itself, but should be very carefully planned in order to ensure success. A sign should be hung up in front of the post office, or some other prominent place in order to get as big a turnout as possible." Reading between the lines it would appear that The Post is now counselling harsh methods to deal with the evil situation, and the Cochrane newspaper does not desire any theorizing as to the legality of the methods used. The Post also has the presumption to blame the town council for the situation obtaining at present. This seems very unfair. For months The Post gave all its energy and any influence it possessed to urging "free speech," tolerance for aliens, and liberty, so-called, for agitators. Now when the inevitable has happened The Post thinks no measures too harsh. Previously The Post did all possible to encourage and foster the alien you recommend I wouldn't need the change you mean at agitators actually responsible for the present trouble. The Post hampered the authorities so far as its power went in any effective dealing with an incipient menace. For months The Post refused to heed warnings or examples. The Post lined itself on the side of the disloyal and the mischiefmaker. That The Post did all this through shortsightedness people who express much indignation. "That man," they and weakness, rather than through any evil disposition, makes the effect no different. The Post practically advertised Cochrane as an easy mark for the disloyal and the disaffected, and it is no wonder the alien agitators and mean mischief-makers flocked to Cochrane. What puzzles The Advance is why even The Post could not foresee the result. The alien agitators that have been rousing the wrath of The own mind. Always changing his opinion. He is not firm Advance for considerable time past have shown themselves enough." Apparently, no matter what Mr. Bennett may contemptible and mean beyond description. They have do, these people will be dissatisfied, and if he were to do been fattening on the misery of the unfortunate for months. to do whatever could be done to lessen the hardships under Dominion of Canada, there are a great number of people in which many have been labouring, these paid agitators have this country who recognize patriotism and ability, and so been bending all their efforts to making conditions worse for are ready to praise the present premier on frequent occasall. They have been directly responsible for senseless waste ions. It is doubtful if any premier of Canada has had a and lost and injury in many towns and cities. They kept | more difficult situation to meet than has fallen to the lost up their evil work in Timmins until patience was exhausted of Premier R. B. Bennett. It should in fairness be allowed against all people of foreign origin and thus placed many tolerance and yet retained the firmness without which the fine citizens in undesired position. Utterly without either sense or principle these mean sneaks should have been dealt with harshly at the very start. Now, they have gathered a few simple-minded unfortunates to their banners. There held in Toronto last week, Col. Owsley, of Dallas, Texas, can be no free speech for blasphemy, treason and insult, yet president of the association, made an eloquent and inspiring these have been the stock-in-trade of the alien agitators. The fact that The Post by its encouragement of these sneaky communism. In words that gripped the hearts and minds ingrates has had some part in bringing Cochrane to its of his hearers he showed that civilization and Sovietism present situation does not make matters any better for the could not exist together in this world. He praised Canada town. It is encouraging to note that The Post has learned for refusing to assist the Soviet in its plans to demoralize something by dire experience. As The Advance pointed out | the world. He made it plain that the successful industriallast week. Cochrane and the other towns of the North are ism of Soviet Russia with her conscript labour would mean in no way responsible for the plight of the transients who ruin for the workers of the United States. Not only did he have flocked to the North. Yet Cochrane and the other ask that his own country, the United States, should follow towns have sacrificed much to help these unfortunates. Canada's lead in barring the products of slave labour and The Northern towns have looked after their own unemploy- slave conditions, but he also demanded that the several ed. If there are cases where bona fide residents have suf- thousand highly-trained American engineers and experts in fered hardship it has been wholly due to the influx of trans- various fields of industry now in Russia helping the Soviet ients, many of them foreigners. The towns have done more to carry out the five-year plan which aims at demoralizing than they should have been expected to do. Many honest the whole world should be ordered home at once and if they ratepayers are under hardship as a consequence. Parades refused to come that they lose their citizenship. In this and similar evil nonsense do nothing but harm, and should connection he said:-"These Americans should be brought not be tolerated. When everyone has done more than a rea- home. If they are willing to barter away and stain the high sonable share to help there is no room or place for the evil ideals of American citizenship for Russia gold, then our agitator and the bonused alien. The Cochrane Northland Government should say to them, 'You are an unworthy son Post is right now in urging the Government to relieve the and no longer deserve protection of the American Governtowns of the North from the transients who have abused ment.' Thirty days is long enough for their return home generous hospitality. The Advance endorses this very and failure to do so should forfeit their citizenship in our strongly. The towns of the North should be relieved from proud republic." The so-called experts who have been aidthe burden of the transient but that is not enough; the alien ing Russia have in the majority of cases sold themselves to agitator and foreign sneak should be deported where possible that country. Not only are they assisting in a plan designed and where this is not possible he should be sent to jail. A | to destroy all that normal men in Canada, the United States, citizen, writing to The Northland Post, puts the matter in Great Britain and other countries hold as elemental to con-

couraged to the point of despondency and hopelessness over of the wretched conditions in Russia and the hopeless situaa scandal such as the Beauharnois power affair is proving tion of the people. Yet he wanted The Advance to publish to be. So-called financiers juggled with sums like \$2500.00 only eulogy of Russia and its communist creed. "If I was and the amount seemed to turn into a million without any quoted as saying anything against the country I could never value being given. The million spread out into other mil- | go back," he said. This man was desirous of going back if lions, still without any apparent value given, but the fact he could get money enough. He followed the same methods being sure that sooner or later the public would have to as others returning from Russia. He wanted a faise improvide the phantom millions. On top of this objectionable pression given of Russia and its schemes. The glitter of type of high finance, there came revelations of some seven Russian gold made him blind to the menace to his own land. hundred thousand dollars being paid into the Liberal Party Col. Owsiey is right, indeed. Working for Russia, talking treasury, and some odd thousands going to individual Con- for Russia, to-day means fighting against all other lands. servative campaign funds. At first thought it might seem Canadian and British experts, as well as those from the that both political parties were venal and the difference in United States, should be recalled, or lose the citizenship they their corruption was only a matter of degree. There are, do not seem to value and that they do not appear to believe however, encouraging and inspiring sidelights to the picture. worthy of defence.

laws, and jail those who break them."

For instance, there is the fact that the chairman of the Citizen of Cochrane committee investigating the scandal is newing to the line, letting the chips fall where they may. It is no more than would be expected from Hon. W. A. Gordon. He is seeing that the facts, no matter whom they may concern, are being | brought to the light of day. Then there is also comfort in the thought that there was one politician big enough to scorn any money that had the slightest suggestion of oribe or influence attached. That politician was Hon. R. B. Bennett, now premier of Canada. The evidence shows that \$200,000.00 was offered to the Conservative Party, but that Hon. Mr. Bennett would not consider its acceptance. There will be general regret that Hon. Mr. King did not keep as Cochrane people had looked after close a watch on the contributions going to the Liberal Party treasury. The Beauharnois scandal has many features that rouse ribald laughter at the simplicity of the supposed big financial men figuring in the deals. It is not, annoy the people of Cochrane just as however, a matter that can be dismissed with a laugh, or they had troubled Timmins, Sudbury swept aside by any broad suggestions of wholesale crooked- and other centres. They concluded The recent disturbance in Cochrane that resulted in the ness in this day and generation. It is a case that should their ungrateful performance by wanserious injury of a police officer has roused The Cochrane be investigated thoroughly with criminal prosecution in-

In this class may be placed recent deliberate for the trouble in Cochrane recently. smashing of the red lights placed at the Schumacher rail- The letter referred to deals with the way crossing to protect the public. The smashing of these question as follows:lights must be strongly condemned because of the fact that their destruction endangers the public. The man breaking amongst the unemployed chosen Cochone of these lights can scarcely avoid placing himself in the rane, because of its isolated position category of being a potential murderer. In addition he must for the testing ground of their subbe classed as a thief and a mean thief because the red signal lights are the property of the whole people. They cost \$45.00 each and no less than four of them have been broken to date. The man committing a crime of this kind should certainly be severely dealt with when apprehended. It is vincial Constable Crozier last Monday the sort of crime that discourages decent people in regard night?

> Sir Henry Thornton has the temerity to suggest that a commission be appointed to study the transportation problems of Canada and make recommendations in the case. The being paid around \$100,000.00 a year?" Possibly Sir Henry is like John Aird, Jr.; he may not remember why he is paid who preach that the existing society trifling amounts like \$100,000.00 or \$125,000.00

The Renfrew Mercury has discovered a duck at Douglas. Ontario, that lays two eggs in a day but only every other day. That duck evidently thinks itself a pair of twins working on a T. & N. O. schedule of every other day, like trains Nos. 17 and 18.

A Timmins man who was feeling unwell recently consult ed a doctor. "There is nothing really the matter with you;" said the medical man, "except that you have been applying yourself to business and other affairs too closely. You need a change. You must have a change." The man replied:-"Say, Doc., if I had the change I need to take the change all." Both the patient and the doctor felt better after that

When Hon, R. B. Bennett, premier of Canada, insists upon carrying through some policy that he believes to be for the benefit of this Dominion and its people, there are certain say, "just smashes his way through. Nothing can be done with him. He always insists on having his own way: He is an autocrat." When Mr. Bennett accepts new facts or new views and is ready to change a policy to suit the new conditions that appear, these same people" are equally upset. "Did you ever see such a man?" they ask. "Never knows his nothing their static would disturb high heaven. Fortunate-While everyone else seems to have been earnestly striving ly for Hon. Mr. Bennett, and still more fortunately for the and they were taught a lesson. They roused prejudice that he has faced his task with breadth of mind and large situation would be serious indeed.

At the annual convention of the Association of Lions Club address in which he made telling reference to the menace of a nutshell when he says:-"Deport those who don't like our tentment and true life, but these experts have further sold themselves to Russia by their attitude in speaking of the conditions as they saw them. For Russian gold they have turned themselves into propagandists for the Soviet abroad. The ordinary decent citizen may be inclined to feel dis- One engineer returned from Russia told The Advance

## **Voices His Protest**

"Deport Those who Don't Like Our Laws, and Jail Those Who Break Them," is His Summing Up.

The following letter expresses so well the opinion of so many people not only in Cochrane but elsewhere in Canada that it is given here in full. After the thousands of transients who had no claim on the town and simply drifted in there, these travelling work-seekers start parades and other nonsense to tonly assaulting a police officer. It is writing this whether the officer will fully recover or not. Alien agitators have been busy in Cochrane for some time and these fellows with the encouragement and support of some tin-
