Mr. Maltais reported that the rain on Tuesday affected the roads from North Bay to Cobalt and from Porquis Junction to Timmins more than the section between Cobalt and Porquis Junction. The fact that the new sections have been opened on the Timmins-Porquis Junction road explains the muddy condition of this stretch after Tuesday's rain.

Dr. S. L. Honey and Mrs. Honey have returned from a holiday motor trip to the West. Dr. Honey says that in many parts of the West conditions are very bad, indeed, and the farmers there are having a very difficult time. In some sections a crop failure for three successive seasons has left the farmers in very serious difficulties, while business and professional men in many of the towns are also seriously affected by the hard luck experienced by the farmers.

In a collision between an oil truck and a motor car on the road between New Liskeard and North Temiskaming some days ago the little four-year-old daughter of Mr. and Mrs. J. Paul Palemont, of Taschereau, was badly cut about the face and head and had to be taken to the hospital. Mr. and Mrs. Palemont also suffered some minor injuries. The cause of the accident is said to have been the dense fog of smoke and dust that caused so much trouble to motorists the last couple of weeks.

The Renfrew Mercury last week says:—“Mr. and Mrs. Frank Dunbar, whose marriage took place in Timmins on Thursday last and a report of which from The Timmins Advance appears elsewhere in this issue of The Mercury arrived in Renfrew by motor on Friday evening, and at noon on Monday left for Montreal. They will be in town again before returning to the North Country. Arriving at the same time in another car were the parents of the bride, their son Leo and Rev. Father Theriault, who were enroute to Montreal, Halifax and New York upon a holiday trip.”

High-Grade Samples from Week's Run of the Press

Collingwood Bulletin:—Barrie town council has been experimenting in the matter of road construction. As a trial they built 25,000 square feet of cement roadway, 9 inches thick, this being done in two weeks at a cost of \$1.39 per yard with 25c per foot for curb for 11½ cents foot frontage per year for twenty years. The price included a rental charge for the town machinery. So satisfactory is the work to the ratepayers on the street that they have voluntarily written the council extending congratulations to that body and through it to the board of works under the direction of which the construction was done. It looks like a worth while line on which to experiment. It gives employment, and brings permanent roadways, at what is believed, a reasonable cost.
