## DRAMATIC NIGHTS BY A.Y.P.A. AT CHURCH HALL THIS WEEK

Indications are that the Dramatic Nights being presented this week by St. Matthew's A.Y.P.A. in the church hall will prove as popular and as successful as the two similar events given earlier in the year. Last night the A.Y.P.A. presented the first of the two events being given this week and the other dramatic night will be offered this evening. Those attending last night's feature are strong in their praise of the talent and attraction of the event and this evening's programme should attract a particularly crowded house for the occasion. Further reference will be made to these dramatic nights in the next issue of The Advance.

Mayor Drew this morning got in touch with Reeve Gallagher, of Tisdale and learned that the township of Tisdale authorities, like those of Timmins, are asking a full observance of Armistice Day as a public holiday. Though the day has been set aside this year by the parliament of Canada as a Dominion holiday, there has been some misunderstanding about its observance. There can be no doubt but that in Timmins and Tisdale the municipalities desire its full observance.

## Mother of Five Looks for Early Release

When one is only 27 the strain of raising five children on limited financial resources is a burden which would tax any woman's strength and vitality. In the case of slender Mrs. N., none too strong from early years at factory work, the burden pressed her lower and lower to the point where tuberculosis gripped her in all its power. Fortunately, however, she was sent to the Muskoka Hospital for Consumptives, where the experienced doctors and nurses took her in hand with kindly care. Since then, like a rain-freshened flower, Mrs. N. has responded to the carefully planned treatment and has made splendid progress towards recovery, and is eagerly looking forward to the time when she may return to her little ones. There are many such cases, but without financial assistance the Muskoka Hospital cannot aid them. A gift from you will be gratefully received if sent to Mr. A. E. Ames, 223 College St., Toronto.

## Public Library Again Open in New Quarters

Timmins public library re-opened on Wednesday in the new quarters in the basement of the post office building. The new premises will be a great improvement over the former quarters when the alterations are completed. In the meantime the general public is delighted to have the use of the library again, it being greatly missed by many during the few days its service was discontinued while the transfer was being made from the basement of the Gordon block to the basement of the post office building. Entry to the library is by the west side door of the post office on Fourth avenue (the door nearest to the town hall). From the hall a door has been cut to the basement, so that there is direct entry from the hall on entering the door. The door into the post office lobby at that side has been closed. This is not due to anything about the library as some have thought, but to the fact that changes have been made in the interior of the post office, some of the wickets being moved to make room for more boxes. There is a greater demand for boxes than can be met at present. The general public will regret the necessity for closing entry to the post office at the west end door on Fourth avenue, but the re-arrangements make it necessary.

## High-Grade Samples from Week's Run of the Press

Christian Science Monitor:—Wherever an incandescent electric light glows, wherever a high-speed telegraph instrument clicks, wherever a phonograph sings, a motion picture projector whirs or a radio plays—there Thomas Edison lives on in his works. In all these and many more of the devices which to-day makes living convenient he had an inventive hand, and frequently the hand which made the contrivance actually usable for the lay public. The world has but to imagine, if it can, what existence would be like with only gas or kerosene lights instead of electricity, with only the written word or a courier for communication, and with no means of reproducing speech, song or pictured action, in order to visualize in one sense what it owes to Edison.

Brampton Conservator:—A convicted burglar has applied for a new trial on the ground that the man who identified him had his head under a blanket while the house was being robbed.

Renfrew Mercury:—Mr. Sydney Pottinger lately saw a grey squirrel at no great distance from the squirrel. When we have so many red squirrels and not a few of the black ones, plus plenty of chipmunks, the appearance of grey squirrels causes no considerable amount of surprise. And when ground-hogs and porcupines and skunks and rabbits are allowing themselves to be run over by cars, why shouldn't a black fox thus sacrifice himself? These are queer times, with no one less likely to think otherwise than Mr. J. E. Beauchamp of Coumbs street, who lately saw a partridge in the exhibition grounds, which same gentleman has been privileged to gaze upon beaver, mink and wild ducks in Smiths creek.

Farmers Advocate:—There are plenty of young cattle in the West, and an abundance of feed in Ontario. Stockyard facilities are available, and the railroads are fully equipped to move the Western stockers and feeders into Eastern feed-lots. The problem is one of finance. The amount of money on deposit in Canadian banks exceeds the total last year at this time by \$50,000,000. Obviously we are not short of anything, except confidence and a scheme to thaw out the frozen assets and put them to work. The banks hesitate to lend money for cattle-feeding purposes; in fact, it is difficult for a farmer to secure funds at the banks at all, unless the funds are his own. Western farmers have the cattle, Ontario farmers have the feed, the banks have the money—and there we are!

Calgary Albertan:—Some persons believe that this Red propaganda is best ignored, that the only way to treat it is by ridicule or assumption of complete indifference. But is it? A great many workers are being turned again the present system by the agitators and the situation is sufficiently serious to warrant attention. One does not regard these outbreaks of violence as basically serious. They result from the activities of a violent minority. But they should be avoided, and with efficiency they could be avoided. Two things are essential—firm repression of lawlessness on all occasions and fair and effective relief measures throughout Canada.

## VALUE OF GOLD BRICK

(The Pathfinder)  
The dimensions of the average building brick are 8 by 4 by 2 inches—72 cubic inches. A brick of solid gold the size of the average building brick would be worth about \$15,000.
