## NOTICE

Take notice that a meeting of the Supporters of Timmins Separate Schools will be held in Nativity Parish Hall, Spruce Street, North, on Wednesday, December 30th, 1931, from 7.30 to 8.30 p.m., for the purpose of Nomination, and Election of Separate School Trustees.

And take notice further that in the event of a Poll being required, the same will be held in St. Anthony's School, Sixth Avenue and Spruce Street, on Wednesday, January 6th, 1932, and will be open between the hours of Ten a.m. and Five p.m.

J. A. WALSH, Secretary. -51-52.

## LOCALS

For November the township of Teck had 39 births and 6 deaths. Five of the deaths were due to accidents, two of these being from automobiles.

All will be pleased to know that Dr. Minthorn was able to leave the hospital last week and has resumed his practice after being seriously ill for a time in St. Mary's hospital.

Christmas shoppers should note that commencing this (Thursday) evening, all the stores in Timmins will be open each night until Christmas for the benefit of the public.

In view of the fact that a couple of weeks ago The Advance inadvertently suggested the wrong date for the January meeting of the newly-formed Timmins branch of the Sons of Scotland, it is noted here that the S.O.S. will meet in the Moose hall on the first Tuesday in January, Jan. 5th, 1932.

Following their usual custom each year the Timmins branch of the Canadian Legion are remembering the youngsters at the Shelter this Christmas time. At the Legion Christmas Tree on Monday, Dec. 21st, there will be a present for each of the Shelter children, and Santa Claus will visit the Shelter after being at one of the Legion halls to distribute the presents personally.

It is understood that D. Sutherland, for several years manager of the Timmins branch of the Imperial Bank, is being transferred to Brantford, Ont., as manager of the branch there, and will leave here in a few days for his new duties. There will be very sincere regret at the departure of Mr. Sutherland, who has made wide circles of friends here during his residence in Timmins and who has given valuable service in many public and semi-public spheres. Mr. and Mrs. Sutherland and daughter will be much missed here and will be followed by the sincere good wishes of all to their new home.

## WHAT ABOUT THIS FOR A CHRISTMAS IDEA THIS YEAR?

(From The Simcoe Reformer)

A nearby editor offers a timely suggestion for deepening the Christmas spirit and at the same time doing something towards relieving distress and poverty among the more unfortunate families. His idea is that instead of sending the customary gift to a friend who really does not need it, you should send a letter instead and say: "Billy Brown had no shoes fit to wear to school. I sent him a pair instead of buying you a present. So we have both helped."

This Christmas of all times presents an opportunity to those who can afford it to exemplify the true Christmas spirit, that of giving where it will do the most good. The idea is by no means to lessen the significance of Christmas within one's circle of relatives and friends. But we do believe that many families this year will abandon to some extent the practice of giving costly presents to one another. Less expensive gifts will just as truly express their affection. At least a portion of the money ordinarily expended in this way could well be devoted to families who scarcely know what Christmas means, where the kiddies may not otherwise receive coveted toys and the Christmas dinner may be a scanty meal indeed. He gives twice who gives where the need is greatest and from such giving he derives a joy and a satisfaction obtainable in no other way.

## Urges Education of All Deaf Children

Superintendent of Ontario School for the Deaf Anxious to Know of Any Deaf of School Age in This District Not Attending School.

This week The Advance received a copy of a special issue of The Canadian a magazine published twice a month during the school year at the Ontario School for the Deaf at Belleville, Ont. H. B. Fetterly, the superintendent, has a special message in the issue, seeking the co-operation of all newspaper editors on behalf of the deaf children of Ontario. He points out that recently he has been making enquiries and has located a number of deaf children who are not attending any school, and he is quite sure that there is a much larger number whom he has not discovered. He judges that there are probably two or three score, possibly twice that many children who should be at the Ontario School for the Deaf, in the interests of the child and of the country. "Morally, it is a crime, and legally a punishable offence for a parent to deprive a child of an education," says Mr. Fetterly. In the hopes of locating every deaf child in Ontario who is not attending school and then to induce the parents to send them to the school at Belleville, Mr. Fetterly has called in the help of the press. Are there any such children in this district? If so it would be well to write H. B. Fetterly, superintendent of the School for the Deaf, Belleville, Ont., for full particulars of the school and its work.

Mr. Fetterly comments on the fact that there are parents with children who are deaf and these parents, though anxious that their youngsters should have education and advantages, are not aware of the opportunity offered by the school at Belleville. Recently no less than seventeen children were added to the pupils at the Belleville school, after their parents had been discovered when parents had not discovered the school, though apparently anxious enough to do so. Other parents, Mr. Fetterly notes, know of the school but do not understand its character and purpose. They think it is a sort of asylum where the children are kept under restraint and duress.

The Ontario School for the Deaf is provided by the Government for the teaching of children who are too deaf to secure proper instruction in the ordinary schools. As Mr. Fetterly points out education is of very special and vital importance to deaf children. In the School for the Deaf children receive as complete and effective a general education as provided in the ordinary schools and in addition are taught various trades to enable them to earn a livelihood when they go out in the world. The boys are taught such trades as printing, shoemaking, carpentry, etc., while the girls are taught dressmaking, general sewing, cooking, and all kinds of household work. Still further they receive the greatest care and attention with the view of developing the finest and best in the moral, mental and spiritual natures of both the boys and girls. Health is specially guarded, and for this the school is splendidly equipped. An interesting fact is noted by Mr. Fetterly and that is that the "dumb" are often taught to speak at this school. He instances cases where children who were deaf were found to have the power of speech and so could be taught the use of speech, though their deafness could not be cured. In some cases by the use of special instruments and appliances the use of the ears was largely assisted and some measure of hearing achieved. The Ontario School for the Deaf is beautifully situated near the shore of the picturesque Bay of Quinte, about a mile from Belleville. The main building was erected in 1921 to 1923, and contains offices, classrooms, dining rooms, kitchen and a fine assembly hall. There are 28 attractive classrooms, well lighted and fully supplied with all necessary equipment. The boys' and girls' residences are conveniently located, one on each side of the main building. They are models of convenience and comfort. In addition to the dormitories and bedrooms, they contain sitting rooms, study rooms, play rooms for bad weather, bath and wash rooms, laboratories. They are modern and up-to-date in every particular. The attendance is close to 350. Further accommodation may be added during the coming year. In addition to the buildings already noted, there are two devoted to industrial work and a well-equipped hospital. The school farm comprises about 175 acres, with barns, stables, etc. The herd of about 20 pure-bred Ayrshires provides the school with a sanitary supply of milk. There is a large flock of hens, with some prize-winning poultry. The gardens supply much of the vegetables and fruit used.

In case there are any in this district who have deaf children or may be interested in any deaf child who should go to this school, the conditions of admission are given herewith:—Deaf children between the ages of 5 to 20, whose parents are residents of Ontario, who are not mentally deficient, and are free from contagious disease, are eligible for admission to the Ontario School for the Deaf. A nominal fee of \$50.00 a year—less than it costs to keep the child at home—is required of parents who are able to pay. In the case of those unable to pay this, a certificate stating this fact, and signed by the mayor or reeve of the municipality in which the parents reside, will exempt them from this fee.

A list of opinions on the school as given by prominent men who have carefully investigated is given in The

Canadian, and these opinions prove the value of the school and the kindly care and attention given the pupils. The issue of The Canadian just received shows attractive pictures of the school buildings, both the exterior and interior views showing the excellence of the arrangement, equipment and construction. Two pages headed "Our School Activities" give views of the pupils at work and at play, and the children all appear healthy, happy and contented. The work of a school like this is of more credit to the Government than even a mighty industry like the Hydro Power project, and the value to the province must be admitted to be beyond the power of mere figures to explain.

## C. N. R. Early With Christmas Pudding

Choice Dishes for National Railways prepared on Immense Scale. Plum Pudding Recipe a Century Old.

Setting a good example to harassed Canadian housewives Canadian National Railways' chefs have not only done their Christmas shopping early but have even got their Christmas pudding well under way in order that they shall be well boiled and nicely matured when the festive week comes around.

Latest reports from the dining car and hotels department indicate that, as in previous years, purchases of the essentially Christmas edibles have again been on a grand scale. Where the average head of a family buys his turkey by the pound, the commissariat department of the railway buys in hundreds of pounds or even tons. Thus, for the tables of the Canadian National Railways hotels and dining cars this year will be required no less than 10,000 pounds of turkey, or five tons, or as a third alternative, approximately 1,000 birds.

Quite a respectable lake could be made with the mince meat required for these same tables. This year the railway will require 6,000 pounds of this commodity or well over 500 gallons, and of cranberries for jelly and sauce about 2,000 pounds. Hundreds of pounds of fruit and nuts of all kinds are also needed for the week of December 25th.

Chefs of the Canadian National Railways are particularly proud of their Christmas plum pudding which is made

from a recipe which originated in the Old Country and has been in the family of one of the railway officials for several hundred years. This year 4,000 pounds of plum pudding have been made, most of it to be served as individual portions. In the making the chefs have had to mix together the following ingredients:—

500 pounds of raisins; 1,000 pounds of currants; 500 pounds of chopped suet; 500 pounds of brown sugar; 250 pounds breadcrumbs; 125 pounds of flour; 250 large carrots grated; 500 tablespoons of ground ginger; 750 teaspoonsful of cinnamon; 45 pounds of allspice; 500 nutmegs; 125 pounds of citron; 125 pounds of candied lemon peel.

In addition to the usual Christmas turkey, the Canadian National Railways will serve on their dining cars running out of Toronto and between Montreal and Toronto during Christmas week beef from the prize animals at this year's Royal Stock show at Toronto. A quantity of this meat has also been secured for use at the Chateau Laurier hotel in Ottawa.

## IS A RELIGIOUS REVIVAL BEING STAGED IN TORONTO?

(From Toronto Mail and Empire)

Nothing more remarkable in the history of Toronto has been seen than the size of the crowd which attended or tried to attend Mr. Denton Massey's pre-Christmas Bible Class rally yesterday afternoon. The largest building in the city was retained for the gathering, but it proved hopelessly inadequate to accommodate more than a fraction of those who desired to be present. Despite a drizzling rain, 17,000 people were admitted to the Maple Leaf Gardens before the doors were closed at one o'clock, though the meeting did not open until two hours later. The crowd which had to be refused admittance was almost twice as large. The police estimated that it numbered between 30,000 and 35,000 people. There must be something highly significant in the fact that on bad day from 45,000 to 52,000 people were anxious to participate in a Bible Class meeting. Though twenty-five additional street cars were brought into play, this provision failed to cope with the occasion. The police had not anticipated such a crush and traffic was tied up in a large section of the downtown area for a considerable period. In recent weeks The Mail and Empire has been in receipt of inquiries as to whether or not there is

any sign of such a religious revival as has followed severe and prolonged business depressions in past history. The eagerness to attend the York Bible Class meeting yesterday may provide an affirmative answer or, at least, point in that direction.

## SALVATION ARMY EVENT ON DECEMBER 23RD NOT 22ND

The Salvation Army Christmas concert dated for Tuesday, Dec. 22nd, has had to be changed to Wednesday, Dec. 23rd. All should kindly note the change. Event will be on Wednesday of next week, Dec. 23rd.

## MINING EXCHANGE WILL HAVE THREE DAYS HOLIDAY

Directors of the Standard Stock and Mining Exchange have decided to have the exchange remain closed on Saturday, Dec. 26th, which will make for a three-day holiday, Friday (Christmas) to Sunday, inclusive. It is expected that other stock exchanges will take similar action.

## BOY KNOCKED DOWN BY A TRUCK, BUT NOT MUCH HURT

On Tuesday a lad of about 12 years of age ran to jump on a truck at the corner of Hollinger Lane and Vimy and the truck turning he ran into the truck and was knocked down. He was hurried to the hospital, but it was found that his injuries were practically non-existent, the boy being more frightened than injured. He was sent home from the hospital. The incident gave rise to several circumstantial stories of boys being killed by trucks here. In any event the case should be a warning to boys to keep away from trucks and to parents to see that their boys do so.

## DIVIDEND NUMBER 222

## Hollinger Consolidated Gold Mines Limited

A dividend of 1% on the Capital Stock of the Company, has been declared payable on the 31st day of December, 1931, on which date cheques will be mailed to shareholders of record at the close of business on the 16th day of December, 1931. Dated the 9th day of December, 1931. I. McIVOR, Assistant-Treasurer. -51.
