THE BANKRUPTCY ACT

In the Estate of Harry Sky, Authorized Assignor.

Notice is hereby given that Harry Sky of Schumacher in the Province of Ontario, did on the 20th day of January, 1932, make an authorized assignment of all his property for the benefit of his creditors, and that T. J. Bourke, Esq., Official Receiver, has appointed us to be Custodian of the Estate of the Debtor until the first meeting of creditors.

Notice is further given that the first meeting of creditors in the above estate will be held at the office of T. J. Bourke, Esq., Official Receiver, Court House, North Bay, Ontario, on Friday the 5th day of February, 1932, at 10 o'clock in the forenoon.

To entitle you to vote thereat, proof of your claim must be lodged with us before the meeting is held.

Proxies to be used at the meeting must be lodged with us prior thereto. And further take notice that at such meeting the creditors will elect the permanent Trustee.

And further take notice that if you have any claim against the Debtor for which you are entitled to rank, proof of such claim must be filed with us or with the Trustee when appointed; otherwise the proceeds of the Debtor's estate will be distributed among the parties entitled thereto without regard to your claim.

Dated at Toronto this 22nd day of January, 1932.

The Canadian Credit Men's Trust Association Limited, 137 Wellington Street West, Toronto, Ontario. Custodian.

Visits in North America

PRINCE CONSTANTINE

Heir to the throne of the world's third smallest principality, Liechtenstein, is known in New York, where he is visiting after competing in Canada as a member of the Oxford-Cambridge winter sports team. The young prince, 19, is a student at Oxford, and a nephew of Prince Francis I, present ruler of Liechtenstein.

Objection to Engineers' Bill Not So Noticeable

Last week The Advance printed a comment from The Northern Miner in which the suggestion was made that there was very general opposition to the proposed bill in regard to professional engineers and their standing. It was implied in the article in The Northern Miner that in mining circles in the North the opposition was especially keen, as it was feared that the bill would affect practical men and take away opportunity from young men following the practical side of mining. Prominent mining men in this district question this theory. They say that they know of no important opposition to the bill. One mining engineer active in the Association of Professional Engineers in the province of Ontario says that he has not heard a single recent objection to the proposed bill which is designed to assist the standing and preserve the interests of those engaged in engineering work in mines and elsewhere. He points out that practical men can qualify under the act. He can secure standing among his fellow engineers if he has the required experience and qualifications. He submits his qualifications and if these are satisfactory he is accepted. If there is question he can still qualify by examination. Even then he has the right to appeal if not satisfied. The Ontario Mining Association at first did not seem to favour the plan, but recently all the mine managers approve after learning the details. The act is being drawn up by the Attorney-General's department, but the bill will not be submitted as a Government one. The feeling seems to be growing that the proposed legislation will be valuable to what are known as the "practical" mining men by giving them protection and standing among their own fraternity of fellow engineers.

Here and There

Grain shipments through the port of Halifax were nearly 400,000 bushels greater in 1931 than in 1930. Figures for the two years are: 1930, 731,995 bushels; 1931, 1,126,787 bushels.

Gold production from Northern Ontario mines in 1931 is estimated to have a value of \$13,000,000. Since mining began 25 years ago, these mines have produced to a value of \$395,000,000 worth of gold.

The Mountain comes to Mahomet this day. University of Alberta gives educational courses by radio four times a week, enabling those unable to attend in person to have the university taken to them.

Total value of all field crops produced in Canada in 1931 is estimated at \$431,251,000, of which wheat accounts for \$198,786,000. Hay and clover is the next most valuable crop, being put at \$113,961,000.

A solid block of blue granite has been shipped from Mt. St. Donald, in the Canadian Rockies, has been shipped to New Haven, Connecticut, to be incorporated in the new Strathcona Memorial Building now being built at Yale University.

The five great branches of primary industry in Canada, as measured by the latest available statistics of value of production were agriculture, forestry, mining, electric power and fisheries, with the first having a production greater than all the four others combined.

Out for the E. W. Beatty mid-winter golf championship trophy to be fought for over the links of the Royal Colonial Golf Course, February 22-27, leading amateurs from Seattle have notified their intention to compete. Last year's cup winners from Victoria will also tee off and there will be strong contingents from Vancouver and the Prairie Provinces as far east as Winnipeg.

Who is the Canadian Pacific pensioner with the longest service record? A controversy recently raging has been ended by the official statement that John Caesar, of Vancouver, is the "grand old man" of the company, with 48 years of service, closely followed by W. J. Grant, of Hamilton, with 47. They are respectively 81 and 78 years of age.

Highly pleased with their first experience of Canadian ski-ing country, delighted with Canadian hospitality and looking forward to future visits to the Dominion, the Oxford-Cambridge skiers sailed recently from Saint John to Liverpool aboard the Duchess of York. Matches between Canadian and British university ski teams will probably be a result of the visit.

Eyes of winter sport enthusiasts are now being focussed on the big event of the season on this continent, the 11th annual Eastern International Dog Sled Derby to be held February 22-24 at Quebec over a course of 123 miles, terminating with the Dog Derby Ball at the Chateau Frontenac. Outstanding dog mushers are entered for the event. (\$15)

St. Catharines Standard.—The Niagara-on-the-Lake fire chief wants some new hose. Some which was secured in 1891 gave out at a recent fire. His request seems reasonable; we can't even wear our own hose for 40 years.

Provincial Loan of \$25,000,000 Offered

Large Group of Security Houses Insures Widest Possible Distribution for the Issue. Sure to be Over-Subscribed.

The Provincial Treasurer of Ontario has made arrangements with a comprehensive group of security dealers and several banks for the raising of \$25,000,000. Of this offering \$20,000,000 is being issued in the form of 15-year debentures while the balance of the issue will run for a period of 3 years. This choice of maturity will, it is anticipated, meet the varying requirements of investors.

The 15-year bonds are being offered to yield 5.90 p.c. while the smaller amount of 3-year debentures is being offered to yield 6 p.c.

This offering has been looked forward to with a considerable degree of interest since the statement made by Premier Henry two or three weeks ago with regard to prospective financing by the Province.

Since the turn of the year two important financial operations have been carried out successfully. During the first week in January the Province of New Brunswick sold \$5,062,000 of debentures which were issued to refund certain maturing obligations and to cover the costs of constructing roads and public buildings. The New Brunswick issue was followed by one to raise \$15,000,000 for the City of Montreal. The Montreal bonds were issued to yield 6 p.c. and met with a satisfactory reception when offered last Tuesday. The City of Montreal needed the money partly to meet maturing obligations and partly for defraying the cost of construction of certain important public works, part of such works being for the relief of unemployment.

This financing by the Province of Ontario represents the third important piece of financing since the turn of the year. These three pieces of financing represent the first issues to be made by important public bodies since the early summer of 1931 with the exception of the National Service Loan which was brought out in the closing months of the year.

The satisfactory reception accorded the issues of New Brunswick and the City of Montreal doubtless influenced the Government's decision to market its bonds at this time.

Security dealers in Ontario anticipated a large volume of enquiries from within the Province for the loan as at the time of the offering of the New Brunswick and Montreal issues it was found that quite a number of investors stated that they were waiting for the issue to be made by their own Province as announced by the Prime Minister several weeks ago.

TEACHERS' SALARIES

(Guelph Mercury) When a good business man makes an investment he naturally expects some rational return for his money. When a young man or woman decides to take up the profession of teaching we would suppose the same rule to hold true. Before making any drastic cuts in teachers' salaries it would be well for municipal bodies in charge of educational matters in various sections of the province to look closely into this phase of the question before taking a course of action, not only in every way unfair, but also productive of decidedly unfortunate results.

As far as teachers in primary schools are concerned, there can be little doubt that they have been notoriously under-paid in some districts.

ARE EDITORIALS READ?

(Renfrew Mercury)

A favourite little slur on the newspapers, by critical writers in opposition media, has long been that the editorial page is only inserted to keep up appearances. So often has this been repeated that a sizable number of people believe editorial pages are not generally read. Our view has been that the editorial page, when written by capable journalists and in positive terms, is one of the best-read features of the average newspaper. Certainly in time of economic confusion and social and political upheaval, such as the current year presents, the need of public leading through editorial opinion is obvious and to assume that the people are not availing themselves of this service is to cast a reflection on national intelligence.

Occasionally, we have sound proof of editorial page readership. For instance the case of Columbia (S.C.) State. Early in January, 1932, Editor & Publisher reported that a 10-day poll just closed had shown that among readers of the State replying to a questionnaire 96.9 per cent. declared they read the editorials, 77.9 per cent. saying they were "regular" readers. Two weeks ago 431 readers of the State replied to a questionnaire, and of the number 98.10 per cent. registered as editorial readers, 78.37 per cent. of the number being "regular" readers, and the rest being "occasional" readers.

Sudbury Star.—Testimony to the effect that the soil and climate of the Sudbury district is suitable to the growing of sugar beets should be looked into by the Board of Trade or some other organization in this city. Although Sudbury is "on top of the world" as far as nickel and copper production is concerned, every other possible avenue of development should be explored.

A Capable Coach

A CAPABLE COACH. Art Ross, Coach of the Boston Bruins, is doing his best to bring his team within striking distance of the New York Rangers and at present the Bruins are tied for third place. Art knows the game and his experience should prove valuable to the Boston players.

LOCALS

Mr. Albert McPherson, of Kaitiakasing, was a Timmins visitor last week.

—Don't forget the big dance to be held in the Moose hall on Monday, Feb. 1st, under the auspices of the Moose Entertainment Committee. Doors open at 8:30 p.m. Admission gentlemen, 50c, ladies 25c. Good music and lots of fun. -4

Edward E. Reid, managing director of the London Life Co., accompanied by J. G. Stephenson, superintendent of ordinary agencies, London, Ont., were visitors to town this week. While in town they visited the Hollinger, the McIntyre and the Coniarum Mines, as well as the St. Mary's hospital. They were greatly impressed with the gold industry in this country and also with the safety work in the mines and in the town, while the equipment and conduct of the hospital here won their warmest praise.

New Chevrolet Finer, More Powerful

1932 COUPE AND SEDAN

These stream-lined, more-powerful Chevrolets for 1932, with free-wheeling and silent synco-mesh transmission, have just been presented to the public. Above is the five-window coupe. Below, the special sedan, the front end view showing the newly-designed radiator, double tie-bar, dual horns, and one-piece bumper. The engine has had its power increased by 20 per cent, and the other mechanical improvements are numerous.
