Eldorado Retains an Expert on Radium

Great Bear Lake Property Secures Services of M. Pochon, who has Extensive Knowledge in Handling Radium Ores.

A couple of weeks ago reference was made in The Advance to the radium-bearing ore from Great Bear Lake, samples of which were brought to the camp by the Messrs St. Paul, of South Porcupine.

"Mr. Pochon, graduate of the School of Industrial Physics and Chemistry, Paris, has been retained by Eldorado Gold Mines, to take charge of the treatment of the company's pitch-blende (radium) ores from Great Bear Lake, it is learned.

"It is understood that Eldorado is now arranging for a site to erect their plant to recover radium from the pitch-blende. An announcement in this respect is expected shortly, although arrangements have yet to be completed.

"Officials of the company have satisfied themselves that sufficient high-grade ore has been developed to warrant their action in proceeding with plans for treatment of ore.

"The coming season's work at the Eldorado should go a long way toward disclosing the proportions of the venture. Some thirty men will be sent in March and will work through until September.

Wholesalers Leading in the Commercial League

After beating The Advance for four-points last week, the Gamble-Robinson crew came right back to win 3 points from the Power gang and are now leading the grand parade in the local 5-pin league.

The score:—
Power 851 933 961 2745
Gambler's 1057 812 1023 2892

The rumour around town that the printers were leading the league has been settled at last much to the relief of Gamble-Robinson bowling team.

The honour roll for this week is very small, so here it is:—H. Horrester, 751 (262); O. Alton, 615 (225); Chas. Alton, 604 (208).

Blairmore Enterprise:—A southern newspaper remarks that the legs of many women the like this: O. At that, as a third commentator observes, legs like !| or like () are much better than legs like) (.

Suggests Summer Park for Timmins This Year

Writing from Orange City, Florida, where he is on a business and pleasure trip at present, W. F. Babcock known here as "The Lot Man" on account of his activities for some time past in the selling of lots of lots, says that he expects to return to Timmins about April 1st, and that he then will have real news for the town and district in the way of a summer park and amusement and a summer dance floor on a new plan.

He also expects to have a few cages of alligators as the basis for a zoo garden. Since coming to Timmins a year or so ago Mr. Babcock has had the idea of starting something in town or very close to town in the nature of a summer park and amusement place something along the line of those successful in Southern places.

"Mr. Pochon, graduate of the School of Industrial Physics and Chemistry, Paris, has been retained by Eldorado Gold Mines, to take charge of the treatment of the company's pitch-blende (radium) ores from Great Bear Lake, it is learned.

"Whether Miss Flora Miron was an indigent patient, within the meaning of the law, or not, is the subject of a dispute between the National Sanitarium Association and the township of Dymond, and the matter has been referred to the courts for decision.

HON. MR. FINLAYSON DENIES HE USED INFLUENCE IN JOBS

The Toronto Star on Monday said: "Hon. William Finlayson, Minister of Lands and Forests, to-day denied he had anything to do with sending to the northern trans-Canada highway camp men from Victoria Harbour, to replace some who had been laid off.

The Eleventh annual Eastern International Dog Sled Derby—crowning event of the 1932 Winter Sport season—is scheduled for February 22-24.

Red Army Chief

Here is a recent photograph of General P. J. Blucher, who has been promoted Commander-in-Chief of the Soviet special Far Eastern Army.

Township of Dymond Sued by National Sanitarium

A despatch from New Liskeard says: "Whether Miss Flora Miron was an indigent patient, within the meaning of the law, or not, is the subject of a dispute between the National Sanitarium Association and the township of Dymond, and the matter has been referred to the courts for decision.

Mitchell Advocate:—A subscriber writing to the Editor of the Mitchell Advocate, says:—"If some of the home merchants realized that those of us who are away read their advertisements almost as carefully as we do the news items, I believe they would not only change them more frequently, but would try to make them a bit more appealing.

Case Against Cochrane Man Adjourned to Monday

The case against John B. Moore, former tax collector at Cochrane, came up again in police court at Cochrane on Monday of this week, but was not proceeded with on account of the fact that the counsel for the defence held that he had not a fair chance to prepare the defence in the case as the charge was not sufficiently settled.

John Greer, K.C., on behalf of Moore, stated that up to the present he was unable to find out just what his client was charged with. Each time his client appeared in court the charge was either altered or amended.

Two men were required to carry the town's books into court. Receipts and cheque vouchers of several taxpayers for which it is alleged no credit was given, were next brought forth.

The magistrate adjourned the case till Feb. 15.

WARNS AGAINST DANGER OF ANOTHER WORLD-WIDE WAR

A warning of the danger of another great war was given this week by Brig. General F. P. Crodier, who said that "only the death of one American sailor or at the hands of a Japanese sailor, soldier or airman is needed to cause some American admiral to clear for action in defence of national honour of his country and at the expense of international dishonour and disaster.

Among the local and personal items in The Northern Tribune last week was a note saying that Mr. and Mrs. J. P. S. Ballantyne motored from Kapuskasing to Hearst the previous week to attend a hockey match.

For Fish and Game Preservation Here

Letter Writer Touches on Several Points for the Betterment of Fish and Game Conservation in the North.

Fish and game preservation should receive the attention of all in the North because the subject is of vital importance to the welfare of the public generally.

To the Editor of The Star
Sir: As a lover of wild life and a keen observer of the methods adopted by the various provinces and their game laws and regulations, I consider this province is at least twenty years behind the times.

Six years ago, when first becoming acquainted with Larder lake, a beautiful piece of water of about fourteen square miles, we found commercial and domestic fishing licenses issued.

Eight years ago in B.C. in the Tete Juan valley (head waters of the Fraser) a report was written to that department about salmon spearing and in six days a protective officer was on the job.

In this province it has been the department's policy to grant net licenses in small lakes like Larder, Ribb, Kenogamisse and Tonico until they have become totally depleted, thereby lowering them as a tourist proposition to the tune of thousands of dollars yearly.

If the department is going to grant licenses why not grant them to Timagami and other large bodies of water with their thousands of miles of shoreline. Gold lake in Alberta was netted to the extent of 40 tons per year until it was accessible by motor road.

In the province of Nova Scotia 30 years ago the company I was with was haled into court and fined for operating two dams without fishways. As a result of this protective measure they have the finest hunting country of its kind in the Dominion.

I became acquainted with this part of Ontario over twenty years ago and I tell the department that they have only 50 per cent. of the game that they should have, allowing for loss by mining and settlement.

LOUIS GEIZER,
President Kirkland-Larder Lake Game and Fish Protective Association.

Schumacher All-Stars to Bowl Pick of Timmins

The Inter-town bowling league starts tonight (Thursday) at Timmins for the Kenning Cup, which is the trophy donated for the supremacy of the 5-pin bowling championship of the Porcupine district.

The Timmins team will comprise the following bowlers:—A. Tomkinson, A. Sauve, T. Whitney, J. Roberts, E. Kempbell, C. Brown, and W. Tonkin.

Toronto Mail and Empire:—A piece of chicken heart which Dr. Alexis Carrel set beating by artificial means has kept beating for 20 years. And yet chicken-hearted is supposed to be faint-hearted.
