\$7,000,000 Increase in Gold Production

Output in Ontario in 1931 was \$43 117, 698 as Compared with \$35,886,558 in 1930. Gold Mining is One Bright Spot.

Gold mining is the bright spot on the industrial horizon of Ontario. The preliminary annual report of the Ontario Department of Mines for 1931, just issued, announces a record production of gold by the mines of the Province, amounting to over \$43,000.000. This figure is over \$7,000,000 in advance o the output for 1930. At a glance, the following comparative figures show the progress made at the various mining \$19,891,521 ... \$17,758 842 Kirkland Lake 21,734,729

N. W. Ontario

20,513 \$43,117.698 \$35,886,558

The mines at Porcupine increased their output by well over \$2,000.000. while Kirkland Lake, for the first time ncrease of over \$4,500,000. Northwes ern Ontario made a remarkable advance by more than doubling the output for 1930, and for the first time has actained W. D. WATT, Chief J. PURDIE, Sec'y the million-dollar mark. The Howey 52-12 Mine was responside for a big proporion of this advance, having increased its production of gold nearly 100 per cent, in the past year. The gold by product from nickel-copper refinin showed an increase, despite the decline in these metals. Twenty-three mine produced gold in Ontario in 1931, eigh of which were in the Porcupine bei and eight in Kirkland Lake area, while five were in the northwestern part of the province. At the end of the year sixteen mines were producing gold

Intensive Search for Gold The search for new sources of gold was intensively carried on in Ontario during the past year, and promising discoveries were reported in the Bannockburn area, where at least one mine (the Ashley) is rapidly approaching the production stage. In addition, the lowgrade deposits of the adjacent Matachewan area are now attracting attention. To the west, in the Three Duck Lake area, and still further west, in the Swayze area, interesting discoveries of gold were made, both of which are under preliminary development. The renewed interest in the Michipicoten and Thunder Bay areas and in the Lake of the Woods indicates the thoroughness of the search that is being made for the

precious metal in the province. Total Metal Output

While gold made an individual advance of 20 per cent, during the year, the total production of all metals declined slightly more than 12 per cent. in value. The high records of production during the years 1929 and 1930 were abnormal, and the figures for the past \$83,356,365 in 1930.

Dividends paid in Ontario by metal here. mines during 1931, and also the total to the end of 1931 are shown below: Total to

Industry End of 1931 Nickel-copper \$ 8,494,406 \$145,043,210 14.070,458 . 119,088 885 105,000 Silver-cobalt 97,576,281

during 1929 and 1930 in the mining involved. and metallurgical plants at Sudbury to cops with the great resources of highgrade copper-nickel ore disclosed at depth in the Frood Mine. A large part of this plant has necessarily been idle during the past year, owing to the world-wide decline in the demand for base metals, including nickel. The rich resources, however, are still there, and the magnificent mining, concentrating, smelting and refining plants in connection with the mines of the Sudbury area only await the return of the tide of industrial prosperity to place it foremost among the mining and metallur-

gical centres of the world. Notwithstanding a decline of \$14,000,-000 in output, the mines of Sudbury have stood up well under a depression which has proved disastrous elsewhere. Ore smelted by the two producing companies, International Nickel and Falconbridge, showed a decrease of 20 per cent. as compared with that of 1930. While the prices of copper and other base meals fell to extremely low points, nickel quotations, despite curtailed output, were maintained at the levels of

the past five or six years. Production of precious and rare metals by the International Nickel Company at its Acton plant in England. which has a capacity of 300,000 cunces, has grown steadily. The total output of platinum metals in 1931 was 91,645 ounges, volued at \$2,812,834. In addition, gold and silver to the extent of 23,381 and 822,971 ounces, respectively. were recovered in the process of refin-

To Show Motion Pictures of Timmins Next Week

The motion pictures which were taken recently of the town of Timmins, its industries, stores and other particulars, are to be presented at the theatres here next week in addition to the regular programmes. These motion pictures were filmed several weeks ago and there has been an impression gaining ground that they would not be shown here. However, this week thi rumour is contradicted by the theatres here, arrangements having been made this week for the pictures to be presented next week. The pictures will be shown at both theatres. They will be three days, Monday, Tuesday and Wednesday, at the Goldfields theatre Dairymen of Timmins to and the other three days of next week. Thursday, Friday and Saturday at the New Empire theatre. The Timmins motion pictures will be presented at both theatres in addition to the regular

pictures of various towns in this part of the North have been taken and some at the towns concerned. These pictures were filmed by the same firm that is

BEAN SUPPER NEXT TUESDAY

Pioneer of Cobalt Dies on Friday Last

Anthony H. Derry, Formerly of Porcupine, Dies in the Municipal Hospital from an Attack of Pneumonia.

A pioneer resident of Cobalt and a man well-known in many of the mining camps of the North, including the Forcupine where he spent some time. died in the municipal hospital at Cobalt on Friday of last week, when Anthony Holland Derry succumbed to an attack of branchial pneumonia. He had been ill for a week prior to his death, having been removed to the hospital the previous Sunday when his condition became serious. The remains were sent to Marmora, Ont., where the funeral was held this week.

Despatches last week from Cobalt say that Mr. Derry was 72 years of age last Christmas eve. Born at Malone, in Hastings County, he had followed mining for the greater part of his life, first at properties in his home area, and later in Northern Ontarlo. He went to Copper Cliff many years ago, being engaged there as hoistman for the Canadian Copper Company, and he lived in the Sault Ste. Marie district for a time, being engaged as master mechanic at the Superior copper mines. He came to Cobalt first in 1905 as a prospector, representing Renfrew interests, later going to the Laurentian Gold Mines, in the Kenora area, where he carried out diamond drilling.

Returning to Cobalt in 1907, Mr. Derry was for some years master mechanic at the La Rose mine, and he set up plants for the King Edward and Penn Canadian companies in camp. He was in Porcurine also for a for the past season; the election time, but had made his home in Cobalt for years past, latterly being employed at the Nipissing mine. Mr. Derry was an Anglican, a member of the Foresters' and Odd Fellows orders. He had Liberal and Labour party leanings. Surviving are his widow, one son, William Clifford, of Cobalt, and a daughter, Miss Beatrice, of Kirkland Lake, with one brother, Thomas Henry,

A meeting of the dairymen of Timnins has been called for Tuesday evening next, March 29th, to be held in the Ukrainian hall, Timmins, at During the past few weeks motion | 8.30 p.m. All dairymen in the town and immediate district are urgently invited to attend. The dairymen here of these have already been presented have a number of problems to face at present and it is felt that by mutual discussion and consideration and coshowing the pictures of Timmins. In operation some of the difficulties may Cochrane and Kirkland Lake where the be removed. In any event it is believlocal pictures were shown the audiences | ed that a thorough understanding of were very pleased with them and the the situation will in itself be of value same satisfaction is expected in the and that if the dairymen will unite to case of Timmins. There are said to be advance their own interests and guard several thousand feet of the film of the their own safety much may be accompictures of Timmins with the police plished. The by-law in regard to pasyear of unusual depression suffer by department, the fire brigade, a number teurized milk only to be sold in the comparison. From this point of view of the stores and other business places town of Timmins is one of the matters is of interest to note that the output and industries being shown, as well as that has caused much concern to the of metals in 1931 was nearly \$2,000.000 pictures touching on the history and dairymen and this by-law will no doubt higher than that of 1928, the year be- growth of the town. attend these services.

and while in the Silver Town he told an interesting story of seeing from a the Canadian Pacific Railway's Temiskaming branch track. Passengers on the train saw the wolves hamstring the deer on the glare ice of the Ottawa river, but the wolves were frightened away by the noise of the engine. A game warden on the train asked men to go back and kill the deer and put it out of its misery, Mr. Childerhose said.

This incident showing the distructiveness of the wolves took place about seven miles from Mattawa, Mr. Childerhose said. According to information club. A brief period after he had adpossible, the Englehart curling trophy. he received from railway employees in the section, Mr. Childerhose said he wolves at an average rate of one each minutes. The late Mr. Rorabeck was cently in the district.

Russian Spies May be Even at Ottawa

Geo. B. Nicholcon, M.P. for Algoma, Speaks on Soviet Propaganda, "Russia is at War with Canada," he Insists.

The possibility of there being agents Soviet Russia around the Parlianent Buildings was mooted in the House of Commons at Ottawa on Wednesday of last week by G. B. Nicholson (Cons. Algoma East). Mr. Nicholson considered Russia was at war with Canada and that her agents were in "every hamlet in this country from the Atlantic to the Pacific." In the debate on the extension of

the "blank cheque" provision to the Government to carry on relief work for two months, Mr. Nicholson scored | Timmins - - - Ontarie the comparisons drawn between Russia and Canada by two Labour members, J. S. Woodsworth, Winnipeg North Centre, and Angus MacInnis, Vancouver South. "They constantly speak of ideal conditions," in Russia, declared Mr. Nicholson, "and then compare them to what they term demoralizi onditions in Canada.' "Canada is the freest country und

the sun. There is not a country in the world where a man has such an opportunity to make his way in the world as he has in Canada." declared Mr. Nicholson. He suggested that since the two hon, members felt Russia a superior country they might go to Russia. He did not believe the Department of State "would present difficulties to their securing passports,' and believed they would have "no diffi-

"Why don't they go? Is it because Comrades Stalin and Kamenoff would coner that they remained in Canada and take the place of Tim Buck and

his associates who are now behind the walls of Kingston Penitentiary," asked Mr. Nicholson. "Russia is at war with Canada. Russian agents are in every hamlet in this

country from the Atlantic to the Pacific, and I am not so sure that she has not agents around these Parliament Buildings. Every man in this country knows that Russia is at war with Canada and she is at war in her own country. It has been proven in the courts that the Soviet Government sent money into Canada to pay Communistic organizers to disrupt this country. For what other purpose was it sent? She is at war with her own people, with every ideal which has been held sacred The special Easter services at the by men and women ever since the dawn of civilization."

MAN AT COCHRANE GIVEN TERM FOR BITING FINGER

On Monday of this week August Gignac was charged in Cochrane police court before Magistrate E. R. Tucker with assault and causing bodily harm. On March 15, he started a fight with Leo Rivest, in a pool room, which was afterward continued outside. During the course of the struggle, Gignac bit J. M. Childerhose, of Toronto, for- off Rivest's finger at first joint. The merly in the newspaper game in the charge was proven and as a result North, was a visitor to Cobalt last week | Gignac was gixen six months' hard labour at Burwash. John Dolonski railway car window two wolves attack- and sentenced to two months' imprisoning a deer within a short distance of ment, accompanied with a strong recommendation of deportation.

CECIL RORABECK, NORTH BAY. DIES AT ROTARY MEETING

Death came with tragic suddenness to one of North Bay's most prominent and popular citizens on Monday, when A.- Cecil Rorabeck, well-known druggist, was seized with a fatal heart attack. Mr. Rorabeck was attending the weekly luncheon of the local Rotary dressed the members on activities coming under his direction, he was seen to slump in his chair, dying in a few widely known throughout the North and in Ontario generally. He was for 35 years in North Bay as a druggist. He took an active part in the life of North Bay, having been on the Collegiate Institute board, as well as prominent in board of trade work and past president of the Rotary Club and the Canadian Club.

Mr. Rorabeck was one of the best known members of his profession in Ontario. He was a former president of the Retail Druggists' Association of Ontario, while at the time of his death he was a member of the council of the Ontario College of Pharmacy.

One of the most prominent Masons in Northern Ontario, Mr. Rorabeck was a life member of Nipissing Lodge A. F. and A. M., former master and D.D.G.M. in 1908. His other lodge connections were: Excellent St. John's Chapter, Royal Arch Masons, in 1904; Preceptor, Harrington Preceptory, No. 14, Great Priory of Canada, in 1907, and Provincial Prior in 1909. He was also a member of the Scottish Rite and at the time of his death was potentate's aid of Rameses Temple of the Mystic Shrine.

The late Mr. Rorabeck is survived by a widow and three children, also a brother and two sisters, one of the latter being Mrs. T. Shaw, of Kapuskas-

The funeral was held yesterday (Wednesday) under Masonic honours.
