Miss Campbell's Recipe for Cup Cakes
2 cups butter
2 cups pastry flour
1 cup sugar
2 eggs
1/2 teaspoon vanilla
1/2 teaspoon salt
1 cup milk

Cream butter thoroughly; add sugar a little at a time, beating well. Add yolks of eggs and vanilla; beat well. Sift flour with baking powder and salt, and add, alternately with milk, to first mixture. Fold in stiffly beaten egg whites. Bake in greased cup cake tins, or in paper baking cups, in moderate oven at 375° F. about 25 minutes. Serve warm from the oven, sprinkled with powdered sugar. Or cool and frost the tops. You will find many delicious frosting recipes in the Magic Cook Book.

"Cup Cakes are delicious when made with Magic Baking Powder,"
says Miss Helen Campbell,
Director of
The Chatelaine Institute

"Good baking goes hand in hand with good materials," Miss Campbell will tell you.

That's why Magic Baking Powder is used and recommended by The Chatelaine Institute. Magic meets all the Institute's rigid requirements of fine quality—repeated tests have proved it absolutely pure, uniform and dependable.

The majority of dietitians and teachers of cookery throughout Canada plan their recipes for Magic. They use it exclusively because they know it gives consistently better results.

And 3 out of 4 Canadian housewives say Magic is their favorite. It outsells all other baking powders combined.

Remember—substitutes are never as good. Do as the experts do. Use Magic Baking Powder.

Free Cook Book—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Limited, Fraser Avenue and Liberty Street, Toronto, Ontario.

Made in Canada

Ontario's Output of Gold for 66 Years

Since 1866 Ontario has Produced Gold to the Value of \$394,220,647.00, 75 per cent. from Porcupine.

Some very interesting figures may be gleaned from a recent compilation of statistics as given in the Agricultural and Industrial Progress of Canada, the monthly journal published by the Department of Immigration and Colonization, Canadian Pacific Railway. It is especially interesting to note that Ontario has produced 75 per cent. of the output in gold of the Dominion and that Porcupine camp has produced 75 per cent. of the gold taken from this province.

Gold produced in Ontario up to the end of last year had a value of nearly \$400,000,000. The figure for the period from Confederation up to the end of 1930 is supplied by the annual report of the Ontario Department of Mines as \$351,120,721; that for last year is based on the preliminary estimate of the yield as 2,084,959 ounces at the standard value of \$20.67 per fine ounce. The resulting total for the 66 years is \$394,220,647. Of the yield up to the end of 1930 the Porcupine produced approximately 75 per cent. and the Kirkland Lake field 22 per cent. During 1931 Kirkland Lake took the leadership from Porcupine.

Dividends and bonuses paid by Ontario gold mining companies up to the end of 1930 are given in detail in the Annual Report of the Provincial Department of Mines. The total value of these payments, as reported up to the end of that year, was \$105,018,426, to which \$11,133,210 was contributed in 1930 itself. The highest sum paid by an individual company was \$54,786,400 by Hollinger, with Dome Mines second at \$14,312,508 and Lake Shore third at \$11,220,000. Hollinger began paying dividends in 1912 and Dome Mines in 1915, while Lake Shore did not commence until 1918.

Total Output
Ontario produced 78 per cent. of the total gold mined in Canada in 1931. Of the total output of 2,084,959 ounces from Ontario sources, the Porcupine produced 962,688 ounces and Kirkland Lake 1,054,017 ounces. The remainder came from other gold properties and from the nickel-copper ores of the Sudbury district. Production from Quebec was 303,300 ounces, to which the chief contributions were made by Noranda, Siseoc and Granada. The Manitoba output reached 100,510 ounces, production being credited mainly to the Hudson Bay Mining and Smelting Company and the Central Manitoba gold mine; the Hudson Bay Company's smelter treats copper-zinc-gold-silver-bearing ores from the Flin Flon and Sherritt-Gordon mines. Production in British Columbia was 153,934 ounces; placer output showed an increase but lode gold yield showed a decline. In the Yukon the placer output was 36,280 ounces.

Production of gold in Canada last year showed an increase of over 27 per cent., and the Dominion strengthened her hold on second place among the gold producing countries of the world. Gold production of the Dominion for the calendar year 1931, according to a preliminary estimate, has been placed at 2,679,728 fine ounces. Canada took second place as a gold producer in 1930 with an output of 2,102,068 ounces. In that year South Africa came first with 10,719,760 ounces and the United States (not including the Philippine Islands) third with 2,053,659 ounces. Comparative figures available for 1931 indicate that there has been a greater increase in the gold output in Canada than in the United States during the year.

SIoux LOOKOUT SITUATION IS SERIOUS, MAYOR STATES

The unemployment situation in Sioux Lookout is very serious, Mayor A. T. Curtis, of the northwestern Ontario town told mayors of Ontario municipalities meeting at Toronto Monday.

"Of a population of 1,700, we have 400 unemployed," he said. "We can't sell our debentures and unless we can get the Government's guarantee we are facing bankruptcy."

Mayor J. W. Richardson, of North Bay, agreed the predicament of Northern Ontario centres was acute and blamed unemployment relief measures to some extent.

Chatham News:—The death of two Winoma women who were struck and killed by an automobile while walking on the Queenston Road towards their home, has again drawn forcible attention to the need for footpaths along the highways.

TEN YEARS AGO IN TIMMINS

From data in the Porcupine Advance Files.

In the issue of The Advance of March 22nd, 1922, there was much attention given to hockey. The hockey fans in Timmins thought this particular time of year, which hockey over for the season, as the right time in which to plan for the next season's hockey. Accordingly there was a big attendance and much interest at the annual meeting of the Hockey Club. Speaking of this annual meeting, The Advance said:—"The gathering of the hockey fans at the council chamber on Monday evening went on record as very strongly in favour of the best possible brand of Senior hockey for the camp next season. A suggestion that perhaps on account of the expense and other difficulties it might be well to try out local hockey next season instead of the Senior N.O.H.A. variety met with little favour from the big crowd present. In opening the meeting Dr. R. H. Brown, president of the Porcupine Hockey Club, remarked on the large attendance which was in pleasing contrast to a year ago when only five or six turned out to the annual meeting. The financial report for the season as read by the treasurer, Mr. T. M. White, was a very satisfactory and creditable one when the conditions are considered." Dr. McInnis, J. W. Reed, Chief Borland, Jos. Everard, A. Brazeau, H. G. Laidlaw, W. H. Wylie, W. R. Dodge, J. Monaghan, P. Macaulay and others spoke on hockey affairs. Chief Borland made a hit when he said admission prices had been kept too high during the season then closing. On motion of Chief Borland, the following committee was appointed to explain the situation and secure their co-operation:—Dr. McInnis, H. J. Marshall, W. Dodge, H. Laidlaw, A. Brazeau, Chief Borland, J. R. Todd, Dr. Kirkup, E. J. Meyers, Mr. O'Neill, G. Adams, Dr. Brown, and Alex Gillies. This committee was also authorized to arrange for the next meeting of the Porcupine Hockey Club. Dr. McInnis was to be the chairman of this committee until the next meeting when the officers and executive would be regularly elected for the ensuing year.

St. Patrick's day was well observed in the camp ten years ago. Among the other events along this line, The Advance featured the following paragraph:—"The St. Patrick's fancy dress Ball under the auspices of the Entertainment Committee, at the McIntyre hall last Friday proved a great success in every way. There was a very large crowd and a great many unusual and attractive costumes. Mr. Roy Ennis won first prize for the gentlemen's costume and Miss Mary Watson first for ladies. The refreshments served were up to the usual McIntyre standard and the whole evening from beginning to end a very enjoyable one for all present."

Ten years ago there were many references in The Advance to power shortage and such like. At the same time there were references to plans to overcome any such difficulties. For this latter reason, there is no power shortage to be considered to-day. Ten years ago, however the following paragraph had to be published:—"A reduction of thirty per cent. in the amount of power supplied to the mines here went into effect this week. The reason for the temporary curtailment is given as the sudden cold spell preventing the replenition of the water supply. The facilities were fairly well taxed during the winter but it was hoped that early spring thaws would help out the exhausted storage supply of water. The change in the weather took away this hope. The curtailment will be only of short duration, however, probably a week or ten days. As the mines have auxiliary steam plants production will not be much handicapped, though, of course, there will naturally be increased expense and inconvenience. With the spring thaws, however, much water shortage will be possible and the enlarged capacity of the power supply is hoped to avoid similar difficulty in future years."

With the T. & N. O. Railway now built all the way to James Bay, it is interesting to re-read this item from The Advance ten years ago:—"Some difficulty has been experienced at Cochrane in getting the necessary supplies across the river at the first crossing for the work in connection with the T. & N. O. 'on to Tin Can.' The early break-up was responsible for much of the difficulty, but all the obstacles were overcome and a considerable amount of supplies, including cement, etc., has been transported and with the real coming of spring it is understood that the actual work of construction can be taken up full steam ahead."

Another St. Patrick's Day event was the eucharist and box social given by the St. Anthony's Altar Girls' Society in the K. of C. hall on March 17th, 1922. There was a large attendance and all present had a delightful time. After the cards, there was a musical programme of much interest and merit. The Irish airs given by Miss Laura Lacasse, cornet, Miss Loretta Brazeau piano, and A. Brazeau, Jr., violin, were specially enjoyed, while the male quartet, Messrs J. B. Pare, A. W. Snow, E. R. Street, and Lucien Pare, made a big hit. Miss Mary Donovan capably presided at the piano. L. S. Newton acted as auctioneer for the sale of the boxes. The total proceeds of the evening were about \$350.00.

20 YEARS OF ILL HEALTH

Then Mrs. Duke Discovered Kellogg's ALL-BRAN

Of her own accord, Mrs. Duke sat down and wrote us a glowing tribute to Kellogg's ALL-BRAN: "I have been constipated all my life, which has been about 20 years, up until last year when I started eating your ALL-BRAN. Since I have been eating it, people tell me I am looking better, and I am sure that I feel a great deal better."—Mrs. L. W. Duke (address upon request).

Constipation is usually caused by lack of two things in the diet: "Bulk" to exercise the intestines; Vitamin B to help give them tone. Kellogg's ALL-BRAN provides both of these dietary necessities, as well as iron for the blood.

Within the body, the "bulk" in ALL-BRAN forms a soft mass, which gently clears the intestines of wastes.

How much more natural it is to enjoy this delicious cereal than to risk taking pills and drugs—so often harmful.

Just eat two tablespoonfuls daily—serious cases with every meal—for most types of constipation. ALL-BRAN is not habit-forming. If your intestinal trouble is not relieved this way, see your doctor.

Sold in the red-and-green package. Made by Kellogg in London, Ontario.

Owing to ill-health he has found it necessary to seek a milder climate, and he and Mrs. Bosworth will be followed to the south with all the good wishes of many friends here."

In honour of the success of the Dome Football team during the 1921 season, as indicated by the winning of three of the district cups, a pleasant banquet was held in the I.O.O.F. hall at South Porcupine on March 16th, 1922. In addition to members of the Dome Club and their friends, there were present representatives of the N.O.F.A. and of neighbouring clubs. H. G. Laidlaw, president of the N.O.F.A., John Fell, president of the Dome Club, J. W. Faithful, president of Timmins F.C., A. Roberts, and others were among the speakers for the evening. The evening was a delightful one.

The Advance ten years ago said:—"In a letter from Sandy Falls, Mr. M. J. Cavaney, who is fast gaining the reputation of being the wireless expert of the Porcupine, asks for the discontinuance of his advertisement, at least until he can get 'caught up.' 'I have all I can handle for at least two months anyway,' he says. Which is, of course another proof that it pays to advertise, especially in The Porcupine Advance. At present Mr. Cavaney is carrying on experiments at Sandy Falls in the development of a small portable sending and receiving set for the use among lumbermen, prospectors and mining engineers. Using the Sandy Falls station as a general receiving station and relating to Timmins, it is expected that any person working in the bush anywhere within a radius of fifty miles from Timmins will be in constant touch with Timmins at all times. This is assuredly a very noteworthy development in the use of wireless and should prove of great value and service to the whole district. In this new country of big distances the development of wireless seems to be of special importance and as the pioneer here in this line Mr. Cavaney deserves the greatest encouragement, support and commendation."

It will, perhaps, interest many here to know (or to recall) that there was a Porcupine Motor League as long ago as in 1922. Such is the fact. In view of the fact that there were few miles of roadway in those days suitable for motor travel, the number of motor cars here was comparatively large. In referring to the organization of the Porcupine Motor League The Advance of March 22nd, 1922, said:—"The Porcupine Motor Club has been duly started with an initial membership of 22. This organization was formed at the meeting called at the council chamber, Timmins, on Wednesday evening last. This meeting was largely attended and all present were in favour of organizing a motor club. Mr. H. E. Montgomery presided and after reading correspondence from the Ontario Motor League explained the advantages that would naturally accrue to motor owners and the public generally from a live motor club here in affiliation with the Ontario Motor League. After some discussion on questions of interest to motorists, particularly in regard to roads, it was moved by Dr. J. A. McInnis, seconded by H. W. Warren that a motor club be

formed in affiliation with the Ontario Motor League. This was carried unanimously and all present joined the new organization which will be known as the Porcupine Motor Club. Mr. R. J. Ennis was unanimously elected as president of the club and Dr. McInnis as vice-president. Mr. H. E. Montgomery was the unanimous choice for secretary-treasurer. The same form of constitution and rules and regulations as governing the Ontario Motor League branches was adopted."

formed in affiliation with the Ontario Motor League. This was carried unanimously and all present joined the new organization which will be known as the Porcupine Motor Club. Mr. R. J. Ennis was unanimously elected as president of the club and Dr. McInnis as vice-president. Mr. H. E. Montgomery was the unanimous choice for secretary-treasurer. The same form of constitution and rules and regulations as governing the Ontario Motor League branches was adopted."

Among the local and personal items in The Advance ten years ago were the following:—"H. Webb returned on Sunday from a business trip to Toronto. Messrs Vincent Mahon, of the Dome Mines, and Stanley Mahon, of Iroquois Falls, were guests last week of their brother, Frank Mahon. With brotherly perception, Frank says:—"Vincent came to see me, and Stanley came to see me and somebody else." "A few building permits have been issued this month, but the rush has not yet commenced. It is expected, however, that the spring will see much building activity in Timmins—perhaps not so much as last year, but still on a scale that means very considerable growth to the town." "Mr. H. M. Paul, who has been spending a few weeks in the camp, left last week for the Pas, Manitoba, in which district he has large interests. Mr. Paul is very enthusiastic about the prospects of the Pas district as a gold camp, believing the claims of the Murray Brothers to be something decidedly special, in the line of high-grade ore. "Some of his many friends in town are holding a benefit dance in King's hall this (Wednesday) evening for Mr. W. H. Oke, who is at present ill in Toronto General hospital. Mr. Oke is one of the old-time residents of the Porcupine, highly esteemed by all, and popular. All his friends here will wish him a very speedy and complete recovery from his illness, and most of his friends will be pleased at the opportunity given by the benefit dance to express their regret in a tangible way, though all will regret his illness." "Miss C. Godin, of the Separate School staff, spent the week-end at Halleybury." "Mr. and Mrs. R. E. Sullivan, formerly of the Dome, now at Kirkland Lake, announce the birth of a baby girl on Monday March 13th." "Mr. and Mrs. W. W. Wilson of South Porcupine, entertained at dinner Mr. and Mrs. Ferguson, of Munson, Alberta. Mr. Ferguson was recently married at Bracebridge, Ont., to Miss Louisa Avery, of London, England. The young couple are now on their way to their new home at Munson, Alberta. All will extend to them the very best of good wishes."

Powassan News:—Powassan has not experienced any of the gas price wars which have been prevalent in the lower part of the province, but just now there is war amongst the milk men, and the price has been slashed to 7c. A newcomer precipitated the fight for business, invading the field which has been held by Scott and Jardine for years past.

Another anonymous letter was received at the office of The Advance last week. It is a rule of all responsible newspapers that no letter is accepted for publication unless accompanied by the name of the writer, not necessarily for publication but as an evidence of good faith. This has been stated so often that it might be imagined that all would know by this time, but still the anonymous letters arrive. None of them are published, however, so it is hard to understand why some continue to break the rule so uselessly.

Sluggish Liver And Rheumatism

Both Corrected By Famous Vegetable Pills

"I received immediate relief from Carter's Little Liver Pills," declares Mr. Arthur P. "I recommend them to sufferers from Rheumatism and Indigestion." Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acidity, Bilelessness, Headaches and Poor Complexion. 25c. & 75c. red pkgs. Sold everywhere.

UNDER THE MANAGEMENT OF POWER CORPORATION OF CANADA

Canada Northern Power Corporation, Limited

NOTICE is hereby given that a Dividend of 20c. per share (being at the rate of 80c. per annum) has been declared on the 70 per cent. Common Stock of CANADA NORTHERN POWER CORPORATION LIMITED for the quarter ending March 31st, 1932, payable April 25th, 1932, to shareholders of record at the close of business on March 31st, 1932.

By order of the Board,
L. C. HASKELL, Secretary,
Montreal, February 23rd, 1932.

This Useful, Handy, Aluminum Cooking Spoon

Free

For only 50 Oxo Cube Red Wrappers

Every housewife should have this handy, useful spoon in her kitchen. It's just the thing for mixing stews, gravies, jellies, jams and pickles. Save all your Oxo Cube Red Wrappers and send them, with your name and address, to Oxo Limited, 1910 St. Antoine St., Montreal, Que. There are so many ways of serving Oxo Cubes that they are indispensable in modern cooking. They put the beef in left-overs, stews and hashes; add nourishment and flavour to clear soups; supply that extra goodness which every family needs.

This offer applies to residents of Canada only and expires April 30, 1932.

13 inch Aluminum Spoon (BRITISH MADE)

C.N.R. LINER WRECKED NEAR BERMUDA BUT NO LIVES LOST

The Canadian National Steamship Prince David struck a reef two hours out of St. George's, Bermuda, on Sunday, forced the evacuation of her 84 passengers, and several hours later was sinking.

According to passengers, the vessel was making a speed of about 23 knots when the accident happened. The third officer was on the bridge at the time, passengers reported, and all were ordered immediately to don life preservers.

The life boats were lowered quickly while a S.O.S. was sent to the Lady Somers. When all the passengers had been taken off the Prince David was listing badly.

The Lady Somers, fearful of entering the channel, stood by three miles out while passengers and crew alike worked at the oars. They rowed for an hour and a half in rough sea before reaching the Lady Somers.

Chief Steward Kerr, of the Prince David, was praised highly by passengers for his work in the transfer of passengers. All were brought safely aboard the Lady Somers and then taken ashore.

The transfer was accomplished without any serious injury to any of the passengers or crew.

Another anonymous letter was received at the office of The Advance last week. It is a rule of all responsible newspapers that no letter is accepted for publication unless accompanied by the name of the writer, not necessarily for publication but as an evidence of good faith. This has been stated so often that it might be imagined that all would know by this time, but still the anonymous letters arrive.
