

# TRADE AT HOME

Patronize Your Home Merchants and Industries

## An Invitation to the Public of Timmins and District from Your Merchants

The Merchants of this Camp are here to serve you and to serve you well. We cordially invite you to our stores to see for yourself how your interests suggest that you patronize these stores. The Kiwanis "Buy at Home" campaign is staged to prove that it pays the people here best to patronize the merchants of Timmins and District.

After a thorough investigation the Kiwanis Club of Timmins and District have found that Local Merchants are carrying an equal, or better quality of Merchandise at as low a cost as that of the transient pedlar and merchandise offered by city stores through catalogue and other sources.

The outside Sales Bureaus are not providing any employment for the town or district are paying no taxes and are not spending any money in our district. They are offering no channel of service to the purchaser, and the goods received in nearly all cases must be accepted regardless of quality or price.

### Have Faith in Your Local Merchants They Can Serve You Best

In asking your support the Kiwanis Club of Timmins and district have in mind the numerous underprivileged children in our area without proper clothing, food, care and schooling through lack of employment and funds.

Ask yourself this question, "What are these outside people doing for mine or yours that I should spend my money outside?" "Buy at home" is the Kiwanis slogan for betterment of Timmins and district and the underprivileged child.

If the local public would deal with their local merchants it would mean more employment to both male and female help. Money would be kept in circulation in our district making it possible for lower Taxation, Increased Salaries, Money for Building, Improvements, Local Welfare Work and the General Building Up of Our Locality.

Endorsed and supported by the Merchants of Timmins and District whose names appear on this page.
