Can you imagine a town without a store?

Are you working for that sort of a community?

Wouldn't it be an unliveable sort of place?

Indeed, it would be impossible! Without conveniences and comforts, and necessarily with taxes so high on the ordinary resident that he would be forced to desert it!

Yet that is the sort of town that some people are really trying to create by patronizing the peddler and the out-of-town store.

Remember that all others have equal rights with you. If they all patronized the peddler and the out-of-town store the stores in Timmins and district would all automatically have to close. Just use your imagination and figure out what kind of a town it would be. Or rather the kind of town it wouldn't be!

The merchants of Timmins and District, however, are not asking any favours along this line. The stores and businesses listed on this page simply ask this of you:—That you give them a chance to prove that it will pay you in every way to buy at home. Investigate! Compare prices and values! You will find that value for value, and comparing service and convenience it will

Pay You Every Way to Buy in Timmins and District

Remember also that the more people who buy at home the better values and service the local stores can give. The effect is cumulative. Buying at home is loyalty to your town. It is loyalty to the stores that have served you and are serving you well. It is loyalty to yourself.

HAVE FAITH IN YOUR LOCAL MERCHANTS—
THEY CAN SERVE YOU BEST.

KEEP PRICES DOWN AND PROSPERITY UP,
BY BUYING AT HOME.

Investigate! Compare Prices and Service!

The Merchants of Timmins and District ask you to put it right up to them, and they will prove to you that they can serve you better than any peddlers or out-of-town stores

TRADE AT HOME
