See current time table or apply to any T. & N. O. Railway Agent for full particulars. A. J. PARR, General Freight & Passenger Agent, North Bay, Ont.

McIntyre Winner of Second Half Soccer

Interesting Match on Saturday Between Dome and McIntyre Results in Win for McIntyre, Giving Them Leadership in Second Half.

The last match of the second half of the Football league was played on Saturday, between the Dome and McIntyre, the latter winning by a score of 3-2, thus winning the second half of the schedule with the Hollinger being the runner-up.

The match on Saturday was very fast in the first half, but the second half had a few dull spots.

McIntyre—Vernard, goal; Rankin and Hampton, backs; Bennett, McWilliams and Bannerman, half-backs; Chalmers, J. Dawson, Chevalier, C. Dawson and Gray, forwards.

Dome—Rowe, goal; Pryor and Maguire, backs; Munro, Crawford and J. Whyte, half-backs; Tennant, W. White, Chambers, McManus and Doran, forwards.

Referee—A. Cadman.

The Dome pressed from the kick-off and soon tested out Vernard with a couple of shots. On another combined attack Chambers got right in on Vernard and shot but Vernard made a wonderful save.

McManus skied another over and pressure was relieved. At the other end Rowe saved a fine high shot at the expense of a corner. Gray put over a fine centre from the flag and Chevalier headed the leather in for the first cent in eleven minutes of play. Play went from end to end and the backs were putting up some fine defence work: In twenty-nine minutes of play, the Dome pulled off the finest piece of combination play seen this year, and finished when Chambers headed J. Whyte's pass by Vernard to even things.

Ten minutes from the end of the half Bapnerman was kicked on the ankle when Pryor attempted to rob him and he had to retire, Gardiner taking his place.

McIntyre tried hard to gain the point lost, but could not get away. On the other hand the Dome were having things much their own way and Vernard upheld his team well. The Dome were awarded two corners, which were fruitless. Just before time Whyte drove in a shot. Vernard caught it, but fell against the upright and the leather went in for a goal.

The second half started with the McIntyre pressing. A corner was forced. Gray took the kick and Chalmers headed it in after two minutes of play. The Dome got a corner but Vernard cleared. Fifteen had gone when Nee came on for Gardiner.

Play went from end to end. Hampton was cautioned for talking back.

McIntyre pressed hard and were rushing things around the Dome goal when Whyte knocked the ball down, robbing Chalmers of a shot. A penalty resulted. Gray took the spot kick and shot it wide of the goal.

Dome had two more close calls when Chevalier headed over and Chalmers skied one.

Dome got a corner which was fruitless. Gray was promptly warned for roughing it. Gray had a wonderful chance with no one but Rowe to beat, but he skied the ball over.

With ten minutes to go Chalmers was ordered off the field for back-talk.

The Dome went up. McManus was having a tussle with Rankin in the penalty area when the latter knocked the ball out of bounds with his arm. The referee ordered a corner claiming he did not see the handling, and caused some talk, and he promptly warned Tennant about it.

The corner was fruitless. The McIntyre got a corner which went by the wind. Rowe and Vernard both made good saves. The Dome got two more corners but could not score.

Two minutes before the whistle, the McIntyre made the final attack.

Rowe saved a shot and only partly cleared it. Chevalier pounced on the ball and so did three Dome men, but the former back-headed it to Gray, who was uncovered and only a few feet out, and scored with ease.

London, Eng., Punch—A chemist says the first alcohol ever distilled was Arabian; which may explain those nights.

Bracebridge Gazette—A Toronto clergyman went to Goderich and called police to prevent a steamer taking out an excursion party on Sunday. The chances are that most of the 150 excursionists were people who do not own private motor boats or motor cars. From the same dock there were probably several fine launches, operated by hired help, taking out parties for pleasure trips. In the same town there were probably hundreds of motor cars taking out pleasure parties that day. Because a man is well off he can take his family and friends out in his own boat or car and the Lord's Day Alliance does nothing. Because a man does not own a boat or car he cannot take his family out for a Sunday boat ride. All who have the price may play golf on Sunday any place. But they must not play baseball or football. These absurd discriminations do not tend to send people to church; they just tend to make them red."

WINNERS LAST WEEK OF THE FREE TICKETS TO THE THEATRE

If you can find your name in the advertisements on the page elsewhere in this issue you will get two free tickets to see "The Miracle Man" playing at the Goldfields theatre on Monday evening of next week. Featuring Sylvia Sidney, Chester Morris, Irving Pichel, John Wray, Robert Coogan, Hobart Bosworth and Boris Karloff. "The Miracle Man" is advertised as a cure for all ills. The comedy "Pro and Con" and Paramount Sound News are added features.

The lucky names in last week's advertisements were Walter Rigg, 15 Laurier Ave.; Clifton Thompson, 16 Messines Ave.; G. H. Byrom, 15 Elm St., North, and Albert Corbell, 115 Mountjoy Street.

Everyone should read the advertisements closely; the week that you miss is the week your name may be there. Since the opening of the contest there has been but three weeks when all tickets have not been called for, and each week three of the four persons whose names appeared called for their tickets.

SUBURBY INVESTIGATORS FIND "FRAUD" ON RELIEF

Recently Suburb had had three investigators delving into the relief cases being looked after by the city. It has been found that there are a number of cases of fraud in connection with the list. One man receiving relief from the city was found to be able to loan \$200 to a friend. Another case was that of an instance where members of a family had died in January of this year but relief was drawn for months thereafter for these members of the family. The wonder, however, is not that there are a number of frauds, but that the number of these mean crooks is comparatively so small. It is true that every case of a man receiving relief improperly not only means so much money less for really deserving cases, but it also places undue burden upon the municipality as well as turning popular feeling from charitable thoughts. Investigation in Timmins and district have disclosed similar conditions. The majority of the cases are honest ones. Only a few of the contemptible grafters appear here. Some of the cases are really pitiful. The need of relief measures is evident on every hand. The fraudulent cases emphasize the desirability of employment rather than direct relief. If men were able to work to support themselves instead of having to depend on direct relief the cases of fraud would be still less.

The Haileyburian last week says:—"Mrs. Laurence Church and family of Timmins, visited friends and relatives in Haileybury late last week on their return from a trip to Southern Ontario. Mrs. Church was accompanied by her aunt, Mrs. McKnight."

Proud of Gavel

MR. STEWART YOUNG Of the Town Planning Branch of the Saskatchewan Department of Municipal Affairs, proudly displaying a gavel sent to him as Secretary of the Saskatchewan Land Surveyors Association by J. Lonsdale Doupe of Winnipeg. The gavel is made from oak grown on the grounds of the pioneer home of the Inkster family at Kildonan, Manitoba.

Friendly Wrestling May End in Tragedy

Man Sustains Dislocated Neck at Kirkland Lake when Two Friends Tussle in Friendly Wrestling Match.

What is reported as no more than an impromptu friendly wrestling match ended in a regular tragedy a short distance from Kirkland Lake on Saturday. It appears that Eino Lamstead, 23 years of age, and his friend Matti Rinta, engaged in a friendly scuffle which developed into a wrestling match in which neither party was annoyed or excited but where both were in no more than agreeable rivalry to see which could wrestle the better. In the little bout, which was not arranged or prepared for, Rinta tossed his friend, Lamstead, and the latter struck on his head, sustaining a dislocated neck. As soon as it was seen that Lamstead was badly hurt a doctor was summoned. Dr. W. C. Rumball was the physician called and he found that he could do little. He examined the unfortunate man and ordered his immediate removal to the hospital. It was found that the victim of the accident was paralyzed from the shoulder down as a result of the accident. Later the injured man was taken from the Kirkland Lake to the hospital at Toronto. There is little hope held out for the recovery of Lamstead.

CONTRIBUTION TO FUNDS TO REPAIR THE PRO-CATHEDRAL

The Kapuskasing Northern Tribune last week says:—"Publicity given in the press to an appeal for funds for repairing the Anglican pro-cathedral at Cochrane, centre of the missionary diocese of Moosonee, has resulted in an anonymous donor sending a contribution of \$200 for this work. Previously, only \$80 had been received, with a promise of 40 pounds from England, and \$2,500 is still required. The work is necessary because of damage done to the structure by fire some months ago, and is now under way. It is stated that one member of the congregation has offered to build the 42-foot chimney free of charge, and others have volunteered to assist in the task of restoring the church. "The unsightliness of the fire-wrecked building, from the eastern aspect, was conspicuous on a recent motor trip to Cochrane. Tourists comment upon the many unrepaired fire scars in the town."

VANKLEEK HILL STUDENTS DID WELL IN EXAMINATIONS

It will be recognized, of course, that the students themselves contribute a large part to the success or failure they attain in the departmental examinations. At the same time the continued success of students at any school indicates the value of the teaching staff and particularly of the principal of the school. Accordingly there should be local interest in the comment made by The Eastern Ontario Review, of Vankleek Hill, Ontario, in presenting the report of the Middle School examinations at the Vankleek Hill centre. W. W. Tanner, who arrived in Timmins last week to take over his new duties as principal of the Timmins high school, was for the past five years in charge of the school at Vankleek Hill. In introducing this year's results in the Middle School departmental examinations, The Eastern Ontario Review says:—"The Middle School results are this year the best they have been for quite a few years. For the past five years they have gradually increased from 49 per cent, passing in 1928, to 68 per cent, in 1929, and to 81 per cent, in 1932, reflecting the increasing efficiency of the staff and the greater co-operation of the pupils. Particular mention must be made of the subjects of Latin and French where there are no failures, and of algebra where there was only one failure."

It may be added that the fact that there were eighty candidates writing at the Vankleek Hill centre shows that the high standing was not due to only a few pupils writing, but was won on merit.

North Bay Nugget:—The boom in stock prices recently has stopped the talk of changing the name of the bears to toredors because of the way they handled the bulls.

Summary of Results from the Conference

What Canada Gets by the Agreement with the United Kingdom, and What Canada Gives in Return.

What has the Imperial Conference achieved for Canada? Here is a summary of what Canada gets from the United Kingdom, and what Canada gives in return:—

What Canada Gets from the United Kingdom

Preferences in the United Kingdom market, as follows: Wheat in grain—two shillings per quarter or about six cents a bushel at par.

Butter—Fifteen shillings per hundredweight (112 pounds), or about \$3.75 at par.

Cheese—Fifteen per cent. ad valorem.

Raw apples—Four shillings sixpence per hundredweight, or \$1.08 per.

Raw pears—Four shillings sixpence per hundredweight, or \$1.08 per.

Canned apples—Three shillings sixpence per hundredweight, or 85 cents.

Dried fruits—Ten shillings sixpence per hundredweight, \$2.52 per.

Eggs in shell—From one shilling (24 cents) to one shilling ninepence (43 cents) per great hundred (ten dozen), according to grade.

Condensed milk, whole sweetened—Five shillings per hundredweight, or \$1.20 per.

Copper, unwrought, whether refined or not, in ingots, bars, blocks, slabs, cakes, and rods—Two pence per pound (four cents).

Free entry for Canadian eggs, poultry, butter, cheese, and other milk products for three years certain, with possible revision after that period.

Continued free entry to the British market under the Import Duties Act. This act imposed the U.K. general tariff on a number of commodities. These duties would have become applicable to those commodities from Canada after Nov. 15 but for the agreement.

Continuation of the present 10 per cent. duty on foreign lumber, fish (both fresh and sea), canned salmon, other canned fish, asbestos, zinc and lead, with Canadian products free.

Modification of restrictions against Canadian live cattle on agreed lines. This, it is estimated, will mean at least \$3 more per head to the Canadian shipper.

Bacon and ham quota up to a maximum of 2,500,000 hundredweight per annum.

Existing margin of preference on Canadian tobacco to continue for ten years.

While potatoes are not specifically mentioned, Great Britain will consider lifting the embargo against the Canadian product.

What Canada Gives in Return

New or increased margins of preference on 220 items in the Canadian tariff. Many items which were subject to preferential rates transferred to the free list.

These changes are understood to be in the iron and steel, textile, chemical, glass, and other schedules, but details are withheld for the time being.

Protection against United Kingdom products to be given only those industries which have sound opportunity for success.

United Kingdom producers to receive full opportunity of reasonable competition in Canadian markets.

Canada will appoint the Tariff Board, which will review tariffs on request of the United Kingdom.

Duties against United Kingdom products not to be increased except on report of the Tariff Board.

Existing surcharges on United Kingdom products to be abolished as soon as finances of Canada will permit.

Sympathetic consideration to be given to reducing, and ultimately abolishing, the exchange dumping duty.

Modification of regulations on the importation of pedigree stock from the United Kingdom.

To Prevent Dumping Embodied in the agreement is the following clause designed to prevent "dumping" by any foreign nation, but especially aimed at the practices in this regard of the Russian Soviet:—"This agreement is made on the express condition that, if either Government is satisfied that any preferences hereby granted in respect of any particular class of commodities are likely to be frustrated in whole or in part by reason of the creation or maintenance directly or indirectly of prices for such class of commodities through state action on the part of any foreign country, that Government hereby declares that it will exercise the powers which it now has or will hereafter take to prohibit the entry from such foreign country directly or indirectly of such commodities into its country for such time as may be necessary to make effective and to maintain the preference hereby granted."

An odd instance of the difference made by even a mile or so in regard to the weather was given on Saturday afternoon when there was a heavy downpour of rain at Schumacher and only a few drops at Timmins at the same period.
