Lake Shore Experimenting with Haliburton Radium

The Perth Exhibitor in an editorial article in its last week's issue says:—"Newspaper men who were with the touring Legislature members picked up an interesting little story at Kirkland Lake through the alertness of Dr. L. B. Jackes, the government photographer. The Lake Shore mine is experimenting with radium ore from Haliburton County, and the chances of Canada becoming an important producer of that valuable commodity are said to be materially improved thereby. A while ago Lake Shore found that a substantial proportion of its gold was not being recovered from the ore, and set several metallurgists to work, with the result that nearly a dollar a ton more of gold is now being obtained. That job being done the Lake Shore people found another for the experts: Harry Oakes, president of the company, is said to have taken an interest in the Haliburton radium properties. Shipments have been made to Kirkland Lake, and work is under way at the Lake Shore mill with a view to achieving a more efficient process of concentration than

has been the case. With Lake Shore's resources behind the attempt there are hopes in official circles, according to Guy Morton, financial editor of the Mail and Empire, who was a member of the party on the northern tour, that the time may not be far distant when Ontario's radium, supported by the more recent finds in the Great Bear Lake district, may enable Canada to help furnish the world's supply of this precious mineral, now a monopoly of the Belgians."

ENGLERTH BURGLAR WAS BOLD, BUT TOOK NOTHING

At Englehart the other evening when two men standing near the Anglo-Saxon Cafe saw a man climbing up the front of the Williams & Scott Hardware, and enter the window of the poolroom on the second floor, they immediately notified the town constable but by the time he arrived the intruder had ransacked the poolroom, walked down the front stairway, unlocked the front door and made his getaway. The thief, however, took nothing.

Seven from Ottawa Back from Englehart

City of Ottawa Discouraged with Results of "Back-to-the-Land" Movement. Men Sent Back from Englehart on Request.

Among the many trying out the back-to-the-land scheme sponsored by the Dominion Government, and in which both the provincial government and the municipality from which the men come takes part, were seven men from the city of Ottawa. This week left Ottawa on Wednesday of last week and were to settle near Englehart. They were back in Ottawa again this week and it is understood that the city of Ottawa is so disgusted in the matter that there will be no further participation by Ottawa City in the back-to-the-land movement. The seven sent from Ottawa were the final selection from forty or fifty applicants, but it would appear that the choice was not as good as might have been. To have these seven go back to the land, the city of Ottawa advanced \$700.00 in the form of a guarantee to the Dominion Government. Some of this amount was spent in outfitting the men and arranging their transportation to Englehart and to the farms near there on which they were supposed to locate. The money spent on the men will likely be lost to the city but the balance of the guarantee will no doubt be returned to the Ottawa municipality. It appears that the seven men no sooner reached Englehart than trouble loomed up. There were complaints sent to the Ottawa committee. The complaints from the men were to the effect that on their arrival at the farms in the Englehart district they found no livestock, nor any houses, and they figured they would have a tough time living over the winter. The men understood that they would have to live on \$10.00 a month. Also it was complained that the farms were too far away from the railway and the towns. The men apparently decided they would be better off in the city. As soon as the complaints came in to the Ottawa committee, a wire was sent to John Clark, Land Settlement Agent for Englehart. This wire read as follows:—"Please explain thoroughly to Ottawa group regulations with respect to the Lands Settlement plan. If any dissatisfied have them return to Ottawa."

Apparently the whole seven were far from satisfied, with the result that they were also sent back to Ottawa in accordance to the telegram. It will be generally regretted that it is too bad the men could not make a go of it in their new location near Englehart, but at the same time it will be felt that if the men were dissatisfied, or if the prospects before them in any way daunted or dismayed them, it is the best thing that they should return to the city. The settler on a farm anywhere in this North Land needs all sorts of courage and faith. With all the snap and bravery that pioneers must have the settler in the North will have his work cut out for him. He need expect no easy path, and if he does he is going to be much disappointed.

Hamilton Spectator:—"The police commission has adopted such a simple, but effective, method of ridding the city of slot machines that the wonder is it was not thought of before. Announcement is made that in future merchants applying for licenses will be asked to sign a pledge that they will not harbour the objectionable contraptions. Those who decline will be refused licenses. Those who sign and break the pledge will suffer the loss of their licenses."

District Vice-President P. T. Moiseley of Timmins, addressed the Cochrane Presbytery of the United Church recently on the significance of Trail Ranger and Tuxis work throughout Canada.

A note from Fraserdale, the station on the T. & N. O. extension north of Cochrane, from which the branch goes in to Abitibi Canyon says:—"Vivian Wallingford of Timmins will probably put Fraserdale on the map. He has recently organized a Trail Ranger group in this little community located between Cochrane and James Bay. Just now he has the distinction of having the group in Ontario that is farthest north but look out Vivian, pretty soon we will have one in Moosonee and then maybe in Churchill."

In the weekly letter this week from the Ontario headquarters of the Boys' Work Board there are no less than seven items out of eleven that deal with Northern Ontario. There is one item in reference to the "Beavers" Trail Rangers of Thessalon. One of their activities is the maintaining of a hot dog stand on the main street of Thessalon, which seems like an odd but popular form of activity for the boys.

Bruce Mines is also represented in the weekly letter. There is a new Tuxis Square there and it starts off with great promise.

There are two items from Sault Ste. Marie. One tells of a meeting called by the Mentors' Association bringing fifty men to the "Y" building to hear

Kirkland Girls Won from Timmins Team

Score was 29 to 21 in the Basketball Game at Kirkland Lake Between Kirkland and Timmins H. S. Girls.

Last Saturday, October 8th, the Timmins High School basketball team left for Kirkland Lake, only to return defeated. They left by train, being unable to secure enough cars to make the trip by motor.

The game started at 7 o'clock Saturday evening. At the start of the game Timmins looked like the winners, their beautifully-executed combination netting them quite a few more goals than the home team. In the second half, however, Kirkland broke up several combination plays and went on a scoring rampage and reversed the score before the game was over. The final score was 29-21 in favour of Kirkland Lake. It isn't such a bad defeat, and the Timmins girls gave a good account of themselves.

After the game the vanquished visitors were the guests of the Kirkland High School to a dinner and dance held in the school auditorium. After the dance the visiting girls were billeted to homes in Kirkland and Swastika.

The personnel of the Timmins team is as follows:—Audrey Ray, jumping centre; Ethel Brown, running centre; Pauline Mullen, Dot Laidlaw and Elise Wallingford, forwards; Bessie Bugera, Mary Stachow and Annie Stachow, guards. The teacher-in-charge was Miss M. MacNamara. The referees at the game were Miss O'Reilly, of Kirkland and Miss MacNamara, of Timmins. Several other teachers and pupils followed by car. The Kirkland Lake team arranged to play a return game at Timmins on Saturday, Oct. 22nd, when the Timmins girls are going to redeem themselves.

Work at the Canyon to be Resumed Soon

Construction Work to be Renewed as Soon as Bonds are Exchanged in Accordance with the Plan Proposed Two Months Ago.

According to despatches from Montreal during the week-end, the Montreal Trust Co. in a letter sent Friday by the Ontario Hydro-Electric Power Commission, is informed the Ontario Power Service Corporation development at Abitibi Canyon will be purchased on the basis offered two months ago.

The offer of purchase was for an exchange of bonds whereby Power Service Corporation exchanged its \$20,000,000 first mortgage bonds for \$18,000,000 20-year Hydro bonds guaranteed by the Ontario government.

The Ontario Hydro Commission will make application within a few days to the Ontario government for approval of the purchase and guarantee of the \$18,000,000 20-year debenture issue which it will exchange for 20-year first mortgage bonds of the corporation, it was announced.

It is expected that resumption of work on at least two of the five units of generation at the scene of the power development will be undertaken in the next few weeks on consummation of the purchase. Power developed will be used to serve the mines of the North Country.

addresses on boy life and leadership from P. H. Reed of the Children's Aid Society and Gordon Lapp of the Ontario Boys' Work Board. General discussion followed the talks and was continued the following afternoon when a smaller group met with Mr. Lapp. The latter remained in the Sault for the week-end, meeting with 65 boys for games and songs on Saturday morning and appearing on Sunday at All People's, St. Pauls, Central and St. Andrews churches.

No general reference to the North Land would be complete without reference to Timmins, and of course the weekly letter from headquarters has such reference. Here is what is said in the paragraph regarding Timmins:—"Timmins: Five new Explorer groups have been organized in this thriving metropolis of the North. Old Tuxis boys are rendering good service in manning these groups."

Under the heading, "The Time to Strike the Iron is While It's Hot," the weekly letter from headquarters has a pertinent paragraph about preparedness and action. This paragraph is worth repeating in full in this column as follows:—"By this time our leadership for the fall and winter's work should be complete. The new mentors needed to fill vacancies should now be secured and what is more, coached in the requirements of their office. Starting the Trail for Trail Ranger mentors, and programme suggestions for Tuxis groups, for Tuxis mentors, along with the Mentor's Guide and the badge booklets should be secured. On receipt of the registration the Ontario Boys' Work Board will send valuable programme suggestions and a price list of supplies without charge. The church that is right on the job will not wait until it's too late to link their boys up with their organization."

NEW OPTICAL PARLOUR IN HALPERIN'S JEWELRY STORE

Mr. Gauley, manager of Curtis Optical Co., since last November, graduated from the College of Optometry of Canada in 1928, winning the Hermant prize for general proficiency. Since then Mr. Gauley has taken post-graduate courses in squint and other special branches of optometry. Mr. Gauley practised in Winnipeg at Hudson's Bay Co., and in Brantford at the Avison Optical Co., before coming to Timmins. Now he has opened a well equipped optical parlour in Halperin's jewelry store.

The next regular meeting of the Timmins town council will be held on Monday afternoon, Oct. 24th, commencing at 4 p.m.

"Abounding Redundancy"

That is what is often said of those unfortunate ones who suffer from excess aviridiposis—it is said with a smile. Those marvellous Slender Beauty Tablets will help you to regain a willowy, youthful appearance in a healthful, harmless, natural way.

TREASURER'S SALE OF LAND FOR TAXES IN ARREARS

DISTRICT OF COCHRANE, TOWNSHIP of CALVERT

TO WIT:

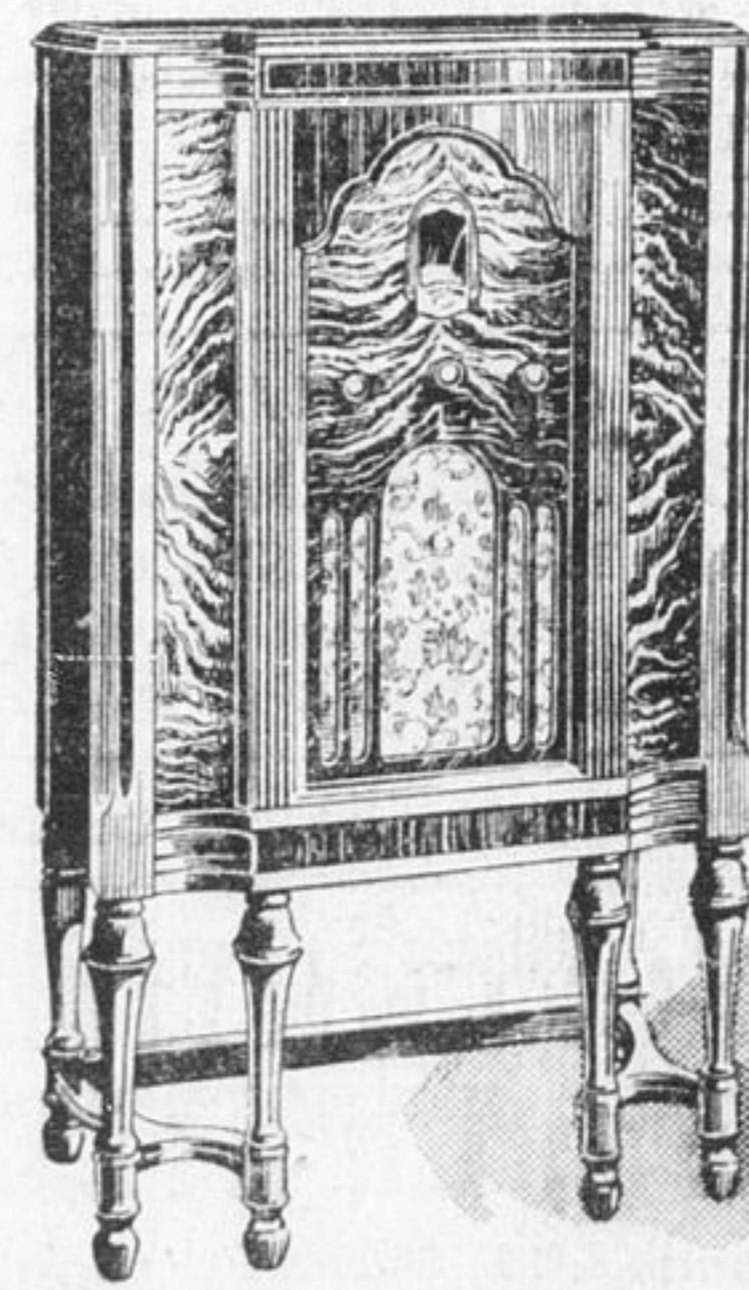

By virtue of a warrant under the hand of the Reeve of the Corporation of the Township of Calvert, in the District of Cochrane, dated July the 23rd, 1932, commanding me to levy upon the lands hereinafter described for arrears of taxes, respectively due thereon, together with cost, notice is hereby given that unless such taxes and costs are paid, I shall in compliance with the Assessment Act, Chapter 238, R.S.O. 1927, proceed to sell by auction the lands or so much thereof as may be necessary to discharge the same at the Municipal Hall in the village of Ansonville in the Township of Calvert, District of Cochrane, on the 1st day of December 1932 (Thursday) at the hour of ten o'clock in the forenoon, pursuant to Statutes.

And further take notice that it is the intention of the Council of the Township of Calvert to purchase at the adjourned sale, if held, all parcels of land if the price offered is less than the arrears and costs thereof, according to R.S.O. 1927, the said adjourned sale, if necessary, to be held the 8th day of December 1932.

Table with columns: Name and Address, Lot or Concession, Years, Arrears, Costs, Total. Lists various land parcels and their owners in the Township of Calvert.
