Lost for Two Days and Two Nights in the Bush

Jos. Rivers, of town, had an undesirable experience last week, but fortunately it turned out all right and without his suffering any serious after-effects. He had been out partridge hunting and on Sunday afternoon when he was thinking of returning home he found he had lost his bearings. He was in the Bigwater Lake area and he was unable to make his way back to where he had left his car. In the meantime his car was noted standing idle and some alarm was felt at his non-appearance. It was feared that he might have met with an accident of some sort, perhaps being the victim of a stray shot. His continued absence resulted in the matter being reported to the provincial police. Search parties were being organized when he returned home safely on Tuesday afternoon, having made his way out of the bush and come back to Timmins by a longer route than originally intended. Fortunately, he was a good enough man in the bush to look after himself and to make his way back after once losing his bearings.

GLAD THAT MARKSMANSHIP IS AS BAD AS JUDGMENT

The Northern Tribune, of Kapuskasing, last week says:—"Partridge were reported very plentiful in this district during the summer; but when the season opened for shooting them on Thanksgiving Day, the bags were not as heavy as expected. It has to be reckoned that a lot of wild pot shooting was done at the birds, which had been quite tame, with the result that they are now much more elusive for the nimrods. Fortunately, no local accidents have been reported yet from shot guns. It is the high-powered rifle used for bigger game that usually does the mischief. Moving objects are dimly seen by incautious hunters, and they blaze away before making sure what is in front of their sights. If the marksmanship of careless hunters was as good as their judgment is bad, there would be a high human toll in the woods every fall."

Fanciful Fables

Remembrance Day is Statutory Holiday

November 11th Should be Generally Observed Throughout Canada as a Holiday. Wording of Act Requires Observance.

There is considerable discussion as to the status of Remembrance Day or Armistice Day, November 11th, the anniversary of the signing of the armistice to end the late world war. For some years the Dominion Act provided for Thanksgiving Day and Armistice Day to be observed on the same date, the holiday being the Monday nearest to Nov. 11th. This was apparently the wish of the commercial and industrial interests, this sort of holiday giving that much-desired and often-mentioned long week-end. In addition to the regular holiday there was a request that two-minutes of silence should be observed at the eleventh hour of the eleventh day of November in honour of those who gave their lives in the war, every wheel being expected to stop and all industry to cease for the two minutes specified. These arrangements were never satisfactory to the ex-service men who have carried on a steady appeal to have Nov. 11th, the actual date, observed as a holiday. Last year the soldiers were successful in having their views adopted by parliament. Nov. 11th was set aside as a statutory holiday, while Thanksgiving Day was left to be proclaimed each year as a day of thanksgiving.

Last year Armistice Day or Remembrance Day was a national holiday, though some stores and industries refused or forgot to recognize it as such. In Timmins the day was generally observed, and in most of the towns and cities of Canada the day was also observed in proper way. This year there has been an agitation in some quarters to have Remembrance Day removed from the list of statutory holidays. It is argued that the event would be more fittingly commemorated by two minutes of silence. The ex-servicemen, however, do not favour this idea. They look upon it as the thin end of the wedge that will eventually result in the removal of the day altogether. During the years that Armistice Day and Thanksgiving were observed on the same date, the Canadian Legion showed the sincerity of its views by in every case holding their memorial service and other observance on the actual date of the armistice, Nov. 11th. No matter what events might be held on the day set aside under the former law, the Legion held their memorial service on Nov. 11th.

The discussion that has been carried on in the matter has left many confused as to whether Nov. 11th is a national public holiday or not. It is a statutory holiday at present and as such should be observed the same as any other holiday. There has been no change made this year, nor can there be unless a new act is rushed through parliament in the next few days, which

seems very unlikely at the time of writing.
In writing about the matter The Northern Tribune concludes an article in which the Kapuskasing paper points out that Remembrance Day, Nov. 11th, is a statutory holiday, fixed by the law, with the following paragraph, which makes interesting reading and seems to fully settle the question:—
The Remembrance Day Act, passed by Parliament in 1931, reads: "Throughout Canada, in each and every year, the 11th day of November, being the day in the year 1918 in which the Great War was triumphantly concluded by an armistice, shall be a holiday, and shall be kept and observed as such under the name of Remembrance Day."

First Principal of New Moosonee Public School

Moosonee, the new town at the northern terminal of the T. & N. O. extension to James Bay now has a regularly organized public school. As a matter of record, the following paragraph sent in last week by the Hearst correspondent of The Northern Tribune, of Kapuskasing, should be of interest:—

"Peter Halgren (Waino), son of Mr. and Mrs. Peter Halgren of Ryland, has been engaged as principal of Moosonee public school, newly-organized under the provincial Department of Education. We offer congratulations to Waino Halgren, and also to Moosonee. Mr. Halgren has grown up in Ryland and Hearst and his success is a matter of general local pride. His scholastic standing is indeed a matter for congratulation for one of his years, he having last June received his first-class professional normal school diploma at the North Bay Normal School. Mr. Halgren commenced his duties about the first of October."

INCREASE FOR THE MEN AT THE TRANS-CANADA CAMPS

According to word from Toronto it seems that an increase in the allowance to the men in the provincial government Trans-Canada highway camps has been made. Recently Hon. Wm. Finlayson told the Port Arthur council in a letter that the rate of pay in Government relief work road camps has been increased from \$5.00 to \$10.00 a month. Five dollars of this amount will be a credit for clothing which will be supplied the men at wholesale prices from a Government supply. It is understood that the camps are to be operated only for single and transient unemployed. While \$10.00 a month and board and lodging can not be considered as wages, still it is a fact that three good meals a day with proper bed and shelter is much better than one meal a day and hunt your own sleeping quarters—the only help the most of the transients can hope to secure from most of the municipalities to-day.

NORTH YORK FAMILIES ON THE LAND IN STACK TOWNSHIP

The Matheson correspondent of The North Bay Nugget last week had the following paragraph:—"Two carloads of furniture arrived here on Tuesday and was taken in on trucks to Stack township. The wives and children of the North York men who have cabins ready for them arrived by train. Neighbours having cars met them at the station and conveyed them part way, and thence by wagons over the rough trail to their new homes. There were 46 in all."

Some Old-Time Hockey Matches in North Land

A number of lovers of hockey have recently been having an argument as to how often and when Sault Ste. Marie hockey team played Timmins. Consultation of the files of The Advance gives authoritative answer in the discussion. In the N.O.H.A. finals the Sault and Timmins played in two past years, 1921 and 1923.

In 1921 Timmins (or rather Porcupine) hockey team won the championship of this part of the North, and then played off with the Sault, the latter club having won from Sudbury. There were home and home games, goals to count. The first game was at Sault Ste. Marie on Feb. 25th, 1921, the Sault winning 5 to 4 after a very close and exciting game. Roy Worters was in goal for Timmins and other players were:—Cox, McGuire, Parker, Campbell, McCurry, Brown and Burritt. Soft ice was a great handicap to the Timmins team but they put up a notable battle. On March 2nd, 1921, the other game was played at Timmins, the Sault winning 5 to 1. In this game the local boys for some reason or another did not give the Sault the battle that they put up on the Sault ice a week before. Roy Worters was again in goal for Timmins and the rest of the team were the same as for the game at the Sault.

In 1923 Timmins again won the honours for this part of the North and again had to play the Sault. Timmins in 1923 did not have the team that fought so well in 1921. Again there were two games, home and home. On Feb. 26th, 1923, Timmins played the Sault at Sault Ste. Marie, the latter winning with the score 7 to 3. J. Scully was goal-tender for Timmins and others on the team were:—Reis, Roach, Cameron, Behan, Campbell, McGuire, Cox. At Timmins on March 1st, 1923, Fournier was included in the line-up of the local club. Scully was again in goal but had some hard luck and "Spike" Baridon took his place for part of the game. The score at the game here was 9 to 3 in favour of the Sault. In 1921 Sault Ste. Marie won the round, 10 to 5. In 1923 the Sault again won, 16 to 6 on the round.

These facts and figures should settle some of the arguments.

Work to be Resumed at Abitibi Canyon

Understand that Operations on the Construction of the Power Project North of Cochrane will be Carried Along to Completion.

Reference was made recently in these columns to the fact that work would be resumed very shortly on the completion of the plant and equipment for the Abitibi Canyon power development north of Cochrane. With only a comparatively small part of the construction work to complete the work was halted and the workmen dismissed, on account of the financial situation of the Ontario Power Service Corporation, the company looking after the power development project. Then the Ontario Government formulated a plan for taking over the bonds of the corporation and proceeding to complete the development as a public-owned concern. The necessary percentage of bonds have been exchanged to warrant the completion of the plan by the Government, and word this week from Toronto was to the effect that construction work was to be taken up again this week. November 1st was set as the date for the resumption of the work but it was understood that this date was not necessarily the exact date, but the resuming of work would start not later than this week.

When the construction work was closed down it was said that it would take four or five months to complete the work so that power could be developed. This time is apparently more than that really needed, and the work, it is said will be completed in less than two months.

The plant was left in a near-finished state when the Ontario Power Service
