### Recent Weddings of Schumacher Couples

Fire at Schumacher Checked by Bri-gade. Funeral of J. Balaban, Recently Killed in Accident. Other Schumacher News Items.

Schumacher, November 9th, 1932. Special to The Advance.

Born—Tuesday, November the first, to Mr. and Mrs. Thomas Graham, 93 Second avenue, a daughter (Helen Lenora).

Chrysanthemums and ferns made a very pretty background in the United Church, Timmins, for the marriage on Monday, October the thirty-first, at five-thirty o'clock, of Agnes Elizabeth Tanney, eldest daughter of Mrs. Moody and the late Mr. Tanney, of Washington, D.C., to Thomas Dunlavy Ellis, youngest son of Mrs. E. Ellis and the late Mr. Ellis. The Rev. Bruce Miller performed the ceremony.

The bride entered the church on the arm of her brother, Mr. James Tanney, who gave her in marriage, to the strains of Mendelssohn's wedding march, played by the church organist, Mrs. Faithful.

The bride wore her bridal dress of white satin and lace made on Princess lines and her tulle veil caught to the head in cup effect. She wore white satin shoes, hose and gloves to match, and carried a shower bouquet of Talsman roses and lily-of-the-valley. Miss Louise Noll-

ing, of Timmins, acted as bridesmaid and wore a gown of pale pink satin, small hat, satin shoes, and carried a bouquet of carnations and maidenhair fern. Mr. A. King, of Timmins, acted as best man. During the signing of the register Mr. Charles Roberts sang, "For You Alone." After the ceremony a wedding dinner was held at Mrs. Cassidy's, sister of the groom, at 83 Second avenue, where the rooms were very prettily decorated with flowers and heather from Scotland. In the evening about seventy-five friends of the young couple called to congratulate the bride and groom. Mr. and Mrs. Ellis received some very beautiful and costly gifts. The young couple will reside at 83 Second avenue for the present.

Mrs. Towrie, of Winnipeg, who has been visiting her daughter, Mrs. Wm. Green, Jr., of Gold Centre, left on Saturday for her home in the West.

Trinity United Church held their anniversary services on Sunday, the Rev. Mr. Miller, of Timmins, conducting the service in the morning and the Rev. Mr. L. Hussey, of South Porcupine, taking charge of the evening service. Mrs. P. Carson delighted the congregation by her singing at the evening service. On Friday evening, November 11th, the ladies are putting on their annual turkey dinner, which is always so popular.

Jimmy McGee, the small son of Mr. and Mrs. G. McGee, who underwent an operation at St. Mary's hospital last week for appendicitis, is getting along as well as can be expected.

Mr. McVittie, the public school inspector, paid his official visit to the school last week.

The funeral of J. Balaban, who was killed at the Hollinger Mine last week, was held on Sunday afternoon from his late residence, 20 First avenue, to the Roman Catholic church, where Rev. Father Gellinas said requiem mass.

The late Mr. Balaban had not long been in the country and had only recently started to work. He leaves a widow and five small children in Czechoslovakia. Mr. Balaban was a member of several Croatian fraternal societies of which the members turned out in a body to attend the funeral of their fellow countryman. Burial was made in Timmins cemetery.

Mr. Joe Grimshaw was called to his home this week, in Oswaldtwistle, Lancashire, England, where his father passed away very suddenly.

Neglect to turn off an electric iron was the cause of about three hundred dollars damage to the property of the National Baking Company, Cedar street, owned by Mr. C. Pierce, early Wednesday morning. The fire had gained much headway as the building is a very old structure, both with the arrival of the firemen the flames were soon under control and the remarkable work of the firemen kept the flames from spreading to the very close adjoining buildings.

Mr. and Mrs. Wilford Leck, of Timmins, have moved to town to 51 Second avenue.

Mrs. Richard Leach, of Eganville, is spending a vacation with her daughter Mrs. T. Graham.

Miss Jedouin, of Sudbury, is visiting her sister, Mrs. J. Marshall, Cedar street.

A quiet wedding was solemnized at the United Church manse on Saturday, October the 29th, at six o'clock, when the Rev. Mr. Summerell united in marriage Allison M., daughter of Mr. and Mrs. A. Little, Irvine, Scotland, to James, son of Mr. and Mrs. D. Johnston, Kirkcaldy, Scotland. The bride wore a becoming gown of pink chiffon made period style and wore satin shoes, hose and gloves to match, and wore a corsage of roses and lily-of-the-valley. Miss W. Ross acted as bridesmaid, dressed in a green figured chiffon, and wore green satin shoes to match. She wore a corsage of roses and sweet-peas. The groom was supported by Mr. W. White, of the Dome. In the evening a reception was held at the home of Mr. and Mrs. F. MacWhinney, 40 Fourth avenue, where the evening was spent in dancing. Mr. Johnstone is a member of the Hollinger football team. The young people will reside in Timmins.

Miss Florence Graham, R.N., of Pembroke, is visiting at the home of her brother, Mr. and Mrs. T. Graham.

Miss Annette Proulx has accepted a position at the Golden Hub, Timmins.

Mrs. J. Perry, of Cobalt, spent a few days last week with her daughter, Mrs. J. Gannon.

The Northern Lights Girls' Club held a delightful Halloween box social on Wednesday night in the basement of the church. Before the boxes were auctioned a programme was arranged—

recitations, by Mrs. H. Sky and Miss B. Patterson; a piano solo, by Miss E. Flowers; and solos by Mr. Reg. Bowden and Mr. C. Roberts. Mrs. Huxley accompanying the singers. Then a few spooky games were engaged in by all. Then came the selling of the boxes, many of them showing by their trimmings the spirit of Halloween, with their weird-looking cats and witches. The prize went to Miss Gladys Cooke. The judges were Mrs. H. Sky and P. A. Boyce. W. K. Wylie acted as chairman for the evening.

FASCISTI ON ROAD TO ROME

ITALY PASSES TENTH MILESTONE UNDER FASCISM  
Since that October day, ten years ago, when the black-shirted legion, led by an almost unknown agitator, Benito Mussolini, marched into the Eternal City and started Italy on its comeback to greatness, many changes have taken place in the land of the Caesars and Popes. The most remarkable of these changes, to the looker-on, has been the climb to power of Mussolini. His word is law in every corner of the country. He is hated by many, feared by many, adored by many—but obeyed by all. Fascists claim that Il Duce has built up the economic structure of Italy to a position it has not enjoyed for decades.

### Notable Account of Distant Gold Camp

Porcupine Branch of Mining Institute Hears Very Interesting Illustrated Address by C. W. Van Law on New Gold-Producing Area.

The re-organized Porcupine Branch of the Canadian Institute of Mining and Metallurgy held a most successful and interesting meeting on Wednesday evening in the McIntyre Recreation hall, Schumacher. There were about 175 present and all found the meeting both keenly interesting and informative.

E. L. Longmore, chairman of the branch opened the meeting and introduced E. S. Carlyle, secretary of the C. I. M. M., who after a few remarks pertaining to Institute affairs, introduced C. W. Van Law.

The speaker of the evening, Mr. C. W. Van Law an eminent mining engineer, gave a most interesting illustrated lecture of a recent trip to and through the world's most recent and spectacular gold field, situated in the wilds of New Guinea. Mr. Van Law, with screen and word pictures, carried his listeners from North America to Europe, to India and Ceylon, via the Suez Canal, to Melbourne, Australia, then to the treacherous East coast and in amongst the most easterly islands of the East Indies. From this point on the lecture took on a mining aspect and dealt with the discovery of placer gold at the mouth of an East coast river some five years ago. New Guinea being populated with unfriendly blacks, many tribes of which still practise cannibalism, the work of tracing this gold to the interior was a real problem, but it was done. Sixty miles or so from the coast and high up in mountainous ranges which abound throughout the whole country a real gold camp was found, the precious metal being found in both lode and placer deposits.

The early work in this field was fraught with much hardship. The bush of the country is almost impenetrable. Trails follow bee lines the width of a man's feet. The story of the aeroplane's conquest over the transportation troubles of this camp was something to marvel at. The service grew from a single two seater plane to huge planes capable of transporting fifty men per trip and handling single pieces weighing as much as three and a half tons. Two complete gold dredges have been landed on the job in record time. One of the illustrations showed an automobile being lowered into the hold, which speaks for the modernness of this new camp. The aeroplane has brought this camp within forty minutes of the coast. The land trail by foot took six days.

Mr. Van Law was given a very hearty vote of thanks by his audience, after which a buffet lunch was served to close the meeting.

Mr. and Mrs. Chas. MacLeod, of Cochrane, were Timmins visitors last week.

### Notable Operation at Hospital Here

Local Doctors Equal the Clever Surgical Work of City Surgeons in Delicate Operation on Boy of Ten.

On several recent occasions much space has been given in Toronto newspapers to remarkable operations successfully achieved through the use of the fluoroscope in the removal of foreign particles from the lungs and bronchial tubes. The impression given by the newspaper articles is that such operations require the highest surgical skill and are only attempted in the big city hospitals with the most extensive of equipment. As a matter of fact just such an operation as has impressed the city newspapers on more than one occasion was performed a few days ago at St. Mary's hospital, Timmins, to save the life of a boy of ten years of age.

This lad, Gildor Spooner, of Connaught, while at play on October 14th placed a tack in his mouth and evidently inhaled it into the lungs. Believing that the lad had swallowed the tack the usual methods were used to free him from the foreign substance thought to be in his stomach. For five days the lad seemed to suffer no serious effects; then he developed a painful cough and complained of pains over his right lung. Dr. E. A. P. Day was called in, and after examination of the lad had him removed at once to St. Mary's hospital. An X-ray of the lad was taken on Oct. 27th and it showed that the tack had lodged head down in the lower lobe of the right lung completely blocking the air entering that lobe. In such a case the removal of the obstruction was imperative, yet it could not be achieved through any ordinary operation such as would be used to remove it from other parts of the body. The tack had to be removed through the mouth. Dr. H. H. Moore was called in consultation, and the use of the fluoroscope decided upon. This delicate operation was successfully performed by Dr. Moore, assisted by Dr. Kelly and Dr. Day. The tack was removed on Oct. 29th and though as was inevitable the lad suffered for a brief time with bronchial trouble, this difficulty was soon remedied by the care and attention given, and the boy is now recovered from the accident and will be as well as ever in a few days. The air is going back into the lobe blocked for days, and all other conditions are back to normal. The boy will be discharged from the hospital in a few days, none the worse after a close approach to death from the accident. This is the first time that this particular operation has been performed at any hospital north of Toronto, and its success is proof of the skill of the local medical men and the value of the facilities they have here.

Born—in Timmins, Ont., on Sunday, Nov. 6th, 1932, to Mr. and Mrs. Herbert Stewart, 289 Tamarack street—a daughter.

### Recommendations by Jury in Case of Sand Chutes

The coroner's jury investigating the death of N. Balaban, who met death some days ago by being smothered under a fall of sand in connection with the sand-filling operations at the Hollinger, brought in a verdict on Tuesday to the effect that death resulted through the sand chute giving way. The jury added recommendations with the idea of making the chutes safer and minimizing the chance of accident in the work. Balaban was a Jugo-Slav and had only been in the camp a short time. His relatives are in the Old Country.

### THINKS THOMPSON-ROACH BOUT SHOULD BE MAIN ONE

Bill Thompson, of Kirkland Lake, who after his bout last week with Joe Thomas, agreed to take up the challenge of Matt Roach for a bout, is quite ready to go on with the matter, but at the same time he thinks the bout will be important enough to make it the main bout of the card. Bill Thompson says he does not consider the bout should be a semi-final event but will be worthy to feature the programme. He suggests that it be reserved until it can be made the main bout, with twelve rounds to go.

### HUNDRED CRASH MEETING AT CACHE BAY LAST WEEK

About a hundred men led on by agitators crashed in on a meeting of the relief committee of Cache Bay and the meeting had to be adjourned. The police were called when the crowd became disorderly, but the men were dispersed without difficulty. Cache Bay has 113 families or 600 people on relief. One of the councillors at Cache Bay said that all that was being done that was possible and that the majority of the people realized this and only a few agitators started the trouble.

Miss May Rushton, of Toronto, is visiting friends in town.

### Roy Hamilton Wins Against McWhirter

One of the Bouts Good on Programme at Toronto Last Week. Roy Doing Well in Professional Boxing.

According to word from Toronto Roy Hamilton, the classy young Timmins boxer, former champion of Ontario in his class, is doing well in professional boxing. He was on a programme of good bouts in Toronto on Thursday evening last and won his fight. In reporting the programme The Toronto Mail and Empire of Friday last said, in part:—

"One of the smallest crowds that has attended a local professional boxing show since the slump hit the game witnessed seven bouts at Maple Leaf Gardens last night and while there were no outstanding boxers of championship calibre, at the present moment, the card lived up to the advance claims of the promoters, that there would be lots of fighting. There was, in most of the bouts, but two of the six five-rounders failed to evoke much enthusiasm. These two bouts were the curtain-raiser between Jack Vardeen, the Alaska Kid, and George Preston of this city, and that between Paul Amato, the middleweight, who recently turned pro, and Bert Scala, of Pittsburgh.

"There were lots of local interest in the other five rounders with Horace Gwynne making his third pro appearance against an experienced opponent, Pancho Linda, Ray Cook, making his pro debut against a fast bantam from Buffalo, Johnny Perrine, and Roy Hamilton, a local lad who has lived for some years in Kirkland Lake, showing for the first time in a pro ring in this city. Each one of the trio won by a decision, in fact, every bout on the card went the prescribed distance for an aggregate of 46 rounds.

"Hamilton was unable to show his best against Cliff McWhirter because of a right hand injured in training and he favoured it considerably. He was a trifle off in his timing and direction but in spite of these defects showed

sufficient to justify the claims that he is a high class lad. Hamilton is a straight puncher and a smart boxer while McWhirter was willing all the way and kept pushing in until the final bell."

### STUDENT NURSES GIVING CARD PARTY ON NOVEMBER 22

Announcement is made of a card party, bridge, euchre and five hundred, given by the Student Nurses of the St. Mary's hospital, Timmins, to be held in St. Anthony's church basement on Tuesday, Nov. 22nd, at 8.30 p.m. sharp. The door prize for the occasion will be a side of bacon. There will be a pleasant evening assured for all attending this event on Nov. 22nd.

### Boy of Seven Hit by Car and Has His Leg Broken

About 12.15 noon on Monday, Leo Blais, 71 Fourth avenue, a lad of seven or eight years of age, had the misfortune to suffer a broken leg and some other minor injuries when he was hit by a motor car on Third avenue. The lad ran across the street right in front of the car and though the car was going at a moderate speed it was impossible to avoid hitting the boy as he appeared so unexpectedly on the road. The lad said afterwards that he had been running away from another boy who was chasing him and this was why he darted across the road. The car was driven and owned by E. McAllinden, 277 Spruce street, who picked the boy up and took him to the hospital. After seeing first to the care of the lad, Mr. McAllinden reported the accident to the police. The brakes of the car were found in excellent condition and all the circumstances seemed to prove that the driver was in no way responsible for the accident. It was found that the boy had a leg fractured in the accident and that he also sustained a few minor cuts and bruises. Later the lad was taken to his home and is now reported as making the best progress to recovery.
