First Aid Classes Start at Timmins on Nov. 13th

As noted in The Advance last week a class of instruction in first aid work will commence on Sunday next, Nov. 13th, and will be held each Sunday thereafter, at the St. John Ambulance Brigade headquarters, 90 Third Avenue, Timmins. The instructor for these classes will be District Superintendent Geo. Debnay, M.S.M., of Toronto, whose long experience and keen knowledge of the work, makes him unexcelled as an instructor in this line. The classes in first aid provide a service that is of unusual value not only to those taking the classes but to all others who come in contact with them. The man trained in first aid work has knowledge, coolness and experience to guide him in case of accident. Many of the St. John Ambulance Brigade members in Timmins have been the means of saving lives through their knowledge of first aid. All have helped the comfort and safety of the people.

Commencing on Monday evening, Nov. 14th, it is intended to hold a class of instruction for ladies every Monday

evening at 7.30 p.m., provided there are a sufficient number signifying their desire to attend the course.

All the classes of instruction referred to are free, and there should be a large response to the opportunity given to receive expert instruction in first aid.

Any ladies wishing to take a course of lectures on first aid should send or give their names to either Tios. H. Richards, P.O. Box 1037, or to G. A. Gibson, P.O. Box 1175, Timmins.

New Liskeard Speaker:—According to the despatches there is quite a difference between the demands of Kirkland Lake's unemployed and those of Meadville. In the former town the out-of-work men demand ten dollars per week with which to live on. The officials of the other town supply axe and saw, and give a meal for half an hour's work. But Timmins' unemployed go further in their demands for relief than Kirkland Lake, for here the men refuse to cut wood at 80 cents per cord. Their spokesman told the council that cutting wood is hard work.

TEN YEARS AGO IN TIMMINS

From data in the Porcupine Advance Files.

The final meeting of the Northern Ontario Baseball Association for 1932 was held at Cochrane with a good representation present. The following officers were elected for 1933:—President, J. H. Heppleston, Timmins; A. Thistlethwaite, Iroquois Falls, vice-president; the secretary-treasurer to be appointed by the president. There was a recommendation to advance the residence rule to an earlier date in the season.

Ten years ago The Advance recorded the death of Mrs. Jean Pare, who passed away on Nov. 1st, 1922, after a brief illness. The late Mrs. Pare was a daughter of Mr. and Mrs. Oscar Demers, of Mountjoy, and held the esteem and regard of all who knew her. In addition to the bereaved husband she was survived by her father and mother, two sisters and three brothers. The brothers were Joseph, Roland and Omar, all of Timmins. The sisters were Mrs. Drasault, of Timmins, and Mrs. A. J. Gagnon, Halleybury. The funeral took place on Nov. 4th, 1922, to the R.C. church and cemetery. Requiem mass was said by Rev. Fr. Theriault. The funeral was very largely attended and there were many beautiful floral tokens.

Ten years ago the hockey boys were getting into shape for the season. Jack Marshall was popular as trainer and coach and there were great hopes for the season.

Ten years ago The Advance voiced the opinion of a number of curling enthusiasts in Timmins that they would like to have a curling club and a curling

rink here. There were several such paragraphs in The Advance before the curling club was finally organized here.

Ten years ago The Advance noted that the profits for six months in 1922 of the Dome Mines equalled the whole year's profits for the previous year. The production for the six months in 1922 was 190,046 tons at a value of \$2,170,658.00.

The 1932 fall hunting season was reported by The Advance as an unusually successful one. Hunters reported a plenitude of partridge and other game and backed up their reports by actually bringing home the birds. It was the same with the duck-hunters. The Night Hawk Lake area was a popular district then, just as it is now. The Advance suggested ten years ago that it might be just as rich in gold as in game, and this suggestion is here repeated.

In the issue of The Advance ten years ago there was reference to great interest being shown in a new placer gold field reported in Calvert township not far from Nellie Lake. There had been a regular rush for staking, several hundred claims being recorded in a few weeks. There were the usual promises of activity in this new placer field, but gradually it dropped out of sight.

In Timmins ten years ago it cost a man here \$121.00 for one hilarious drunk, charge but he also had to pay for a broken plate glass window at C. Martino's store and other damage done, the total cost to him running the amount up so that it was one of the most expensive drunks ever enjoyed in Timmins.

"Paymaster Mine Strikes High-grade Again at the 400-ft. Level", said a heading in The Advance ten years ago.

A special train brought a party of the members of the Standard Mining Exchange into Timmins ten years ago. The party included about 55, representing practically all the brokerage houses in the province with seats on the exchange. Many of the visitors were on their first visit to the North Land, though they had been selling gold stocks for years. There were a number of old-timers of the North in the party, however, these including Homer L. Gibson, E. H. Bridger and others who were in the Porcupine in the very early days. The visiting brokers paid a visit to the Hollinger, the McIntyre, the Dome, the Paymaster, the Clifton-Porcupine and other old and new properties. They were very much impressed with what they saw in the camp. While in the North they also visited Iroquois Falls to see the great paper-making plant there and the model town.

A couple of fine new buses, along the type of the big grey buses that were already in use were put into service between Timmins and Schumacher ten years ago by Messrs McGregor and Martin.

The Advance ten years ago said:—"The cutting of three working levels on the main shaft of the Vipond between a depth of 600 and 1000 feet is the new work in progress at the Vipond Consolidated. This will be followed by cross-cutting operations to reach the known zone of high mineralization. The main shaft has been put down to the 1000-ft. level, which was the objective for the present, and efforts will be concentrated now on the other underground development work. Every encouragement has followed the work already done on the Vipond and those who know are most optimistic in regard to the future of the property as a producing mine of importance."

In 1922 the town of Iroquois Falls by special by-law changed the date for holding the annual municipal elections from the year-end plan formerly in vogue. The new date by Iroquois Falls ten years ago was the last Monday in November for nominations and the first Monday in December for elections.

Traffic on the T. & N. O. ten years ago was reported as especially heavy. Stock shipments, chiefly to Toronto, were considered as specially noteworthy.

The first gold button from the first run of the mill at the Clifton-Porcupine was presented to Homer L. Gibson, the president and chief promoter of the mine. The presentation was made during the visit to the Porcupine of the members of the Standard Mining Exchange, and hopes were expressed that this gold button would be simply the beginning of a steady stream of bullion to be produced by the Clifton-Porcupine. This, however, was not to be the Clifton not proving up later to be what had been hoped for it at the time of its activity. There are many old-timers who have faith, however, that the Clifton under another name, perhaps, will yet win through to success.

The editorial article in The Advance ten years ago pointed out that the official enquiry into the Central Temiskaming fire was not accomplishing much good. The Advance urged that before bothering with theories about the cause of the fire that attention be given first to overcoming the results of the disaster. The first great need, The Advance said, was to assist in re-establishing those ruined by the fire, and after that to adopt ways and means to avoid any chance of a repetition of the disaster.

Misses A. and F. Barnett ten years ago opened the "Gift Shoppe" in the premises next to Carson's Barber Shop, these premises having been formerly occupied by E. L. Allworth. The Gift Shoppe dealt in art, needlework, wool goods, novelties and articles suitable for gifts.

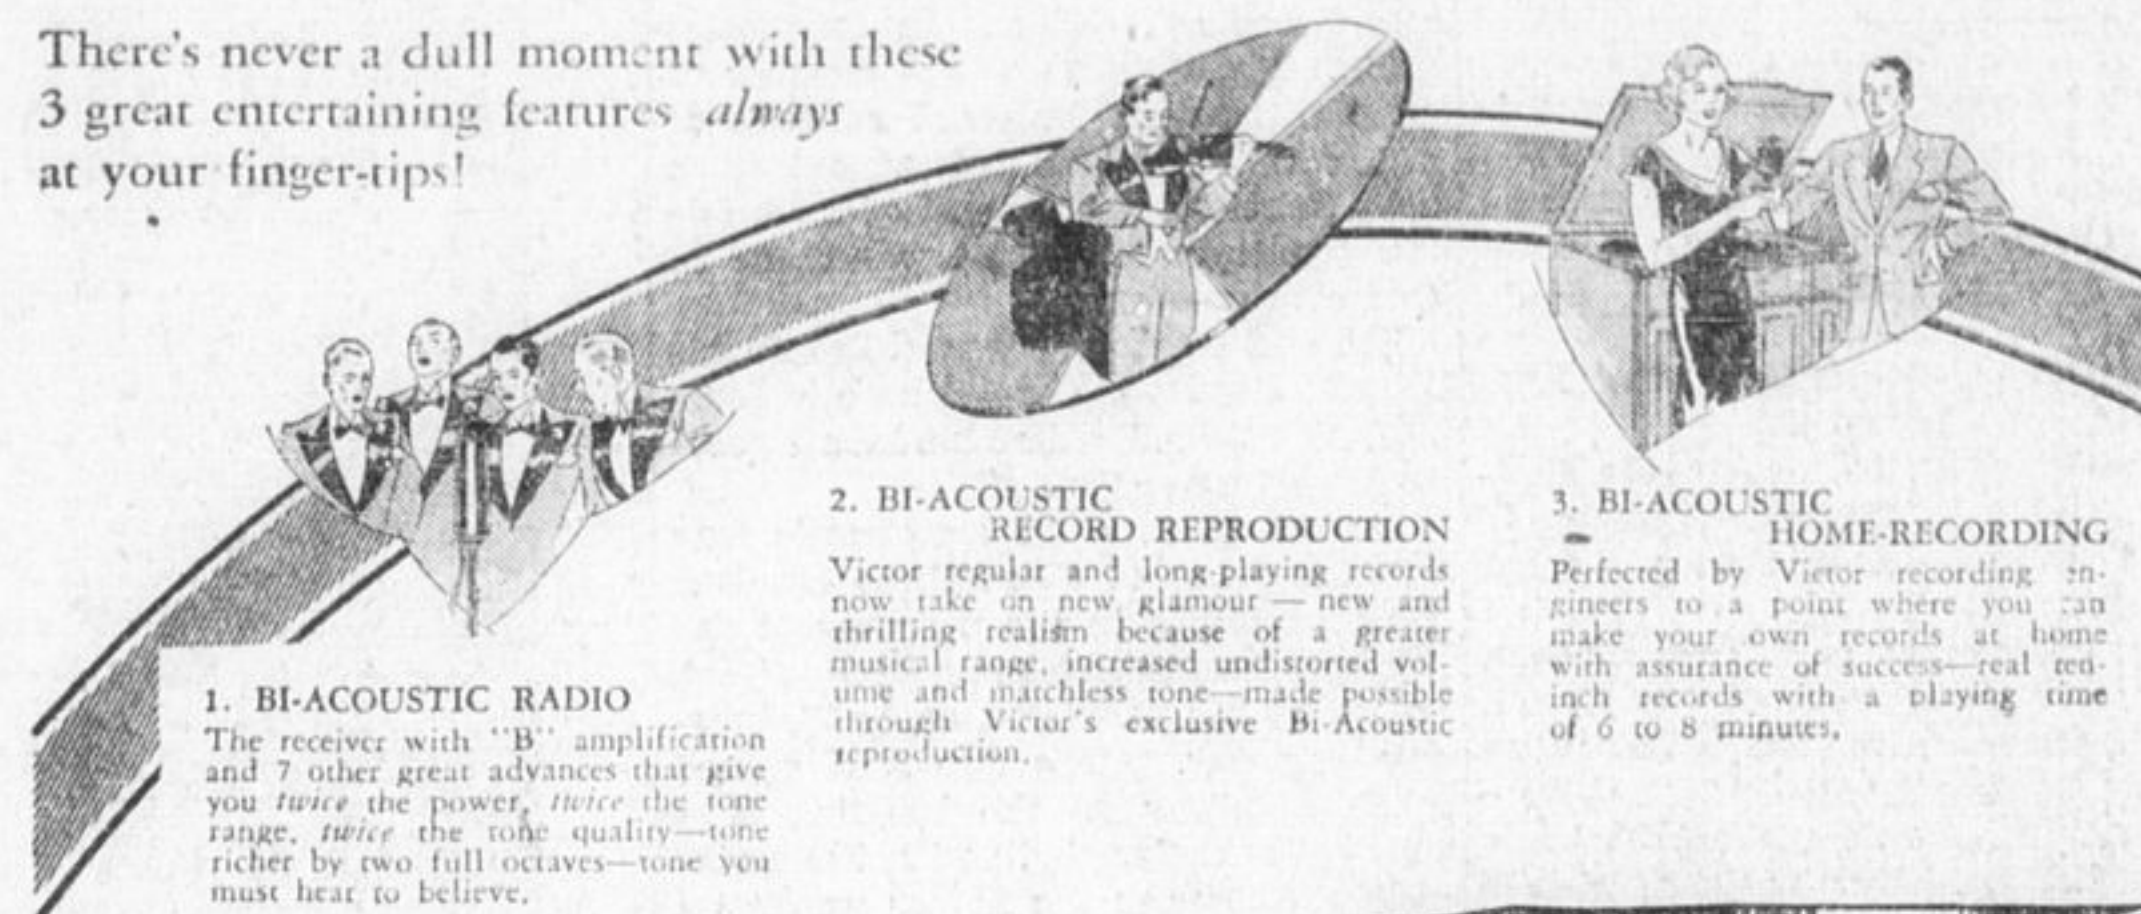

In November, 1922, the offices of the town clerk and treasurer were moved

VICTOR

now makes home entertainment complete—with new amazing...

Bi-acoustic Radio-Record Combination

There's never a dull moment with these 3 great entertaining features always at your finger-tips!

It's new! It's different!
It's Bi-acoustic throughout!

NO single radio development has ever created such interest and enthusiasm as the advent of Victor Bi-ACOUSTIC Radio! It has amazed and thrilled musicians, music-lovers and radio fans everywhere by its vastly superior tone and performance.

Now, in one beautiful cabinet, Victor gives you this greatest radio advance plus...

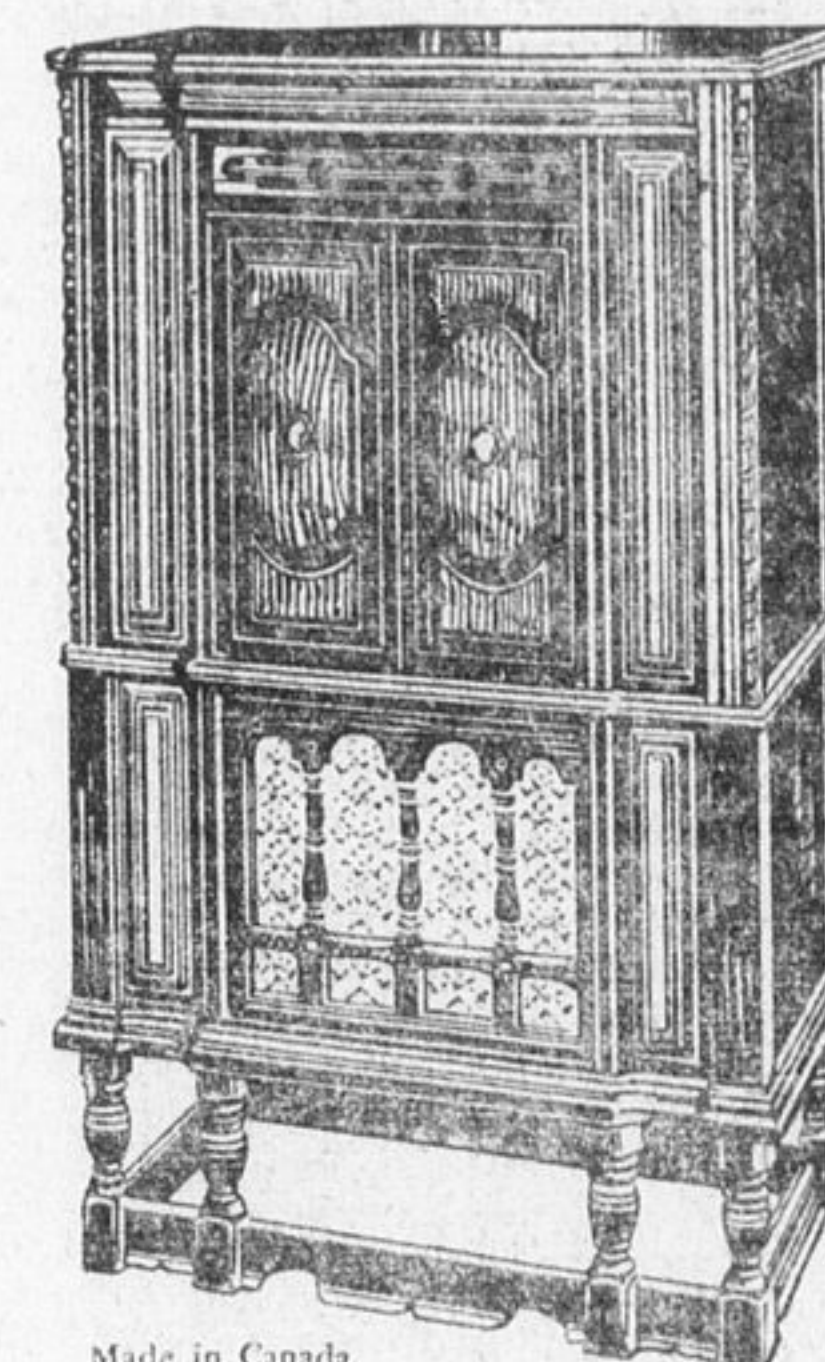

... the Bi-acoustic reproduction of records—a revelation in beauty, power and realism. Even records you are familiar with sound doubly brilliant, rich, sonorous... and

... your own records made at home Bi-acoustically, an unbelievable advance that results in clear, natural, well-defined reproduction.

Whether or not you own a radio or a combination—set aside fifteen minutes for the musical thrill of your life. Any Victor dealer will be proud to let you see and hear this new Victor Radio-Record Combination—it will be the most amazing demonstration you have ever heard. Ask also to see the other Victor models ranging from \$69.50 up. Convenient terms.

several thousand dollars having been spent in altering and improving the structure even then referred to as the "old town hall."

An announcement in The Advance in its issue of Nov. 8th, 1922, said that the new Baptist church on Second Avenue would open on Sunday, Nov. 19th. Rev. M. Hall, who had been in charge of the Baptist church at Capreol, came here at that time to be pastor of the Baptist church here.

"The Prisoner of Zenda" was the feature picture at the New Empire theatre on Nov. 10th and 11th, 1922.

The announcement was made ten years ago of the opening of a new book, stationery and music store in the new Gordon block by J. T. Jefferson.

Among the local and personal notes in The Advance ten years ago were the following:—"The first annual meeting of the Temiskaming Boy Scouts Association is called for Thursday, Nov. 16th, at Giroux Lake." "It has been decided to re-build the Halleybury Presbyterian church at an early date." "Mrs. J. A. Sauve has come from Sudbury to join her husband here." "Last week another dividend of fifteen cents per share was paid by the Schumacher Gold Mines from money received from the Hollinger in connection with the Schumacher Mine." "Mr. and Mrs. J. G. Stewart returned to town on Sunday." "Mr. Alex Wilson, barber, usually thought to be Scottish, though as a matter of fact he comes from Aberdeen, is now with Carson's Barber Shop. There ought to be a regular run on Art's barber shop when it is known that he has a case of Scotch there." "Joseph Mortenson, one of the early residents of the camp, and for some years one of the proprietors of the Ideal Poolroom and Rooming House, returned to camp last week and is renewing acquaintances here. After leaving Timmins Mr. Mortenson went to Belgium, later coming back to Montreal where he went into business as did also his former partner here, George Demagne, who also is expected here shortly on a visit."

"A. E. Simms, formerly of the T. & N. O. staff, here but recently of New Liskeard, has been appointed T. & N. O. agent at Widdifield, near North Bay." "Miss Dorothy Amos, of North Bay, spent the week-end in town." "Last week Rev. J. D. Parks and family moved into the new manse on Fourth Avenue. The new manse is an attractive, commodious and comfortable structure of brick, the erection of which has just been completed." "John MacLeod, one of the well-known old-time prospec-

special interests throughout the Porcupine district, and especially in the Night Hawk Lake area, leaves this week for Lucknow, Ont., to spend the winter." "Mrs. J. H. Peever, who was the matron at the Children's Aid Society Shelter at Halleybury at the time of the fire, has been appointed matron at the Shelter at North Bay. Mrs. Peever gave excellent service to the children, and will no doubt prove equally valuable and useful at the North Bay C.A.S. Shelter." "J. A. Clermont, of Cochrane, has been appointed assistant to the registrar at Halleybury, where he will go for the next few months to supervise the making of the abstract from the old register at Halleybury to the new one for the recently-organized District of Cochrane. After this work is completed he will be Master of Titles in the new Cochrane District." "Rev. J. D. Patterson, formerly rector of St. Matthew's church, Timmins, and recently appointed general secretary for one of the important church societies, was a visitor here last week and was warmly greeted by his old friends and acquaintances." "C. L. Hirschman, for some time on the McIntyre staff, has joined the staff of the Holtzreiter, to take charge of surface and underground work at that property." "W. P. Baache, now of Ville Marie, Quebec, but formerly of Timmins, is spending a couple of weeks in town renewing acquaintances and meeting old friends here. Mr. Baache, who was formerly with the Ontario Tie, Timber and Construction Co., is now with the Angus Taylor Construction Co., who have the contract for the railway line on the Quebec side of Lake Temiskaming."

Sale of New Clothing for Members of Legion Only

This evening, Thursday, Nov. 10th, there is a sale of new clothing and useful articles, for Legion members only, at the Oddfellows' hall, Timmins. The sale commences at 7 p.m., and the occasion offers a good chance for soldiers to outfit themselves and their families and to purchase goods at very low prices. Through the consideration of some of the merchants of town, some of whom gave goods at remarkably reduced rates for the purpose, and one at least donating outright a quantity of goods, the Legion is able to offer this opportunity to its members. It should be remembered that the sale is for members of the Legion only. Any profits from the sale will go

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile—Without Calomel

You are "feeling punk" simply because your liver isn't pouring its daily two pounds of liquid bile into your bowels. Digestion and elimination are both hampered, and your entire system is being poisoned. What you need is a liver stimulant. Something that goes farther than salts, mineral water, oil, laxative candy or chewing gum or roughage which only move the bowels—ignoring the real cause of trouble, your liver.

Take Carter's Little Liver Pills. Purely vegetable. No harsh calomel (mercury). Safe. Sure. Ask for them by name. Refuse substitutes. 25c at all druggists.

SEVERAL CHANGES IN THE KIRKLAND POLICE FORCE

The Northern News last week says:—"Several changes in the personnel of the Teck Township Police Department were carried out this week when two new constables were added to the force by Chief William Shane and Sergeant Harold Hughes became Deputy Chief. Constable Austin R. Parker, a former member of the Detroit police force, and Constable E. Marion, who has been with the Kapuskasing force for the past five years, were appointed for duty as probationers by Chief Shane to replace Constables M. J. Fallon and Andrew Cote. Parker, one of the new men, is a Canadian who resigned his job on the Detroit force in the face of an "Americans Only" policy adopted by Detroit authorities in matters of municipal employment there. He served two years on the police department of the "Dynamic City" and is well versed in modern police work from his experience there. Marion is a French-Canadian who speaks both English and French. His record on the Kapuskasing force has been a creditable one, it was learned. Sergeant Hughes was advanced in rank by the township council after Chief Shane suggested the appointment of a deputy to assume duty hours in the force during his off-duty hours."
