Kiwanis Valentine Dance an Outstanding Success

The Valentine dance under the auspices of the Timmins Kiwanis Club, given in the McIntyre Recreation hall on Tuesday, February 14th, was a notable success in every way. There was a very large crowd and all enjoyed the evening to the limit. It is generally accepted as one of the nicest dances held here for some time. The hall was artistically and cleverly decorated for the occasion. The Kiwanis flags and the illuminated picture of His Majesty the King were special features of the decorations, while valentines adorned the walls in honour of the day. A special feature of the evening was the Valentine booth, the guests being able to send through this booth valentines to their friends present. Kiwanians E. H. King and R. E. Dye acted as post-masters and saw that the valentines reached their destination in speedy time. The luncheon was another feature worthy of comment, as was also the delightful music by the Sullivan-Ormston Merry-makers.

Eaton Co. was extinguished by use of the chemical tanks, damage light. Some clothes hung over an electric lamp at 89 Tamarack street on Thursday last caused about \$15.00 damage.

FOUND BUTTERFLY BETWEEN WINDOWS AT 108 ELM NORTH

The weather this week was milder than last week but not so mild as to suggest butterflies playing round on the wing. For the benefit of those in the South who imagine this country is like the Arctic region, it is well to remember that butterflies are occasionally found flying around in January and February in this North. Some years ago A. J. Downie, after a chase on a cold day in January, captured a butterfly in the Hollinger yards. This week Mrs. Jos. Mahn, 108 Elm street south noticed a live butterfly enjoying a little restricted flying in between the window and the storm window of one of the rooms of the house. The butterfly seemed to be lively and in good condition and little affected by any cold weather encountered.

Actual Budget of a Married Man at \$4.48

Budget of Special Interest for Comparative Purposes. Valuable Also in Giving Standards for Relief Cases.

One of the gentlemen specially interested in the Timmins Relief Fund work has secured from a friend earning a daily wage of \$4.48 the exact budget of his expenditures for an actual and average period. The figures are of general interest at this time because they represent a general average standard of living. There are no unreasonable expenses, in view of all the conditions. In this connection it may be noted that some of the cases on relief have been costing about as much for food and clothing for a similarly sized family.

Here is the actual budget. It is that of a married man on a \$4.48 daily wage with three children of school age. He works 24 days a period.

The period wages are \$107.50 and from this comes the doctor fee of 80 cents, leaving a total of \$106.60 received.

The items of expenditure are then given in full for the period, as follows:

Rent	\$25.00
Living expenses	35.00
Fuel	10.00
Light and water	3.00
Clothes for three children	10.00
Clothes for man and wife	10.00
Paid on Dr. account	4.50
Lost on day	4.48
One day's pay to Relief Fund	4.48
Total expenditures	\$106.46
This leaves a balance of 14 cents left from the \$106.60 received.	

This man and his family are comfortably dressed and well fed, but nothing is wasted. Some of the requests for relief suggest much more expensive clothing and more costly ways of living for families of similar size. The budget seems to serve as a guide in many ways and makes interesting study from many angles.

Curlers to Compete for "Diamond Rocks"

Valuable Trophy Presented to the Curling Association in This Part of the North. Initial Competition is Set for This Week.

R. F. Francis will skip the rink from Timmins to go down to Kirkland Lake in connection with the T. & N. O. Curling Association competition for the "Diamond Rocks" trophy. The further particulars available in regard to this new Northern trophy will be gladly welcomed by curlers in general.

Considered the finest curling prize in Canada, a new trophy, to be known as the "Diamond Rocks," and donated by the Van Itale Company, dealers in diamonds and diamond drilling operations, has been added to the list of trophies held by the Northern Ontario Curling Association, Section "B," for annual competition.

The new trophy, an outstanding piece of workmanship, and studded with diamonds, was first contributed to the Kirkland Lake Curling Club, and later turned over to the Northern Association for annual competition, and possibly also as a challenge cup between clubs located at points along the T. & N. O. Railway and other mining centres in Canada.

Tentative plans, as outlined by A. Freeman, North Bay, past president of "B" section of the Northern Ontario Curling Association, are to hold an annual competition at Kirkland Lake, to which each club with membership in the association shall be entitled to send rinks, each one of which must meet the representatives of all other clubs present, in the same manner as the Dominion championship games are played for the McDonald Brier trophy in Toronto.

Present plans also call for the staging of a competition about the middle of January each year, play to occupy two days, but this year the dates have been set back to February 17 and 18.

Not only will the excellent rink hold the exceptional trophy, but individual diamond studded shields will be presented to the four members of the winning rink each year, which they will retain.

After a winner of the trophy has been decided, it is planned it shall be put up as a single rink challenge trophy, open to the world, with the stipulation, however, that it must be returned to Kirkland Lake at the commencement of each curling season.

Competition for the "Diamond Rocks" is expected to create unusual interest, due to the fact that only one rink from each club will be allowed to vie for it. Play will naturally be keen as only the most skillful curlers from each individual club will be entered.

Practically every club from North Bay to Kapuskasing will have, it is expected, entries in the first competition, to be held at Kirkland Lake next week, and more than six prospective entries are now in sight.

H. E. Montgomery, town clerk, was in Toronto on town business last week.

The tea under the auspices of the Eastern Star at the home of Mrs. Day Tamarack street, on Tuesday, Feb. 14th, was a decided success. The tea room was in charge of Mrs. Kester and her assistants. F. Quesnell Wins High Honours in Salesmanship

F. Quesnell, of the Marshall-Ecclestone staff, has good reason for pride these days in view of the high honour and the several valuable prizes won by him recently in the contest for salesmanship conducted by the Stromberg-Carlson Radio firm. This was the second "Better Salesmanship" contest conducted by this company, and Mr. Quesnell took the highest points in the district though he had to compete with Ottawa and Toronto salesmen. Last year he took second place in the same contest but this year he outclassed all others in the contest. By superior salesmanship and persistent and effective work in selling the Stromberg-Carlson, not only did he win very decided honour for himself, his firm and the town, but he also won very valuable prizes and trophies for his successful work in taking first place. These prizes included a \$400.00 Stromberg-Carlson radio, a solid gold key knife, a genuine Eversharp pen and pencil set and an honour badge.
