Memorial in Honour of Viscount Plumer

Donations for Memorial to Honour the Late Field Marshal May be Made in This District to Austin Neame, Timmins.

Bulletins from the Department of National Defence at Ottawa give details of the plans under way for the establishment of a memorial to the memory of Field Marshal Viscount Plumer. The memorial is to take the form of:

(a) Completion of the Warriors' Chapel at Westminster Abbey, where the body of Lord Plumer lies. (b) The establishment of a scholarship at Eaton College, his old school; the holder of the scholarship to be a descendant of an officer of the British Army who died in action in the Ypres salient 1914-1918.

The committee in Great Britain who are sponsoring the proposal includes the Archbishop of Canterbury, General Harrington and Lt.-Gen. Pultenay. At the request of this committee General Sir Arthur Currie has consented to be the Canadian representative for the collection of funds. At his request Jackson Dods, Esq., general manager of the Bank of Montreal, has consented to act as honorary treasurer.

Canadian troops served under Lord Plumer during the South African war and on several notable occasions during 1914 to 1918. It is therefore thought that many individuals of the Defence Forces of Canada would like to subscribe to the proposed memorial.

The collections are to be made by districts and forwarded by the District Officers Commanding direct to the honorary treasurer, Jackson Dods, Esq., Honorary Treasurer Plumer Fund, Bank of Montreal Head Office, Montreal, Que.

A report is to be made to N.D.H.Q. regarding the amount forwarded and the numbers subscribing.

All services, both permanent and non-permanent should be given an opportunity to subscribe, the bulletin says. Any subscriptions offered by ex-service personnel should also be accepted and the fact of any of these subscribing should be notified to N.D.H.Q.

Subscriptions should be limited to the amounts per rank (or equivalent rank) as set forth in the following schedule: Colonels and above, \$1.00; Lt.-Cols. and Majors, 50c; Captains and subalterns, 25c; Sergeants, W.O.'s, etc., 15c; other ranks, 10c.

It is anticipated that the subscription list will close on May 1st, 1933.

Officers of the Algonquin Regt. will assist in the accepting of donations for the fund in this district.

Austin Neame, past president of the Canadian Legion, and prominent for so many years in activities in connection with military matters and ex-servicemen will accept any donations from ex-servicemen for the Plumer Memorial Fund.

REFUSED RELIEF BECAUSE THEY WERE JUST MARRIED

A couple applied for relief last week at Sudbury but were refused any relief because they had been married only a month. The authorities said that there was no chance of relief being given to newly-married couples unless they had been wedded at least six months. Apparently, the authorities have the idea that a man who cannot support himself has no right to take on a wife, unless she can support him. It seems unreasonable that couples should act as if they ought to have all the ordinary comforts of home under relief as the regular mode of life. They seem to forget that being on relief is an abnormal condition with certain disadvantages and hardships. Stories of people going on the dole in the Old Country so as to be in condition to get married were considered as jokes some time ago, but it appears that people in this situation have not much humour for a joke, but take the matter in earnest and go ahead. It is one of the evil features of the whole direct relief system. For the sake of the morale of the people of Canada it seems necessary to sweep away completely the whole scheme of direct relief and adopt instead a broad plan of employment that will assist those who deserve it.

North Cobalt Girl Badly Burned in Chemistry Class

The Halleyburian last week says:—"Edna MacPherson, a North Cobalt girl attending the Halleybury high school, was painfully burned in the face by acid as the result of an unusual accident that occurred in the school laboratory last Thursday. Some pupils of the class were, under the direction of the teacher, performing the Babcock test for milk. This involves whirling bottles containing a mixture of milk and sulphuric acid at a high rate of speed. The machine used was a special enclosed safety model, but for some unknown cause, one bottle broke, and a fine spray of acid escaped between the cover and lower part of the machine. Miss MacPherson was leaning over just at the same instant to look at a watch used for timing the operation, and as a result her face was in line with the escaping fluid. She was given first aid by the teachers until the arrival of Dr. W. C. Arnold, who gave further treatment and took the victim home. Miss MacPherson has made satisfactory recovery from the burns and shock, and no permanent injury to face or eyes are anticipated."

Another "Steal"

It's no longer just "fore" on the golf links. It is "plus fours" now that England's golf-minded girls have invaded the domain of men's fashions and adopted the comfortable links costume. This fair golfing star is demonstrating the greater comfort of the new style as she drives off. Note the tiny cap to match.

ONE-LEGGED NEWSBOY SAYS HE WILL BE HOCKEY STAR

Timmins has been visited by one-legged men who have excelled in one form or another of athletics. One gave an exhibition here of swimming and diving while another was equally good at skating and jumping. All who saw these two men in their exhibitions of skill were greatly impressed not only by their ability but by the patience and courage that made it possible for them to triumph over their handicaps. What they were able to do was proof of the idea suggested here by one of the organizers of the National Institute for the Blind who claimed that every handicap was only an incentive. The city of Sudbury at the present time has a boy of ten years old who seems to eclipse the expert swimmers and skaters in his triumphs over handicaps. This boy is Gussie Kyrzakos, a Sudbury Star newsboy, who is a clever skater, an expert hockey player, and expert on skis, despite the fact that one leg is off above the knee and he has to use crutches. He is now playing on a boys' hockey team and says that by the time he is 18 he will be on a real hockey team. The boy says himself that he has it all over the other hockey boys instead of being handicapped. "With one crutch," he says, "I knock their sticks out of the way and with the other I hit the puck. It's great fun." The lad is an accomplished skater. He has played softball with the lads, using one crutch as a bat, but otherwise playing the game in the usual way. This lad has even tried rugby football playing and in tackling is a regular whirlwind. He did some high jumping last summer. In fact, as the Sudbury Star said last week, "he is game for anything any other boy will try."

C. C. F. CLUB FORMED RECENTLY BY IROQUOIS FALLS PEOPLE

Iroquois Falls is one of the places where a C. C. F. Club has been formed. The C. C. F. Club at the Falls is for the purpose of studying and supporting the new political party formed by Rev. Mr. Woodsworth and Miss Agnes Macphail, M. P. The full name of the political party is the Canadian Co-operative Commonwealth Federation and because of the unwieldy nature of such a long name the attempt is being made to have the new political party or group known by the initials of the party. At the meeting held in the Columbus hall at Iroquois Falls W. J. Grummett was appointed as chairman and G. K. Mansell as secretary. A provisional executive, as follows, was elected: President, M. J. Smith, first vice-president, T. Hogg, second vice-president W. J. Grummett, third vice-president, W. Smith, secretary, A. C. Cutten, treasurer, G. K. Mansell. The council includes H. H. Beach, H. Fleming, H. Towles, A. Delean, Geo. Brentnall, F. Koughan and others.

HEARST MUST PAY PART OF THE COST OF RELIEF THERE

The provincial unemployment relief committee has notified Hearst that hereafter the municipality must bear 20 per cent of the cost of relief. For the past eight months the government, through the Northern Development Branch, has paid 100 per cent of the cost of relief, including administration.

Governments Should Not Lose Faith in Country

There is some talk to the effect that the demonstration farm at New Liskeard is to be closed by the Department of Agriculture. It would seem that any such action would be a serious mistake. Economy may be needed—is needed—but that economy should not take the form of dropping valuable services that have been the patient growth of years and that are necessary for the development and progress of the country. It is likely that there are economies possible in the Dept. of Agriculture, but surely they do not lie with necessities as basic as the demonstration farm at New Liskeard. It serves a large territory and there is no doubt whatever that it has more than justified its cost both in the fact that it has proven that the North has remarkable agricultural possibilities, and also in the assistance it has given to settlers and others by way of demonstrating the possibilities of the country in farming way. The New Liskeard Speaker very naturally and very effectively makes protest against the idea of discontinuing the demonstration farm. In place of the suggested "economy" of closing the farm, the Speaker mentions the fact that the farm is too large and that part of it could well be leased with economy and advantage. The Speaker emphasizes the fact that the demonstration farm at New Liskeard has been a success and that it has played a very important part in the development of the North and also in attracting attention to the agricultural possibilities of this country. The Speaker thinks, and very rightly so, that with all the discussion of the "back-to-the-land" movement this is a most inopportune time to think about closing the demonstration farm at New Liskeard. "And what about the hundreds of families the Government has settled on Temiskaming farms during the past year?" asks the Speaker, and it is a very pertinent question! As the Speaker suggests, many of the new settlers know little of farming, still more of them are unacquainted with the special agricultural problems of this North, and there is no doubt but that they will be much in need of the advice and the illustration and example of the demonstration farm. The Advance believes that this particular effort at "economy" so called would be a specially serious mistake. It is almost a confession that the Government has lost faith and confidence in the country. When "economies" that destroy what may be termed basic services to the people are threatened, there is little else to be thought but that the Government has lost faith in the country. The Advance does not believe that the Government has actually lost this faith, but to discontinue the demonstration farm would be to beg that such a construction be placed on their attitude. All in the North, not alone those in Temiskaming area, should unite to urge upon the Government the ill results that are sure to follow any false economy such as that suggested by the closing of the demonstration farm. The Speaker's suggestion of leasing part of the farm looks like true economy. The farm itself should be continued.

AUTHORITY TO DISCIPLINE SUDBURY HIGH SCHOOL GIRLS

Girls around sixteen years of age who are attending high school at Sudbury in the day time and wild parties in the evenings and early mornings have proved a serious problem at Sudbury, as they prove anywhere and everywhere. The principal of the Sudbury high school says they are backward in their studies as well as a menace to the better girls at the school. Principal Wallace blames the parents for lack of attention to the youngsters. Thoughtful people will agree that Mr. Wallace is right all along the line. The principal first appealed to the parents of the girls and then he took the matter up with the school board. He gave illustrations of cases of wild parties in which these children had taken part. One of these parties came under the notice of the police and a defective came to the school to interview one girl. "She lied like a professional," said Mr. Wallace. He asked the high school board to give him full authority to discipline these delinquent girls. One trustee was afraid that the girls would be under serious handicap if expelled from school these days. Other trustees looked further; they felt the recent pupils would be injured if these so-called "wild" girls were allowed to carry on. More than one trustee agreed that the principal was right in blaming the homes. The principal was given full authority to suspend or expel delinquent pupils as he sees fit. Now, if the homes will give Principal Wallace support he will be able to clear up the situation, to the lasting benefit of the "wild" girls, the "tame" girls, and the public generally.

HOWEY PAID OFF BIG DEBT FROM EARNINGS IN 1932

The report of Howey Gold Mines for 1932 operations is gratifying and highly informative. The debt, which stood at last year end at \$428,490, was entirely wiped out. An operating profit of \$470,412, before depreciation and taxes, was realized. This works out to 94c per share. Operating costs were cut per ton of ore treated to \$2.47, as compared with \$3.12 in 1931. This figure is the lowest in Ontario gold mining. Ore reserves are estimated at a tonnage sufficient for two years' operation of a 1,000 ton mill. A map and ore estimate table accompany the report, clarifying the situation for shareholders. A plant extension, to raise tonnage to 1,300 tons daily, has been approved. The treasury position is again improved.

DEATH OF ARTHUR E. BREWER PROMINENT AT THE FALLS

A despatch last week from Iroquois Falls says:—"The death occurred here very suddenly Tuesday morning, February 28th, at the age of 55, of Arthur E. Brewer, for many years a prominent citizen of Iroquois Falls. Mr. Brewer, who was night superintendent of the Abitibi Power and Paper Company Finishing Department here, worked through the night. He suffered a slight heart attack during the night but apparently did not consider it serious as he completed the shift and was able to go to his home where he died shortly after going to bed. The late Mr. Brewer was a native of Waterloo, Quebec. Since coming to Iroquois Falls he had been active in church, fraternal organizations and municipal activities. He was a vestryman of St. Mark's parish and deputy mayor of the present council.

First Mate to K. C.

MR. LEWIS NOAD The King has approved the appointment of Mr. Lewis Noad to be King's Counsel. Mr. Noad, in his youth, sailed on liners between London and the East and obtained his First Mate's certificate. Being ambitious to be a barrister, he has risen to be a successful junior counsel in the Admiralty Court and a Lloyds salvage arbitrator.

Anglo-U.S. Wedding

SWEENEY-WIGHAM Charles Sweeney, well-known American amateur golfer, who captained the Oxford University golf team at St. Anne's this year, is shown with his bride, the former Miss Margaret Wigham of Ascot, England, as they left Brompton Oratory, London, after their marriage. A large gathering of London society notables attended the ceremony.

Eight Were Hurt in T. & N. O. Collision

Timmins and Falconbridge Hockey Teams were in Train but Escaped Injury. Snow Plough and Train Collided. On Thursday last there was a collision on the T. & N. O. Railway at Yorkston, north of Swastika. Contrary to the usual rule on the T. & N. O. this collision resulted in some of the passengers being injured, though none were seriously hurt. Five employees of the railway and three passengers sustained minor injuries, while serious damage was done to the rolling stock of the railway. The accident occurred when a northbound snow plough extra collided with No. 18 southbound. The accident occurred at 1.55 p.m. As a result of the accident the train was delayed 6 1/2 hours. There was also delay in the trains going north. The Timmins and Falconbridge hockey teams were both on the train going to Sudbury for the final game on Friday night at Sudbury to decide the N. O. H. A. championship. No member of either team was injured, though the boys are reported as being tossed across seats and into the aisle when the collision occurred. According to reports in some of the despatches published by daily newspapers, a passenger on Train No. 18 stated the snowplow raised the front end of the engine from the rails when it drove in headlong. The engineer, it is reported caught sight of the approaching snowplow and had his train moving backward when the impact occurred. It is believed this saved the passengers a more severe jarring. Dr. Arnott, of Matheson, was at Yorkston at the time of the accident and was called to attend those who were injured in the accident. He looked after all those hurt and found no serious injuries had resulted from the accident. The following is a list of those injured in the collision of the snow plow and the passenger train:— Norman E. McGregor, Ottawa, scratch right wrist. Arthur Beaulieu, Ottawa, bruised left hip. Mrs. N. W. Bennett, Cobalt, bruised chest. E. Preston, Englehart, snow-plow foreman, severe cut on forehead and nose. T. Miller, Englehart, plowman, slight cut over right eye. C. A. Jarvis, North Bay, brakeman, bruised forehead and nose. J. Barne, North Bay, news agent, nose broken. G. Healey, North Bay, dining car chef, bruised right elbow.

TO GIVE SOLDIER SETTLERS SOME MEASURE OF RELIEF

A year's moratorium on interest payments by soldier will be put into effect by the Dominion. In a resolution, placed on Friday on the order paper of the House of Commons, Hon. W. A. Gordon, Minister of Labour, announced a series of relief measures for soldier settlers. About 18,000 will be affected. The government promises the remission of interest and amortization payments due Oct. 1, 1932. If a settler paid all or any portion of this indebtedness, it will be applied as a prepayment on his total debt to the Dominion. An additional credit will be given on payments due next October. For instance, if \$150 is due then, the debt will be cancelled by the payment of \$75. The Dominion will credit the farmer with one dollar for every dollar he pays.

NEW MAP PUBLISHED FOR SIOUX LOOKOUT DISTRICT

The Ontario Department of Mines has issued a new map sheet, 41-H, covering the Sioux Lookout area, district of Kenora, indicating the geology of the region. This will be a useful addition to the prospector's collection. A great deal of information is given on lakes, streams, portages, falls, old prospect workings, trails, etc.

Death of Mother of J. Ray O'Neil, Formerly of Dome

The North Bay Nugget last Friday had the following:—"The funeral of Mrs. M. T. O'Neil, former resident of North Bay whose death occurred on Feb. 28, was held on Wednesday, March 1, interment being made in Almonte Cemetery. Mass was chanted by Rev. Father Donnellon, of Immaculate Conception Church, Windsor, prior to the body's removal to Almonte. The pallbearers were Eugene O'Reilly, Emmett Stafford, George Haurigan and Alex. Wylie, Almonte. Mrs. O'Neil was a native of Renfrew, her father at that time holding the government position of locating agent for the Irish immigrants. She taught school for a number of years in Renfrew and Calabogie, later marrying J. J. O'Neil and settling in Almonte where five children were born. In 1907 the family moved to North Bay where Mr. O'Neil received the appointment of bridge and building master for the T. & N. O. railway. Following Mr. O'Neil's death, Mrs. O'Neil resided with relatives. She was well-known in this community and was highly respected by a large circle of friends. She is survived by her son, J. Ray O'Neil, Ottawa; three daughters, Mrs. Potter, Mrs. Moffatt and Miss Theresa, all of Detroit; and three sisters, Mrs. T. A. Sammon, Ottawa; Mrs. Cassidy and Miss Dunne, Montreal."
