Two Young Men Face Charges of Burglary

Pleaded Guilty to Thefts from Canada
Packers. Remanded for Sentence.
Other Cases at Police Court
This Week.

Two young men, 16 and 17 years old respectively, were in police court this week on charges of burglary. They were accused of breaking into the Canada Packers' warehouse and also into Shankman's store. The warehouse was broken into on Wednesday night of last week or early on Thursday morning. Entry was made through a window. The goods taken included two cases of butter, 45 lbs. each. Later the young men sold a case of the butter to one of the smaller cases in town, receiving \$3.00 for the case, though its value is \$13.50. This fact led to a charge against the manager of the cafe on the line of receiving stolen property knowing it to be stolen. The price at which the butter was sold was in itself a suspicious circumstance while the possession of the goods by the young fellows also should have warned the purchasers. In police court on Tuesday the lads pleaded guilty to entering both the warehouse and Shankman's store. The goods taken from the Canada Packers' included in addition to the butter, one cooked shoulder, about 7 lbs., six pounds of sausage, ten pounds of wieners, a piece of pork tongue and one or two cartons of eggs. The total value was around \$30.00. The robbery was discovered on Thursday morning. It was found that while entry was gained by breaking the glass out of a window, the culprits left by the way of the back way. Shankman's store was broken into on March 3rd, entry being made through the ice house at the rear of the store. Among the goods taken were sixty chocolate bars, four boxes of chewing gum, jar of pickles, 95 lbs., and a few boxes of dates. Boxes of butter were also stolen from this store. The cafe manager's

case on the charge of receiving stolen goods was given preliminary hearing and he was committed for trial before a judge. The two young fellows were remanded to next week for sentence. There was a younger lad said to be with them at the time of the burglaries. Both the accused lads are well spoken of by those who know them and it is believed that they were led into the crimes through the influence of others.

Another man faced charges of receiving stolen goods having purchased some hay from some boys, the hay having been stolen. The charges against this man were dismissed.

Still another charge of receiving stolen goods was against another of the small cafes in town. In this case a remand was made until next week.

It is evident that the police are not only ready to trace up any burglars who may attempt to operate in town, but are also watching those who purchase stolen goods. If there were no sale for stolen goods there would be less temptation for burglary. The police in the cases brought to court recently feel that the prices at which goods were offered and the fact that young fellows offered the goods for sale would warn any thoughtful citizen that something was wrong in the matter.

A charge against a man for failure to provide for his wife was dismissed. James MacQueen, Main avenue, charged with permitting drunkenness on his property was fined \$50.00 and costs and his house declared a public place under the L. C. A.

D. A. Davies, who was found on street with a gallon of moonshine under his arm, was fined \$300.00 and costs, or three months. The magistrate intimated that the traffic in illicit liquor was to be dealt with severely.

A woman found in the MacQueen house when the police visited it was charged with vagrancy but the case was dismissed.

A charge against a Main avenue man of having liquor in other than his own private residence was dismissed.

Three drunks, common garden variety were each assessed \$10.00 and costs. In default of the fines and costs they will be visitors at Haileybury for the next thirty days.

A charge of common assault was dismissed.

There was a case under the Master and Servant Act. The employer was ordered to pay.

The charge of theft preferred by a local merchant against a former book-keeper, and remanded from last week, was again remanded until next week.

ARBUTUS CHAPTER O.E.S. WILL
HOLD AT HOME FRIDAY, APRIL 7

Last week invitations were issued for an At Home to be given in the Masonic hall by the Arbutus Chapter No. 123, Order of the Eastern Star, on Friday evening, April 7th. The event will commence at 9 p.m. and it is needless to say that all attending may be sure of a very pleasing evening.

TEN YEARS AGO IN TIMMINS

From data in the Porcupine Advance Files.

In the play-offs in the mines hockey league here ten years ago the Hollinger team, the leaders and the runners-up, the Town team, met in combat, the Hollinger winning 3 to 1 and thus securing the championship and the Dickson cup. It was a lively game of good hockey. The teams were—Town—Hoggarth, goal; White and McCoy, defence; Garrett, Lilly and Giroux, forwards; Laflamme and Lynch, subs. Hollinger—McIntyre, goal; Jackson and St. Denis, defence; Lapierre, McDonald and Kelly, forwards; Rosa, Boyd and Jacobs, sub. Referee—Jack Marshall.

The annual meeting of the Northern Ontario Football Association was held at the Dome, March 19, 1923, with only the Dome and Timmins directly represented. It was decided to have a "playing committee" to deal with rough play and players ordered off the field. The president, vice-presidents and the secretary-treasurer were appointed to be the "playing committee." The officers elected for the year were:—H. J. Laidlaw, president; J. W. Faithful, Timmins, and J. Hays, Dome, vice-presidents; Harry Costain, secretary-treasurer, Dome. The decision was also made at this meeting to affiliate with the Ontario Football Association.

Ten years ago there was a funny sort of yarn in some of the funny sort of Toronto newspapers, this story being to the effect that there was a plan under way whereby a group of British-South African mining and financial men were negotiating to purchase the Hollinger Mine. One Toronto director of the Hollinger referred to the story as "just a pack of lies." A. F. Brigham, general manager of the Hollinger characterised the yarn as nonsense. There wasn't a word of truth or foundation for the report and just why the funny city papers paid any attention to it was one of the puzzles of that day.

In honour of the victory of the Hollinger hockey team in the mines league and the winning of the Dickson Cup, the Hollinger Athletic Association ten years ago tendered a banquet at the Goldale to the winning team and to the mines league committee. W. H. Wylie capably presided for the occasion. In the unavoidable absence of Dr. Kirkup, president of the league, D. Brien, vice-president of the league, presented the cup to Jos. McGrath as representative of the Hollinger team. "The famous McGrath" said The Advance report at the time, "made neat and eloquent reply on behalf of the Hollinger team." Interesting and pleasing addresses were also heard from several present, including C. G. Williams, president of the

Hollinger hockey team, Jack Marshall, Alex. Gillies, of the McIntyre, "Slim" Fraser. Recitations by Gordon Ross and F. J. Wolno also much enjoyed and appreciated. The menu did credit to the Goldale.

At police court ten years ago over \$2,000.00 was collected in fines, two drug stores being penalized for breach of the O.T.A. while other offenders also coughed up from \$50.00 to \$200.00 each.

Ten years ago The Advance gave space to references from The Broke Hustler, Ironquois Falls' own newspaper, in reference to an incident at Toronto during one of the final games there, Ironquois Falls being in the Junior finals. One player was called a foul name by a spectator and the Ironquois Falls player took a pass at that spectator. The spectator ducked and the blow hit a Toronto detective. Wasn't that awful? The lad was arrested by four uniformed policemen and four plainclothesmen and carted off to jail. He came up before the magistrate in the morning and was given a severe lecture, the magistrate asking that a bond be furnished (so The Broke Hustler said) that the lad be not met at the station at Ironquois Falls by a brass band in honour of his swatting the cop. The conclusion of the whole matter was that the police detective was not hurt but that it was all a great fuss about nothing.

Ten years ago Cochrane board of trade was making lively protest against the judges of Temiskaming and Nipissing be allowed to handle the cases in this new judicial district. The Cochrane people felt that in justice to this district it should have a resident judge.

The Advance noted ten years ago that plans were under way at Ottawa to divide the Dominion riding of Temiskaming into two electoral districts, each of them to return a member. The 1921 census gave Temiskaming a population of 51,508, and it was felt that this warranted two members. North Temiskaming at the last census had a population of 58,284, so there seems to be need for further representation of this section of the North in this year of 1933.

Ten years ago The Advance begged all and sundry not to throw glass on the streets. It appeared that during the O.T.A. there were noisy fellows who got bottles of "Oh-be-joyful" and after consuming the contents would throw the bottles on the highway. This carelessness of consequences meant not only the danger of injured automobile tires and bicycle tires and the feet of horses but it also endangered the people who had to use the roads. The Advance pleaded particularly for the youngsters, several of whom had received severe cuts through light boots or by falling on the road where broken glass had been thrown. "For the love of the autos, for the love of the horses, for the love of people, for the love of children, for the love of Mike," said The Advance, "please, please, please! don't scatter the menace of glass on the public streets. One little piece of glass on the streets is the famous one glass too many."

The Advance ten years ago said:—"In the death of Sam Biron at Sault Ste. Marie recently, the North Land loses one of its oldest prospectors and one who knew the whole upper portion of this province probably better than any man now living. The late Sam Biron prospected in the Michipicoten district as far back as 1898—a quarter of a century ago—and last fall was one of the two prospectors making spectacular finds in that area. In the intervening twenty-five years he had prospected in many other sections of the North Land, being among the earliest pioneers of Cobalt. He was also interested in the Kirkland Lake area, and came near to losing his life at Swastika in the big bush fire of 1911. He was 66 years of age at the time of his death, and had recently been employed as foreman at the Grace Mine in Michipicoten."

According to The Advance of March 21st, 1923—"Messrs. Gillies, Keeley, Parker and Robinson and Shaheen ('the five bachelors') gave a very pleasant informal party at the S. A. Wookey's residence, Schumacher, on Saturday evening, March 17th, in honour of St. Patrick and for the pleasure of their friends. There was a large gathering of friends and a delightful social evening was spent in cards, dancing and other social pleasures."

Another St. Patrick's Day event that was noted in The Advance ten years ago was the Bal Masque held in honour of St. Patrick in the McIntyre hall at Schumacher on March 17th, 1923. In regard to this event The Advance said:—"The Bal Masque in honour of St. Patrick's Day, held on Monday evening in the McIntyre hall, Schumacher, proved a very successful and enjoyable event from all standpoints. The event was largely attended, the costumes showed much cleverness, originality and good taste, and all present found the evening a very agreeable one indeed. The best of music was furnished by the McIntyre orchestra."

Ten years ago the A.S.D. Club was one of the active and agreeable social clubs of the community. It was composed of young people and was select in its membership. Its title "A.S.D." meant "Always Something Doing." Its dozens ten years ago were recounted as follows by The Advance:—"The regular meeting of the A.S.D. Club last Wednesday evening took the form of a sleigh drive with a bean feed which was to have been held earlier in the winter but had to be postponed on account of the cold weather. The members met at the club rooms at the I.O.O.F. hall, leaving there at 9 p.m. for South Por-

cupine, four double sleighs being required to take the large number present. On the return to the hall a bean feed was held, followed by a dance. Messrs. Wolno, Brown, Whaley and Wilson furnishing the music for the occasion. In the novelty lucky number dance, Miss Purvis won the prize, a box of chocolates donated by S. Shankman. The meeting this evening will be the usual cards and dancing. Next Wednesday will be Ladies' Night, the lady members of the club furnishing the programme for the evening's entertainment. The attendance at the meeting last Wednesday set a record, there being over forty couples present."

Among the local and personal notes in The Advance ten years ago were the following:—"Reports are current to the effect that there is an epidemic of typhoid fever in Cochrane and to the West, there being no less than 160 cases reported from the area." "Timmins now has a closed-in taxi cab for the public service—one of the latest and most attractive of models—just like New York. Mr. A. E. Taylor, who with Mr. R. Killings, inaugurated the motor bus service in the camp last year, has brought the handsome new taxi to town to operate." "Two new salaried firemen added this week to the fire hall staff here! It is by foresight like this that Timmins gets its name for being 'lucky' in the matter of fire. If the motor truck is added to the town fire-fighters' equipment the town will be 'buying' some more of the same kind of good luck." "A Government creamery is likely to be established at Matheson at an early date, it being understood that the Government and citizens are co-operating to this end." "Mrs. A. Haughland is up from Toronto for a visit." "Mr. Brown, of Utterton, Ont., has been visiting his son, Dr. R. H. Brown." "Mrs. C. S. Carter returned last week from a visit to the south, where she was called owing to the serious illness of her father."

"Mr. Elie Riopelle, for thirteen years past a resident of Cobalt, died at the home of his son there recently, at the age of 93 years." "Many sales of promising property have been made recently in Whitney township and also in other sections of the area. Great activity may confidently be expected there, commencing in the early spring." "Chas. Sandrelli, who is very widely known in the districts around North Bay and Sudbury, has taken a five-year lease of the Hotel Cecil at North Bay, assuming the management of the hotel on Monday this week." "It is understood that the T. & N. O. Railway Commission has plans in mind for the erection of a large hotel at Moose Factory in connection with the station at that terminal of the extension to Hudson Bay. The expectation is that Moose Factory will become an important port and that the hotel accommodation there will be fully warranted once the line is completed to the bay."

"From Bay to Bay, in every way the T. & N. O. will be getting better and better." "Dr. E. F. Armstrong has been elected by acclamation as mayor of Cobalt, to fill the vacancy caused by the disqualification of Mr. Taylor Pipe." "Arthur E. Moysey and Company have opened an office in North Bay, where the public will have advantage of the Arthur E. Moysey and Company general stock-broking service, as well as daily market quotations and up-to-date bulletin service. Mr. A. A. Ames, of Cobalt, will be manager of the North Bay office." "The Toronto Star had a special representative here taking notes and making pictures of the Drg Race and Carnival, and a number of interesting pictures of this event have appeared in the recent issues of The Star. It is interesting to note, however, that practically all these pictures were taken by Timmins' own photographer, and the official photographer of the event was—Billie Browne. The pictures were fine."

THE ROADS OF ADVENTURE! "I REMEMBER," SAYS OLD-TIMER

"I remember," says the patriarch, "when it took us 10 days to go from here to there. We had to go by stage-coach all the way, and it was an adventurous trip."

"I remember," says the old-timer, "when the quickest way to the West Coast was round the Horn. I remember—the canoe, the old stern-wheelers, the buggy-ride, the pony trails; the lodging-place by the cross roads and the Indians."

What an age of romance, these days of "I remember" and before, what thrills and adventures! So has it ever been. And these present are so soon to be the days of "I remember."

Be romantic! Go somewhere this year, far, far away—where? Consult your Canadian Pacific local representatives; they will gladly tell you.

How to Find the Answer

One night "Bill" Williams, the popular broadcaster, while making his announcement over the radio station X.Y.Z., thought he would have a little fun with his radio listeners during the Ellis Hosiery Hour. Stopping his concert in the midst of an interesting program, he broadcasted a message to his listeners in Code. One of Bill's friends solved this Code message, and this is how he did it. The message contained 11 words, each little group of letters representing a word. Start by writing the alphabet from A to Z, and number each letter beginning at 2 first as number 1, Y, X, W, and so on. Then, change the letters of the code message into numbers by finding which number each letter represents. Then you must write another alphabet numbering it the right way. A numbering 1, B, C, D, and so on. Change the numbers back into letters by finding the letter corresponding with that number. In order to help the first word is "I". Solve the Code message if you can send your answer in At Once, and complete for the \$5,000.00 in Cash and Immediate Prizes to be awarded At Once.

You Can be a Prize Winner

Send your answer to the Puzzle pictured above AT ONCE. If you send the correct answer promptly you will positively receive a truly fascinating 40 piece Jig Saw Puzzle absolutely FREE. Everyone loves to do Jig Saw Puzzles—It certainly is the race right now! Match your wits against the elusive pieces that seem as if they just won't fit—yet they do fit, and piece by piece you build up the complete design. This is a genuine straightforward advertising offer, the prize are all part of our advertising appropriation, and will be awarded squarely and fairly. Besides this 25 Final Grand Cash Prizes, thousands of our qualified contestants will receive valuable immediate Prizes. This company has established a sound reputation of living up to its obligations always.
