Contractor Claims Some Won't Work

(Continued from Page One)
Bartleman said the statutes gave the town the power to defer the sale of properties for taxes.
Mayor Drew explained that the council would not consider the matter of tax sales until later in the summer. To follow Mr. Bartleman's suggestion and suggest that no tax sales would be held would be to invite those who can pay to continue to neglect the matter. There was no way of distinguishing between those who could pay and those who couldn't. In any case it did not seem likely that if a man couldn't pay anything on three years' taxes now that he would be able to do better next year with four years' taxes facing him. Any specific cases of hardship should be brought before the council. In justice to the ratepayers who met their taxes, arrears had to be collected. The town simply had to get in the money in justice to all. The years that the town had sidestepped tax sales had meant a big loss to the town and had not apparently benefitted anybody.

Mr. Bartleman suggested that as an alternative to the no tax sale idea the council refrain from selling properties unless the taxes amounted to a certain amount. This he thought would give the little fellows a chance. The mayor replied that such discrimination was not practical but that specific cases would be dealt with when brought to notice.

Mr. Bartleman also said the Ratepayers' Association wished to call attention of council to dogs running at large. Mayor Drew said this was against the by-law and council intended that the by-law should be enforced.

Councillor Richardson asked how many ratepayers the Ratepayers' Association represented. Mr. Bartleman said that there were 125 members and they were all ratepayers, but he did not think this should be brought up. He said the council showed a different attitude towards the Kiwanis Club with a membership of thirty. Mayor Drew replied that the Kiwanis Club case was altogether different. The Kiwanis Club had not come forward with criticism or dictation, but simply to proffer their help, and they had given help and co-operation of very decided benefit to the town and the people. Mr. Bartleman said the council was wrong in consider-

ing the Ratepayers' Association as antagonistic. "If the idea of antagonism has arisen the cause for it is on your side," said Councillor Parsons.

A letter was received together with a resolution said to have been passed at a meeting of 300 workers in town. The resolution demanded better treatment for indigents buried at the expense of the town. A man speaking in support of the resolution of the alleged workers said that at a funeral of a worker on Saturday the hearse had gone slowly as far as Second avenue and then had proceeded at taxi speed so that the workers could not keep up. The undertaker, said the speaker, had said that his instruction from the town was to keep the cost down and so a "walking funeral" could not be carried through to the cemetery. The speaker also claimed that children hooted the workers as they walked along, and he said the police should not have allowed this.

Mayor Drew replied that every respect was shown to the indigents buried at the expense of the town, and that this town was more generous in this regard than most places. He also suggested that the complaint arose from the desire to have an excuse for a parade, rather than any regard for the dead.

A letter was received from the Commodore Restaurant in regard to the hours to which employees could be kept at work.

Councillor Dr. Honey wrote the council asking for leave of absence for two or three months from council meetings as he was leaving for the Old Country to take a post-graduate course. Council approved the request.

The Canadian Legion's request for permission for the Conklin Shows to come here under Legion auspices was granted.

The St. John Ambulance Brigade asked for the use of Tuesday, June 13th, as their annual flag day, and this was granted.

An application for taking charge of the town motor camp and one for the position of plumbing inspector were filed, neither of these matters being ready for decision yet.

Questions in regard to specific cases of arrears of taxes were referred to committee for investigation, as was also a request for water service on Wend Avenue.

Mr. McMahon presented a written statement by one of his customers that he had been refused an order on Mc-

Mahon's store and given instead an order on a chain store for relief. Mayor Drew said that the council's instructions were that the order was to be at the option of the person receiving it, though the council thought the preference in fairness should be given to the store where the man on relief owed a bill. G. Ribout, assistant to the relief officer, said he followed these instructions. It appeared, however, that the Timmins Relief Fund officials had decided that their orders for groceries should be on stores where the most value for the money could be obtained. The order in question was not a town order at all, it appeared, but a relief fund order. Although the work in both cases passed through the town relief office the Timmins Relief Fund committee dealt with this particular order and the council had nothing to do with it.

A man who has been in town four years put up a clever plea to the council to back him so that he could take up land on the Government's back-to-the-land plan. He felt sure he could succeed having wide knowledge and experience in farming, and he thought it would save the town money as he was on relief, but the council could not see its way clear to accept his proposition.

The case of a lady deserted by her husband ten years ago and forced thus to make her own living and anxious to start a tobacco and confectionery store on Avenue Road was turned over to the police committee. She could not afford to pay the necessary license fees.

A building permit had been issued for a house to be erected on Balsam street by S. Elies, but later it was found that there was a house already there, the plan of the owner being to move this house to the rear of the lot where a cellar had already been dug and other expense entailed. The permit had been suspended, but it was decided at Monday's council meeting that in view of all the circumstances and the misunderstanding that the permit be allowed provided the new house was fully brick-veneered. This was agreeable to all concerned.

The case of a woman whose husband deserted her two months ago was referred to the relief committee.

Two gentlemen desiring to open an order office for custom clothing were informed that so long as they kept it a strictly order office they would be liable only for the business assessment on the premises occupied, but if they sold so much as a spool of thread, a button or a piece of lining they would place themselves under the transient traders' by-law.

The installation of several street lights was authorized.

A rebate of \$26.00 was authorized in the taxes of the roller rink building on account of vacancy.

The established transfer concerns in town asked the protection of increased license fees. They pointed to the fees for taxis and other lines to show their request was a reasonable one. A new by-law will be introduced at next council meeting setting the license fees for draying and transfer concerns as follows:—\$10.00 for the first truck and \$10.00 for each subsequent truck; \$50.00 for first team, and \$10.00 for subsequent ones; \$25.00 for single horse and \$5.00 for subsequent ones.

Resident 20 Years Dies at Schumacher

George Holjevac, of the Schumacher Provision Store, Died on Saturday, Aged 51 Years. Was a Native of Croatia. Funeral on Monday.

Schumacher, May 10th, 1933. Special to The Advance.
George Holjevac, a resident of the Porcupine camp for over twenty years, died at his home, 111 Fourth avenue, Schumacher, on Saturday last, May 6th. Death was due to pneumonia. He was ill only a few days.

The late George Holjevac was born in Croatia and was fifty-one years old at the time of death. He came to Canada in 1909 but went back to Croatia in 1910, returning again to Schumacher in 1913 and remaining here until his death. He was one of the partners in the Schumacher Provision Store, and also had other interests in the camp.

He is survived by a widow, five daughters and one son. The daughters are: Mrs. K. Sertich, Schumacher, Mrs. May Urbech and Mrs. Mande Pecarich, Julie and Annie, at home. The son is Johnny Holjevac, at home. He also leaves four brothers, Charlie, Mike and Met Holjevac in Schumacher, and Joe Holjevac in Croatia, and one sister, Madeline, in Croatia.

The funeral was held on Monday afternoon at the Schumacher Catholic church where Rev. Fr. Gelnas said mass, the interment being made at the Timmins cemetery. There was an unusually large attendance at the funeral the late Mr. Holjevac having many friends in the town and district. There were many beautiful floral tributes, these including wreaths and sprays from the following:—wreaths, from No. 608, H.B.Z., Croatian National Home, Charlie, Mike and Met Holjevac, John and Annie Holjevac, Louis and Katy Sertich, Joe and May Urbech, Mike and Mandy Pecarich, Julie and Anne Holjevac, Barl Holjevac, Kilsanich family, Toni, Mande and Annie Holjevac, Ivan Sertich, Noranda, Quebec, Croatian National Society, Canadian Branch No. 6, Dan Millar and Mark Serdar, Martin and Mary Koljich, Sprays from Mr. and Mrs. Ted Jones, Mr. and Mrs. Elly, Mrs. Gerovac, Mr. and Mrs. R. J. Shields, Staff Schumacher Provision Co., Canada Packers Staff.

J. Rutherford, in earlier days popularly known in the camp as "Ruddy," was up this week from Toronto to renew acquaintances here and was welcomed by many old friends in town.

Busy Session of the Tisdale Tp. Council

Formal Ratification of Auditors Report, Talk of "Shortage" Unfounded. Reeve Explains Matter. Many Questions Before Township Council on Monday Evening.

South Porcupine, Ont., May 10th, 1933. Special to The Advance.

Tisdale township council met on Monday evening with the reeve and all the councillors present. The minutes of the last regular meeting were read and accepted. There was a letter from Solicitor G. Gauthier, enclosing one from Peter White, K.C., announcing that the Supreme Court had dismissed their appeal re the taxation on certain units of equipment in connection with the Hollinger mill. As this was a test case they are advised that the only redress municipalities now have in such cases is to appeal to the legislature for amendments in their laws re municipal taxation.

The Gray Shows asked for their usual concessions re their shows to be given in Tisdale township just outside of Timmins. They pay a heavy license during their stay. It was considered favourably. There was a report from Chief McInnis of the police force stating that the police car was now in a bad condition and costing considerable for its upkeep. Hence a new one would be advisable. Four new uniforms are also needed for the township police. A letter re taxes is to be dealt with along with other similar cases. A taxi firm in Schumacher asked for extension of time to pay their license fees. Chief McInnis said there were others who asked leniency for a time while some had paid promptly by May 1st. It was felt to allow much time would be discrimination against those who did pay. Chief McInnis thought these could all be cleared off by the end of May as that would allow for two pay days for the taxi-owners to do their collecting. The chief was told he might show leniency until the end of May.

A motion was made that the auditors report be ratified and confirmed. This was carried but the reeve requested that his vote be registered as "nay."

Dr. McLaren was authorized to give further needed treatment in an indigent case.

A petition was received from residents of the Gauthier-Drew townsite by Toke street in Timmins asking for annexation to Timmins. A necessary meeting with the Timmins council will be arranged. Mr. Gauthier was present on behalf of the owners of the townsite. With annexation, the residents feel that their fire protection and schools would be a more simplified matter. The residents of the M-8 section right on Gilles Lake do not want to leave Tisdale. The councillors are to look over this section occupied by pensioners before anything definite is done.

Councillor Kerr said that there had been complaints re \$10.00 poll tax and asked that the reeve explain it. The reeve thought that the laws of the province called for five dollars but was told that special legislation enacted ten years ago had made the amount collectable here as ten dollars. The reeve thought it time to change that legislation. Councillor Hawkins stated these people were getting the use of sidewalks and other commodities of the camp and paying no other taxes.

Councillor Jones said there had been no wage-cutting in the camp in that time and therefore no reason for tax-cutting. Councillor Cooke concurred in this and the general opinion of council was that those paying the \$10.00 poll tax here were getting off light at that.

A ratepayer asked re water meters and was told they were here now ready for installation by those requesting them, on payment, of the regular meter rentals.

The reeve drew special attention to a matter in his report where it was at variance with the auditors' report to the amount of some \$2,000.00 and stated she was now satisfied that the auditors' report was correct. The system followed in auditing had been hard for her to discern where the redistribution of amounts were. Clerk Evans asked specifically, "You find, then that there isn't \$2,000.00 short in the report?" The reeve answered that she found that the amount had been taken up in disbursements which had been redistributed, showing that the auditing system was correct.

The routine wages, salaries and expense accounts were passed for payment amounting to \$29,172.14. The order throughout by those in attendance was good.

The council went into committee to discuss some 18 tenders received for collection of garbage in Schumacher. After some discussion it was decided to allow the contract to John Hologovac, son of the former scavenger who has died, as he knew the route and had the full equipment. The price being paid is \$300 per month but this contract is only monthly and can be terminated at any time by 30 days' notice if satisfaction is not being given.

Engineer Armstrong made a lengthy and very specific account of township work required on roads, sidewalks, etc., and gave estimates on same. These estimates have to be reported to the provincial department shortly. Sidewalks are badly needed on the north side of Bruce avenue. Golden avenue between Main and Moore streets needs completion. Dome avenue's petition will also be considered. Where there are already existing walks all the usable lumber in them will be retained for patching elsewhere. Difficulty had been encountered on the Dome and Timmins-South Porcupine highway, as the snow had gone early, then the cold weather ensuing made it impossible to use the material which is required for patching. The Conlaunum road was at a stage in its construction where it required very regular work on it. The Ankerite road could now be kept up

by patching. The Moneta road, past the railway to the cemetery, required a good amount of attention. Engineer Armstrong stressed the advantage that a second truck would be to the township. Where continuous roadwork was being done two trucks were necessary so that there would not be lost time among employees working in connection with it and to get the work done with proper expedition. At other times when the truck was in use in the east end of the township it was often needed just as badly in the west end. Last year rental for extra trucks had amounted to \$900.00. This might better be paid out towards the ownership of an extra truck for use at all times not periodical.

ART MORIN SECRETARY OF TEMISKAMING BASEBALL LEAGUE

Last week the officers of the Temiskaming Baseball League were given in The Advance, but the secretary's name did not appear, this officer being appointed by the president. The appointment made by the new president is Art Morin, of the Customs service, who will be the secretary for 1933 for the Temiskaming Baseball League.

SEVENTEENTH ANNUAL BALL TIMMINS FIRE DEPARTMENT

Tuesday evening, May 23rd, is the date this year of the annual ball of the Timmins fire department. It will be held in the Masonic hall, dancing commencing at 9:30 p.m. Refreshments will be served during the evening, the firemen's ball being noted for the excellent things to eat provided at these events. Everyone is interested in the Firemen's Annual Ball, for two special reasons:—First, it is such a happy event each year; and second, it is one occasion during the year when the people in general can show appreciation of the firemen and the good work they are doing in the line of their duty. The evening on May 23rd is the seventeenth annual ball of the Timmins fire department and the chief and his boys are planning to make it the best yet.

TO THOSE SUFFERING FROM Deafness OR HEAD NOISES

Seven new 1933 CLEAR-TONE models, including single and double flat transmitters with ear piece, about the size of a small button (feather weight). Fits snugly in the ear—no head band. Each small instrument has twelve different tones. We invite you to test it without charge or obligation. If you are slightly hard of hearing or very deaf call for a

Big Whist Drive, Saturday by Ambulance Brigade

A big whist drive is announced by the St. John Ambulance Brigade to be held in the Hollinger Recreation hall on Saturday of this week, May 13th. The announcement of the event carries the slogan of the Timmins Division of the St. John Ambulance Brigade, "We need your help to-day; to-morrow you may need ours." This slogan should bring to mind the fact that not only may the good work of the Ambulance Brigade be needed here "to-morrow," but there is also the thought of the good done by this organization and the needed help given here on many "yesterdays." The first aid service of the St. John Ambulance Brigade and the medical comforts provided for cases here has made the Ambulance Brigade of great value and deserving of full support. The big whist drive, however, will be well worth

attending for its own sake. There will be prizes valued at \$20.00 and the evening is sure to be a pleasant one.

ROUND AND SQUARE DANCING ON FRIDAY OF THIS WEEK

Gold Star L.O.B.A. announces round and square dances in the Oddfellows' hall, Timmins, on Friday, May 12th, from 10 to 2 a.m. There will be good music and refreshments will be served. L.O.B.A. events are always enjoyable and the event to-morrow (Friday) night will be up to the usual high standards of enjoyment.

Last week the T. & N. O. started out five small gangs of special men for maintenance and repair work on the line and branches. Fortunately, the railway is not taking the attitude apparently assumed by the Dept. of Northern Development of allowing the roads to go to rack and ruin on the false plea of economy.
