

Urges Beautifying the Town By Use of Flowers and Trees

In Address to Timmins Horticultural Society on Tuesday Evening in the Hollinger Hall, John F. Clark, of the Ontario Department of Agriculture, Toronto, Speaks of Gardens and Flowers and Their Care.

On Tuesday evening of this week a number of the members of the Timmins Horticultural Society and others interested in flowers and gardens enjoyed one of the most interesting and informative addresses, when John Clark, lecturer for the Horticultural branch of the Ontario Dept. of Agriculture, spoke on the subject of gardens, their establishment and care.

T. A. Skelly, president of Timmins Horticultural Society, introduced the speaker for the evening. The event was in the Hollinger Recreation hall. Mr. Clark was accompanied on his trip to the North by Mrs. Clark, the tour of Northern towns being made by motor. Both Mr. and Mrs. Clark were greatly impressed by the North and look for a wonderful future for this country. Mr. Clark has great faith in the horticultural and agricultural possibilities of the North, and sees no reason why everybody here should not have a garden. On the other hand he can give offhand a score of reasons why the average citizen should take up horticulture in earnest way and help in the beautifying of the town thus making life fuller and better and more livable.

Before Mr. Clark commenced his lecture Tuesday evening there was a very pleasing prelude to the meeting. Mrs. Clark favouring the gathering with a couple of vocal numbers that were especially appropriate for the occasion. Mrs. Clark's first number was, "The Garden of My Heart," and so greatly did the audience appreciate this selection and its effective presentation that there was very insistent demand for another number by this gifted singer. Mrs. Clark's second solo was equally popular.

In opening his address Mr. Clark referred to his impressions of the country on this his first visit here. He expressed his amazement and pleasure at finding in this North a city so complete and modern as Timmins. He urged the people to plant trees for shade and beauty. The need for trees was very evident. Without trees the town was incomplete. He also urged the cultivation of flowers and gardens for pleasure and profit.

In his address Mr. Clark showed the different kinds of gardens. He outlined the means of preparing gardens, and touched on the different types of flowers that might be grown successfully in this country. All through his address there were helpful hints for the arrangement, choice, cultivation and care of the flowers for the garden.

Mr. Clark's address was illustrated by a large number of very beautiful lantern slides. The slides added greatly to the interest, though Mr. Clark's address in itself is so practical, so inspiring and so helpful that it made very strong appeal to all.

The Advance does not intend to make any effort to summarize the address by Mr. Clark. He not only spoke of the care and cultivation of flowers, the selection of flowers for the garden, and the arrangement of the same, but he also dealt at length with details, such as the best flowers to plant, their colours, height, time of blooming, etc. The information in his address may be found in full and with all the necessary data in a series of articles that he presented to some of those present. This series of articles, some of them written by Mr. Clark himself, and others prepared by other experts, should be in the hands of all interested in flowers and gardens. Some of these papers will be published in subsequent issues of The Advance. In the meantime The Advance would suggest that readers interested should write the Ontario Department of Agriculture, Toronto, Horticultural Branch, mentioning Mr. Clark's lecture and asking for the series of papers dealing in detail with the facts and hopes of the address given by Mr. Clark. Tuesday evening Mr. Clark gave special attention to rock gardens, for instance. Mr. Clark has prepared a paper on "Rock Gardens," and this may be secured free from the department for study and application. The same is true about other features of Mr. Clark's address.

All who were present Tuesday evening for the illustrated address by Mr. Clark were completely satisfied and delighted by the address and the way it was dealt with by Mr. Clark. A return visit from Mr. Clark will no doubt be gladly welcomed by all interested in flowers and their culture. In the meantime the series of papers referred to will be found well worth the trouble of applying for.

Mr. and Mrs. Clark left on Wednesday for Cochrane. They will also visit Kapuskasing and other towns before returning South.

DEATH OF INFANT DAUGHTER OF MR. AND MRS. A. PELLETIER

Very sincere sympathy will be extended to Mr. and Mrs. A. Pelletier in the sad death of their infant daughter, Collette, on Tuesday, June 20th. The baby was only a month old, but was delicate and apparently the recent intense heat proved too severe for it. Little Collette was taken ill at 8 o'clock on Tuesday morning and despite all that skill and care could do, the baby passed away at noon. The funeral took place yesterday (Wednesday) afternoon, service being held at St. Anthony's church.

Advocates Mercy

R. L. CALDER, K.C., speaking before the Canadian Prisoners' Welfare Association recently suggested that Canadian judges should follow the British custom and give first offenders light sentences.

In his address Mr. Clark showed the different kinds of gardens. He outlined the means of preparing gardens, and touched on the different types of flowers that might be grown successfully in this country.

The welcome meeting to the new officers, Major and Mrs. Hillier and Lieut. Mary Rodgers, will be held on Thursday, June 29th, at 8 p.m. Major and Mrs. Hillier come from Sault Ste. Marie where they gave good service and left behind many friends. Lieut. Mary Rodgers comes from Toronto.

McIntyre players were called upon to dish out championship baseball yesterday.

The first few innings were very fast most of the players retiring via the strike-out route. Wood was nicking the corners on both sides while Hackett was holding up his end as well as he could.

Wood allowed only one run in the first five innings and had credit for five strike-outs.

In the third innings Kirkland Lake completed a nice double play and saved McIntyre from scoring.

In the fourth innings Price brought in the rst run for Kirkland Lake. McIntyre by this time had two, Buck scoring in the first innings and Quinn in the first run of Kirkland Lake.

Up to this time Eddie Angrignon had batted twice and struck out both times, so he wanted to revenge himself. He did. He planted one in the corner of the lot and when the dust cleared Eddie was firmly perched on second base.

Both teams were blanked in the seventh innings but Kirkland collected one in the eighth, while McIntyre was again blanked.

The ninth innings was packed with enough thrills for a whole game. Kirkland tied it up when Hackett scored from second base on MacDougall's hit and Boyd's error. MacDougall wormed his way around to third and ran in on Wood's wild pitch. The crowd couldn't be kept quiet now. Kirkland Lake was one run ahead.

The McIntyre boys came in looking pretty blue, but Ke Solomon let them in on a secret. He told them how they could win. Well, it only took four men to do it. Here's how: Cowden planted one behind the short stop and just got to first base in time. Quinn bunted down near third and beat the throw to first. Sadowski also bunted and missed. He bunted again and almost got to first but it was a beautiful sacrifice. Wood, the pitcher was batting, and they're still talking about it yet.

He lined a single in centre field to score both Cowden and Quinn. It put McIntyre one ahead and the game was over.

Timmins are playing McIntyre tomorrow afternoon and should give them a battle because they've improved a lot lately.

McIntyre: Buck, 1f.; Boyd, 2nd.; Cybosky, 1st.; Angrignon, c.f.; Cowden, s.s.; Quinn, 3rd.; Sadowski, c.; Wood, p.; Gilbert, r.f.
