Krugerdsorf Youth Meets Tragic Death

Carl Junice, 22 years old, suffers fractured skull after party at Culver Park, near Kirkland Lake.

An inquest was held at Kirkland Lake on Wednesday evening of last week into the death of Carl Junice, a youth of 22 years of age, who died following a holiday party at Culver Park, near Kirkland Lake. Junice with some other young people from Krugerdsorf drove out to Culver Park for a holiday party. The evidence at the inquest showed that Junice was one of a number of young men and women who motored to Kirkland Lake Saturday from Krugerdsorf. The party went to Culver Park and danced and returned to Kirkland. They had been drinking. On returning home early Sunday, Selmer, who was a friend of the deceased youth, and who had joined the party at Kirkland, sought to dissuade Junice from the latter's proposal to visit a young woman in the Stallmac apartments and during the scuffle Junice was knocked down. Selmer, in his evidence recalled that Junice attempted to strike him and he dodged the blow, at the same time butting the youth with his shoulder. It was some hours later that the young Krugerdsorf man succumbed in a car while he was being driven to Kirkland for medical attendance. He had, in the meantime, been taken to Krugerdsorf, but on failing to rally from the accident the return trip was decided upon.

Crown Attorney P. L. Smiley, K.C. examined the witnesses. Howard Hawley was foreman of the jury.

The witnesses at the inquest included Dr. Geo. A. Cowles, who carried out an autopsy on the young man who had died; William Selmer, of Kirkland Lake who was said to have caused the fall of Junice that resulted in a fracture of the skull behind the right ear and a

hemorrhage causing his death; J. D. McDonald, of Boston Creek; Rod Cowley, of Krugerdsorf; and another friend named Maundeville, of Kirkland Lake, but blaming no one for the young man's untimely death.

Besides his parents, Mr. and Mrs. D. Junice, of Krugerdsorf, the young man is survived by three sisters, Thelma, Geraldine and Genevieve.

The funeral services were held at Englehart on Tuesday afternoon of last week. There was a short service at the home of one of his sisters, Mrs. C. V. Woollings, and from there the casket was taken to the Presbyterian Church, where the solemn religious rites were carried out with Rev. Mr. Thomas and Rev. Mr. Jewitt officiating. The church was filled with mourners and the presence of so many friends of the young man and of the many beautiful floral tributes, testified to the general esteem in which he was held by a wide circle of friends. The casket was carried to the grave by Dr. W. R. Jackson, E. Woollings, A. Woollings, C. Pollock, B. Pollock and R. Pollock, acting as pallbearers.

TIMMINS CAR IN ACCIDENT NEAR CALLANDER LAST WEEK

The North Bay Nugget last week said:—"Cars operated by P. J. Rancourt, Timmins, and H. Bush, Callander were damaged Wednesday afternoon about five o'clock when the vehicles figured in a sideswipe near the north end of the village of Callander, on the main thoroughfare. The occupants escaped injury. Both were proceeding in a southerly direction, it was reported, and sideswiped when Rancourt attempted to pass the other car. The Bush car suffered the most damage."

Sudbury Star:—London conference of the United Church wants full publicity given all stock transactions, but would not this be a rather dirty trick on the investor who has just lost his shirt?

Try The Advance Want Advertisements

TEN YEARS AGO IN TIMMINS

From data in the Porcupine Advance Files.

The Advance ten years ago noted the presence in town of John W. Evans, of Montreal, managing director of the Turnbull Mines Co. The plan then contemplated was the development of the company's property in Turnbull township, some fifteen miles from Timmins.

In referring ten years ago to the programme given by the Timmins Male Choir in the Timmins rink on Thursday evening, June 14th, 1923, The Advance said:—"The programme given by the Timmins Male Chorus in the Timmins rink on Thursday evening last more than delighted the big crowd present. To write the event down as an outstanding success is to put the case mildly. All are now enthusiastic about the Timmins Male Chorus, and many have been the sincere expressions of appreciation as well as some pleased surprise at the striking array of talent evidenced and the organization and leadership that made the talent effective. So well pleased were the people with the programme Thursday evening that there was an insistent request for the numbers to be repeated Sunday evening after the church services. Also, it may be noted that there were many present Thursday evening from South Porcupine, the Dome, Iroquois Falls and other outside places, and these visitors were so impressed with the programme that the Male Chorus has been specially invited to give their programme in other towns in the district. Iroquois Falls is particularly anxious to have the Timmins Male Chorus visit there for the benefit of music lovers of the Paper Town, and this visit will likely be arranged in the near future."

The concert opened with Frederick L. Plant of the National Anthem. T. F. King, chairman of the executive committee of the Male Chorus, presided for the evening. During the evening the chairman presented to Mrs. U. L. Acton and Mrs. J. W. Faithful, beautiful bouquets as appreciation by the Chorus and the people generally for the services given by these ladies. There was also reference made to the talent and generous spirit of service of the leader of the Chorus, R. R. Johnson. A number of part songs given by the Chorus won very general acclaim. "Each selection," said The Advance, "was given with a harmony and effectiveness that delighted all." Selections by Mrs. U. L. Acton won general appreciation, as did also the quartette, Messrs Street, Ramsay, Skelly and

Moore. The piano duet by Mrs. J. W. Faithful and R. R. Johnson was an outstanding favourite on the programme. A. J. Downey in the character song, "The Ragged Vagabond," delighted the audience and was equally pleasing in the responding number. The quartette by Messrs Snow, Dodge, Burrill and Heffernan, "Sunset," was another noteworthy number. This well-balanced quartette gave a very harmonious and pleasing rendition of an attractive selection, and were left in no uncertainty as to the appreciation of the audience. Mr. De La Barre was unable to appear on Thursday evening owing to his duties as fire ranger, but his pleasing tenor voice in his sympathetic interpretation of classics like, "Ton Sourire" and "The Toreador's Song" were a happiness to music lovers on the Sunday evening.

The Advance of June 20th, 1923, said: "Despite all sorts of wild rumours circulated outside, and some nervousness shown by some in town, Timmins is not menaced by bush fire, nor has it been in serious danger. Not a house in Timmins or in the suburbs has even been scorched, and further there are no settlers in the district who have lost buildings through fire though there have been several bush fires in the area. A number of bush fires up the river have kept the settlers busy protecting their buildings, but none of the fires have been big enough to make protection impossible. Word came to town this week of how ten Fenlander men and women near Connaught with their homes right in the bush stayed and by persistent fighting protected their buildings though the bush and the homes were repeatedly kindled only to have the burning spots just as persistently extinguished by the patient workers. Monday there was some alarm in Moneta and Timmins when fire crept through the fire guard area west of the town and reached the spur line track. At the same time, the fire had crept into Mattagami area west and south of the town. Chief Fire Ranger Hamilton and his men, however, were right on the job, as was also Fire Chief Borland of Timmins, with the very active support of Acting-Mayor Longmore, and the Hollinger Mine, the T. & N. O. Railway and other interests. A gang of men were placed on the spur line, and the fire was extinguished for a considerable distance back. At the pump house and near Mattagami there were a couple of hundred men and they did patient and effective work with the re-

sult that Tuesday the fire was turned and all danger passed. The T. & N. O. supplied a big water tank and an engine for transportation, so there was lots of water. The digging of wells in the Mattagami section also secured sufficient water there. In addition hose from the town was in readiness to further supply water. The fire guard area made by the Government proved its usefulness, and with the town's water supply and fire-fighting equipment reduced the danger to a minimum. The weather last night and to-day is putting the finishing touch to the danger of fire."

A gold rush into Garrison township was reported by The Advance ten years ago. Among those making strikes were Ed. and Mike Larone and Tom Benbow. The Advance ten years ago had the following report of a lively football match at Kirkland Lake in the King Cup series, Kirkland Lake having little trouble in adding a win to their credit: "The football game at Kirkland Lake on Saturday in the King Cup series resulted in a more or less easy win for Kirkland Lake. Timmins did not seem to get going, especially in the first part of the match. On the other hand Kirkland Lake showed surprising good form. The Kirkland Lake team has been re-organized since the Dome match, and now has a strength that will make any opposing teams travel hard. Kirkland has greatly strengthened its team, largely by an adjustment of the lineup. Saturday they played a great old game. Ramsay was at right back and was very effective there. Parsons at centre put pep into the forward lines, the forwards harassing Timmins' defence all the time. It was an off-day for Timmins, the forward line appearing weak in the first half, though generally through the match Ford and Dunbar starred, doing fine work. The defence had a hard time. Street being hurt early in the match, but continuing playing a whale of a game. Jackson did wonderful work and was on the job every minute, winning much praise for his effective play in the match. G. Cadman in goal for Kirkland Lake deserves special mention for his good work. Ford and Ferg. Cadman came mighty close to altering the score. Ford sent Ferg. a beautiful pass which was well taken and placed, and just missed by a fraction. J. Conlon, of Kirkland Lake, referred the match. The final score was 2 to 0 in favour of the Kirkland Lake team. The following is the line-up:—Timmins—Field, goal; Jackson and Street, backs; F. Cadman, Dalgarno and G. Cooper, halves; Dunbar, Ritchie, Ford, A. Cadman and F. Pate, forwards. Kirkland Lake—G. Cadman, goal; T. Ramsay, H. McPhail, backs; J. Purser, C. Hamilton and Hattie, halves; Bolton, A. Hamilton, Parsons, Lucas, McKeown, forwards."

Timmins baseball team won from Iroquois Falls in the district series ten years ago in a match at Timmins, the score being 12 to 6. Flanders and Morrison were the battery for Timmins and Spence and McIntyre for Timmins. Ten years ago Eugene P. Colombo was manager of the Palace theatre at Detroit. Wm. Navarre, formerly of Timmins, sent The Advance a letterhead of the Palace theatre to show this, and The Advance commented:—"So that's where Gene is and what he's up to! His innumerable friends in the Porcupine camp will wish him the greatest success, and then some!"

Ten years ago The Advance said:—"Timmins Citizens Band gave the first of its open air band concerts this season on the athletic grounds on Friday night last. There was a big crowd out, and all enjoyed the good music well-rendered by the Timmins Citizens' Band. The applause from the stands after each selection and the comments of those present showed that the work of the band was much appreciated. There was a large attendance of the band members, and they rendered an attractive musical programme of over an hour's duration. Thanks to the good work of President Cadman and Secretary Faithful of the Grounds Committee the band had a proper place to play, the band-stand being repaired, lights put in and seats arranged. It is the intention to give a similar band concert every Friday evening at the ground during the summer months."

Among the local and personal items in The Advance ten years ago were the following:—"Mrs. R. H. Brown and children left on Tuesday for a visit to the south." "Mrs. M. Bowie and children left yesterday for a visit to relatives and friends in the south." "Mrs. M. Greer, and family left this week for a holiday visit to the south and east."

"Hearing the wild yarn current about the town of Timmins being burned up, or likely to be burned up, or something, a number of travellers on their way in here on Monday evening stopped off at Porquus Junction or other points along the line and sent word in here to have their baggage returned. When the panic passes they will find Timmins here as usual." "For a considerable time past the main door facing the town in the Timmins T. & N. O. depot has been kept locked and closed. This is not only an inconvenience to the people using the station, but it also gives strangers a poor impression. Entry to the station from the street has to be made through the door that leads to the toilets. Just why this is so is difficult to understand, but it does seem certain that the T. & N. O. should so arrange affairs that the main entry to the station could be used for appearances' sake and for the convenience of the public." "Mrs. J. Kilgore and family are visiting in the south." "Mr. and Mrs. Claude Desaulniers are on a business trip to Toronto and other points south." "Born—in Timmins, on Wednesday, June 14th, 1923, to St. Catharines

DEMONSTRATION BY ALIENS AT KIRKLAND LAKE MINE

There are many references these days from various quarters to supposed trouble with the unemployed. As a matter of fact it will be found on investigation that there is no trouble caused by the unemployed. The unemployed generally have played the game. They recognize that Governments and people alike have done all possible for them. Consequently, they would not be playing fair to stage any trouble. And they have not created any disorder. Any trouble that may have been created has been done to alien agitators, believed to be paid for their mischief-making by a foreign country. Alien agitators at various places in the North have staged trouble of various sorts. At the Macassa Mine last week there was a sample of the sort of trouble referred to. The despatches mention the incident as a case where the "unemployed" staged a mild disorder. As a matter of fact the balance of the despatches suggest that it was not unemployed but the alien agitators that caused the disorder. The despatches refer to the case as "an echo of trouble experienced with Kirkland Lake transients some weeks ago." This was not a matter in which the "unemployed" were concerned, but it was a performance staged by the reds. In the affair last week about a hundred men staged a sort of mild demonstration (that is the expression used in the despatches) at the Macassa Gold Mines. Hearing that men were being taken on at this

property (or so they say) a group of men gathered at the Macassa and when told there was nothing for them they became boisterous. A hurried call for the police soon brought the demonstrators under control and they were dispersed without serious trouble. There is a general feeling that had there been work for these fellows at the Macassa they would have staged a demonstration on some other excuse. Their leaders knew that the mine could not possibly engage one hundred men that morning, and the incident throughout is looked upon as simply another of the red games. After playing this sort of game the reds pretend to wonder why they are discriminated against.

Mr. and Mrs. C. R. Brown motored here last week from St. Catharines to spend a few days with friends in Timmins.
