

Firemen's Tournament to be Big Event at Cochrane, July 1

Buses to Run from Timmins for the Event. Big Crowds Expected from Timmins, as Well as from All Other Sections of the District. New Association of Fire Brigades Promises to be Notable Success. Some of the Special Features for July 1st.

Last year when the Cochrane District Volunteer Firemen's Association was formed, The Advance predicted a useful and successful service by the new organization. Preparations for the first annual tournament to be held at Cochrane on July 1st suggest that the association is a live one and will prove popular with the public as well as with the brigades of the area. For the event at Cochrane on Saturday there will be five brigades in the district participating. These are:—Timmins, Schumacher, Iroquois Falls, Ansonville and Cochrane. These are recognized as among the leading fire brigades of the North. Next year this list will likely be increased. Kapuskasing, Kirkland Lake and South Porcupine perhaps being added to the grouping, thus making it unanimous, as it were. The idea in forming the Cochrane District Firemen's Association was to bind together more closely for co-operation and mutual progress the different brigades of this part of the North, the original Temiskaming Firemen's Association being felt to have too large a territory for the convenience of all in this area.

The tournament at Cochrane on Saturday of this week, July 1st, is the first competition staged by the new association. Fire Chief Borland, of Timmins, who is president of the new association promises that the event at Cochrane on July 1st will be an extra special, both for firemen's events and for general sports.

A full line of sports has been arranged, starting with the official opening of the W.C.T.U. swimming pool at Cochrane in the morning when a number of swimming events will be staged. There will be two football matches in the morning, with the play-off in the evening.

The afternoon events will start with a grand parade from railway street to the ball grounds. This is scheduled for 1 p.m. There will be first and second prizes for the best decorated car and the best float, as well as for the best comic attraction, best decorated bicycle, etc. Two prizes are offered for the best decorated building in town for the day at Cochrane.

Field and track events will start at 1:30 p.m. at the ball grounds, with suitable prizes for each event. Among the afternoon's sporting events are:—softball games between Timmins and Ansonville ladies' teams and Iroquois Falls versus Schumacher, men; Cochrane ladies versus winners of first game; Cochrane men versus winners of second game.

A special for the afternoon will be an exhibition of high jumping by Jack Portland, now of Collingwood, but formerly of Cochrane. Jack Portland is Canada's champion high jumper.

The annual tournament of the Cochrane Gun Club is scheduled to take place the same afternoon at the Gun Club, south of the station. Kapuskasing, Timmins and Cochrane will compete for the Cochrane Board of Trade trophy and in other events.

The firemen's events are scheduled for 4 p.m. in front of the Cochrane fire hall, and in addition to the regular silver cups for the wagon race and ladder race, there will be the A. F. Kenning shield for the wagon race and A. V. Waters shield for the ladder race, also the J. A. Bradette Victory trophy to the team winning the most points in the tournament. In addition to the above events, there will also be the usual fire chiefs' race, prize for the best dressed brigade, and firemen's race.

It is expected that there will be many go up to Cochrane for the event on Saturday. Opportunity to make the trip conveniently and at little cost is given by the bus service offered by Dalton & Dwyer's bus lines. Buses will leave Timmins at 8, 9 and 10 a.m. The buses will return to suit the convenience of those going from here. For instance, if there is a dance or other evening feature the buses will wait to suit the convenience of the passengers in the matter. Any caring to take in this happy trip on Saturday and wishing to go by bus have been asked to make reservations by June 28th. Any who have not done so should get in touch with Dalton & Dwyer's bus line at once.

In addition to those going by bus there will be many going by car and by train. All told, it is expected to be one of the biggest days in the history of the North. The Timmins fire brigade has been busy recently practising for the big event on July 1st.

Many Misfortunes to Kirkland Lake Man
Son Drowned; Another Son Injured by Car; Store Set on Fire; All Within the Space of Twenty-four Hours Last Week.

Troubles crowded upon J. W. Trudell, of Kirkland Lake last week, and he will be given the sincere sympathy of all in the North in the sorrows he must bear. Within the space of twenty-four hours his store was set on fire, one of his sons was injured by a motor car, and another son met death by drowning.

On Thursday morning last children playing behind his store set fire to the building, his own young daughter being among the youngsters causing this trouble. Later in the day his six-year-old son, Francois, was rather badly hurt when struck by a car driven by one of the township police officers. Then in the evening he received the sad news that his fourteen-year-old son, Paul, a student at North Bay College, had been drowned in Lake Nipissing when a canoe overturned. Paul had just completed with distinction his first year's high school work at North Bay College and preparations had been made to welcome him home for the holidays at Kirkland Lake on Friday. While out on Lake Nipissing with some other lads the canoe overturned and Paul was drowned. The body was found on Friday last within 100 yards of the shore. The boy lost his life trying to reach the shore after the canoe upset. Where the body was found the water was only six feet deep and had the lad been able to continue swimming a little farther he would have reached shallow water and been able to wade ashore. The body was taken to Kirkland Lake for interment.

First Dominion Cup Finals Match a Tie
McIntyre and Dome Play to a 3-3 Draw on Saturday. McIntyre Tries Out Some New Players. Match Pleases Football Fans.

The first football match of the finals for the Dominion championship was played at Timmins last Saturday between the McIntyre and Dome, and ended in a tie 3-3.

The McIntyre took the field with four new faces on their team. These men came up from Toronto recently and after they got settled down it was a real battle between both teams.

The match was fast and team play was the best seen in the camp for some time and the big crowd of spectators enjoyed every minute of it.

Fernie, Rodgers and White were the scorers for the Dome, while Serle and Hunter did the scoring for the McIntyre.

Dome—Baxter, goal; Foster and McGuire, backs; Munro, Crawford and Morrison, half backs; Cook, Fernie, White, Winning and Rodgers, forwards. McIntyre—Gaw, goal; Rankin and Hampton, backs; Rogers, Clulow, and Dawson, half backs; Callaghan, Serle, Chevalier, Henry and Hunter, forwards. P. Larmer, referee.

Opening Game Saturday Junior Baseball League

The opening game of the season in the Junior Baseball League between Kirkland Lake and Timmins will be held at Timmins on Saturday of this week, July 1st, at 2 p.m. It will be between Kirkland Lake and Timmins Juniors and should be a specially good game. Kirkland Lake Junior ball team has been sponsored this year by the Canadian Legion at the Lake Shore town and is reported to be a classy outfit of snappy young ball players. The Timmins Juniors are also good and may be depended upon to put up a brisk and interesting game of ball. No baseball fan should miss the event on Saturday of this week, July 1st, at 2 p.m. It will be well worth watching from all accounts of both teams.

Timmins and Kirkland Lake Juniors are arranging to play home and home games, the winners of the series to go down south in the play-offs.

Mr. and Mrs. Herb Wallace of Estevan, Sask., formerly of Cobalt and North Bay, are the guests of Mr. and Mrs. R. E. Dye.

Sudbury Worried by Influx of Transients
Claim Made that Kirkland Lake had Signs Saying Men Needed in Sudbury, but This is Denied by Kirkland Lake Reeve.

Sudbury is reported as troubled by the unusual number of people flocking in there at present. While Sudbury refers to them as transients, there seems to be little doubt but that many of them are former residents of Sudbury who are now returning once more to the Nickel City.

Last week and this reports were current in Timmins that a number of ex-Sudbury men had returned to that city from Timmins. Then came the news of the influx of large numbers of men from Kirkland Lake. The claim was made that there were signs up in Kirkland Lake and other parts of the township of Teck telling the public that there were "3,000 men needed in Sudbury." The men returning to Sudbury in the last week or so claim they were fraudulently induced to go to Sudbury in search of employment. "I don't know what we can do to stop the influx," said Mayor W. M. Brodie. "One thing is certain enough, we will not feed these men, and the sooner they learn they cannot get meals at the Sudbury soup kitchen the sooner they will stop coming."

On the other hand Kirkland Lake's reeve, G. D. O'Meara states very emphatically that there were no signs up in the township of Teck saying that men were wanted in Sudbury, as claimed by those returning. So far as can be learned there were no such signs displayed here. Now was there any suggestions made as to men being wanted in Sudbury. What seems to have happened in Timmins was that the former Sudbury people saw references to the re-opening of some of the closed-down plants of the International Nickel Co. and the general brightening of chances for employment at Sudbury. To those homesick for Sudbury that would be enough. The same may also be true of Kirkland Lake. In any event Timmins men returning from Kirkland Lake last week say they saw no signs up there in regard to Sudbury and they are inclined to doubt that any such signs were displayed. They do say, however, that in Kirkland Lake there seemed to be regularly organized plans for transportation by bus and truck to Sudbury. The fare is reported to have been only \$3.00 for the trip. Whether those organizing these trips gave out any statements about the work available at Sudbury or the number of men that might be wanted there is also a matter of doubt. The chances are that the Sudbury people who happened to be out of work and under the idea that any new jobs were open in Sudbury would need little encouragement to tempt them back to Sudbury. It may be an odd idea to many in Timmins and Kirkland Lake, but there are many Sudbury people who would sooner be in Sudbury than anywhere else, believe it or not.

Baby Moose Proving Big Attraction at Latchford

Reference was made in The Advance last week to the big cow moose that disputed the right-of-way of a T. & N. O. train near Latchford some days ago and met death as a result. This cow moose had its calf with it at the time of the fatality and a friend of The Advance writing this week from Latchford says:—

"I read in your paper about the moose killed on the tracks. They brought the baby moose to Latchford, and it is doing fine. It drinks its milk on its knees. It is a great attraction, especially for the children, as it is very fond of company. It is at Mr. Mitchell's home and anyone may see it."

Miss Hazel Neary left for Kingston, Ont., on Thursday last to visit her sister, Mrs. G. A. Conrad.

General Motors Exhibit at Chicago World's Fair

With the Century of Progress Exposition but a few weeks old, the General Motors Building is recognized as one of the great spectacles of the Chicago Fair, especially at night. Three hundred and fifty flood and projector lamps bathe the orange, yellow, red, silver and blue building. The orange-gold tower is the focal point of attention, rearing its 177-foot height conspicuously into the many-hued heaven created by the exterior lighting. Enough electricity is consumed per night to pump water for a city of 25,000 inhabitants, or to provide home and street lighting for a city of 7,500 inhabitants. An average of two million, three hundred thousand watts of electricity a day is used. Monthly consumption amounts to sixty-nine million watts. This is equal to 92,000 horsepower a month. Approximately three times this amount of current is consumed in the interior of the giant structure for power in the Chevrolet-Fisher Body assembly plant and other action exhibits and to light the seven main rooms.

N.O.H.A. Ready to Look After Itself Says Secretary

A despatch last week from North Bay says—"When apprised of the result of the O.H.A. executive meeting last night, Secretary W. A. Thompson, of the N.O.H.A., said there was no such attitude in N.O.H.A. circles, so far as he knew against hockey players migrating. In such cases the N.O.H.A. either had or would satisfy themselves that each and every player was employed and had come North legitimately. In the case of players transferring from the North to the South, no fuss was being raised by northern clubs or by the N.O.H.A. executive. There has been a complete understanding in the past between the two governing bodies, that transfers requested by the one would be accepted by the other. Each governing body is supposed to know its own affairs best, and there has been no interference. If it was the purpose of the O.H.A. to busy itself with what is going on in the North, it would be a complete change of policy, the secretary pointed out, one which would not augur well for the O.H.A. The N.O.H.A. is now a full-fledged and well-organized body, quite capable of keeping its house in order. It has done so for 14 years. If the O.H.A. were to establish "a new code of ethics" so to speak, including the North, it would be a slap in the face to the N.O.H.A. governing body. To be perfectly frank, Mr. Thompson said, the N.O.H.A. had been given a free hand in its own territory, and there had been complete reciprocity

A Delicious Recipe for
ICED TEA

Infuse six heaping teaspoonfuls of "SALADA" Black Tea in a pint sized tea-pot. After six minutes strain and pour liquid into half-gallon container. While hot, add a cup and a half of sugar and the juice of two lemons; then fill container with cold water. Do not refrigerate as tea will turn cloudy. Serve as required, with an ice cube in each glass.

"SALADA" TEA
Fresh from the gardens'

Walker's Trainmen Overalls

They are not only good Overalls but they have money in the pockets. "Every pair has one printed pocket and if returned has a trade-in value of 25 cents, or six printed pockets have a trade-in value of one new pair of Overalls.

An exclusive feature of the Walker Trainmen Overalls is the Nu-Way brace. There is no elastic to give away or rot. The stretch is in the phosphor bronze springs. These braces may be washed without injury.

These Nu-Way braces are not used on any but Walker's Overalls and are guaranteed for a year
