The picture herewith is of the platform in St. Anthony's parish hall at the fifth annual graduation exercises of St. Mary's hospital Timmins. Across the top of the platform will be seen the class motto, "Semper Fidelis."— "Always Faithful." The central figure in the picture is Rt. Rev. L. Rheame, Bishop of Halleybury.

The Nurses shown are (from left to right):—Miss Margaret Sweeney, R.N.; who gave "words of advice" to the graduating class, and who pinned on the medals; Miss Irene Mary Clement, Miss Clara Ella Lamothe, Miss Margaret Frances Doherty, Miss Ellen Mary Wilkes, Miss Violet Rose McGale. Sister Paul Emile was also one of the 1933 graduates of St. Mary's.

Fifth Graduation Exercises of St. Mary's Hospital, Timmins

Kirkland Lake Man Executed Last Week

Hanging of Wm. Antonowicz at Halleybury for Murder of Mrs. Annie Munduk. Execution Took Place Immediately After Midnight.

There have been many queries made to The Advance in reference to the hanging of William Antonowicz, the Kirkland Lake man sentenced to be executed for the murder of Mrs. Annie Munduk at Kirkland Lake last January. Antonowicz also shot and killed another Kirkland Lake woman, his former landlady, as well as wounding two men who happened on him in his shooting party. In reply to the questions it may be said that Antonowicz was duly executed on Wednesday morning, June 21st, the hanging taking place at the Halleybury jail immediately after midnight on Tuesday. Halleybury affects the so-called daylight saving time and so despatches from Halleybury refer to the execution taking place at 1.05 a.m. As a matter of fact the execution was at 12.05 a.m. Wednesday, daylight saving time doing nothing for this particular fellow. The monkeying with the clock did not affect his time any nor save him any daylight.

In Canada the custom has been to give little details in regard to hangings. Of course, there are some newspapers, especially among the dailies that would like to change this practice, but the general attitude of the public is against the idea of capitalizing the death of those who pay the penalty for their crimes against humanity. On the other hand not only public curiosity requires some notice, but the interests of justice and the safeguarding of the public safety require that executions should not pass entirely without notice. The average Canadian newspaper seeks to play fair with the public, and still not make executions the occasion for gruesome sensationalism. It will be admitted that the following report by The Halleyburian seems to fill the bill in every way. It does not descend to cheap sensationalism nor to gruesome detail, yet it covers the situation fully so far as public concern necessitates. The Halleyburian's reference last week to the execution of Antonowicz is as follows:—

"With no outward show of emotion, William Antonowicz, 34-year-old veteran of two European armies, and a gunfire casualty of the world war, died on the scaffold in the district jail at Halleybury early yesterday morning for the murder of his common law wife, Mrs. Annie Munduk, who twice had delayed their nuptials, and who finally married another man, according to evidence given at Antonowicz's trial two months ago. Antonowicz had been convicted of killing Mrs. Munduk by shooting her on McCamus avenue, Kirkland Lake, on January 9 last, and on the same day he shot and slew another woman and wounded two men. Edwards was the executioner, and after the hanging, Antonowicz's body was buried in the jail yard to mark the third grave of executed murderers.

"The sentence was carried out soon after midnight, standard time, and the condemned man was hanged within a minute after leaving the death cell at 1.05 a.m., daylight saving time. He was accompanied to the scaffold by his guards and by Rev. Father Sowinski, temporarily in charge of St. Patrick's R.C. church, Cobalt. Eleven minutes later, Antonowicz was pronounced dead by Dr. W. C. Arnold, jail surgeon, who was accompanied by Dr. R. C. Lyon. The formal inquest was followed by interment of the body, and the entire proceedings were concluded in less than three quarters of an hour. A number of citizens gathered outside the jail and the coroner's jury was kept in the adjoining court house until after the execution. The usual formal notices were posted on the jail doors following the execution. Although Antonowicz had been told

Officer Here July 9 to 12 for Pension Adjustments

For the information of all returned soldiers who are seeking to have a readjustment of their pension or those who feel they are entitled to a pension, the visit here of the pension adjuster will be good news. The new pension amendments call for a slightly new procedure and therefore interviews will of necessity be only for cases which are now in abeyance and those which have had no decision rendered.

H. Wyse, the Northern Ontario pension adjuster of the Canadian Legion, will be in Timmins for three days arriving Sunday, July 9th at 5.45 p.m. and leaving on Wednesday, July 12th, at 12.55 p.m.

It is expected that Comrade H. Wyse will speak at the special meeting of the Timmins branch of the Legion on Monday, July 10th, when the president of the Ontario Provincial Command, Comrade J. Ferry, will be present on his official visit to the members.

Comrade Austin Neame will be pleased to take all particulars of any claims before the arrival of H. Wyse, and will give all assistance necessary in filing the cases.

Several Deer and Moose Seen on the Highway

There is a lot of truth in the suggestion made here on one occasion by Jack Miner to the effect that one of the greatest attractions the North could hold out to tourists would be the sight of live game. His idea was that if a tourist thought he would be liable to see a deer or a moose or a bear skip in front of his car on the road the average man from the South would think this was the right country to come to. Many tourists visiting the North have shown that Jack Miner was right in this idea of his. Accordingly, one of the best forms of publicity the North can secure so far as the tourists are concerned is true incidents of game on the highway or in sight of passersby. For this reason it would be well for all newspapers in the North to pass along anything in this line that may come to notice. Following out this idea The Advance publishes herewith the following note from The New Liskeard Speaker last week, previous reference having been made last week in these columns to the cow moose killed by the train near Latchford. The Speaker's note is as follows:—"A citizen drove to North Bay on Saturday morning last and the party had the pleasure of seeing three deer during the trip. A visitor from the South tells us on one trip his party saw seven deer between Goward and Tilden Lake. Files are given as the cause of so many deer being out on the highway, where the open ground gives them a respite. Last week a train killed a mother moose a short distance below Latchford. A calf was later found and is being taken in hand by the authorities."

Thinks Conference Will Aid Gold Mines

G. C. Bateman, Secretary of Ontario Mining Association Looks Upon World Economic Conference as Sure to Help Gold Producers.

"I cannot see anything else but a very cheerful outlook for Canadian gold mines as a result of the World Economic Conference," said George C. Bateman, secretary of the Ontario Mining Association in an interview at Toronto last week.

"There are two possibilities arising from the Conference so far as gold is concerned. One of them is a straight revaluation of gold which is not receiving much support, and the second is stabilization of currencies which is receiving great support. Obviously gold is not going to be stabilized on the basis of its old par. If we get stabilization on revalued currency in terms of gold, then it means increased purchases of gold.

"So far as Canada's silver production is concerned, the resolution of Senator Key Pittman, of the United States delegation, by which paper money would have a 20 percent, gold backing and five percent, optionally in gold or silver, would have little effect. Of course, if the price of silver was pegged at, say, 50 cents per ounce it would undoubtedly help. But for the most part silver is a by-product in Canada. Practically the only straight silver-producing districts are those of Gowanda and Cobalt—leaving Great Bear Lake out of consideration for the moment—and most of our silver comes as a by-product from mines which produce gold, lead, zinc, copper or other ores. It would not be produced if these products could not be obtained."

Timmins Club Fifth in Attendance for April

The attendance record of Kiwanis Clubs for April as published in the current "K-Ray," the official publication of Kiwanis Clubs, shows that Timmins has fallen a little in its attendance standing, this no doubt being due to members away on holidays where they are unable to attend Kiwanis club meetings.

In the Northern division for April the attendance leadership is taken by the Owen Sound Club. Orillia is second, Noranda third, Timmins fourth and Kirkland Lake fifth. Their attendance percentages are as follows:—Owen Sound, 93.00; Orillia, 91.00; Noranda, 89.70; Timmins, 86.24; Kirkland Lake, 83.93. No other club in the division reached 80 per cent. Cobalt was 55.17; New Liskeard, 75.30; Sault Ste. Marie, 64.81. There are twelve clubs in the Northern division, so, perhaps, Timmins is doing well to be in fourth place, but in recent months, the club here has been making a much better showing.

Out of 46 clubs in the Ontario-Quebec-Maritime district of the Kiwanis only twelve had 80 per cent. or more. For the Ontario-Quebec-Maritime district the leading clubs in attendance percentage were as follows:—Oshawa, 95.51; Owen Sound, 93; Orillia, 91; Noranda, 89.70; St. Stephen, 87.87; Hamilton, 86.70; Timmins, 86.24; Kirkland Lake, 83.93; Ingersoll, 83.50; St. John, N.B., 83; Niagara Falls, 81.89. There are no other clubs in the Ontario-Quebec-Maritime district with 80 per cent. or more for attendance for April. In the district the figures put Timmins seventh and Kirkland Lake eighth. In other recent months the Northern Division led the whole district both in attendance percentage for the clubs and in the standing of the leading clubs. It will be noted that for the month of April the Central Division gave the leading club, while the Western and Maritime Divisions also got in among the leading clubs.
