

## Gifted Speaker Tells of the Noble Work to Help the Blind

**Capt. Baker, Managing Director of the Canadian Institute for the Blind, the Guest Speaker at Kiwanis on Monday. Work in Canada for Blind Outlined in Effective Way. Talented Concert Tenor Delights Gathering with Vocal Numbers.**

The weekly luncheon of the Timmins Kiwanis Club on Monday at the Empire hotel was one of the most interesting and inspiring held for some time. There was a large attendance and a number of guests and all greatly appreciated the meeting. Among the guests for the day were:—Capt. A. E. Baker, managing director of the Canadian Institute for the Blind, Toronto; D. B. Lawley, field secretary of the same noble association; Rev. Murray Tait, of Schumacher United Church; Rev. Mr. McRoberts, who is supplying for Rev. Bruce Miller who is on holiday this month; Austin Neame, past president of the Canadian Legion; E. L. Longmore, an old friend of Capt. Baker; and several others, some of whom were college friends of Capt. Baker.

President Reg. Smith was in the chair and spoke of the pleasure felt by the Kiwanis Club in having Capt. Baker as the guest speaker for the day. President Reg. Smith also welcomed the other guests for the occasion. The president pointed out that the work for the blind was somewhat similar to the causes for which the Kiwanis specially worked. Although the Kiwanis as a club could not enter the present campaign to raise funds for the blind the president felt that each and every individual member could and would help it along.

E. L. Longmore, on being asked to introduce the guest speaker, said that he felt it an honour and a privilege to do so. He had known Capt. Baker for over twenty years, and from this knowledge spoke of him in the highest terms. In civil life Capt. Baker had given notable service and shown high promise. He had served his country during the war with distinction and being blinded in the service overseas he had returned to Canada to help the blind here. His appointment as managing director of the Canadian National Institute for the Blind was a case of the position seeking the man. As a member of the executive Capt. Baker had shown such an interest and talent that his appointment to direct the work seemed the logical course. When he had taken hold both the work and the finances were in bad condition, but in a short time Capt. Baker had placed both the work and the finances on a basis that fully justified the confidence that his colleagues had shown in him.

Capt. Baker was given a rousing welcome as he rose to speak. After extending his thanks to the Kiwanis, he proceeded to outline in effective way the history of the work for the blind in Canada. After losing his sight through a German bullet in 1915 Capt. Baker had passed through St. Dunstan's and then had returned to Canada to take up life again. He explained that St. Dunstan's had been established by Sir Arthur Pearson, the famous English publisher. The basic idea of St. Dunstan's was to assist the blind to make their own way in the world and to teach them and aid them to this end. There was nothing in this line attempted in any extended way in Canada until the Canadian National Institute for the Blind had taken up the work.

Capt. Baker explained that the survey showed many suggestive facts, one of them being that seventy per cent. of the blind lost their sight in adult life. No one was immune. The 7,000 registered in Canada as blind came from all walks of life. Blindness came from many causes, heredity, disease, accidents, both mining and industrial and otherwise. No class, no age, could escape the danger of loss of sight.

The Canadian National Institute for the Blind was started in 1917. Capt. Baker explained the plans of organization and the basic ideas held by the founders. They were not in favour of an organization that would be wholly a Government one, because government institutions were not likely to be able to carry out such work in the best way. The public seldom continued full interest in any government-controlled department and the most complete interest was necessary for the best success in this case. What was aimed at the Canadian National Institute for the Blind was full public support with reasonably good government grants. These government grants carried with them the fact that there was government audit of the books and account and this was an added advantage as it assured public confidence.

Capt. Baker referred briefly but comprehensively to the plans adopted to help the blind. These included temporary help in cases of need, training to help the blind to be self-supporting, aid in securing employment for trained blind workers, assistance in establishing blind persons in businesses, help in selling their goods, and support in their buying. In selling goods bought by the Institute in large quantities for cash and sold at cost to the blind, the Institute adjusted the matter of transportation costs so that all paid the same rate no matter where they might be. This was a great advantage. Another way in which the Institute had

(Continued on Page Six)

## Week of Wonders Popular This Week

Event at the Skating Rink Under Auspices of the Legion Proves Big Drawing Card. Still in Progress. Don't Miss It.

The Week of Wonders now in progress at the skating rink under the auspices of Timmins branch of the Canadian Legion has many very notable features. In this connection mention is made of the splendid display booths of local concerns, these including Sinclair the Valet, Robt. Simpson Co., the Ideal Hardware Co., McDowell Motors, the Yolles Furniture Co. and the Grimsby Fruit Market. All these booths are attractive and the many lines displayed are proving a big attraction to the patrons.

Another special display will be that from the Canadian National Institute for the Blind. This is expected to be on display the balance of the week and will show the handicrafts of these blind people, such as brooms, baskets, rugs, etc. This exhibition should be seen by all.

As a very special novelty in the line of prizes, the Legion secured a number of love birds and canaries. These are creating quite a sensation and those who have secured a pair of love birds already have expressed delight at this special feature. These can be won at the "Bingo" table, where there is also a very attractive display of other prizes.

Ticket 837 won the first prize on the nightly draw, this draw being an attraction that is very materially assisting the cause for which the bazaar is being held.

Plan to attend. You will be more than interested in the display booths. The prize draw takes place on Saturday August 26th at 11.30 p.m. If you have not seen the splendid prizes offered it would be good policy to do so and get a ticket before Saturday.

## McIntyre Field Day Labour Day, Sept. 4

Programme of Unusual Interest For Event at New McIntyre Athletic Grounds on Monday, Sept. 4. Some of the Features.

The only big athletic event for Labour Day, Sept. 4, announced so far, is the McIntyre field day to be held at the new McIntyre athletic grounds. Last week reference was made to this event and this week an outline of the programme for this Labour Day event on Monday, Sept. 4, can be given.

In the morning there will be children's races for various ages of boys and girls, with good prizes for these events.

At 10:30 a.m. the special feature will be a football match between the McIntyre team and the Hamilton All-Stars coming directly from Hamilton.

In the afternoon, starting at 2 p.m. there will be the men's open track and field events, with first and second prizes—100 yards, 220 yards, 440 yards, 880 yards, 1 mile, 3 miles, pole vault, high jump, broad jump, shot put, discus.

Also there will be the ladies' 100-yard race, and ladies' 100-yard special handicap.

Relay races will be featured, with individual prizes for each of the winning teams. These include: One mile for teams of four men, 440 yards each; 440 yards for teams of 4 girls, 110 yards each.

Then there is the annual grand 4-mile relay for teams of 4 men, 1 mile each, for the Bank of Commerce trophy and individual prizes.

Another big feature of the day will be the horseshoe pitching, McIntyre finals.

Of course there will be baseball! At 4 p.m. there will be a baseball game between McIntyre and an outside team to be named later.

The first aid demonstration by four teams will be one of the most interesting features of an attractive programme for the day.

The Tisdale Band will be in attendance at the event and furnish music for the occasion.

There will be an ice cream booth on the grounds for the convenience of the people.

There will be balloons free, while and fun for young and old. Children will be admitted free, while a small charge of admission is being made for adults.

As a fitting conclusion to a happy day of sports, there will be a pleasant dance in the McIntyre recreation hall in the evening.

With a big programme of sports, games and novelties such as outlined above, the McIntyre field day should draw a large attendance from all over the district.

Born—To Mr. and Mrs. Lawrence Irish (nee Willa Robar) on Sunday, August 20th, at home—a baby girl.

## Nova Scotia Sweeps Liberals Into Power

Twenty-One Liberals Elected Says One Report. Canadian Press Says Nineteen Liberals to Six Conservatives.

Nova Scotia returned to its old love on Tuesday of this week in the provincial general election when the Conservative government, in that province, was swept from power in overwhelming way. The Liberals, headed by Angus L. MacDonald, were elected by notable majority. One despatch gives the result as 22 Liberals and 8 Conservatives. The Canadian Press despatches do not make it quite so bad, but not much better, according to the Canadian Press, there were 19 Liberals elected, 6 Conservatives, one seat a tie vote and four others in doubt. Hon. G. S. Harrington, the premier, won his seat by a small margin, but his colleagues, except Hon. P. C. Black, Minister of Highways, went down to defeat. The six independent candidates, who ran, were not a factor of the contest. There are only 30 seats in the Nova Scotia provincial legislature. The following is one recent summary of Tuesday's vote:

Liberals elected—Guysboro, Halifax, five; Kings, Lunenburg, two; Shelburne, Yarmouth, Digby, Annapolis, Cumberland, one; Pictou, two; Antigonish, one; Cape Breton Centre, Inverness, Total 19.

Conservatives elected—Queens, Colchester, two; Cumberland, one; Cape Breton South, Cape Breton North, Total six. In doubt four. The vote Cape Breton east.

## Charge Railway Men with Theft from Car

Fourteen Cases of Beer en Route to Kapuskasing Said to Have Been Stolen. One Man Out on Bail. Warrant Out For Another Man.

The disappearance of 14 cases of liquor of 13 assorted brands from a freight car in the T. & N.O. yards at Englehart on July 23 had a sequel in police court at Englehart on Monday of this week, when Eldon Westman, hotel owner, pleaded guilty to illegal possession of liquor and was fined \$500 and costs by Magistrate Atkinson. In a statement I court, Westman allegedly incriminated Harold Smith, T. & N.O. conductor, who is held on \$5,000 property bail on a charge of theft.

A warrant on a similar charge is out for Cleve Leonard, T. & N.O. engineer, who is said to have left his home town of Englehart. Police allege that search of Westman's hotel resulted in the finding of 16 bottles of liquor and four cases of beer and Westman told the magistrate he had bought the liquor from Smith, on the understanding that any orders he gave would be filled from Montreal.

The car was en route to Kapuskasing loaded with liquor consigned to the Government store there. At Forquijon Junction, it is stated, a checker noticed the seal was inside out and investigation followed by Robert Swan, T. & N.O. officer, Provincial Constable Thomas Houlcroft and Chief McPherson. The liquor is said to have been cached in the bush a mile and a half from Englehart.

## Championship of the North to be Decided

Roy Hamilton and Bert Dempsey to Feature Card on Friday Evening Next at Skating Rink. Other Notable Bouts.

One of the best boxing cards ever presented in the North is offered at the skating rink on Monday evening next, Aug. 28, commencing at 8:30 p.m. sharp.

The main bout is between Roy Hamilton, 133 pounds, Timmins and Bert Dempsey, 135 pounds, Timmins, for the lightweight championship of Northern Ontario. It will be ten two-minute rounds, and should prove a humdinger, as recent misunderstandings have made both the contestants determined to win.

The bout is absolutely and fully arranged, both these fighters being signed up and transportation having been forwarded to the one fighter who has been in Rouyn in recent weeks.

While the chief interest will centre in the main bout, any of the other features may be considered also as worth the whole price of admission.

For instance, there is Farmer Neale, 150 pounds, Timmins, who is to take on Porky Tomick, 150 pounds, Toronto. This will be eight 2-minute rounds, and boys, it should be good.

The preliminaries include Jerry McNulty, 148 pounds, Timmins, and Ed. Godin, 150 pounds, Sault Ste. Marie, in six 2-minute rounds. A man who has seen both lads in action says that this match will please the fight fans. Also, there is Young Dubeau, 128 pounds, Timmins, vs. Sonny Casey, 130 pounds, Kirkland Lake. Sonny Casey expects to find Young Dubeau an easier partner than Alfie Johnston, who has the habit of making them "kiss the canvas." However, all this remains to be seen, but it does seem certain that the bouts on this card for Monday night have all the elements that will make them just the stuff for the fight fans.

Anyone missing the fight between Roy Hamilton and Bert Dempsey in losing a lot.

Gardens, 30 foot and under—five prizes. Gardens over 30 foot to 60 foot, Hollinger Townsite excluded—4 prizes. Gardens over 60 foot—3 prizes.

All entries for garden competition must be in on or before Thursday, Aug. 31. These may be left with T. A. Skelly, 10 Sixth avenue, or with A. E. Taylor, 22 Floral Park. Gardens may be judged on Saturday, Sept. 2.

**NOW EMPLOYING 352 MEN AT AIR CAMPS ALONG T. & N.O.**

There are now 352 men employed in the six air camps between North Bay and Porquus Junction. Superintendent G. Mitchell stated on his return from a tour of inspection. The largest camp is at Diver, where 98 men are stationed. Men are distributed in the other camps as follows: Gillies, 60; South River 47; Emsdale 11; Ramore 71; and Porquus Junction 49. Eleven are employed at North Bay headquarters.

## Ont. Minister of Labour

HON. J. D. MONTEITH  
Speaking at Essex, Hon. Dr. Monteith, Ontario Minister of Labour, forecast the discarding of the present direct relief plan in Ontario. "The province will go back to a plan much like that of two years ago, except that Federal and Provincial Governments and the municipalities will each pay one-third of labour costs and the municipalities will pay for all materials."

## Horticultural Show and Garden Contest

Annual Flower and Vegetable Show at Timmins in the Curling Rink on Monday, Sept. 4, (Labour Day) and Tuesday, Sept. 5.

The annual flower, fruit and vegetable show put on each year by the Timmins Horticultural Society has achieved much popularity at home and respect abroad. It is recognized now as one of the best horticultural shows in the province. This year promises to be equal to or better than previous years. The event this year will be held in the Timmins curling rink, across the track from the depot, the date being Monday, Sept. 4, (Labour Day), and Tuesday, Sept. 5. Window cards, issued some days ago by the Timmins Horticultural Society say that the 1933 show will be the largest and most complete exhibition of flowers and vegetables north of Toronto. While this may seem like a wide claim, a visit to the show here will prove that it is fully justified by the facts. The window cards also announce an opening address by His Worship Mayor George S. Drew in the evening at 8 p.m., with the further item that the Timmins Citizens Band will be in attendance. Admission to the exhibition is free.

The prize list for the annual horticultural show were issued some weeks ago and may be secured from the secretary, T. A. Skelly, or from others of the officers and executive of the society.

The prize lists show a large number of awards in the various classes, as well as many specials. There are the usual classes in cut flowers, annuals and perennials, fancy baskets, bouquets, house plants, flowering and foliage, together with about fifty classes in vegetables as well as some in fruits and specialties. There are a number of very interesting special prizes.

In the last year or two, the Timmins horticultural show has been generally recognized as one of the best in the province. It intends to uphold its record this year, as one of the best advertisements for the town and district.

In connection with the annual horticultural show, there is also an annual garden competition. Particulars of the garden contest as given in the prize list may be summarized as follows:

Owing to the large membership of the Horticultural Society and to encourage new members, the Hollinger townsite has been placed under a separate heading. This eliminates the possibility of two prizes being awarded to one garden, and so extends the prize list, but it does not alter the possibility of a Townsite garden being the "best garden in town of its size." The following are the prizes:

Hollinger Townsite gardens only, first, second and third prizes are donated by the Hollinger Mines; fourth prize, donated by Canadian Industries, Limited; fifth prize by Timmins Provision; sixth, donated by A. J. Shragge; seventh prize donated by C. and C. Store.

Gardens, 30 foot and under—five prizes. Gardens over 30 foot to 60 foot, Hollinger Townsite excluded—4 prizes. Gardens over 60 foot—3 prizes.

All entries for garden competition must be in on or before Thursday, Aug. 31. These may be left with T. A. Skelly, 10 Sixth avenue, or with A. E. Taylor, 22 Floral Park. Gardens may be judged on Saturday, Sept. 2.

**NOW EMPLOYING 352 MEN AT AIR CAMPS ALONG T. & N.O.**

There are now 352 men employed in the six air camps between North Bay and Porquus Junction. Superintendent G. Mitchell stated on his return from a tour of inspection. The largest camp is at Diver, where 98 men are stationed. Men are distributed in the other camps as follows: Gillies, 60; South River 47; Emsdale 11; Ramore 71; and Porquus Junction 49. Eleven are employed at North Bay headquarters.

**Home Teacher for Blind to Visit Here**

Young Lady Here to be Taught Leathercraft, Basketry and Mat Making. Boy to be Prepared for School Attendance.

During his visit to the Kiwanis Club on Monday, Capt. A. E. Baker, the blinded war veteran who is managing director of the Canadian National Institute for the Blind, arranged in collaboration with heads of the Children's Aid Society, to send a qualified blind home teacher to Timmins in September to give lessons to two blind persons who are residents of the town. One of these is a young lady who will be taught leathercraft, basketry and mat-making. The other is a young boy who will be prepared by the teacher to go to the special school for the blind at Brantford, Ont. These home instructors sent out by the Canadian National Institute for the Blind are remarkably able and effective in their work and the assistance they give to blind persons in helping make them self-supporting, as well as relieving them from tedium and helplessness can not be over emphasized. The individual care and attention given by these special instructors makes their work even more effective than that of training schools or other institutions. By giving blind persons occupations whereby they can make a little money as well as pleasantly employ their time, the home instructors certainly do excellent service. For this reason there will be special interest in Timmins and district in the campaign now under way for funds to carry on the good work of the Canadian National Institute for the Blind. With evidence locally of the good work of the Institute, there will be greater appreciation of what is being attempted and accomplished for benefit of blind.

Capt. Baker left here on Tuesday for Kirkland Lake where he was to be the guest speaker to the Kiwanis Club luncheon at Kirkland Lake on Tuesday. During his stay in town Capt. Baker met many old friends and college chums in this district and he also made many new friends by his pleasing personality and his devotion to the service of others.

## Cochrane Band Pays Visit Here Sunday

Concert Given in Afternoon and Cochrane Band Also Took Part in the Timmins Citizens' Band Concert in the Evening.

Cochrane Band, under the leadership of Bandmaster A. Crossdale, visited Timmins on Sunday last, and the spirit of friendliness and neighbourly good feeling thus shown was fully appreciated by the town of Timmins, as well as the music furnished by the Cochrane Band. The Cochrane Band was about 23 strong and was accompanied here by Mayor Mitchell, the president of the Cochrane Band. They were welcomed by Mayor Drew who extended the hospitality of the town and thanked them for the visit and the neighbourly spirit thus shown. From 5 to 5.15 the Cochrane Band presented a programme of band selections that received much applause. In the evening from 8 to 8.30 the Cochrane Band again favoured with a number of selections. They were entertained at luncheon by the Timmins Citizens' Band.

After the half hour of band music by the Cochrane Band on Sunday evening, the Timmins Citizens' Band presented their sixth open-air concert this season. The programme was a good one and Bandmaster Wolno and his bandmen did exceptionally well in presenting the programme. The programme as given was as follows:—March—"Number Four"; selection, "Minstrel Songs"; selection "William Tell"; fantasia, "Melodies of the King"; selection "Comrades in Arms"; march "The Roll Call"; "God Save the King"

## Policemen's Charity Ball This Evening

First Annual Policemen's Charity Ball at Riverside Park This (Thursday) Evening. Noted Radio Dance Orchestra to Be Present.

To-night's the night of the first annual Policemen's Charity Ball under the auspices of the Timmins police department. The event is to be held at Riverside pavilion, probably the best dance hall and dance floor in the North Land. In all other lines the annual Policemen's Charity Ball is also aiming at the very best. The orchestra is the noted radio orchestra of Jimmy Fry and his eight master radio dance artists, to be here in person. This is Toronto's favourite orchestra and equally popular on the air from CFRB, CKCL, CFCA. There will be novelty dances, noise makers, balloons, and other specialties and novelties. Dancing will be as the printed announcements say, "from nine until unconscious."

Tickets have been on sale during the past week or two for this event and large numbers of them have been sold. Anyone who has missed securing a ticket should not miss attending this notable dance to-night, however, for tickets will be obtainable at the door. Not only will everybody find a welcome at this dance, but they will also find a happy time and an evening to be long remembered. Any proceeds from the events will go to the associated charities.

## Hon. T. L. Kennedy Pays Visit to North

Minister of Agriculture Visited Many Parts of the North Last Week, Seeing Things for Himself.

Hon. Thomas L. Kennedy, Minister of Agriculture for Ontario, was a visitor last week to the North Land. His chief purpose in the visit was given as with a view to furnishing markets for the agricultural products of the North. With this in mind he made a survey of farm conditions, going as far north as Cochrane and as far west as Kapuskasing and paying special attention to such centres as New Liskeard, Englehart and others where farming is comparatively well established. Previous to leaving Toronto the Minister of Agriculture was quoted as saying:—"Things have not been any too good and we have been trying to work out some satisfactory markets for them up North."

It may be said that the problems of the established farmer in the North are much the same as those of the farmers elsewhere. After his visit to the North Hon. Mr. Kennedy will likely agree that the chief agricultural problem of the North is that of the large body of settlers, homesteaders, or whatever other name may be given these pioneers, who have not yet established themselves as farmers and who are having a serious struggle to continue their pioneer effort. The problems of these settlers touch the question of roads particularly, and the other difficult question of existing until then can become established. It is true that road-building helps the settlers solve the other main problem to some extent. At the same time it distracts their attention from the main question—that of establishing a farm. The solution to the settlers' problems will be found in the building of needed roads to give them access to markets and also in the use of a land-clearing bonus such as has been tried so successfully in Quebec. From present indications such a bonus would be a good investment for the province.

Perhaps information along this line may have been given Hon. Mr. Kennedy on his visit here last week by some of the district representatives of the department of agriculture. These representatives know conditions and the settlers and they could give the Minister valuable information, indeed, provided they felt free to do so. It is to be hoped that they did feel so free. It is pleasing to note that the announcement from Toronto specifically mentioned that Hon. Mr. Kennedy intended to confer with the various district representatives in the North. This is a good sign, and if the conference were free and open Hon. Mr. Kennedy would receive valuable information, indeed.

Miss Mary Giroux, of Timmins, who has been visiting friends in Noranda, was the young lady to win the prize-waltzing contest at a dance in the Croatian Hall, Noranda.

**Bicyclist Struck by Truck on Thursday**

Three Charges Arise from Accident Last Week, when Young Man was Knocked from Bicycle and Injured by Car.

An accident at the corner of Fifth avenue and Hemlock street on Thursday morning of last week resulted in injuries to Ernest Lacy, son of Mr. and Mrs. Chas. Lacy, 35 Tuke street. It also resulted in three separate charges against the owner and the driver of the motor vehicle concerned. Ernest Lacy who is about 17 years of age, was riding his bicycle along the street when the motor vehicle struck him, knocking him from his bicycle and causing him several cuts and bruises as well as two broken ribs. The driver of the motor vehicle at once saw to the taking of the injured young man to the hospital where his injuries were attended to. Then the accident was reported to the police. As soon as the police began enquiry into the accident matters came to light that resulted in police court cases. In the first place the driver of the motor vehicle, Rene Courchene, had no proper permit for driving the motor vehicle. This meant a charge against the driver. The second charge was against the owner of the vehicle for employing an unlicensed driver. Further it was noted that the vehicle was a motor car that had been made into a truck, but the necessary truck markers had not been secured. This resulted in another charge against the owner of the vehicle for not having the right markers. On each of the three counts a fine of \$10 and costs was imposed in the police court this week.

The driver was arrested after the accident but later allowed out on bail. Ernest Lacy is making good progress to recovery from the accident.

## Upper School Examination Results for Timmins Centre

Pupils Obtaining Pass Standing in the Upper School Subjects at This Summer's Department Examinations at Timmins. Pupils Passing on All Subjects Tried and Subjects in Which Pupils Passed.

Nomenclature—I—75 p.e. or over; II—66 to 74 p.e. inclusive; III—60 to 65 p.e. inclusive; C—50 to 59 p.e. inclusive.

An asterisk denotes passing in all Upper School subjects tried.
