DEATH OF MAN WHO MADE WHITE RIVER WELL KNOWN

When talking of cold weather in Canada the name of White River naturally comes to mind. White River for years had the reputation of being the coldest spot in the Dominion. The man who made White River so well known died last week in Montreal General Hospital. He was Joseph E. Depew, aged 73, citizen of White River for many years, and magistrate for twenty years in remote sections of the district. The late Mr. Depew, pioneer of the White River district in the days of the construction of the Canadian Pacific Railway. He was the first railway terminal agent at White River for the C.P.R. The town was then a small place in Northwestern Ontario. Mr. Depew filed the famous weather vane from White River, "45 below," "55 below," and even "60 below" being given out, and quite truthfully. So often was White River the coldest place in Canada and so low did the mercury sink in that town on occasion, that Mr. De-

pew's temperature reports were keenly watched and became a matter of front page news in the dailies. He often had apparent competitions from other towns, Prince Albert, Edmonton, Hearst and other towns vying for the honours for lowest temperature. When White River was below the forty mark, the town could usually depend that its thermometers would go as low as anywhere else, but when it was a case of White River having a warm day, say only 28 below, then Hearst or some of the Western towns would be depended upon to try and beat the White River record by a "20 below" or so. When White River was doing its best, however, say around "55 below" or "60 below" it backed the other places off the cold map.

For twenty-five years the weather reports sent out by the late Mr. Depew interested literally thousands. All knew they were correct. He never faked. The truth was interesting and he sent it out.

The late Mr. Depew had been residing in Montreal recently. There he was taken ill and an operation was necessary. He failed to recover from the effects of the operation.

Last July Mr. Depew and his wife celebrated their golden wedding anniversary at White River, where they had made their home for so many years and where Mr. Depew had tapped out his messages about the cold that made White River famous.

D. K. McDonald, of Gold Centre, left on Wednesday of last week en route to Montreal where he had booked passage on the Cunard liner, Athenia, bound for Glasgow, Scotland.

New Liskeard Wins in District Rugby

Takes Nice Game from Timmins High School Rugby Team on Saturday Last After Lively Battle. Score 10 to 5.

By winning the game here on Saturday last the New Liskeard H.E. rugby team put the Timmins H.S. out of the running for further honours, and the Creamery Town team earned the honour of competing for the Poupere cup at Sudbury. The New Liskeard team won here on merit and the best of good wishes will follow them through the finals for the honours of the North in rugby. Timmins H.S. team put up a strenuous battle and made the New Liskeard team earn their victory here, and because they were able to do so is proof that they are worthy of the honours that may further come to them.

The Timmins H.S. was defeated 10 to 5 by New Liskeard last Saturday. The game opened strongly, Timmins winning the kick-off. The New Liskeard team pushed ahead and Sullivan scored a touch-down which was not converted. The local boys came right back and near the end of the second quarter, Craig received a 20-yard forward pass from Walsh but was stopped by a high tackle near Liskeard's line. The Timmins lads worked hard and Frank Everard went in for a touch, not being converted. This evening up the game and made some excitement at half time. In the third quarter the

game was even until Liskeard scored another touch-down, by faking a forward pass. Helmer got the ball and was stopped a few yards from the line. The Timmins line was broken and made a clear way for the ball-carrier. The touch was not converted. Timmins tried hard to even the score but in vain. Seddon made some gallant efforts to break through but he could not get clear. Zarriski, Marshall and Marcelle Everard made some fine tackles while Drew stood out in the kicking. This game gave New Liskeard the supremacy of the Northern Division and they intend to play off with Sudbury. The line-ups were as follows:

Timmins—Pond, Andruchuk, R. MacPhail, Cowan, Marshall, Slobadian, Craig, Dunn, F. Everard, M. Everard, Walsh, subs.—Seddon, Davis, Finkelman, Zarriski, Chisholm, Drew, Berardine, Marks, Babcock, R. MacPhail.
 New Liskeard—Williamson, Clarabut, Taylor, Hartman, Bush, Watkin, Blain, Brinkley, Vinck, Turnbull, Sullivan; subs, Jelly, Helmer, Sutcliffe, Hubler, Molyneux.
 Referee—R. McKelvey.

After the game the visiting team from New Liskeard were the guests of the Timmins team and were entertained in friendly fashion, a pleasant dance being among the features of the evening.

Last week an error in this column announced the birth of a son to Mr. and Mrs. A. Craik. The announcement should have read:—Born—to Mr. and Mrs. Alex Craik, 53 Maple street, south, Timmins, on Monday, Oct. 23rd, 1933—a daughter.

Hallowe'en Party at Kiwanis Happy Time

Delightful Evening Spent by Kiwanis and Their Ladies on Monday Night. Some of the Outstanding Features of the Occasion.

The Hallowe'en party on Monday evening of this week at the Empire hotel under the auspices of the Timmins Kiwanis Club was a delightful occasion. All present thoroughly enjoyed the occasion and there were many compliments extended to P. T. Molsley and his committee for the artistic and effective way in which arrangements had been made. The room was tastefully and cleverly decorated in Hallowe'en style for the evening. There were over fifty Kiwanis and their ladies present and one and all found the event a most happy one. The regular weekly luncheon this week was transferred to an evening meeting and a Ladies' Night and the occasion is generally agreed to have been one of the most generally enjoyable held under the auspices of the local Kiwanis. The menu provided for the occasion was worthy of special mention for its quality and its touches of the Hallowe'en occasion. The service was equally good and the hotel management won many good words for their part in the undoubted success of the evening. The musical features included community singing and a duet by Rev. Bruce Millar and Mrs. P. B. Carson that was much appreciated.

One of the special Hallowe'en party features of the evening was the distribution to the ladies of what appeared to be blank slips of paper, except for a number printed on each. The ladies were instructed to hold the slips of paper over the flames of little candles furnished specially for the purpose. The slip of blank paper was found in each case to carry a message brought out by the heat of the candle. Each lady had to read out the message on her slip and much interest and amusement resulted.

Another extra special feature was the story of the black cat as told by Kiwanian R. E. Dye. This cat attempted to cross the path of Mr. and Mrs. Dye on their honeymoon, but fate in the form of a Ford with an elasticated door crossed the black cat and crushed out its nine lives. The story as told by Mr. Dye was a work of genius and Mrs. Dye added to the interest by confirming the truth in detail of the story so cleverly told. This was one of the highlights in the delightful evening.

A short business session of the club was included in the evening's programme. K. A. Eyre reported on the preparations being made for the big boxing bouts on Nov. 15th, the proceeds of which are to go to the milk fund and other activities of the club in behalf of underprivileged children. After the meeting closed, the room was cleared for bridge. There were ten tables of bridge, with prizes distributed. First prize, ladies, was won by Mrs. Karl Eyre, while Kiwanian Wang, won the gentlemen's first prize. The ladies' consolation prize was won by Mrs. Geo. Lake, while the gentlemen's consolation went to Kiwanian L. Hill. The visitors for the evening were:—Kiwanian Fisher, of Galt; and Michael J. Wernick, of North Bay and points north.

HOWEY GOLD MINE PRODUCES \$289,600 IN THIRD QUARTER

Though less ore was treated at the Howey Gold Mines during the three-months period ending Sept. 30 than in the previous quarter, the value of \$289,600 was \$1,600 better than in the June 30 quarter. The production includes premium received in sale of bullion. Gross operating profit for the period for the September quarter was \$94,500, compared with \$92,000 in the preceding quarter.

The cessation of activities at present, due to hoist trouble, will decrease to some extent the production during the last quarter, but, according to President R. T. Birk, the difficulty will be relieved in the near future, when new equipment will be installed and production resumed.

Salvation Army Head Says Prohibition a Failure

An editorial in The Toronto Mail and Empire on Monday says:—"General Edward Higgins, the official head of the Salvation Army, has returned to London after a prolonged tour of Canada and the United States. As a result of his careful investigation of social conditions on this continent he declares prohibition to be 'a complete failure in North America.' He confesses that he favoured the 'noble experiment' at the outset, but that it has completely broken down. He had no doubt in mind the fact that the Canadian provinces, after trying prohibition for ten years, abandoned it for some measure of government control. It must also have been brought to his attention that prohibitory legislation in the United States turned over great cities and large rural areas to the bootleggers and to a form of gangster rule which made the republic the least law abiding of civilized nations. He could have quoted the late President Coolidge and former President Hoover to this effect. General Higgins' conclusions are all the more convincing because the great organization over which he rules has the closest contacts with the down-and-outs of any religious organization. It is the welfare of the masses which he has in mind and that is why he now pronounces prohibition impacticable. His statement should prove an incentive to real temperance people everywhere to resume their former educational campaign against the abuses of alcoholic drink and to co-operate heartily with governments in the cultivation and promotion of moderation and true temperance."

FARM PRODUCTS WEEK IN ONTARIO GENERAL SUCCESS

The Ontario Farm Products Week was a notable success in Timmins, and it is interesting to note from a note from the Ontario Dept. of Agriculture that it was equally effective at practically every important centre in the province. Entrants to the window display contest numbered 18 in Timmins and it is doubtful if any other town had better display windows during the week than the prize winners here. In Ontario there were approximately 2500 stores entering the contest. It is interesting to note that of more than a mile of trucks entered in the Farm Products parade in Toronto, fifty were entered by commercial firms. This is rightly taken by the Dept. of Agriculture to mean that there is an attitude of co-operation between Toronto merchants towards any move designed for stimulating the sale of Ontario farm products.

TALK ABOUT CONTROL OF STOCK MARKET IN U.S.A.

President Roosevelt is reported as studying very carefully the extent of speculative operations in commodity and stock markets. In the first place it is understood the study was chiefly inspired by the fear that stock market operations might run counter to the National Recovery plans or becloud the issue. Later the interest extended to speculation in general on the stock markets. Ontario legislation in regard to the control of stock operations is understood to have been considered. Wall Street does not appear to be sure as to what may be done and so any vagaries of the market in New York may be traced to this uncertainty or at least blamed upon it.

Despatches from Washington, D.C., suggest that financiers, brokers and others could not say whether the president's interest pertained an administrative policy or not, although some close friends were insistent that legislation designed to curb violent price fluctuations would be recommended when Congress met. In connection with the speculation problem, it was noted that survey revealed transactions in the Chicago grain market as at least 80 per cent. speculative, and that the staggering total of 135,000,000 bushels of wheat was in the hands of operators holding it to sell at a profit when the time was ripe.

Offers Some Bargains, But There'll be Few Takers

A reader of The Advance, with a sarcastic touch, handed in this week the following advertisement to go under the "For Sale," heading on the want advt. page. As The Advance does not believe even this paper could give him returns from such an advt., and especially as the gentleman did not want to pay for the advt., it is not published in the regular place. It is given herewith, however, because of the suggestive character of some of the items named.

FOR SALE—1 Game and Fisheries License No. 80873, only used once. 1 Motor Vehicle permit No. AM-525, only two grace spots on it. 1 Motor Vehicle Operator's license No. 517435. Both these latter two licenses are good for six months. 1 Liquor Permit No. 69634, in poor state, but will sell cheap for cash.

The first item looks like a total loss. The owner of the license, however, has not suffered discrimination in the matter. He could have used the license more than once. No one in another part of the province has any advantage on him there. But in items two and three, the owner has suffered discrimination. The weather in this country makes it impractical to use either of these two licenses for the balance of the season. Motorists in other parts of the province can use these licenses the whole year and they do not cost them a cent more. The last item is a sad affair. The owner admits that the permit is in bad shape, but he gives no details. The permit, for all anybody knows, may be worn threadbare. In any event it looks like a poor buy. The Advance advises him to trade it in and get a new one. This assortment of licenses and permits makes a poor lot. To make the group attractive why not add—radio license, gun license, dog license, transit traders' license, and marriage license.

BEAUTIFYING THE CITY FOR ONLY TWENTY-FIVE CENTS

(From Huntingdon Gleaner)
 Bearing all the external marks of a hobo a man entered a Springfield, Missouri store, and asked for the proprietor. "For only 25 cents I'll help you beautify your city," the stranger told the storekeeper when he appeared. "What on earth could you do for a quarter that would help Springfield?" the merchant asked. "I'd move to Joplin," replied the tramp. He got the two bits.

THIS FRENCHWOMAN HAD DEVOTION IN THE EXTREME

(From Huntingdon Gleaner)
 In 1893, Gaston Foy, a Frenchman received a life sentence to Devil's Island off the coast of Guiana, for murder. His wife appealed to the court to have herself sentenced to the same place to be near her husband, but was refused. Disguised as a man and changing her name to Lebourg, she murdered the principal witness against her husband, confessed the crime and also went to Devil's Island for life, without discovery of her identity. She soon met her husband, but her secret was never discovered. He died in 1913. A few years later his wife, still passing for a man, was offered repatriation back to France but refused it, preferring to stay on the penal island near the grave of her husband. The truth of her sex was not discovered until her death last month, and although burial of women is forbidden on the island, special permission was obtained to dig a grave for her beside that of her husband.

Position of Province is Very Greatly Improved

That Ontario's deficit has been cut out to only \$1,400,000 for the year, and further improvement in this regard is expected, and that the revenue of the province is showing an upswing is the cheering news given on Saturday by The Mail and Empire. The article referred to reads as follows:—"Although Treasury officials refuse to discuss the situation, it is learned on good authority that Ontario's operating deficit for the current fiscal year ending next Tuesday will be in the neighbourhood of \$1,400,000, instead of \$2,952,000 as forecast by Hon. Edward A. Dunlop in his budget address of the last Legislature session.

"Unexpected last-minute improvement of certain revenues, coupled with the drastic cutting of administrative costs which the Provincial Budgeting Committee managed to effect since its appointment nine months ago are, it is understood, the chief contributing factors in this more than million dollar betterment in the province's record. "There may be some change in the reported \$1,400,000 deficit, due to the fact that accounts of the province do not close for two weeks after the operating year ends, but it will remain substantially the same. The customary pre-session statement will furnish the details when issued by Mr. Dunlop early in December. While liquor revenues are down considerably for the year, corporation tax, succession duties, and gasoline tax revenues, have all it is reported, registered substantial improvement over what was estimated. "Cabinet Ministers would not comment on the reported improved situation yesterday, but there were strong hints from other Queen's Park quarters that when Mr. Dunlop faces the Legislature he will be aiming at a balanced budget. In view of the fact that a provincial election will come some time in 1934, this balanced budget theory is given more weight.

"The general upturn in business is credited by unofficial Queen's Park with adding to the province's position, particularly within the last three months. If in another month indications are for continued improvement, there is a possibility that the Government will commence to re-engage—if only gradually at first—its road maintenance employees and other staffs whose services were dispensed with when the call for slashed expenditures could no longer be disregarded. "Some study is now being made, it is understood, of the position of the civil servants in regard to their pay deductions which have been in effect for the past two years. While the deductions will likely be continued, there is a strong possibility that the old system of automatic increases will be restored."
