

NOTICE REMEMBRANCE DAY

Saturday, November 11th, being set aside by act of parliament as a public holiday throughout the Dominion, I would ask all loyal citizens to duly observe the same, and to take part in the Memorial Services to be held at the Cenotaph in the morning.

Although Saturday is recognized as a particularly important shopping day for merchants and customers alike, the business places in town are respectfully urged to keep their stores closed until 1 p.m. in honour of the day and in memory of the dead.

Chairman of the T. & N. O. Figures Earning at \$50,000

Geo. W. Lee, chairman of the T. & N. O. Railway, was in Toronto this week, and The Toronto Globe makes the following reference to his visit:—
Full of optimism for the future of Ontario's Temiskaming and Northern Ontario Railway, George W. Lee, T. & N. O. chairman held extended confer-

ences yesterday with the Ontario Cabinet, to whom he turned over a cheque for \$50,000, which he estimates will be about the road's net earnings when all accounts are in and books closed. Of total Government advances of \$30,000,000, the road has paid back about \$15,000,000.

"Our roadbed, equipment and rolling stock," said Mr. Lee, "are all in excellent shape, we are noticing improvements all along the line. Taking everything into consideration, we have had an excellent year. But, in common with all others, our gross earnings are down compared with last year—probably \$600,000. We enter a new fiscal year with absolute confidence."

HALLOWEEN DANCE BY THE TIMMINS GOLF CLUB, NOV. 3

Invitations have been issued for a Halloween dance to be given by the Timmins Golf Club in the McIntyre Recreation Hall, Schumacher, on Friday evening, Nov. 3rd. Dancing will be at 8 p.m., and all attending will be sure of a very pleasant evening.

FIRE DESTROYS HOME AT MATHESON ON SATURDAY

Word from Matheson this week tells of the destruction by fire on Saturday morning last of the residence of Mrs. Basil McDougall. Her son, Harry, was occupying the house for a week while Mrs. McDougall was absent at Wataabeg Lake. It was impossible to save the contents of the house and as with the destruction of both the house and the furniture the loss is a heavy one.

NOTABLE ACTIVITY IN THE RED LAKE DISTRICT NOW

Led by the Howey Gold Mines, which is climaxing seven years of steady progress with further records in production and profits this year, the Red Lake area in Patricia District, Northwestern Ontario, is marked for a genuine revival of mining activity over a large number of properties in the near future.

The fact that Howey has been able to wrest a profit from ore averaging less than \$3 a ton, with the aid of the exchange compensation and recent high price for gold, has encouraged the belief that many other properties may be opened up with fair chances of becoming successful mines. Numerous old prospects that were staked in the first flush of enthusiasm for the field have been restaked and are now undergoing an examination.

During the three months' period ended Sept. 30, 1933, the value of bullion shipments from the Red Lake field was \$289,600, an increase of \$1,600 over last year's record. Hopes are entertained that the flow of gold next year will be increased by shipments from properties at present under development. At Pipestone Bay MacKenzie Red Lake has completed its shaft to a depth of 270 feet, preparatory to proceeding with underground development. Several others, including McManus Red Lake, have plans under consideration for proceeding to active development this year.

Hydro Power May be Bought by Power Co.

Canada Northern Power Corporation Enter Agreement with Hydro for Purchase of Additional Power After Jan. 1st, 1934.

The following despatch came over the F. O'Hearn & Co. private wire this morning:—

Toronto, Nov. 2.—Completion of an agreement with the Canada Northern Power Corporation, Limited, under which that company agrees to purchase from Hydro for a period of 10 years all of the additional power which it requires to supply the growth load of its various properties after January 1, 1934, was announced last night by Hon. J. R. Cocks, Hydro chairman, with the approval of Premier Henry.

This agreement involves the sale of the first Abitibi Canyon power since that development was acquired as an all-province enterprise and is the forerunner of a series of power sales in the North, the revenue from which, in the belief of Mr. Cocks, will, well within the course of another year, place the canyon project on a self-supporting basis.

Hamilton and Laurence Again on Christmas Eve

Frank Gray has made a big name for himself here through the notable boxing bouts he has promoted and successfully carried through. The event last night was another feather in his cap as promoter. And there is a still bigger decoration coming to him now. He has arranged for a return match between Bobby Laurence, the Canadian champion, and the talented Timmins fighter, Roy Hamilton. Roy lost last night but he and many of his friends think he can reverse the decision. The return match will give him that chance. It is booked for Timmins on Christmas Eve.

Lady Speaker Tells of C.C.F. Platform

Largely Attended Meeting on Sunday Evening Hears Dr. Lorna Colton Talk on the Principles of the C.C.F.

There was a large attendance at the meeting held in the Goldfields theatre on Sunday evening in the interests of the C.C.F. The special speaker for the evening was Dr. Lorna Colton, of Toronto, who proved more eloquent and clever than any of the previous speakers coming here to expound C.C.F. doctrine. A. M. Stuart, C.C.F. candidate for the provincial house for this riding also spoke briefly. Dr. Colton spoke at much length, taking up each of the points in the C.C.F. platform. She proved a very able and pleasing speaker and held the attention of the audience in effective way. She denied that the C.C.F. was red or disloyal and had several slaps at the old line parties, the newspapers and others. She seemed inclined to suggest that everything and everybody was tied up with the financial interests, except the C.C.F. The latter she described as the party of the poor. She claimed that the speakers had to pay their own expenses often. She also claimed that the C.C.F. is growing at rapid rate. The party was opposed to violence and wished to make changes in orderly and law-abiding way. The 14-point programme adopted at the open convention in the West was dealt with point by point. Political leaders and newspapers and others came in for criticism. Her address was an easy one to listen to, but after it was over, several who heard the clever talk were still completely in the dark as to how the wonders promised were to be put into effect along the lines indicated by the speaker. All were agreed, however, that as a political party address it would rank high with those people who did not disagree with its viewpoint.

Len Wadsworth's name appeared on the first cards issued for the boxing match on Wednesday but later another bout was substituted for the bout in which Len was to appear. This was because satisfactory arrangements could not be made between promoter and fighter in this case. Everybody would have been pleased to see Len in action again, but the bout that replaced his one was certainly a hum-dinger and left no cause for complaint.

This week the town police raided a number of places where liquor is believed to have been sold or kept illegally. On Tuesday evening fifteen or twenty places were investigated but there was only one "catch" in the whole group. This one case concerned a man named Mike Lomo, 21 First avenue. No. 21 First avenue is often known as Mary Peterson's place. Mike Lomo is one of the roomers in Mrs. Peterson's place. He will be up in court next Tuesday.

U. S. POLICY ON GOLD WILL BOOST LOW GRADE MINES

Belief that President Roosevelt's announced intention of buying foreign gold, will bring of great streak of business to Canadian gold producing mines, and that gold properties in Northwestern Ontario will share in it, was the opinion expressed at Port Arthur, according to despatches on Monday, by Hon. Charles McCrear, Ontario Minister of Mines, when addressing 120 Port Arthur and Fort William business men at a luncheon.

Mr. McCrear predicted that thousands of tons of ore in Canadian mines, heretofore classed as useless will come into use, and that generally the mining activity in Ontario will take on a new lease of life, bringing a greater stability to the industry. For years the Ontario Department of Mines has been endeavouring to tell the story of Ontario's gold output to the world. Latest action of the United States would result now, he said, in the story being told in its true conception.
