GIVE A LITTLE MORE FOR YOUR POPPY THIS YEAR

Bridges, of town. The late Mrs. Bridges had been a sufferer from heart trouble for the past two or three years, having been several times a patient at the hospital. She was a native of Govan, Glasgow, and came to this country to her husband in Timmings ten years ago from Clydebank, Scotland.

Mr. Bridges was bandmaster in South Porcupine three years ago. The funeral took place from the United Church on Tuesday, the Rev. Hussey conducting the service. As a mark of respect the High School orchestra attended the funeral, her son, Jack, being the saxophone player in that organization.

Besides her husband she leaves only one son to mourn her loss. The following is a list of the floral tributes sent—Members of the Porcupine Goldfields Band (basket); Mr. and Mrs. Wilson Rayner; Mr. and Mrs. Cockin and family (Timmings); Mr. and Mrs. Haneberry; Mr. and Mrs. Suttee and family; Mr. and Mrs. Stanlake and family; Mr. and Mrs. Libby and family; Dad and Jack; Mr. and Mrs. G. BOYS TURNED IN FALSE FIRE ALARM LAST WEEK

A couple of town boys old enough to know better turned in a false alarm on Thursday last around 11.45 a.m. The fire brigade made a hurried run to the box pulled only to discover that the call was the foolish work of a couple of boys. Some good work by the police resulted in the two lads concerned being discovered. In both cases the parents realized the seriousness of such a prank and brought the boys to the police station so that they could be questioned and warned. It was impressed upon the boys that not only does each turnout to an alarm cost the town money but there is also danger to the firemen making the response. It is only a week or so since one of the firemen had a narrow escape from serious injury when the truck was hurrying to answer a call and a car crashed into the motor truck as it was turning up Mountjoy street. Some months ago a fireman was killed when the Montreal fire brigade was hurrying to answer a call that later proved a false alarm. The truth is that the firemen risk life and limb every time they turn out. They have no way of knowing how serious a fire may be or whether the call is a false one or not. Speed has to be made in every case and with speed there is always the chance of accident. The firemen accept any danger in answering a fire alarm as part of their calling, but it is not fair nor sensible to ask them to accept the unnecessary risks arising from false alarms. The boys were impressed with the serious nature of the foolish trick they played and the danger and cost entailed, as well as the penalties provided by law for this sort of crime. After a stern warning the lads were allowed to go on promise not to be guilty of anything as objectionable in the future. One of the fathers insisted on his boy apologizing to the fire chief and fire brigade for the unnecessary trouble caused.
