A few votes will place your favourite Girl or Boy away up

**The Goldfield Drug Co. Limited.**

**The Store Filled with Christmas Suggestions**

### THIS NORTHERN WOMAN NOT AFRAID OF BIG BAD STORM

A despatch last week from Cobalt says that a story of devotion to duty and showing the stuff of which the women of Northern Ontario are made is related by Mrs. H. E. Tomney, district commissioner of the Girl Guides. There is a Girl Guides troop at Tomstown and Mrs. Tomney has just returned from visiting it. The captain of the troop is a young married woman who lives three miles from the village. She has a young baby, but every week during the summer she packs the baby into a carrier on the back of a bicycle and pedals the three miles to the meeting. In the winter, with the baby in a sleigh, over roads sometimes deep in snow, the captain trudges to the village. It may be too stormy for some of the girls to come out, but she never misses a meeting.

### Value of Turkey Stag to Community

Does Away with Necessity for Soliciting Contributions for Christmas Funds. Looks After Christmas Cheer for Needy.

The towns of Timmins, Schumacher and South Porcupine are the only towns, so far as known, where it is unnecessary for any organization to solicit contributions of monies or materials to look after the welfare of the needy and destitute at Christmas time. The Annual Charity Turkey Stag party has shown how well this good work can be carried on without duplication as happens in other towns, and was the case in this district before the inception of the Annual Stag party.

The Turkey Stag solicits no contributions and only asks your support in attending their annual party, or if unable to do this, to buy a toy, as suggested in their appeal elsewhere in these columns. No other community as large as the Porcupine district can boast of such an institution as the Timmins Charity Turkey Stag.

Last year a hamper sent to an average-sized family on the list contained the following:—

- 14 lbs. Turkey
- 12 lbs. Montreal Shoulder Pork.
- 5 lbs. Roast Beef
- 90 lbs. Potatoes
- 20 lbs. Rolled Oats
- 10 lbs. Granulated Sugar
- 2 lbs. Onions
- 3 lbs. Salt
- 2 lbs. Hard Christmas Candy
- 1 lb. Table Raisins
- 2 lbs. Mixed Nuts
- 1 lb. Salada Tea
- 7 lbs. Pastry Flour
- 1 lb. Brookfield Butter
- 1 lb. Jewel Shortening
- 12 lbs. Spy Apples
- 5 lbs. Turnips
- 4 lbs. Carrots
- 2 Cans Choice Tomatoes
- 4 Loaves Bread
- 40 oz. Bottle Marmalade
- 2 oz. White Pepper
- 1 Hot Size Can Milk
- 1 pck. Smoking Tobacco.

Delivery of the hampers is made two

days before Christmas by trucks, teams, railway express, and in some cases by dog-team. In cases where there is a sick mother in the family, the turkey is substituted by putting two to four milked chickens in the hamper. All food is fresh and of the highest quality and fit for the most fastidious tastes. No better Christmas hampers are provided, the poor than those sent out by the Turkey Stag.

After providing hampers for the needy last year lists containing names of 106 boys and girls between the ages of 7 years and 14 years were received from school nurses, principals or attendance officer. These names were of children who were unable to attend school on account of lack of proper clothing. The Turkey Stag purchased for each child one suit pure wool underwear, two pair woollen stockings, one pair wool-lined leather mittens, and one pair best grade felt shoes. All clothing was brand new, bought from local merchants, and delivered direct to the children's homes in Timmins, Schumacher and South Porcupine.

This year's stag party aims for the same objective and certainly is well worth attending. The small charge of 75 cents for admission entitles each man to a bean supper that is fit for an emperor. There is no limit to the amount one may eat, other than one's own capacity. Lap LaPrairie is doing his utmost to provide entertainment that will appeal to the patrons and from past shows this year's party promises to be good as, he states, it will surpass all past parties.

The stag party slogan of the "Gold Miners' Gala Night" is truly descriptive of the night when mine manager, clerk, shift boss, driller and mucker rub shoulders and enter into a true party spirit in support of a real good cause.

### Montreal Leader in the Bankers' League

Imperial Bank Bowlers Second in New Bowling Group. Interesting Games Between the Banks Here Last Week.

The latest league in bowling is the Bankers' League and some of the players can count. They don't lend themselves to any saintly practices, but always may be expected to give a good account of themselves without any slips.

The standing of the teams in this league to date is as follows:—Bank of Montreal, 11 points; Imperial, 7 points; Commerce, 3 points; Dominion-Nova Scotia, 3 points.

The following are the games last week:—

IMPERIAL			
Brown	183	155	212
Houle	157	229	197
Constable	186	187	148
Grant	187	126	170
Totals	713	697	727
DOMINION-NOVIA SCOTIA			
Dobson	202	103	138
Murray	213	147	145
McDermott	186	263	152
Giles	154	178	246
Totals	755	691	681
MONTREAL			
Gulbault	195	178	127
Armitage	152	180	104
White	234	172	177
McGowan	166	253	205
Totals	747	783	613
COMMERCE			
Evans	154	164	127
Bird	82	126	153
Woolley	139	109	139
Thompson	139	270	143
Totals	514	669	562

### Some Plain Words on the N.O.H.A. Hockey Situation

(From The New Liskeard Speaker)

There appears to be a controversy on between certain members of the N. O. H. A. "chair" officials as to what actually took place at the annual meeting at North Bay regarding the thirty-two applications by imports for playing certificates. The President, a Sault Ste. Marie man, is alleged to have stated that the certificates announced by The Nugget as having been granted did not come before the proper meeting for ratification. The inference is that these permits were "put over" for the benefit of those directly interested.

It is alleged that no less than nine permits were granted to the Sudbury club for men who did not belong to Sudbury last year, and, in fact, two of them were at the time domiciled in Old Ontario, where they had returned after giving Sudbury the once over.

Falconbridge Mines is also given a complete line-up and already the prophecy is being made that these two teams will be the finalists in the Senior and Junior N.O.H.A. games. Having granted permits to this bunch of "ringers" against the O.H.A., which has already given an opposite decision on certain cases parallel with those alleged to have been freely granted by the N.O.H.A. This will cost money, but the fellows interested will have their expenses paid by the N.O.H.A. regardless of what the other clubs have to say about it, and the tail will continue to wag the dog for the benefit of a few sports in North Bay and Sudbury.

The whole "amateur" situation in both the N.O.H.A. and the O.H.A. is a big farce and the action alleged to have been taken by the N.O.H.A. has not helped the situation any. If these associations are going to allow some clubs to get away with it why not be man enough to come out flat-footed and make a residence date rule the situation, regardless of whether a player has moved to his new home for his own convenience, a job, or even a cash consideration. There would be less hypocrisy about it and the general public would know just what they were supporting.

As at present constituted, no one for a moment believes a "home brew" team could go down to Toronto from any of the Northern towns and make a show against the crack teams of the hundreds of clubs, comprising the O.H.A., nor will there ever be a properly qualified home team even under N.O.H.A. rules if the officials wink at the flagrant manner in which the rules of either organization are being violated. But, is that all the N.O.H.A. stands for in the North? Are the officials so obsessed with the idea of sending a winning team to Toronto and perhaps accompanying it at the expense of the association, that they are prepared to kill the sport in other towns for their own pleasure?

For the benefit of those who might be interested, we might say that the remarks above are made by one who has been looking on for some years, after having been through the "athletic mill" and the local association has nothing to do with the opinions expressed.

### Suggests Why Railways Have Been Losing Money

In recent weeks The Advance has given little sketches written by Zalek Vertlieb, of Wawbewawa, to The New Liskeard Speaker, describing his trip to the South. So many people from the South have written about their trips to the North that what the Liskeard man might call a "vice versa" would

seem to be of particular interest and originality. In addition to the novelty of a man from the North writing about a visit to the South, the little articles by Zalek Vertlieb have other touches of originality and humour. Here is the latest sketch, describing the Toronto union station, and why the railways are having hard times:—

"I got off at the Union Station, and I sure felt lost. The station is so large, huge and big that even an experienced traveller could get lost in it. I said right away, no wonder the railways are losing money when they spend so much for one building. Now if they had a station like we got at Wawbewawa, two ladies could carry it anywhere, they would have had lots of money left for other purposes. Of course there is one train every ten hours up here and one probably every ten seconds at Toronto, but then that doesn't make any difference to me, as I am not running the railroads yet. Another thing, if they would not have spent so much money for the Royal York, they could have bought a few million dollars worth of cattle for Russia, and then got all the engines to help whistle for the money. But still that would satisfy one Toronto newspaper anyway. The bell boy with a red cap took my suitcases and we started walking first one way and then another for what seemed to me like hours. Another thought struck me—it seemed as if I was in the next world, and my soul was travelling through all the passages, accompanied by an angel. The angel of course was the boy in the red cap, and he was taking me first towards Heaven and then he would change his mind and start taking me below, up and down, making all kinds of corners and curves. I thought he should take me to Heaven. I had been a real good boy most of my time, don't smoke, don't drink, don't go to dances, and always say my prayers in the morning. But on the other hand maybe he was taking me to the place opposite to Heaven because I had always worked and voted Conservative, and a great supporter of Howard Ferguson. Anyway I came to life again when a fellow yelled taxi so loud he must have wanted some one in Hamilton to hear him. I walked towards the street, still wondering where they got so much marble and silver plate to beautify the Union Station. I got out at last, feeling like a wooden Indian at the Chicago Fair."

### RUSSIA STEEPED IN VODKA SAYS FORMER SUDBURY LAD

To add to the reports coming from Russia the following despatch from Sudbury is given for what it may be worth:—

"Just this morning I saw a man walk down the street with a bottle of vodka in one hand and a glass in the other. Every day you can see guys walking around with suitcases and potato bags and baskets full of bottles filled with the elixir of life."

That, according to Kauko Kratz, 19, graduate of the 1932 class of the Sudbury technical school, is Russia.

Writing to Rae Schott, a friend in Sudbury, he adds: "I work six hours a day and get 300 roubles a month. Soft, soft. It pays to be wise, he he!" Born in the nickel city, Kratz went to Russia with his parents in August and is now an engineer in the Karelia Automobile Factory in Patrosazodck. He was employed there for a time as a drafting teacher but had to give it up owing to his ignorance of the Russian Language.

He has received two prizes from the Soviet, one a grant of 150 roubles for making the best drawing of an automobile part, and the other an eight-day trip to Leningrad with expenses paid, for general proficiency.

### Matheson Farmer Nearly Lost Team When Ice Broke

Joseph Allerle, of Matheson, last week came close to losing a good team of horses, when they went through the ice on the creek while passing across the creek drawing a sleigh. It was necessary to attach cables to the horses to draw them from the water and even with this assistance it took nearly two hours to rescue the animals. One of the horses was about half dead when it was eventually rescued. After strenuous work, however, the team was saved.

Another despatch last week from Matheson has the following to say:— "A farmer took his life in his own hands when he came across the river on Tuesday with his team of horses and a half ton of ice on the sleigh. Farmers claim the ice is only a few inches thick where he crossed."

### Siscoe Gold Mines to Pay Bonus on December 30th

Siscoe Gold Mines, Limited, has declared the regular quarterly dividend of three cents per share, with a bonus of two cents per share, making five cents, for payment December 30th to shareholders of record December 15th. This disbursement makes a total of 14 cents in 1932 says The Northern Miner. The bonus was not unexpected, in view of the high current production and earnings rate. Output for October was reported at \$154,623, including exchange compensation, a new high record for the second month in succession. Some months ago The Northern Miner estimated that Siscoe would be producing at the rate of \$1,800,000 a year in the last quarter of 1933 and this has been brought about, through increased mill rate and higher total production. The price of gold has materially assisted in reaching this high mark, of course.

Estimates of net earnings for the current year run to 25 cents a share and in view of these possibilities the bonus payment is no surprise. The shares continue to disregard the earnings position, presumably on account of litigation still pending settlement or decision.

### Work Stopped on the Airport at Ramore

Men Engaged on Work at Ramore for Airport There Moved to Other Places. Work to be Resumed in Spring.

According to information given out last week it is understood that the operations at Ramore in connection with the building of the airport there will be discontinued for the present, the men at work there recently being transferred to other camps east of Nakina on the C.N.R. There were 45 men at work on the Ramore airport until last week. On Saturday last most of these men were transferred to other camps. Only enough men were left at Ramore to fix things up for the season. This work is expected to be completed by this time in the week, and then the Ramore camp will be closed down until spring. It is expected that as soon as spring arrives the work of building the airport at Ramore will be taken up again and pushed along to a conclusion. The airport camp at Ramore is the third one to be closed down last week. The two other camps discontinuing work for the winter months were Emsdale and South River. There were 45 men at each of these camps and they were transferred to other camps where it is intended to continue work during the winter. In the meantime the plan is to leave the camp buildings at each of the camps where work has been discontinued. A watchman will be left in charge at each of the closed camps and it will be his duty to see that everything is kept in good shape so that when work is resumed in the spring everything will be ready to go on as before.

### FREE ACCOUNTANCY BOOKKEEPING COURSES

Complete home study course. No books to buy. 120 booklets and all instruction absolutely free. Your one and only cost, postage on lessons. Free offer made for advertising expansion purposes. Particulars, Publicity Secretary, Office 204V, 74 King East, Toronto.
