Tribute to North in New Year's Honours

Mrs. Craven, of New Liskeard, Made Member of Order of British Empire. Notable List of Valued Citizens on List of Honours from King.

Special attention will be given the list of honours given by His Majesty King George V. at New Year's. This will be partly due to the fact that a Northern lady is specially honoured for actual service given this country, and partly from the fact that in all cases the honours seem to be especially well merited and have been awarded to people of outstanding ability and public service for benefits given the people in general. Many of those on the list of honours from the King at New Year's are personally known here, while practically all are known for their good services.

The lady from the North to be singled out for special honour is Mrs. P. R. Craven, of New Liskeard, who is made a Member of the Order of the British Empire "for her services in improving rural life."

Mrs. A. J. Freiman, of Ottawa, sister of Mrs. A. J. Shragge, Timmins, and well known in this district for her activities in every patriotic and public service and her many benevolences, has been made a Officer of the Civil Division of the Order of the British Empire "for her leadership in Jewish charitable organizations."

Dr. Helen McMurchy, formerly chief of the child welfare division of the Dominion department of health; Miss E. L. Smellie, chief of the Victorian Order of Nurses in Canada, and who was a visitor to Timmins some years ago and made many friends here; Miss Charlotte Whitton, executive director of the Canadian Council of Child Welfare, and who also visited Timmins some years ago and who is known and highly regarded by many here; these are among those made Commanders of the Order of the British Empire. The number of ladies honoured by the King this New Year's and the fact that in each case their service has been along the lines of child welfare and community betterment will make the King's honour roll for New Year's 1934 of more than usual value and attraction.

Other Canadians honoured by His Majesty in the New Year's honour roll were as follows:—

Knight Grand Cross of the Order of St. Michael and St. George (addressed "Sir") Rt. Hon. Lyman P. Duff, Chief Justice of the Supreme Court of Canada.

Knight Bachelor (addressed "Sir"): Joseph Matthias Teller, Chief Justice of the Court of King's Bench, Quebec. Companion of the Order of St. Michael and St. George;

Arthur Beauchesne, veteran Clerk of the House of Commons.

R. W. Bredner, former Canadian Commissioner of Customs, Saturday appointed tariff adviser to the Finance Ministry.

Thomas Mulvey, formerly Under-Secretary of State.

H. H. Rowatt, formerly Deputy Minister of the Interior.

This is the first time since 1919 that Canadians have figured in the King's honours at New Year's. A resolution

was passed by the Dominion parliament in 1919 apparently calling for a discontinuance of the granting of titles for Canadians. Premier Bennett last year explained to parliament that the resolution was not binding on Canada in any legal way, and he suggested that he might recommend a number of Canadians to the King for honours. In the past fourteen years Canada has been the only part of the Empire where the citizens did not accept with deep appreciation the honours that might be bestowed by His Majesty. Premier Bennett's courageous action in lifting the ban from Canadians in so far as honours by the King are concerned, has done a service to Canada and to the Empire by re-opening a way whereby merit and service may be rewarded by honour and distinction conferred by the King.

Increased Production for Buffalo-Ankerite

Interesting reference is made to the Buffalo-Ankerite property by The Mining Analyst, of Toronto, in its last issue. Many of the facts given by The Mining Analyst will be of special information to those interested in the Porcupine area and in the newer mines, that, like the Buffalo-Ankerite at the present time are quietly but surely making mining history in this area. The Mining Analyst has the following to say about the Buffalo-Ankerite:—"Constant progression marks the Buffalo-Ankerite operation in the Porcupine field, where a force of 255 men is now engaged. The three-compartment winze, being sunk below the 600-foot level to an objective of 1,150 feet, has passed the 900-foot horizon, last station being excavated at 875 feet. Other working entries will be established at 1,012 and 1,137 feet. Progress is at the rate of six feet per day, the operation to be completed in January. During November an average of 350 tons was milled daily, a rate that will shortly be increased. Additions to the crusher plant, now completed, will bring capacity to 500 tons per diem. Principal ore development centers around the No. 5 vein, which has been determined to extend from surface to the 600-foot level, widths of ore running up to 40 feet in places, stope average around 20 feet. Shrinkage stoping of this shoot above the 250-foot level is providing a large part of mill feed, with grade above mine average, other principal sources being the Nos. 1 and 2 veins in the older sections of the workings. Parts of the latter yielded considerable tonnages running \$7 in gold. Broken ore reserves on July 15 last were estimated at 34,000 tons grading \$4.77 a ton, a position improved upon since that time. Dewatering of the March Mine, now controlled by interests associated with Buffalo-Ankerite is under way. Huntingdon Gleaner:—"The story of a cat which milked cows is told in the newspapers at Maribor, Yugoslavia. A peasant in a nearby village noticed his cat refused all food and never caught rats and mice—yet it always looked well fed. Finally, he traced the cat to the cowshed just before milking-time. The cat was busy milking a cow!

Death at Rouyn of Mrs. J. A. Jeffrey

Was Born in Campbell's Bay. Has Lived Recently in the North. Was the Wife of Jos. A. Jeffrey, Brother of P. Jeffrey, Timmins.

On Monday of this week Capt. P. Jeffrey, of the Timmins Fire Dept. staff, received the sad news of the death of his brother's wife, Mrs. Joseph A. Jeffrey. Mrs. Jeffrey died at Rouyn, Quebec, on Sunday evening, Dec. 31st, 1933. At the time of death she was in her 53rd year. The late Mrs. Jeffrey had been in poor health for some time and so her death was not entirely unexpected though it came as a shock to all who knew her.

The late Mrs. Joseph A. Jeffrey was born in Litchfield township, near Campbell's Bay, in the Ottawa district. She was a daughter of the late Mr. and Mrs. Thos. Cavanagh. About thirty years ago she married Joseph A. Jeffrey, brother of P. Jeffrey, of Timmins. In the intervening years the family lived at Campbell's Bay, Bryson, Fort Cenouge and Ottawa. In 1927 Mrs. Jeffrey and her husband moved to Rouyn where she resided until the time of her death.

The funeral was held on Wednesday morning of this week at Campbell's Bay. On Tuesday morning following the singing of the libers in St. Michael's church at Rouyn the body was taken on the 1 o'clock train to Campbell's Bay. Her husband and son, with Rev. T. J. McManus, of Timmins, a nephew of the late Mrs. Jeffrey, and Miss Genevieve McManus, of Rouyn, a niece, accompanied the body to the old home in the East. Besides her husband and one son, Verner, she is survived by two sisters, Mrs. Jos. Kermit, Toronto, and Mrs. T. J. McManus, Rouyn, and three brothers, Myles Cavanagh, Campbell's Bay; Thomas, of Temiskaming, and John B., of Rouyn.

Report for December of District Children's Aid

The following is the report for December, 1933, for the District of Cochrane Children's Aid Society, as submitted by A. G. Carson, district superintendent:—

Applications for children for adoption	1
Office interviews	68
Interviews out of office	33
Complaints received	32
Investigations made	28
Children involved	51
Mail received	70
Mail sent out	68
Children in Shelter	28
Children boarding out	7
Court attendance	4
Juvenile Court cases	4
Mileage travelled	468
Children made wards	2
Wards visited	2
Wards heard from	1
Official warnings given	2

Blairmore Enterprise:—"Before criticizing your wife's faults, remember that it may have been those very defects that prevented her from catching a better husband.

Death at Sudbury of Mrs. John B. Sauve

Mother of Arthur Sauve, Formerly of Timmins, was Well Known Throughout the North. Her Husband Connected with Timmins.

Word was received in Timmins this week of the death at Sudbury on Sunday morning of this week, Dec. 31st, 1933, of Mrs. John B. Sauve, at the age of 74 years. The late Mrs. Sauve was closely associated with the pioneering of the Mattawa district and was also concerned in the mining history of this section of Northern Ontario. She was the mother of Arthur Sauve, who for some years was a citizen of Timmins, he and Chas. Roach conducting a drug store business in town.

In referring to the death of Mrs. John Baptiste Sauve a despatch from Sudbury this week says:—"A devout Roman Catholic, she donated the organ in 1928 when St. Joseph's Church was built at Sudbury and contributed substantially to the cost of the imposing edifice. Her love for the church of her faith is also exemplified at St. Mary's Cathedral, North Bay, where she contributed a substantial amount to the organ in the Cathedral, principal church of Sault Ste. Marie diocese. Her husband, the late Mr. Sauve, was a leading figure in the development of Northern Ontario. When St. Ann's Church at Mattawa was being built he gave his own services and had a gang of 31 men work on the church, at his own expense, for two days. He was identified also with the history of the town of Timmins. When J. Timmins named the Hollinger property after the staker and which has produced millions in gold values Mr. Sauve labelled the townsite Timmins. The two had grubstaked on a partnership basis. Mr. Sauve operated butcher shops at North Bay, Halesbury and Timmins with the late W. McCracken. Returning from Mattawa on July 30, 1914, Mr. Sauve was fatally injured in a motor accident at Moore Lake. Born at Ross, in North Township, on June 26th, 1859, Mrs. Sauve resided at Mattawa for 19 years then moved to North Bay for 16 years and during the past 12 years has lived in Sudbury. She was married at Portage du Fort on November 12th, 1886, and moved to Mattawa residing there until 1904. Until ill health overtook her four years ago, she often visited various towns of her earlier life and had a multitude of friends throughout Northern Ontario. She was a member of the Ladies of St. Ann's of Mattawa, the Catholic Women's League and St. Joseph's Altar Society of Sudbury."

The late Mrs. John B. Sauve is survived by a daughter, Mrs. Thomas P. Doyle, of Sudbury, a son, John Arthur Sauve, also of Sudbury, and three grandchildren, Celina, John and Billy, all of Sudbury. Not only at Mattawa and Sudbury where she was so well known and respected, but also all through the north, there was very general sorrow and regret at the death of Mrs. John B. Sauve. Requiem high mass was sung in St. Joseph's church at Sudbury on Tuesday morning. The celebrants of the mass were Very Rev. Dean T. H. Trainor, Rev. J. A. Tourangeau, deacon, and Rev. J. J. O'Leary, of Copper Cliff, sub-deacon. The pallbearers were Sam Legree, Summers Wilson, Walter Tongue, Hector McKay, M. White and David Mulligan. The honorary pallbearers were Dr. W. J. Cook, W. Dales, A. Fournier, Sr., E. A. Laprairie, ex-M.P., A. H. Tobey, and J. A. Shannon. Following the service at Sudbury the body was taken to Mattawa where on Wednesday interment was made in the family plot. The Libera was sung at Mattawa. Friends and acquaintances in Timmins and district will join in extending to the bereaved family and other relatives sincere sympathy in the loss sustained by the death of the late Mrs. J. B. Sauve.

Barrie Examiner:—"In making out your Christmas list, do not forget to include some of those less fortunate than yourself. To help these is showing the true Christmas spirit."

Polar Birthday

WILLIAM S. MCCORMICK
 To William S. McCormick, youthful autogyro pilot of the Byrd Expedition to the Antarctic, belongs the distinction of "coming of age" at the bottom of the world. He celebrates his 21st birthday on January 3rd above the Byrd flagship, "Jacob Ruppert."

Coniaurum Gets Results on Goldale Lower Levels

There are usually very careful and thoughtful articles in regard to the progress made by the newer mines in the columns of The Mining Analyst, edited by Frederick Reid, Mining Engineer, of Toronto. In a brief but comprehensive item last week The Mining Analyst takes up the progress made by the Coniaurum Mines. In this connection The Mining Analyst says:—"Conditions on the lower levels of the Goldale group of Coniaurum continue to evince material improvement. Although the Goldale vein at the 1,000-foot level proved disappointing, good ore was opened on the 1,500-foot horizon. Recently, diamond drilling at this elevation disclosed an entirely new occurrence about 70 feet south of the former which showed values of \$11.40, gold at standard, over a 10-foot width. Similar drilling farther east on the 2,000-foot level cut the apparent extension of the same vein which showed a width of 12 feet, half of which returned high-grade assays. "Sinking of the main shaft to 3,000 feet has been completed and cross-cutting to get under the main ore system of the mine is under way. This work should provide immediate ore results from known veins and will, undoubtedly, have direct bearing on future rate of milling. As very little work was accomplished on the 2,500-foot level, a considerable block of ground awaits exploration. Recent location of a fringe of the Pearl Lake porphyry mass tends to substantiate official theories to the effect that Coniaurum will at a slightly greater depth enjoy the relation to the porphyry that McIntyre does in that section of the mine where such excellent results are being secured. "After paying all charges for shaft sinking, Coniaurum will finish the year with \$700,000 in current assets."

ENDS PAIN OF STOMACH TROUBLE

With English Specialist's Formula

"My first doses," writes an English sufferer from stomach trouble, "absolutely sent away all the pain and biliousness which I had been suffering from for years."

In many English hospitals remarkable success is attending the use of a scientific formula developed by a great London, England, Stomach Specialist for the relief of Acidity, Indigestion, Dyspepsia, Heartburn, Flatulence & Gastritis.

This formula, under the name Maclean Brand Stomach Powder, attained tremendous sales in England and it is rapidly proving its worth here in Canada. Every sufferer from stomach trouble should try this Maclean Brand. It stops pain and distress quickly. Get Maclean Brand Stomach Powder from your druggist in bottles (powder or tablets) at 75¢. It is never sold loose—only in packages clearly marked with the signature, "Alex. C. Maclean". Look for the signature. Sole Canadian distributors, Rigo Agencies, Toronto.

RECORDS FOR GOLD EXPORT BROKEN IN NOVEMBER, 1933

All previous records for export of Canadian gold were broken in November when more than \$6,000,000 worth was shipped to the London market for sale there.

The flow of gold from the Mint was at the rate of \$1,500,000 a week, a higher figure than any time in the past. December totals may show even more striking results.

Government experts believe that some of Canada's gold is being bought by hoarders through the London selling agencies. The market there is a free one and gold is going to France, Holland, Switzerland and other gold-basis countries.

NEW FOURTEENTH INFANTRY BRIGADE ARMOURIES NEARS COMPLETION
 Our picture shows the architect's conception of the new Armouries after it is completed in Toronto. This new building, which is being constructed at a cost of \$370,000, will house the 14th Infantry Brigade, which comprises the four regiments: Queen's Rangers, Toronto Regiment, Toronto Scottish Regiment and the Irish Regiment. Situated close to the lake-front near the Canadian National Exhibition, the Armouries occupy an area 300 feet by 185 feet and parts of the building are three stories in height. Every modern convenience is to be incorporated in the building and when completed it will be one of the finest military structures on the continent.—Drawing courtesy Maraul, Lawson and Morris.
